RENUEN CORP.
As of June 30, 2014 (unaudited)

NOTE A.

BACKGROUND INFORMATION

RenuEn Corporation., formerly Shaka Shoes, Inc., formerly Technology Resources, Inc. was incorporated in Florida on March 1, 1996, as Integrated Marketing Technology, Inc. Its name was changed to Technology Resources, Inc., on January 1, 1997. In January 2008, the Company received an unsolicited offer to do a business combination with Shaka Shoes, Inc. (SHAKA), a shoe and apparel design and manufacturing company located in Hawaii. The Hawaii-based company was formed in 2005. The business combination was completed in January 2009 with the transfer of 20,000,000 shares of the Company's common stock in exchange for the stock of the Hawaii-based company, at which time a corporate action was approved by the shareholders to change the name of the Company to "Shaka Shoes, Inc."

On May 5, 2009, a change of control of the Company occurred, and it was determined that the Company would continue its shoe manufacturing and marketing business. On January 31, 2011, James Scott (the "Buyer") entered into a series of Stock Purchase Agreements (the "SPAs") with (i) Steve Wilmarth, President, Director, and holder of 1,972,000 shares, (ii) Frank Platt, holder of 1,972,000 shares, (iii) Darin Parker, holder of 1,912,000 shares, and (iv) Zac Evans, holder of 26,000,000 (collectively the "Sellers"), representing approximately 57.3% of the outstanding common stock of Shaka Shoes, Inc., a Florida corporation (the "Company"). Through the SPAs, the Buyer agreed to purchase 1,972,000 shares of Mr. Wilmarth's common stock of the Company, 1,972,000 shares of Mr. Platt's common stock of the Company, 1,912,000 shares of Mr. Parker's common stock of the Company, and 26,000,000 shares of Mr. Evans' common stock of the Company. At the closing of the SPA, the Buyer became the holder of an aggregate of 57.3% of the Company's outstanding shares of common stock, with Buyer holding approximately 31,856,000 shares. In addition, Mr. Wilmarth resigned as the sole officer and director of the Company and Mr. Scott was appointed as the sole officer and director of the Company.

In December 2011, a corporate action was approved by the shareholders to change the name of the Company to "RenuEn Corporation" This name change was effective and filed with the state of Florida as of December 11, 2011. On August 31, 2012 the Company acquired Team Energy, Inc. The most immediate corporate change for RenuEn was the appointment of new CEO and Chairman of the Board, Mr. Don Wood of Team Energy. The terms of the acquisition were the issuance of 200 million shares of RenuEn common stock to Team Energy. Also, one preferred share was issued to Team Energy, which consisted of a 50.1% voting right. This share is not convertible into common, nor will it be listed or traded separately. There was no cash remuneration. Mr. Scott resigned as the sole officer and director of the Company.

On July 30, 2013 the Company registered “Energy Solutions of Florida” as Fictitious Name to do business as (d/b/a) Energy Solutions, a RenuEn Company.

On December 20th, 2013 Mr. Don Wood resigned as Chairman and CEO and Team Energy, Inc. was unwound from RenuEn. As a result of the unwinding of Team Energy from RenuEn, 190,000,000 million shares of common stock and 1 share of preferred stock was returned to the company. Immediately following, COO J. Charles Nemes was named Chairman of the Board and CEO.

On January 27th, 2014 the Company entered into a Long Term Employment Agreement with J. Charles Nemes to serve as the Company’s Chief Executive Officer and Chairman of the Board of Directors. In addition to a base salary as an equity incentive award to retain the services of Mr. Nemes, the Board authorized the issuance of 228,000,000 shares of the Company’s Unregistered Restricted Common Stock and 200,000,000 shares of the Company’s Restricted Common Stock which shares shall vest 50% on January 1, 2015 and 50% on January 1, 2016.

On January 27, 2014 the Company’s Board of Directors, by unanimous written consent in lieu of a meeting and the holders of a majority of the Company’s outstanding shares of common stock approved a resolution providing the Board with discretionary authority to amend the Company’s Articles of incorporation to effect up to a one-for-50 (1:50) reverse stock split of the Company’s common stock. In addition, the Company reduced the number of Authorized Shares to 500,000,000.

On February 28, 2014, which was the effective date of the Amended and Restated Articles of Incorporation, as filed with the Secretary of State of Florida on January 27th, 2014, the Reverse Stock Split took effect. No fractional shares were issued in connection with the Reverse Stock Split. All fractional shares were rounded to the next whole share. The effect of the Reverse Stock Split reduced the number of shares of the Company’s common stock issued and outstanding from 973,408,532 to 19,468,171.

Exact Company Name: RenuEn Corporation (hereinafter referred to as the “Corporation” or “Company”)

JURISDICTION AND DATE OF THE ISSUER'S INCORPORATION/ORGANIZATION.

The Company is currently domiciled in the state of Florida. A brief restatement of the corporate history follows: Technology Resources, Inc. was incorporated in Florida on March 1, 1996, as Integrated Marketing Technology, Inc. Its name was changed to Technology Resources, Inc., on January 1, 1997.

In 2009, a corporate action was approved by the shareholders to change the name of the Company to "Shaka Shoes, Inc." This name change was effective and filed with the state of Florida as of May 22, 2009.

In December 2011, a corporate action was approved by the shareholders to change the name of the Company to "RenuEn Corporation" This name change was effective and filed with the state of Florida as of December 11, 2011.

THE EXACT TITLE AND CLASS OF SECURITIES OUTSTANDING.

The Company has 500,000,000 shares of Common Stock authorized at \$0.001 par value. The Company had 33,618,238 shares of common stock issued and outstanding as of June 30, 2014.

The Company has 50,000,000 shares of Preferred Stock authorized at \$.001 par value. The company had zero shares of Preferred Stock issued and outstanding as of June 30, 2014.

The CUSIP number of the Company is 760182204 which became effective 2/28/14.

The trading symbol of the Company is RENU

PAR OR STATED VALUE AND DESCRIPTION OF THE SECURITY.

A. *Par or Stated Value.*

The par value of the Common Stock is \$0.001.

B. *Common or Preferred Stock.*

1. **Rights for Common Shares.** Subject to the rights of holders of preferred stock, if any, holders of shares of our common stock are entitled to share equally on a per share basis in such dividends as may be declared by our Board of Directors out of funds legally available therefor. There are presently no plans to pay dividends with respect to the shares of our common stock. Upon our liquidation, dissolution or winding up, after payment of creditors and the holders of any of our senior securities, including preferred stock, if any, our assets will be divided pro rata on a per share basis among the holders of the shares of our common stock. The common stock is not subject to any liability for further assessments. There are no conversion or redemption privileges or any sinking fund provisions with respect to the common stock and the common stock is not subject to call. The holders of common stock do not have any pre-emptive or other subscription rights. Holders of shares of common stock are entitled to cast one vote for each share held at all stockholders' meetings for all purposes, including the election of directors. The common stock does not have cumulative voting rights. All of the issued and outstanding shares of common stock are fully paid, validly issued and non-assessable.
2. **Rights for Preferred Shares.** The Board of Directors is authorized at any time, and from time to time, to provide for the issuance of shares of Preferred Stock in one or more series, and to determine the designations, preferences, limitations and relative or other rights of the Preferred Stock or any series thereof.
3. **Other material rights of common or preferred stockholders.**
 - a. **Dividends.** As of June 30, 2014, the Company has paid no cash dividends on our common stock. We anticipate that any earnings, in the foreseeable future, will be retained for development and expansion of our business and we do not anticipate paying any further cash dividends in the near future. Our Board of Directors has sole discretion to pay cash dividends with respect to our common stock based on our financial condition, results of operations, capital requirements, contractual obligations, and other relevant factors.
4. **Provisions in issuer's charter or by-laws that would delay defer or prevent a change in control of the issuer.** None.

SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

In the opinion of management, all adjustments consisting of normal recurring adjustments necessary for a fair statement of (a) the results of operations for the three month period ended June 30, 2014 and (b) the financial position at June 30, 2014 have been made.

The unaudited condensed financial statements and notes are presented as permitted by Form 10Q. Accordingly, certain information and note disclosures normally included in the condensed financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been omitted. Operating results for the three months ended June 30, 2014 represent the financial condition as of this date.

Use of Estimates

The Company prepares its financial statements in conformity with generally accepted accounting principles in the United States of America. These principals require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Management believes that these estimates are reasonable and have been discussed with the Board of Directors; however, actual results could differ from those estimates.

Financial Instruments

Effective January 1, 2008, the Company adopted FASB ASC 820, “Fair Value Measurements and Disclosures” (“ASC 820”), for assets and liabilities measured at fair value on a recurring basis. ASC 820 establishes a common definition for fair value to be applied to existing generally accepted accounting principles that require the use of fair value measurements; establishes a framework for measuring fair value and expands disclosure about such fair value measurements. The adoption of ASC 820 did not have an impact on the Company’s financial position or operating results, but did expand certain disclosures.

ASC 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Additionally, ASC 820 requires the use of valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. These inputs are prioritized below:

Level 1: Observable inputs such as quoted market prices in active markets for identical assets or liabilities

Level 2: Observable market-based inputs or unobservable inputs that are corroborated by market data

Level 3: Unobservable inputs for which there is little or no market data, which require the use of the reporting entity’s own assumptions

Cash and Cash Equivalents

The majority of cash is maintained with a major financial institution in the United States. Deposits with this bank may exceed the amount of insurance provided on such deposits. Generally, these deposits may be redeemed on demand and, therefore, bear minimal risk. The

Company considers all highly liquid investments purchased with an original maturity of three months or less to be cash equivalents.

Revenue Recognition

Beginning in the fourth quarter of 2013 the company began generating revenue through its Energy Solutions Division. In the first quarter of 2014, the company rapidly expanded its ability to generate revenue and cash flow through its Energy Solutions Dealer Program. The immediate success of the Dealer Program positioned the company with immediate positive cash flow to hire executives, lease office space and purchase vehicles and equipment. This compensation and equipment purchase was accomplished without the need to utilize stock as a means to generate investment capital. The company is a Florida licensed General Contractor (CGC1505549), Solar Contractor (CVC56704) and a licensed Roofing Contractor (CCC1328415) through its wholly owned subsidiary SDI Solar, Inc. Additionally, the company is bonded and insured to operate as a full service contractor. The Company has established multiple dealer relationships with consumer financial institutes and product/service providers to service their customer base. The company offers home energy audits and provides energy saving construction services offering financing through its banking relationships.

NOTE C – GOING CONCERN

The accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the settlement of liabilities and commitments in the normal course of business. As reflected in the accompanying financial statements, the Company had a history of material net losses, negative cash flows from operations and an accumulated deficit. The ability of the Company to continue its development construction services operation is no longer a going concern and is not dependent on the company's ability to raise additional funds and implement that portion of the business plan. Based on management's change in direction and viable plan, the financial statements now include any adjustments that were necessary to complete the termination of the Team Energy/Landfill Gas Development business. The company currently generates and creates the cash flow needed to build and grow the construction division through the sales and installation of energy related construction services for residential and commercial customers.

NOTE D – DEBT

Notes Payable

The Company entered into a promissory note payable with Kenneth Moore on February 26, 2006 in the amount of \$100,000 United States dollars and on September 17, 2007 in the amount of \$242,554 United States dollars. Each note was payable one year from issuance, with interest accrued at 4%. The Company has not made payment on the note or the accrued interest. The note is payable on demand. The amount due in United States dollars, as of December 31, 2013 was \$407,517. Accrued expenses, since the last quarterly report, includes the accrued interest in the amount of \$64,963 for the thirty two months since June 30, 2011. RenuEn management had agreed to reduce the notes by \$25,000 each quarter. Payments were due to be made in cash or stock over the following four years or until the entire debt was retired.

On March 31, 2010 the Company entered into a promissory note payable, non-interest bearing and payable upon demand, for prior services rendered and recorded in accounts payable for two firms. The identical notes are in the amount of \$350,000 each and additional amounts charged as consulting expense (\$30,000 per quarter for each) have been converted to debt each quarterly

period, under the same conditions of the original note. The notes are non-interest bearing with no stated conversion options. On February 28, 2011, \$33,000 of the above notes was sold to unrelated third parties. Upon this assignment, \$21,500 was converted into 21,500,000 common shares at a Board approved conversion price of \$.001 (par value). Since the conversion price was below fair market value (the traded value of the stock), the company recognized \$193,500 of stock-based payments (difference of the fair market trading price versus the conversion price). Total promissory notes payable on demand for this series of notes was \$959,700 and \$880,000 as of June 30, 2011 and December 31, 2010, respectively. 156.3mm shares were converted from these notes into common stock to various third parties. These transactions occurred from February 28, 2011 to December 31, 2011. 53mm shares were converted from these notes into common stock to various third parties. These transactions occurred from January 1, 2012 to June 30, 2012. The total number of shares converted from these notes total 209.3mm. The company has renegotiated the remaining debt balance from \$700,000 to \$75,000 and has made one payment in the amount of \$5,000 leaving a \$70,000 balance payable.

On October 5, 2012 Team Energy, Inc., a former wholly owned subsidiary of the Company received a \$200,000 loan in the form of a promissory note. The term of the promissory note was eight years at an interest rate of 8%. The promissory note has been secured through receivables and personal guarantees from senior management. Team Energy, Inc. had made no monthly payments on the promissory note. A majority of the loan (\$100,000) was used to secure a Performance Bond with the City of St. Cloud on a landfill project being developed. No further payments were made to the debt holder as of the date of this filing and the debt holder has agreed to renegotiate the debt with new management.

On April 27, 2013 the Company entered into a promissory note payable with an unrelated party in the amount of \$50,000 dollars United States Currency to finance operations related to the expenses and development of the St. Cloud Landfill project. The note was payable on December 31, 2013 with no interest due. The lender was to be paid a \$0.005 per gas gallon equivalent (GGE) of compressed natural gas (CNG) produced at the St. Cloud Facility for a period of ten years. This note has not been paid and the company is currently in negotiations to settle the debt.

On May 5, 2013 the Company entered into a promissory note payable with an unrelated party in the amount of \$100,000 dollars United States Currency to finance operations related to the expenses and development of the St. Cloud Landfill project. The note was payable on December 31, 2013 with no interest due. The lender was to be paid a \$0.01 per gas gallon equivalent (GGE) of compressed natural gas (CNG) produced at the St. Cloud Facility for a period of ten years. This note has not been paid and the company is currently in negotiations to settle the debt.

On December 23, 2013, CEO Don Wood and all Team Energy Officers resigned from the company and returned all of their restricted stock. J. Charles Nemes was immediately appointed as the CEO. Upon the resignation of Wood and as part of a global renegotiation of all related Team Energy debt, notes and agreements, the company authorized the issuance of 100,000,000 shares of common stock to Ken Moore and offered Mr. Moore a seat on the Board of Directors of the Company. In return, Mr. Moore agreed to release the company from the February 26, 2006 note (\$100,000) and the September 17, 2007 note (\$242,554) as well as all related interest owed in its entirety. Additionally, the October 10, 2012 note and interest due was suspended until the company reorganizes its management and structure. This resulted in a total reduction of debt to the company in the amount of \$407,517 which is reflected on the 2014 First Quarter filings. Don Wood was released from personal guarantee of all liabilities. J. Charles Nemes, the

new CEO, assumed the responsibility and personal guarantees of the remaining notes totaling \$350,000 (Moore note of \$200,000, \$100,000 unrelated party note and \$50,000 unrelated party note).

On May 27, 2014, the company received a final debt forgiveness agreement from an unrelated third party for prior convertible debt instruments issued. These transactions occurred from January 1, 2012 to June 30, 2012. The total number of shares converted from these notes totaled 209.3mm. The company had renegotiated the remaining debt balance from \$700,000 to \$75,000 and had made one payment in the amount of \$5,000 leaving a \$70,000 balance payable. The company was able to have the final \$70,000 balance payable forgiven at no additional cost or share conversion.

NOTE E - INCOME TAXES

Income taxes are provided for the tax effects of transactions reported in the financial statements and consist of taxes currently due plus deferred taxes, if and when applicable, related primarily to differences between the bases of certain assets and liabilities for financial and tax reporting. Any deferred taxes would represent the future tax return consequences of those differences, which will either be taxable when the assets and liabilities are recovered or settled. The company will fully allow for any deferred tax assets available based on the net operating losses at December 31, 2014.

NOTE F – EARNINGS PER COMMON SHARE

Basic earnings (loss) per share calculations are determined by dividing net income (loss) by the weighted average number of shares outstanding during the year. Diluted earnings (loss) per share calculations are determined by dividing net income (loss) by the weighted average number of shares. There are no share equivalents and, thus, anti-dilution issues are not applicable.

NOTE G – RECENT ACCOUNTING PRONOUNCEMENTS

Except for rules and interpretive releases of the SEC under authority of federal securities laws and a limited number of grandfathered standards, the FASB Accounting Standards Codification™ (“ASC”) is the sole source of authoritative GAAP literature recognized by the FASB and applicable to the Company. Management has reviewed the aforementioned rules and releases and believes any effect will not have a material impact on the Company's present or future consolidated financial statements.

NOTE H – RELATED PARTY TRANSACTIONS

On May 15, 2013, The Company announced the addition of Walter Kritsky to the Company for the purpose of qualifying the company as a General and Solar Contractor. Mr. Kritsky's license was transferred directly to RenuEn and the Company began direct operations as a Solar and General Contractor in the Florida market. Walter Kritsky had been appointed as Executive Vice President of RenuEn's Energy Solutions Division. Under the terms of the agreement, Mr. Kritsky was to receive Ten Million (10,000,000) shares of Restricted Stock.

On July 8, 2013, the company issued Ten Million Shares (10,000,000) shares of common restricted stock to Walter Kritsky for the transferring of his Florida General Contractors and Florida Solar licenses to the company.

On September 11, 2013, the company issued Five Million Shares (5,000,000) of restricted common stock to Arthur Mahana as compensation for waiving storage fees for the storage of the St. Cloud Landfill equipment.

On September 30, 2013, the company named J. Charles Nemes as Chief Operating Officer and Walter Kritsky as President of RenuEn. Mr. Kritsky was to oversee the construction division of the company and Mr. Nemes is responsible for the overall day to day operation of RenuEn in its entirety. Under the terms of the agreement, Mr. Kritsky was to receive an additional Fifteen Million (15,000,000) shares of Restricted stock if he remained with the company for two years.

On January 27, 2014, the company entered into a long term employment agreement with J. Charles Nemes to serve as CEO and Chairman of the company. As part of the compensation agreement, the company issued Four Hundred Twenty Eight Million Shares (428,000,000) of restricted common stock as equity for assuming the personal guarantees of all notes requiring the personal guarantee.

On March 11, 2011 Walter Kritsky resigned from RenuEn and removed his licenses from the control of the company. Immediately following the resignation of Mr. Kritsky, the company acquired SDI Solar, Inc. as a wholly owned subsidiary and continued its Energy Solutions operations through SDI Solar and David Burrows was named President. David Burrows is a licensed General Contractor, Solar Contractor and Roofing Contractor. The company plans to pursue additional means of revenue capitalizing on the licenses of Mr. Burrows and the SDI acquisition.

On March 15, 2014, the company named Anthony Pascucci as Chief Financial Officer and appointed him as a Director. He received 4,000,000 shares of restricted common stock as part of his employment agreement.

On March 15, 2014, the company appointed Kenneth Moore to the Board of Directors. He received 2,000,000 shares of restricted common stock as part of his agreement to serve as director.

On June 30, 2014, the company issued 600,000 shares of restricted common stock to Paramount Advisors, LLC as compensation under a pre-existing consulting agreement for services provided from October 10, 2012 to February 28, 2014.

On June 30, 2014, the company issued 150,000 shares of restricted common stock to Paramount Advisors, LLC as compensation under a new consulting agreement for services to be provided from June 1, 2014 to June 30, 2015. An additional 150,000 shares of restricted common stock is to be issued upon completion of the consulting agreement.

ITEM II: MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

The following discussion should be read in conjunction with our unaudited condensed financial statements and the notes thereto.

Cautionary Notice Regarding Forward-Looking Statements

The information contained in Item 2 contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Actual results may materially differ from those projected in the forward-looking statements as a result of certain risks and uncertainties set forth in this report. Although management believes that the assumptions made and expectations reflected in the forward-looking statements are reasonable, there is no assurance that the underlying assumptions will, in fact, prove to be correct or that actual results will not be different from expectations expressed in this report.

We desire to take advantage of the “safe harbor” provisions of the Private Securities Litigation Reform Act of 1995. This filing contains a number of forward-looking statements which reflect management’s current views and expectations with respect to our business, strategies, products, future results and events, and financial performance. All statements made in this filing other than statements of historical fact, including statements addressing operating performance, events, or developments which management expects or anticipates will or may occur in the future, including statements related to distribution, volume growth, revenues, profitability, new products, adequacy of funds from operations, statements expressing general optimism about future operating results, and non-historical information, are forward looking statements. In particular, the words “believe,” “expect,” “intend,” “anticipate,” “estimate,” “may,” variations of such words, and similar expressions identify forward-looking statements, but are not the exclusive means of identifying such statements, and their absence does not mean that the statement is not forward-looking. These forward-looking statements are subject to certain risks and uncertainties, including those discussed below. Our actual results, performance or achievements could differ materially from historical results as well as those expressed in, anticipated, or implied by these forward-looking statements. We do not undertake any obligation to revise these forward-looking statements to reflect any future events or circumstances.

Readers should not place undue reliance on these forward-looking statements, which are based on management’s current expectations and projections about future events, are not guarantees of future performance, are subject to risks, uncertainties and assumptions (including those described below), and apply only as of the date of this filing. Our actual results, performance or achievements could differ materially from the results expressed in, or implied by, these forward-looking statements. Factors which could cause or contribute to such differences include, but are not limited to, the risks to be discussed in our Annual Report on form 10-K and in the press releases and other communications to shareholders issued by us from time to time which attempt to advise interested parties of the risks and factors which may affect our business. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise.

Use of Generally Accepted Accounting Principles (“GAAP”) Financial Measures

We use GAAP financial measures in the section of this quarterly report captioned “Management’s Discussion and Analysis or Plan of Operation” (“MD&A”). All of the GAAP financial measures used by us in this report relate to the inclusion of financial information.

Overview

This subsection of MD&A provides an overview of the important factors that management focuses on in evaluating our businesses, financial condition and operating performance, our overall business strategy and our earnings for the periods covered.

General

We were incorporated in Florida on March 1, 1996, as Integrated Marketing Technology, Inc. Our name was changed to Technology Resources, Inc., on January 1, 1997 and changed again on January 28, 2009 to Shaka Shoes, Inc. and again on December 12, 2011 to RenuEn Corporation.

Business Sources of Revenue

Prior to 2014 the company had struggled to implement their plan to build and develop landfill gas extraction facilities due to the inability to raise additional capital for day to day operations. Since the development stage of any long term project requires substantial working capital, the company only had three choices. Choice one would be to issue debt using treasury stock; choice two would be raise capital through private placement; and choice three would be borrow capital from financial institutions which would require the issuance of preferred stock over common stock. With any of the three choices, the ability to service the debt would rely on generating future revenue or conversion into stock.

Management has decided that it is not in the best interest of the company or its shareholders to issue debt or raise large sums of working capital by the irresponsible issuance of stock or dilution of its shareholders.

The Company, through the prior acquisition of Team Energy, Inc., had planned to use the experience of Team Energy's principal's and their prior successful power project developments. The company had intended to use those competencies to attract landfill owners as well as other energy users into entering long term royalty agreements to extract their landfill gas and produce compressed natural gas (CNG). The initial project developed by Team Energy was the St. Cloud landfill project. As the project proceeded, a dispute between the primary Engineering Firm and Team Energy developed over life safety issues that were not identified in the projects budgeting process. In addition, Team Energy had been granted - and then exhausted - all requested time extensions given to them by the City of St. Cloud. This combination of events led to the company and the City of St. Cloud to terminate their agreement before additional investment capital was used to continue this project.

As a result of the termination of the St. Cloud project as well as an inability to complete two attempted mergers, management has decided to focus on aggressively implementing its construction and Energy Solutions business plan.

The company has recently become a National Dealer for various products and services that provide alternative energy saving solutions that include: heat resistant barriers, insulation, window film, solar air conditioning, high efficiency heating and air conditioning systems, solar hot water systems, photovoltaic solar systems and may include several other energy saving products. By adding these energy saving products and services to our existing construction and dealer strategy, the company began to generate immediate revenue in the fourth quarter of 2013. Additionally, the company is now able to finance residential consumers directly with credit lines up to \$55,000 through its relationship with home improvement financing partners. The ability to instantly finance consumers and the cash flow of the financing options offered, the company will not experience any long-term receivables or create long-term debt. In addition, the primary products and services offered are generally sold, installed and collected within two-week sales to installation cycles. This allows for positive cash flow, instant revenue and working capital without any need to borrow, seek investment capital or create debt to implement this strategy.

Management continues to establish dealer relationships with smaller but similar type companies throughout strategic markets and National Energy Solutions program. The company plans to begin executing its acquisition strategy to parallel its dealer program to rapidly expand its market presence and brand. By continuing with a dealer strategy, the company can provide centralized marketing services, lead development and sales training under the Energy Solutions and RenuEn brand. The company can also provide management and oversight services and centralized purchasing and accounting services to smaller businesses. By utilizing our recently developed management platform, the company has the ability to earn a management and oversight fee while performing due diligence and “testing” of the relationship - without risk - before making a formal acquisition offer to a targeted company while still generating revenue.

During the first and second quarter of 2014 the company has invested a significant amount of time and money to building a web-based, sales, marketing, and scheduling and management platform. The custom platform was developed internally to prepare for our National Energy Solutions Program and it gives the company a centralized management platform that monitors sales, installation and collections in real time. The company now has the ability to offer our products and services as well as our finance opportunities to any type of home improvement company in a non-competing way. Our web-based platform allows for small to medium companies to utilize our services, sell our products and have our company assist in the scheduling, management and training of their sales and installers.

Economic and Industry Wide Factors Relevant to our Company

Generally, during an economic slow-down most development companies experience significant reduction in available investment capital. In the residential home improvement arena, the company has an opportunity to be in a somewhat recession-proof business. When the economy is good, homeowners tend to buy and sell their homes, and move into larger or smaller homes and then make improvements. When the economy is in a downturn, homeowners tend to improve or expand their homes because they cannot afford to move. While this helps in allowing the company to generate revenue from normal home improvements, we are positioned to succeed in either scenario. Because a majority of all of our residential and commercial sales involve the reduction of a consumers monthly electric or energy costs, we can provide financing solutions where the cost of monthly payments by a consumer is less than the amount of money saved creating a net-zero monthly cost to the consumer. This allows the consumer to hedge against the rising costs of energy. Therefore the company is positioned to survive in both a good or bad economy.

Opportunity for Growth

Our objective is to seek out small, related businesses in emerging markets across the United States. By establishing the dealer relationship with the small company, providing the financing, marketing and sales oversight, the company can grow its revenue and earnings without the need for substantial amounts of investment capital. By maintaining core renewable energy-cost saving products and services while increasing market share, the opportunity to grow only requires the additional personnel needed to execute the existing system and process already in place. With unemployment at an all-time high, the ability to hire qualified and experienced personnel is endless.

The company will be opening additional offices in three locations outside of Florida by the end of third quarter. The offices will be a combination of organic/direct sales offices as well as additional dealers under the Energy Solutions program. The company is currently in

negotiations to begin manufacturing its own energy savings products to distribute through its growing network of dealers.

Business Strategy

The Company has decided to alter their business strategy to revenue generating operations rather than a cash intensive development model that requires investment capital or the creation and adding of debt. By altering the strategy and generating working capital *and* earnings, the company can then reinvest its own cash into the development of larger and more profitable utility projects without the need to borrow against future revenues. This will create a better value for our shareholders. We are fortunate in that the company has very little debt and has begun generating earnings in the first Quarter of 2014. One of the core values of the company is the creation of jobs moving forward and using revenue and cash flow to grow operations without creating debt.

The company recently added RenuEn Finance Solutions (RFS) to its family of companies. RFS is our branded finance company that now allows us to earn future recurring revenue while at the same time reducing our cost of bank charges which were \$148,606 for the first 6 months of 2014. The company has also begun the process of bringing all of the sales and marketing of our products and services in-house as we implement the sales and management platform moving forward.

Material Risks, Trends and Uncertainties Affecting our Business

The revenue growth and profitability of our business depends on the ability to market and sell our products and services. Because the company relies on the lending of money by several major home improvement lending institutions, any material changes of the lending policies of the banks or tightening of the amount of money available to be lent could have a negative effect on our ability to sell our products and services. If the lending dries up, consumers have a tendency to save money and not spend it on improvements.

Operating Results for the Quarter Ending June 30, 2014 (unaudited)

Revenues: For the quarter year ending June 30, 2014 revenues were \$2,176,805 and were all derived from the Energy Solutions program. The Company is continuing the process of implementing its revised business plan for generating continued revenue and has seen double digit growth in each month of the first quarter, continuing into the second quarter.

Operating Expenses: Operating expenses were \$2,098,859 for the quarter ending June 30, 2014. These expenses include costs of goods sold and general operating and sales expenses.

Net Operating Income: Income from Operations before taxes for the quarter ending June 30, 2014 was \$77,946. Total Net Income inclusive of interest expense amounted to \$67,055.

Liquidity and Capital Resources

As of June 30, 2014 the company had cash and cash equivalents of \$90,094. Liabilities as of June 30, 2014 totaled \$481,565 and consisted of \$64,956 in accounts payable and accrued expenses and \$416,609 in loans. Net cash used by operations was \$50,088 for the quarter ending June 30, 2014.

Inflation

Inflation does not materially affect our business or the results of our operations.

Subsequent Events

The Company has selected a PCAOB Auditing firm and is working towards having audited financials prior to the end of fiscal year 2014. The Auditing firm will be announced upon the signing of the final agreement and approval of the quote.

The company has experienced dissatisfaction with the dealer program in the State of Florida. While the dealer model on its face works outside of Florida in remote markets, the strategy does not accomplish the goal of generating the earnings that should be expected as a licensed General, Roofing and Solar Contractor. By utilizing sales and marketing companies to generate all of its Florida sales, the company loses significant control over the sales and marketing process as well as the personnel needed to execute. Furthermore, as Q1 and Q2 financials show, the sales and marketing dealers receive a significant amount of the revenues and with it, lost potential earnings.

Effective July 11th, the company terminated all existing dealer agreements in the State of Florida and has begun the process of transitioning all marketing and sales internally by employees of the company. This will provide the company with additional controls on costs, systems and processes and allow for easy integration and management through the new management platform.

Recent Accounting Pronouncements

The Financial Accounting Standards Board and other entities issued new or modifications to, or interpretations of, existing accounting guidance during the year. The corporation has carefully considered the new pronouncements that altered generally accepted accounting principles and does not believe that any new or modified principles will have a material impact on the corporation's reported financial position or operations in the near term. These recent pronouncements have been addressed in the footnotes to the unaudited condensed financial statements.

Critical Accounting Policies

The Company prepares its condensed financial statements in conformity with generally accepted accounting principles in the United States of America. These principals require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the condensed financial statements and the reported amounts of revenues and expenses during the reporting period. Management believes that these estimates are reasonable and have been discussed with the Board of Directors; however, actual results could differ from those estimates.

Off-Balance Sheet Arrangements

The Company does not have any off-balance sheet arrangements.

ITEM III: QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no material changes in market risk since the filing of the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2013.

ITEM IV: CONTROLS AND PROCEDURES

Evaluation of disclosure controls and procedures

Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures, as such term is defined under Rule 13a-15(e) promulgated under the Securities Exchange Act of 1934, as amended (Exchange Act), as of September 30, 2010. Based on this evaluation, our principal executive officer and principal financial officer have concluded that our disclosure controls and procedures as of the end of such periods are not effective to ensure that information required to be disclosed by us in the reports we file or submit under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the Securities and Exchange Commission's rules and forms and that our disclosure and controls are designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including our principal executive officer and principal financial officer, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure

The company has limited resources and as a result, a material weakness in financial reporting currently exists.

A material weakness is a deficiency (within the meaning of the Public Company Accounting Oversight Board (PCAOB) auditing standard 5) or combination of deficiencies in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of the Company's annual or interim condensed financial statements will not be prevented or detected on a timely basis. Management has determined that a material weakness exists due to a lack of segregation of duties, resulting from the Company's limited resources.

The Company's management confirms that there was no change in the Company's internal control over financial reporting during the quarter ended June 30, 2014 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting of RenuEn.

PART II – OTHER INFORMATION

ITEM 1: LEGAL PROCEEDINGS

RenuEn has confirmed that they have been named as a party to a lawsuit filed by Masq Marketing, Inc. in the United States District Court in the Southern District of New York. The lawsuit, Masq Marketing, Inc. v. RenuEn Corporation, Belvedere Global Strategies, Princeton Corporate Solutions, and James Scott Brown is filed under Docket 12-CIV-4717. RenuEn's legal counsel has reviewed the complaint and is currently in settlement talks with attorneys for Masq Marketing. Although the company denies any wrongdoing or liability in the suit, settlement talks are ongoing and the company sees no liability in excess of Nineteen Thousand dollars (\$19,000.00).

RenuEn has vigorously defended this claim involving the former CEO and his paramour and was unable to negotiate a fair settlement. Negotiations with Masq Marketing broke down when Masq and former CEO James Scott Brown settled their claims with each other. This resulted in the

entry of a Judgment against RenuEn in the amount of \$19,000.00 plus costs. The Company is continuing to defend this frivolous suit and is exploring additional legal options including appeal.

RenuEn is currently involved in two breaches of contract civil suits in Florida. The first was filed against the company in The Circuit Court of the Ninth Judicial Circuit, In and For Orange County, Florida (Case No. 2014-CA-003985-O). This case is currently scheduled for mediation. When the company was served with this complaint, an internal investigation was conducted by Chief Legal Officer D. Alexander Kim. Upon investigation, the company learned of significant breaches of contract by third party dealers and a sub-contractor that were directly related to the suit filed in Orange County. This investigation resulted in the company filing a comprehensive Civil Suit against multiple parties in The Circuit Court of the Eighteenth Judicial Circuit In and For Seminole, Florida (Case No. 2014-CA-001884-15-L). The company is vigorously pursuing the civil suit it has filed and is seeking damages exceeding \$15,000. The suit is in the early filing stages and the company will report on the events in future filings.

ITEM 2: UNREGISTERED SHARES OF EQUITY SECURITIES AND USE OF PROCEEDS

None

ITEM 3: DEFAULTS UPON SENIOR SECURITIES

None

ITEM 4: REMOVED AND RESERVED

Not applicable

ITEM 5: OTHER INFORMATION

Committees

We currently do not have standing audit, nominating or compensation committees. Currently, our entire Board of Directors is responsible for the functions that would otherwise be handled by these committees. We intend, however, to establish an audit committee, a nominating committee and a compensation committee of the Board of Directors.

We envision that the audit committee will be primarily responsible for reviewing the services performed by our independent auditors, evaluating our accounting policies and our system of internal controls. The nominating committee would be responsible for nomination of new director candidates and will be responsible for implementing our corporate governance policies and procedures. The compensation committee will be primarily responsible for reviewing and approving our salary and benefits policies (including stock options) and other compensation of our executive officers.

Our Board of Directors has not made a determination as to whether any member of our board is an audit committee financial expert. Upon the establishment of an audit committee, the board will determine whether any of the directors qualify as an audit committee financial expert.

ITEM 6: EXHIBITS

Exhibit Number Description

- 6.1 Certification of Chief Executive Officer filed pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
- 6.2 Certification of Chief Financial Officer filed pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
- 6.3 Certification of Chief Executive Officer furnished pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
- 6.4 Certification of Chief Financial Officer furnished pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

SIGNATURES

In accordance with the requirements of the Exchange Act, the registrant caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

RENUEN CORPORATION – June 30, 2014

Dated: August 15, 2014

J. Charles Nemes _____ //s// _____

Name: J. Charles Nemes
Title: CEO and Director

EXHIBIT 6.1

**CERTIFICATION OF THE CHIEF EXECUTIVE OFFICER OF
RENUEN CORPORATION
PURSUANT TO § 302 OF THE SARBANES-OXLEY ACT OF 2002**

I, J. Charles Nemes, certify that:

1. I have reviewed this Quarterly Report for the period ended June 30, 2014, of RENUEN CORPORATION;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e))

and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:

a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;

b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

EXHIBIT 6.2

CERTIFICATION OF THE CHIEF FINANCIAL OFFICER OF RENUEN CORPORATION, INC. PURSUANT TO § 302 OF THE SARBANES-OXLEY ACT OF 2002

I, Anthony Pascucci, certify that:

1. I have reviewed this Quarterly report on Form 10Q for the period ended June 30, 2014 of RenuEn Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

RENUEN CORPORATION – June 30, 2014

Dated: August 15, 2014

_____/s/_____/

Name: Anthony Pascucci

Title: CFO and Director

EXHIBIT 6.3

**CERTIFICATION OF THE CHIEF EXECUTIVE OFFICER OF
RENUEN CORPORATION, INC.
PURSUANT TO 18 U.S.C. SECTION 1350,
AS ADOPTED PURSUANT TO
§ 906 OF THE SARBANES-OXLEY ACT OF 2002**

In connection with the Quarterly Report of RenuEn Corporation (the “Company”) for the period ended June 30, 2014 as filed with the Securities and Exchange Commission on the date hereof (the “Report”), I, J. Charles Nemes, Chief Executive Officer of the Company, do hereby certify, pursuant to 18 U.S.C. § 1350, as adopted pursuant to § 906 of the Sarbanes-Oxley Act of 2002, based on my knowledge, that:

- 1) The Report fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934; and
- 2) The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.

RENUEN CORPORATION – June 30, 2014

Dated: August 15, 2014
