5) **Financial Statements:** Enclosed at end of this document.

6) Describe the Issuer's Business, Products and Services

TeleFix Communications, Inc., operating subsidiary of Parent company (Holdings), private entity was founded in March 2010, pre-launched at the CTIA Wireless Show in Las Vegas. We are a woman-owned turn-key wireless communications infrastructure services provider and business technologies company.

Product- (COPS®)

-Proprietary IoT technology using Mobile to mobile video communications real time interactive platform to monitor projects and field work sites for service industries;

Services:

-Remote Monitoring from Command Center (NOCS®)

-Contract Infrastructure services for major telecom carriers, Public Safety and original equipment manufacturers (OEMs).

COPS & NOCS – This solution evolved from our need to meet the immense demand for services for which the company was founded. To solve multiple problematic issues within the telecom sector and from our own inability to adequately meet and deliver on abundant service contracts, we innovated a proprietary process utilizing forward-thinking technology (COPS). We systemized a tedious project close out reporting and documentation process by integrating Internet of Things (IoT) technologies, mobile to mobile (m2m) video communications on a real time live interactive broadcast platform. The platform's capabilities enable precise delivery of TeleFix's mission and solution. Being able to remotely monitor multiple work sites either virtually or from our planned expert staffed command center (NOCS®) meets the higher level of quality and cost efficiency for which so many services industries strive. An added and key benefit of this technology is bridging the skills gap so common in today's technology workplace. From the command center, critical skills are delivered real time then stored for training purposes.

Most importantly, the solution will improve overall cash flow for service contractors with the elimination of time to collect, increase margins and profitability for related industries such as construction and engineering. We want this solution to advance industries across multiple verticals and improve lives. The company is in the process of a product roll-out. This will be a license and subscription based Software as a Service (SaaS) business segment.

Multiple additional revenue streams will be derived via mobile devices and data usage.

The solution received an innovative recognition award from Verizon Wireless in October 2013 for our forward-thinking in the use of mobile technology. We have now earned a Vertical Solution Partnership contract which provides us the connectivity required using most expansive LTE (4G) network with discounted rates.

TeleFix Specialty Infrastructure services surpass current industry norms. Our promise is to ensure lower costs of services by getting work done right the first time. Employing our proprietary COPS technology and NOCS solution specifically developed to solve the problem of cost overages and poorly performing networks, we deliver on our promise as well as enable contractors within the industry to deliver higher quality of work and better margins all around.

The company's primary customers are private mobile carriers and equipment manufacturers.

TeleFix is poised to deliver exemplary services in design, project document management, network planning, deployment, quality control, and cost efficiency. The company areas of concentration are small cells deployment and RF Engineering.

Our key advantage to the is our genuine concern for our customers, employees, and passion for the industry. Our continual commitment is to meet the requirements for higher quality and efficiencies; giving customers what they want at the price they want. These are the main pains in the industry - higher overall quality in network performance to the end consumer; faster data speeds and enhanced voice service – reduced dropped calls, lower upgrade build costs, improve margins - Get the work done right the first time. Get jobs done fast.

A. Date and State (or Jurisdiction) of Incorporation:

January 14th, 2009 (Holdings "Parent")

B. The issuer's primary and secondary SIC Code -

Primary – 4812; 4899 Radio Telecommunications - Cellular/Wireless
Secondary – 1623-12 Telecommunications Equipment/Systems, Cabling & Wiring

C. The issuer's fiscal year end date;

June 30th

D. Principal products or services, and their markets:

- Video mobile to mobile project and documentation system – COPS® & NOCS® - Proprietary Technology
- Wireless Network Infrastructure – Service

7) Describe the Issuer's Facilities

The Company has a lease agreement for 2800 SF of office space. This is a temporary space to house administrative and temporary technical command center until the Company is able to remodel permanent space of approximately 5000 SF. This space will mostly be accommodating TeleFix's full 24/7/365 Technical Command Center. This remote monitoring command center (NOCS®) is key to TeleFix's full execution of service delivery's business model of "Get the Job Done Right the First Time."

8) Officers, Directors, and Control Persons

TeleFix Communications Holdings, Inc.
(F/K/A Sierra Desert Holdings and Subsidiary TeleFix Communications, Inc.)
Notes to Consolidated Financial Statements, Unaudited
Fiscal Quarter Ended 03/31/2015

Note 1 – Material Changes in Company

- a) Additional investment of \$22k was received from a private investor in fiscal year, Quarter 2, 2015. The investment is secured by a promissory note with an interest rate of 12%
- b) At the recommendations from our auditors, the \$2m intangible asset notated as WEBNC has been removed. Additionally, it was decided to not renew the WBENC certification at this time; will do so at later time.
- c) A correction was made to the investor's Loan Payable. A disbursement received from the investor in 2013 was incorrectly applied to the loan account but was in fact for the purchase of stock. Since the stock account has been reconciled with the Transfer Agent each quarter, the funds were reclassified to additional paid in capital.
- d) \$6k of inventory was written off in this quarter due to auditors' recommendations.

Note 2 – Common Stock Compensation – non-GAAP financial measures

- a) No stock sales were initiated in Q2, 2015
- b) Issuable stock for services was earned but not yet issued by fractional CFO per agreement as partial compensation for services in the amount of \$2,083.
- c) Issuable stock for services earned but not yet issued by project manager for deferred compensation in the amount of \$143,856.
