

June 4, 2015

MOP Environmental Solutions, Inc.
111 Reef Road
Fairfield, CT 06824
(203)-292-8728

A Nevada Corporation

Issuer's First Quarter Report for Period Ending March 31, 2015

1) Name of the issuer and its predecessors (if any)

In answering this item, please also provide any names used by predecessor entities in the past five years and the dates of the name changes.

MOP Environmental Solutions, Inc., a Nevada Corporation dba JPO Absorbents ("Company" or "Issuer") as of November 6, 2007.

JPO Companies, Inc., a Connecticut corporation was merged with MOP Environmental Solutions, Inc. as of July 30, 2014.

2) Address of the issuer's principal executive offices

Company Headquarters:

*111 Reef Road
Fairfield, CT 06824
Phone: (203)-292-8728
Fax: (203)-292-8727
www.mopenvironmental.com*

IR Contact:

None.

3) Security Information

Trading Symbol: *MOPN*

Exact title and class of securities outstanding: *Voting Common Stock*

CUSIP: *55313W105*

Par or Stated Value: *\$0.001 per share*

Total shares authorized: *2,000,000,000*

as of: *March 31, 2015*

Total shares outstanding: *1,801,640,031*

as of: *March 31, 2015*

Additional class of securities (if necessary): *None*

Transfer Agent:

*Securities Transfer Corp.
2591 Dallas Parkway, Suite 102
Frisco, TX 75034
Phone: (469) 633-0101 ext. 113; Fax: (469) 633-0088*

Is the Transfer Agent registered under the Exchange Act?* Yes: No:

*To be included in the OTC Pink Current Information tier, the transfer agent must be registered under the Exchange Act.

List any restrictions on the transfer of security:

All certificates or other documents that evidence the shares contain a standard Rule 144 legend (1) stating that the shares have not been registered under the Securities Act and (2) setting forth or referring to the restrictions on transferability and sale of the shares under the Securities Act. The exact wording of the legend is:

“THE SHARES REPRESENTED BY THIS CERTIFICATE HAVE NOT BEEN REGISTERED UNDER THE SECURITIES ACT OF 1933, AS AMENDED (THE “ACT”), OR ANY OTHER SECURITIES LAWS AND MAY NOT BE OFFERED FOR SALE, SOLD, TRANSFERRED, ASSIGNED, HYPOTHECATED OR OTHERWISE DISPOSED EXCEPT (I) UPON EFFECTIVE REGISTRATION OF THE SECURITIES UNDER THE ACT AND OTHER APPLICABLE SECURITIES LAWS COVERING SUCH SECURITIES OR (II) UPON ACCEPTANCE BY THE COMPANY OF AN OPINION OF COUNSEL IN SUCH FORM AND BY SUCH COUNSEL, OR OTHER DOCUMENTATION, AS IS SATISFACTORY TO COUNSEL FOR THE COMPANY TO THE EFFECT THAT SUCH REGISTRATION IS NOT REQUIRED”

Describe any trading suspension orders issued by the SEC in the past 12 months.

The issuer has not had any trading of its securities suspended by the SEC in the past 12 months and has not been delisted by any securities exchange or NASDAQ. Within the past 12 months, the Issuer has a “Stop: no information” designation, at times, on the OTC Bulletin Board due to its failure to timely submit the required quarterly and annual updates.

List any stock split, stock dividend, recapitalization, merger, acquisition, spin-off, or reorganization either currently anticipated or that occurred within the past 12 months:

Effective July 30, 2014, JPO Companies Inc. merged with MOP Environmental Solutions Inc. and became “MOP Environmental Solutions, dba JPO Absorbents” operating under the MOPN banner. In connection, therewith James P. O’Brien was issued 1,313,395,590 shares of the issuer’s common stock (which stock was issued by the transfer agent in two tranches on September 12, 2014, and December 29, 2014), bringing his total share ownership as of July 31, 2014, up to 1,319,395,590, approximately 73.23% of the outstanding common stock of the issuer (Mr. O’Brien has sold or transferred 256,450,000 shares since July 31, 2014, and his ownership as of March 31, 2015, was 1,062,945,590, approximately 58% of the outstanding common stock of the issuer). Mr. O’Brien was also reconfirmed as the Chairman and Chief Executive Officer of the Company, and Wayne D. King resigned all authority as a Director or officer of the Company, but maintains his interest as a stockholder owning 85,000,000 shares of the issuer’s issued common stock, or approximately 4% of the outstanding common stock of the issuer. The Plan of Merger provided for a conversion of shares as follows, “All shares of common stock of JPO Companies, Inc. that shall be outstanding immediately prior to the Effective Time of the Merger shall, by virtue of the Merger, be canceled and converted to the right for each Shareholder of JPO Companies, Inc. to receive 9,442,811 shares of the common stock, \$.001 par value per share, of MOP Environmental Solutions, Inc.”

4) Issuance History

List below any events, in chronological order, that resulted in changes in total shares outstanding by the issuer in the past two fiscal years and any interim period. The list shall include all offerings of equity securities, including debt convertible into equity securities, whether private or public, and all shares or any other securities or options to acquire such securities issued for services, describing (1) the securities, (2) the persons or entities to whom such securities were issued and (3) the services provided by such persons or entities. The list shall indicate:

- A. The nature of each offering (e.g., Securities Act Rule 504, intrastate, etc.);
- B. Any jurisdictions where the offering was registered or qualified;
- C. The number of shares offered;
- D. The number of shares sold;
- E. The price at which the shares were offered, and the amount actually paid to the issuer;
- F. The trading status of the shares; and
- G. Whether the certificates or other documents that evidence the shares contain a legend (1) stating that the shares have not been registered under the Securities Act and (2) setting forth or referring to the restrictions on transferability and sale of the shares under the Securities Act.

1. *In 2013, the Company issued 200,000 shares of its common stock to James O'Brien as a management fee for services Mr. O'Brien performed as the CEO of the Company; A. The Offering was made in accordance with Section 4(a)(2) of the Securities Act of 1933; B. The offering was an exempt offer pursuant to Section 4(a)(2) of the Securities Act of 1933; C. 200,000 shares of common stock were offered; D. 200,000 shares of common stock were sold; E. The shares were offered in exchange for services and were assigned a value at the time of \$.001 per share; F. The shares are tradable subject to the standard restrictions of unregistered shares; G. the certificates or other documents that evidence the shares contain a legend (1) stating that the shares have not been registered under the Securities Act and (2) setting forth or referring to the restrictions on transferability and sale of the shares under the Securities Act.*
2. *In 2014, the Company issued 20,000,000 shares of its common stock to James O'Brien as a management fee for services Mr. O'Brien performed as the CEO of the Company. The Company also issue 5,000,000 shares of its common stock to Reuven I. Rubinson as a fee for services Mr. Rubinson performed as the CFO of the Company; A. The Offering was made in accordance with Section 4(a)(2) of the Securities Act of 1933; B. The offering was an exempt offer pursuant to Section 4(a)(2) of the Securities Act of 1933; C. 25,000,000 shares of common stock were offered; D. 25,000,000 shares of common stock were sold; E. The shares were offered in exchange for services and were assigned an aggregate value of \$25,000.00 (\$.001 per share); F. The shares are tradable subject to the standard restrictions of unregistered shares; G. the certificates or other documents that evidence the shares contain a legend (1) stating that the shares have not*

been registered under the Securities Act and (2) setting forth or referring to the restrictions on transferability and sale of the shares under the Securities Act.

3. *As of July 30, 2014, JPO Companies Inc. merged with MOP Environmental Solutions Inc. and became "MOP Environmental Solutions, dba JPO Absorbents"; A. The Offering was made in accordance with Section 4(a)(2) of the Securities Act of 1933; B. The Certificate of Merger was filed with the Secretary of State of Connecticut and a Certificate of Amendment was filed with the Secretary of State of Nevada (increasing the authorize shares) in relation to the Merger; C. The Plan of Merger provided for a conversion of shares as follows: "All shares of common stock of JPO Companies, Inc. that shall be outstanding immediately prior to the Effective Time of the Merger shall, by virtue of the Merger, be canceled and converted to the right for each Shareholder of JPO Companies, Inc. to receive 9,442,811 shares of the common stock, \$.001 par value per share, of MOP Environmental Solutions, Inc." D. Subject to the plan of merger, an additional 1,313,395,590 shares of the issuer's common Stock, was issued (which the transfer agent issued in two tranches at a later date) to James P. O'Brien, bringing Mr. O'Brien's total share ownership as of July 30, 2014, up to 1,339,395,590, approximately 73.23% of the outstanding common stock of the issuer; and an additional 145,932,843 shares of the issuer's common Stock, was issued (which the transfer agent issued in two tranches at a later date) to Coleen Grooms, bringing Ms. Grooms' total ownership to approximately 8.15% of the outstanding common stock. E. The shares were issued pursuant to the Plan of Merger and exchanged for shares of shares of common stock of JPO Companies, Inc.. The issued shares have a per share par value of \$.001; F. Between July 30, 2014 and March 31, 2015, Mr. O'Brien sold or transferred 256,450,000 shares. As of December 31, 2014, Mr. O'Brien owned 1,062,945,590, shares, approximately 58% of the outstanding common stock of the issuer; G. the certificates or other documents that evidence the shares contain a legend (1) stating that the shares have not been registered under the Securities Act and (2) setting forth or referring to the restrictions on transferability and sale of the shares under the Securities Act.*

5) Financial Statements

Provide the financial statements described below for the most recent fiscal year end or quarter end to maintain qualification for the OTC Pink Current Information tier. For the initial disclosure statement (qualifying for Current Information for the first time) please provide reports for the two previous fiscal years and any interim periods.

- A. Balance sheet;
- B. Statement of income;
- C. Statement of cash flows;
- D. Financial notes; and

E. Audit letter, if audited

The financial statements requested pursuant to this item shall be prepared in accordance with US GAAP by persons with sufficient financial skills.

You may either (i) attach/append the financial statements to this disclosure statement or (ii) post such financial statements through the OTC Disclosure & News Service as a separate report using the appropriate report name for the applicable period end. (“Annual Report,” “Quarterly Report” or “Interim Report”).

If you choose to publish the financial reports separately as described in part (ii) above, you must state in the accompanying disclosure statement that such financial statements are incorporated by reference. You may reference the document(s) containing the required financial statements by indicating the document name, period end date, and the date that it was posted to otcq.com in the field below.

The issuer has posted the following financial statements in relation to the Annual Report:

- A. *MOP ENVIRONMENTAL SOLUTIONS, INC. Balance Sheet as of March 31, 2015*
- B. *MOP ENVIRONMENTAL SOLUTIONS, INC. Statement of Operations for the Three Months Ended March 31, 2015*
- C. *MOP ENVIRONMENTAL SOLUTIONS, INC. Statements of Cash Flows For the Three Months Ended March 31, 2015*
- D. *MOP ENVIRONMENTAL SOLUTIONS, INC. Statement of Changes in Stockholders' Equity For the Three Months Ended March 31, 2015*
- E. *MOP ENVIRONMENTAL SOLUTIONS, INC. Notes to Financial Statements March 31, 2015*
- F. *MOP ENVIRONMENTAL SOLUTIONS, INC. Management Certification March 31, 2015*

These financial statements are incorporated herein by this reference.

These documents may be found online at <http://www.otcmarkets.com/stock/MOPN/financials>

Information contained in a Financial Report is considered current until the due date for the subsequent Financial Report. To remain in the OTC Pink Current Information tier, a company must post its Annual Report within 90 days from its fiscal year-end date and Quarterly Reports within 45 days of its fiscal quarter-end date.

6) Describe the Issuer’s Business, Products and Services

Describe the issuer’s business so a potential investor can clearly understand the company. In answering this item, please include the following:

- A. a description of the issuer’s business operations;

The Company licenses technology for and manufactures and distributes MOP Maximum Oil

Pickup® (“MOP”), and a complete range of sorbent products including (“JPO 100) and (“JPO Ultra Blend”).

MOP Environmental Solutions, dba JPO Absorbents (the “Company”) offers an extensive line of sorbents that form the foundation of a family of oil spill cleanup products, oil filtration products and remediation processes that position the Company for growth in numerous multi-billion dollar markets: oil companies and their downstream subsidiaries and allies; companies with on scene oil spill containment and remediation needs, (on land and in water); post spill oil clean-up operations (even years after the polluting event); industrial coolant filtration and recycling systems; companies with compliance requirements related to government and/or industry mandates; environmental consulting and protection companies and organizations; and, direct to consumer household products ranging from garage spills and oil change to kitchen compost products.

One of the Company’s products named “MOP ® Maximum Oil Pickup” is the most effective and environmentally sound oil spill remediation product on the planet. It is made from 100% recycled and biodegradable materials, including “recovered materials” the EPA’s highest priority item for recycling, MOP is a Cradle-to-Cradle “Green” product that soaks up oil, repels water and allows for the useful recovery of up to 95% of the oil in a condition as pure or more pure than the original spill.

MOP Maximum Oil Pickup is an aggressive oleophilic and hydrophobic (oil attracting and water repelling) sorbent made from recycled and fully biodegradable materials, manufactured using small-scale hydroelectric green energy. MOP’s properties are such that it can effectively deal with oil spills the size of the BP Horizon Gulf Oil Spill yet is equally effective at cleaning up oil spills off a garage floor.

MOP is a completely environmentally friendly line of products that can be safely used to clean up oil spills in an extremely cost effective “green” fashion that is unrivalled anywhere in the world and it costs a fraction of the more costly ineffective chemical solutions. MOP products can be completely recycled by a number of processes:

- Bioremediation in a land farm
- Burning as a fuel in an appropriate biomass system
- Composting or pelletizing the material for use in a stove.
- In most US states, it can also be simply disposed of as you would any other solid waste.

The unique products, MOP ® Maximum Oil Pickup”, “JPO Ultra Blend Series” and “JPO 100 Series”, the patent protection for the product, and a growing chain of distribution locations, position the Company for exponential growth as they address all oil spill needs in three multi-billion dollar markets:

- 1 Commercial Industrial – Every company with machinery, a truck, auto or ship fleet, or more than 500 gallons of storage of liquid hydrocarbon has a need for MOP.
- 2 International Spill Response – MOP as the First Response is promoted as “The

Best Option for All Oil Spills on Land or Water”

3 Direct to the Consumer – Ideal for leaks and spills from Auto, RV, Motorized Home Equipment and Used Cooking Oils.

B. Date and State (or Jurisdiction) of Incorporation:

MOP Environmental Solutions, Inc. is a Nevada corporation doing business as JPO Absorbents. The Issuer was originally incorporated on June 8, 1999 in the State of Delaware as Distributed Logic Corp. On August 12, 2004 the Company became a Nevada Corporation through a merger with Istron Technologies and changed its name to Speedteq-Ti on November 19, 2004. Effective June 1, 2006, the Issuer changed its name to Cengroup Petroleum Corporation. Effective November 6, 2007, the Issuer changed its name to MOP Environmental Solutions, Inc. Effective July 30, 2014, JPO Companies Inc. merged with MOP Environmental Solutions Inc. and became “MOP Environmental Solutions, dba JPO Absorbents”.

C. the issuer’s primary and secondary SIC Codes;

The issuer’s primary SIC code is 3463. The issuer currently does not have a secondary SIC code.

D. the issuer’s fiscal year end date;

The Issuer’s fiscal year end date is December 31.

E. principal products or services, and their markets;

MOP Environmental Solutions, Inc. licenses technology for and manufactures and distributes “MOP ® Maximum Oil Pickup”, “JPO Ultra Blend Series” and “JPO 100 Series.” MOP Maximum Oil Pickup is an aggressive oleophilic and hydrophobic (oil attracting and water repelling) sorbent made from recycled and fully biodegradable materials, manufactured using small-scale hydroelectric green energy. MOP’s properties are such that it can effectively deal with oil spills the size of the BP Horizon Gulf Oil Spill yet is equally effective at cleaning up oil spills off a garage floor. MOP picks up to several times its own weight in oil, without absorbing water. MOP restores traction on slippery surfaces. MOP offers a fast, safe, low-cost way to restore a clean, natural environment from any oil spill, indoors, outdoors, on land or water in all weather conditions, and uniquely can pay for itself from the offsetting revenues of its oil recovery option. MOP is an environmentally friendly line of products that can be safely used to clean up oil spills in an extremely cost effective “green” fashion and it costs a fraction of the more costly ineffective chemical solutions.

MOP Environmental Solutions, Inc. addresses All Oil Spill Needs in Three Multi-Billion Dollar Markets.

- Direct to the Consumer – Ideal for leaks and spills from Auto, RV, Motorized Home Equipment and Used Cooking Oils.*
- Commercial Industrial – Every company with machinery, a truck, auto or ship fleet, or more than 500 gallons of storage of liquid hydrocarbon has a need for MOP.*
- International Spill Response – MOP is promoted as “The Best Option for All Oil*

Spills on Land or Water.”

MOP PRODUCTS AND BENEFITS

MOP 201 (plain brown in color) - A unique blend that is optimized to remove every trace of oil from the surface of water-including oil sheen. The aggressive holding properties will not allow MOP to release oil back into the environment.

- *100% biodegradable, 100% organic and recycled, immediately begins to absorb oil on contact, repels water and does not sink. Waves and weather enhance absorption and does not require “hazardous waste disposal.”*
- *Can be spread and cleaned by hand (for small spills) or brushed into a larger spill using a simple broom. Use enough MOP 201 to cover the spill and work MOP 201 into spill to completely absorb the spill.*
- *Since all the components of MOP 201 are fully biodegradable, the byproducts of any cleanup—that does not involve any additional toxic agent—does not require treatment as a hazardous material.*
- *Used MOP 201 can be directly tilled into a soil farm disposal system. This can be done with oil laden MOP 201 or after absorbed oil has been recovered.*
- *MOP 201 is compostable. Naturally occurring microbes within a composting system will work to fully remediate the used MOP 201 and can be composted.*
- *MOP 201 is burnable. Once oil is removed from the saturated MOP 201, it can be burned as fuel. It can be disposed of safely as solid waste.*

MOP 301 (brown/green in color) - A unique blend that is optimized to remove every trace of oil from land and hard surfaces like concrete and asphalt. MOP 301 will immediately restore traction and re-establish safe footing on smooth surfaces. The aggressive holding properties will not allow MOP 301 to release oil back into the environment.

- *100% biodegradable, organic and recycled. It immediately begins to absorb oil on contact, repels water, does not sink, contains traction restoring grit and removes old stains on smooth surfaces over time and does not require “hazard waste disposal.”*
- *Can be spread and cleaned by hand (for small spills) or brushed into a larger spill using a simple broom. Use enough MOP 301 to cover the spill and work MOP 301 into spill to completely absorb the spill. Since all the components of MOP 301 are fully biodegradable, the byproducts of any cleanup—that does not involve any additional toxic agent—does not require treatment as a hazardous material.*
- *Used MOP 301 can be directly tilled into a soil farm disposal system. This can be done with oil laden MOP301 or after absorbed oil has been recovered.*
- *MOP 301 is compostable. Naturally occurring microbes within a composting system will work to fully remediate the used MOP. Both MOP 301 and 201 can be composted.*
- *It is burnable. Once oil is removed from the saturated MOP 301, it can be burned as fuel and can be disposed as solid waste.*

MOP 401 (gray in color) - A unique blend that is optimized to remove every trace of oil from land and hard surfaces like concrete and asphalt. MOP 401 will immediately restore traction and re-establish safe footing on smooth surfaces. The aggressive holding properties will not

allow MOP to release oil back into the environment.

- *100% biodegradable, and is 100% organic and recycled. It immediately begins to absorb oil on contact. It absorbs both oil based and water based liquids and does not require "hazardous waste disposal."*
- *Can be spread and cleaned by hand (for small spills) or brushed into a larger spill using a simple broom. Use enough MOP to cover the spill and work MOP into spill to completely absorb the spill. Since all the components of MOP 401 are fully biodegradable, the byproducts of any cleanup—that does not involve any additional toxic agent—does not require treatment as a hazardous material.*
- *Used MOP 401 can be directly tilled into a soil farm disposal system. This can be done with oil laden MOP 401 or damaged oil drums in industrial interior wastewater sanitation plant after absorbed oil has been recovered.*
- *MOP 401 is compostable. Naturally occurring microbes within a composting system will work to fully remediate the used MOP; MOP 401, MOP 301 and MOP 201 can be composted.*
- *MOP 401 is burnable. Once oil is removed from the saturated MOP 401, it can be burned as fuel. It can be disposed as solid waste.*

MOP Plus

- *MOP Plus is a proprietary blend of super absorbing ingredients including patented MOP absorbents.*
- *MOP Plus is specifically formulated for the oil and gas industry in response to the need for an affordable way to address the waste problem associated with oil or water base cuttings as well as any other application where drying out substrates is required.*
- *MOP Plus has distinct advantages because it is lighter and more absorbent than any of the existing alternatives including fly ash, sand, clay and other similar absorbents.*
- *Vigorous testing of MOP Plus has shown that when it comes to remediation, MOP Plus is more cost effective than these and many other commonly used absorbents.*
- *MOP Plus offers the dual advantages of requiring less absorbent to address each day's waste production and dramatically reducing the shipping costs associated with both the delivery of the newly manufactured absorbent and disposal of the used absorbent.*

JPO PRODUCTS AND BENEFITS

JPO Ultra Blend - When it comes to quickly and cost-effectively cleaning up spills and leaks and removing waste Ultra Blend Absorbent delivers a level of performance you may not have thought possible. Ultra Blend possess extraordinary holding power for cleaning up spills of virtually any liquid, on any surface, and in any industry, at a competitive price.

- *Compatible with 325+ types of liquids! Ultra Blend Absorbent is a major weapon in your cleanup arsenal. Ultra Blend can clean up oil spills and over 325 other toxic substances.*
- *Superior performance at an economical price. Ultra Blend Absorbent has the highest absorption rate compared to conventional products. Just one 2.2-cubic-foot bag will absorb up to 12 gallons of oil or petroleum-based liquids.*
- *Safe for onshore and offshore use. Ultra Blend Absorbent is extremely versatile. Ultra Blend Absorbent almost instantly absorbs virtually any type of petroleum spill on*

water, soil, grass, and solid surfaces.

- *Improve safety and compliance. The dollars spent on absorbent products are insignificant compared to the cost and liability of a mishap that occurs from improper or incomplete cleanup and disposal. Worker injuries lead to lost productivity, worker's compensation claims, health care bills, lawsuits, and more.*
- *Waste minimization. Ultra Blend Absorbent can help significantly minimize waste because it weighs less and absorbs more than most competitive absorbents, thereby reducing the reportable tonnage of waste shipped offsite.*
- *Fuel blend ability. A unique feature of Ultra Blend Absorbent is its ability to be fuel blended. That's because Ultra Blend Absorbent has a BTU value greater than 13,000 BTUs per pound. Ultra Blend Absorbent is readily dispersible with fuel liquids. It can be transported in bulk tankers without significant tank settling problems, and in many instances, it enhances the BTU value of the fuel sent to the cement kiln. And because of the unique qualities of Ultra Blend Absorbent, the waste generator can also expect favorable economies in disposal costs.*
- *Biodegradable & Landfill-Friendly. Can be safely used in landfills and Reduces disposal costs by up to 75% when compared to clay*

JPO 100 Products and Benefits - Now cleaning up oil spills can be done quickly, easily, and cost effectively. All you need is JPO 100 and a broom! Oil spills don't stand a chance against JPO 100. JPO 100 almost instantly solidifies any type of petroleum spill on water, soil, grass, and solid surfaces. The competition doesn't stand a chance against JPO 100. JPO 100 has the highest absorption rate compared to conventional products.

- *Cleanup Spills on Land and Waterways. Oil spills don't stand a chance against JPO 100. JPO 100 almost instantly absorbs any type of petroleum spill on water, soil, grass, and solid surfaces.*
- *JPO 100 is extremely economical. JPO 100 has the highest absorption rate compared to conventional products. Just one 2.0-cubic-foot bag will absorb up to 12 gallons of oil or petroleum-based liquids.*
- *Natural Fibers solidify oil on contact. JPO 100 Oil Containment Socks have natural fibers that transform oil into a solid mass on contact. Inside the sock, a solid barrier is formed, resulting in total containment and zero escape of the oil.*
- *All-natural cleanup technology. Can be safely used in landfills and Reduces disposal costs by up to 75% when compared to clay.*

- *Bio-remedial. JPO 100 contains hydrocarbon-eating microbes. Before the JPO 100 naturally degrades the microbes in the JPO 100 will have digested absorbed hydrocarbons, leaving no harmful hydrocarbons.*
- *Biodegradable. Can be safely used in landfills and Reduces disposal costs by up to 75% when compared to clay.*

7) Describe the Issuer's Facilities

The goal of this section is to provide a potential investor with a clear understanding of all assets, properties or facilities owned, used or leased by the issuer.

In responding to this item, please clearly describe the assets, properties or facilities of the issuer, give the location of the principal plants and other property of the issuer and describe the condition of the properties. If the issuer does not have complete ownership or control of the property (for example, if others also own the property or if there is a mortgage on the property), describe the limitations on the ownership.

If the issuer leases any assets, properties or facilities, clearly describe them as above and the terms of their leases.

The issuer has no significant assets, properties or facilities which it owns. The Company has no leases, beyond month to month rental agreements that are terminable at will. The issuer utilizes the following facilities at the below stated monthly cost:

*Main office
111 Reef Road
Fairfield, CT 06824
\$1250/month*

*Cube Smart
873 Main Street
Monroe, CT 06468
\$673/month*

*Right Choice Fulfillment, LLC
25 Trefoil
Trumbull, CT 06611
\$2500/month*

*Storage Mart
15201 Antioch Road
Overland Park, KS 66623
\$355/month*

8) Officers, Directors, and Control Persons

The goal of this section is to provide an investor with a clear understanding of the identity of all the persons or entities that are involved in managing, controlling or advising the operations, business development and disclosure of the issuer, as well as the identity of any significant shareholders.

A. Names of Officers, Directors, and Control Persons. In responding to this item, please provide the names of each of the issuer's executive officers, directors, general partners and control persons (control persons are beneficial owners of more than five percent (5%) of any class of the issuer's equity securities), as of the date of this information statement.

James P. O'Brien, Fairfield, Connecticut

Mr. James P. O'Brien serves as Chairman of the Board of Directors and is the President (CEO), Secretary and Treasurer of the Company. Mr. O'Brien has served as the CEO and Director for MOP since May 2013. Mr. O'Brien is also a control person, beneficially owning 67.68% of the Issuer's common stock.

James E. Reck, Fairfield, Connecticut

Mr. James E. Reck serves as the Company's Vice President of Operations and a Member of the Board of Directors of the Company. Mr. Reck has served as a Director since the merger, July

30, 2014.

Reuven I. Rubinson, San Diego, CA

Mr. Reuven I Rubinson serves as the Chief Financial Officer (CFO) and CPA of the company, Mr. Rubinson was previously CPA of the company starting in October 2010 and became the CFO and a board member in October, 2011. He resigned those positions in May, 2013. He resumed as CPA September, 2013 and was appointed as Chief Financial Officer in October, 2014

Coleen G. Grooms, Little Elm, TX

Ms. Coleen G. Grooms is a control person, beneficially owning 146,932,843 shares; approximately 8% of the Issuer's common stock.

B. Legal/Disciplinary History. Please identify whether any of the foregoing persons have, in the last five years, been the subject of:

1. A conviction in a criminal proceeding or named as a defendant in a pending criminal proceeding (excluding traffic violations and other minor offenses);

None of the foregoing persons have been the subject of a conviction in a criminal proceeding or named as a defendant in a pending criminal proceeding in the last five years.

2. The entry of an order, judgment, or decree, not subsequently reversed, suspended or vacated, by a court of competent jurisdiction that permanently or temporarily enjoined, barred, suspended or otherwise limited such person's involvement in any type of business, securities, commodities, or banking activities;

None of the foregoing persons have been the subject of any order, judgment, or decree, that permanently or temporarily enjoined, barred, suspended or otherwise limited such a person's involvement in any type of business, securities, commodities, or banking activities in the last five years.

3. A finding or judgment by a court of competent jurisdiction (in a civil action), the Securities and Exchange Commission, the Commodity Futures Trading Commission, or a state securities regulator of a violation of federal or state securities or commodities law, which finding or judgment has not been reversed, suspended, or vacated; or

None of the foregoing persons have been the subject of a finding or judgment, by a court of competent jurisdiction (in a civil action), the Securities and Exchange Commission, the Commodity Futures Trading Commission, or a state securities regulator of a violation of federal or state securities or commodities law, which finding or judgment has not been reversed, suspended, or vacated in the last five years.

4. The entry of an order by a self-regulatory organization that permanently or temporarily

barred suspended or otherwise limited such person's involvement in any type of business or securities activities.

None of the foregoing persons have been the subject of any order by a self-regulatory organization that permanently or temporarily barred, suspended or otherwise limited such person's involvement in any type of business or securities activities.

C. Beneficial Shareholders. Provide a list of the name, address and shareholdings or the percentage of shares owned by all persons beneficially owning more than ten percent (10%) of any class of the issuer's equity securities. If any of the beneficial shareholders are corporate shareholders, provide the name and address of the person(s) owning or controlling such corporate shareholders and the resident agents of the corporate shareholders.

<i>Shareholder Name</i>	<i>Shareholder Address</i>	<i>No. of Shares</i>	<i>Percentage</i>
<i>James P. O'Brien</i>	<i>185 Hunyadi Ave., Fairfield, CT 06824</i>	<i>1,062,945,590</i>	<i>58%</i>
