1. Description of Business and Nature of Operations

GSI Systems Inc. (formerly Gatekeeper Systems Inc.) ("GSI", or "Gatekeeper") was incorporated under the laws of the Province of British Columbia under the name of RDR Marketing Ltd. on July 7, 1992. The Company subsequently changed its name to Dyment & Associates Marketing Ltd. and later to Gatekeeper Systems Inc. On April 26, 2013, Gatekeeper changed its name to GSI Systems Inc.

Gatekeeper Systems Inc. (formerly Indigo Sky Capital Corporation) ("Indigo") was incorporated under the provisions of the Business Corporations Act in the Province of British Columbia on August 26, 2010. On January 7, 2011, Indigo's common shares were listed on the TSX Venture Exchange ("TSX-V") under the symbol "IDS.P". On May 28, 2013, Indigo changed its name to Gatekeeper Systems Inc. and its trading symbol on the TSX-V to "GSI".

On February 19, 2013, Indigo completed its qualifying transaction (the "Qualifying Transaction") with Gatekeeper. Pursuant to the Qualifying Transaction, Indigo acquired all of the issued and outstanding common shares and Class A preferred shares of Gatekeeper, whereby former Gatekeeper shareholders received one common share of Indigo for each Gatekeeper common share held and one special warrant ("Special Warrant") of Indigo for each Gatekeeper Class A preferred share held. Special Warrants were convertible into preferred shares of Indigo for no additional consideration. The outstanding common share purchase warrants of Gatekeeper were also exchanged for common share purchase warrants of Indigo on a 1:1 basis. In addition, all outstanding Gatekeeper stock options were cancelled and Indigo stock options were issued as replacement options under new terms.

Upon closing of the Qualifying Transaction, the shareholders of Gatekeeper owned 90% of the issued and outstanding common shares of Indigo, on a diluted basis, and as a result, the Qualifying Transaction is considered a reverse acquisition of Indigo by Gatekeeper (see note 6), where Gatekeeper is considered the acquirer and Indigo is the acquiree for accounting purposes. As a result, these consolidated financial statements are a continuation of the financial statements of Gatekeeper and references to the "Company" will mean the combined entity subsequent to the date of the Qualifying Transaction and to Gatekeeper prior to that date.

The Company's interim condensed consolidated financial statements as at February 28, 2018 and for the period then ended have been prepared on a going concern basis, which contemplates the realization of assets and settlement of liabilities and commitments in the normal course of business. The Company has a net loss of \$567,582 and \$822,026 for the three and six months ended February 28, 2014 (2013 – \$1,181,283 and \$1,449,175) and has a working capital of \$1,368,199 at February 28, 2014 (August 31, 2013 – \$755,199).

The Company had cash and cash equivalents of \$426,343 at February 28, 2014 (August 31, 2013 – \$191,104), but management cannot provide assurance that the Company will ultimately achieve profitable operations or become cash flow positive, or raise additional debt and/or equity capital. If the Company is unable to raise additional capital in the future, management expects that the Company will need to curtail operations, liquidate assets, seek additional capital on less favourable terms and/or pursue other remedial measures. Management is aware, in making its assessment, of material uncertainties related to events or conditions that may cast significant doubt upon the Company's ability to continue as a going concern. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

The Company specializes in design, manufacturing and marketing of total video security solutions for mobile and extreme environments.

The head office and principal address is located at Suite 301, 31127 Wheel Avenue, Abbotsford, British Columbia, V2T 6H1. Also, the registered and records office is located at 10th floor, 595 Howe Street Vancouver, British Columbia, V6C 2T5.

2. (a) Basis of Preparation and Statement of Compliance

These interim condensed consolidated financial statements have been prepared in accordance with IAS 34 Interim Financial Reporting. Other than as described in note 3, these interim financial statements follow the same accounting policies and methods of computation as compared with the most recent annual financial statements, being for the year ended August 31, 2013, which were prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"). Accordingly, these condensed interim consolidated financial statements should be read in conjunction with the Company's most recent annual financial statements. These condensed interim condensed consolidated financial statements were approved for issuance by the Board of Directors on April 24, 2014.

These consolidated financial statements have been prepared on a going concern basis under the historical cost method, except for derivative financial instruments, stock-based compensation and certain financial assets which have been measured at fair value. All figures are expressed in Canadian dollars unless otherwise indicated.

(b) Prior Period Adjustments

During the fourth quarter of the year ended August 31, 2013, the Company finalized the accounts associated with the reverse acquisition (see note 6), as a result the listing expense was adjusted from \$689,755 to \$683,038. For the comparative three and nine months ended February 28, 2013, net loss was reduced by \$6,717. There is no impact to loss per share in the prior period. The nature and extent of the prior period adjustment is not considered material and has no pervasive impact on the financial statements.

(c) Comparative Figures

Certain comparative figures in 2013, with respect to operating expenses, have been reclassified in accordance with the current period's presentation. There is no impact to Net Loss and Comprehensive Loss in the prior period.

3. New and Revised Accounting Standards

The following new and revised standards and amendments are effective for annual periods beginning on or after January 1, 2013, and accordingly have now been adopted by the Company. The adoption of these standards and amendments has had no significant impact on the Company's condensed interim consolidated financial statements.

- (i) IFRS 10 'Consolidated Financial Statements' is a new standard effective for annual periods beginning on or after January 1, 2013 that replaces consolidation requirements in IAS 27 (as amended in 2008) and SIC-12.
- (ii) IFRS 11 'Joint Arrangements' is a new standard effective for annual periods beginning on or after January 1, 2013 that replaces IAS 31 and SIC-13.
- (iii) IFRS 12 'Disclosure of Interests in Other Entities' is a new standard effective for annual periods beginning on or after January 1, 2013 that replaces disclosure requirements in IAS 27 (as amended in 2008), IAS 28 (as revised in 2003) and IAS 31.
- (iv) IFRS 13 'Fair Value Measurement' is a new standard effective for annual periods beginning on or after January 1, 2013 that replaces fair value measurement guidance in other IFRSs.
- (v) IAS 19 (Amendment) 'Employee Benefits' is effective for annual periods beginning on or after January 1, 2013 and revises recognition and measurement of post-employment benefits.
- (vi) IAS 27 (Amendment) 'Separate Financial Statements' is effective for annual periods beginning on or after January 1, 2013 that prescribes the accounting and disclosure requirements for investments in subsidiaries, joint ventures and associates when an entity prepares separate financial statements.

(vii) IAS 28 (Amendment) 'Investments in Associates and Joint Ventures' is effective for annual periods beginning on or after January 1, 2013 that prescribes the accounting for investments in associates and sets out the requirements for the application of the equity method when accounting for investments in associates and joint ventures.

4. Accounting Standards and Amendments Issued but Not Yet Adopted

At the date of authorization of these condensed interim consolidated financial statements, the IASB and IFRIC has issued the following new and revised standards, amendments and interpretations which are not yet effective during the year ended August 31, 2014:

- (i) IFRS 9 'Financial Instruments: Classification and Measurement' is a new financial instruments standard effective for annual periods beginning on or after January 1, 2015 that replaces IAS 39 and IFRIC 9 for classification and measurement of financial assets and financial liabilities.
- (ii) IAS 32 (Amendment) 'Financial Instruments: Presentation' is effective for annual periods beginning on or after January 1, 2014 and revises certain aspects of the requirements on offsetting.

The Company has not early adopted these standards, amendments and interpretations and anticipates that the application of these standards, amendments and interpretations will not have a material impact on the consolidated financial position and financial performance of the Company.

5. Significant Accounting Judgments and Estimates

The preparation of the Company's condensed interim consolidated financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the reported amounts of assets, liabilities and contingent liabilities at the date of the consolidated financial statements and reported amounts of income and expenses during the reporting period. Estimates and assumptions are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. However, actual outcomes can differ from these estimates.

Areas requiring a significant degree of estimation and judgment relate to the fair value measurements for financial instruments and share-based payments, the recoverability and measurement of deferred tax assets and liabilities, inventory valuation and ability to continue as a going concern. Actual results may differ from those estimates and judgments.

(a) Allowances for Doubtful Accounts

The Company must make an assessment of whether trade receivables are collectible from customers. Accordingly, management establishes an allowance for estimated losses arising from non-payment, taking into consideration customer credit, current economic trends and past experience. If future collections differ from estimates, future earnings would be affected.

(b) Inventory Valuation

The Company adjusts inventory values so that the carrying values do not exceed the net realizable value. The valuation of inventory at the lower of cost or net realizable value requires the use of estimates with regards to the amount of current inventory that will be sold, the prices at which it will be sold, and an estimate of expected orders from customers. Additionally, the estimates reflect changes in products or changes in demand because of various factors, including the market for products, obsolescence, change in product offerings, technology changes and competition.

(c) Warranty Reserve

Provisions are made at the time of sale for warranties, which are based on historical experience and are regularly monitored. If estimates for warranties and returns are too low, additional charges could be incurred in future periods and these additional charges could have a material adverse effect on the financial position and results of operations.

6. Reverse Acquisition

Indigo successfully completed its Qualifying Transaction with Gatekeeper on February 19, 2013. Pursuant to the Qualifying Transaction, Indigo acquired all of the issued and outstanding common shares and Class A preferred shares of Gatekeeper whereby former Gatekeeper shareholders received one common share of Indigo for each Gatekeeper common share held and one Special Warrant of Indigo for each Gatekeeper Class A preferred share held. The Special Warrants were convertible into Class A preferred shares of Indigo for no additional consideration. The outstanding common share purchase warrants of Gatekeeper were also exchanged for common share purchase warrants of Indigo on a 1:1 basis (see note 12). In addition, all outstanding stock options of Gatekeeper were cancelled and Indigo stock options were issued as replacement options under new terms (see note 13). During the year ended August 31, 2013, all Special Warrants were converted into Class A preferred shares of Indigo.

As a result of the Qualifying Transaction, the shareholders of Gatekeeper owned approximately 90% of the issued and outstanding common shares of Indigo on a diluted basis. For accounting and reporting purposes, Gatekeeper is the accounting acquirer and Indigo is the accounting acquiree because of the significant holdings and influence of the control group of Gatekeeper before and after the Qualifying Transaction. The reverse acquisition has been accounted for as a share-based payment transaction on the basis that Indigo did not meet the definition of a business because Indigo is a shell based company with no ongoing business operations. As a result, the difference between the fair value of the consideration deemed to have been paid by the accounting acquirer and the fair value of the identifiable net assets of the accounting acquiree is expensed.

The results of operations of Indigo are included in the consolidated financial statements from February 19, 2013, the date of the reverse acquisition.

The net assets acquired at fair value on February 19, 2013 are as follows:

Consideration paid	
2,800,000 common shares	\$ 700,000
280,000 stock options	31,758
	731,758
Less: Value of net assets	
Cash	52
Amounts receivable	281,699
Trade and other payables	(233,031)
	(48,720)
Listing expense	\$ 683,038

The fair value of the stock options have been estimated using the Black-Scholes Option Pricing Model assuming a risk free interest rate of 1.78% per annum, an expected life of 7.89 years, an expected volatility of 38.63%, and no expected dividend. The expected volatility was determined using the average historical volatility of similar listed entities on the basis that the Company has limited historical information.
