Item 15 Management's Plan Of Operation.

A. Plan of Operation.

During the next twelve months, the Company plans to (1) seek possible acquisitions, joint ventures, as well as utilizing it's advisers to locate several mining properties for future exploration and development of gold and silver rich deposits and those, (2) build a firm foundation to grow and expand the operations.

During the next 6 months, the Company will assemble qualified and experienced management team and reevaluate its entire projects to successfully manage its business. However, there are no expected significant changes in the number of employees over the next twelve months, as most of the professionals hired thus far have been hired as third-party consultants and not as in-house employees.

A discussion of how long the issuer can satisfy its cash requirements and whether it will have to raise additional funds in the next twelve months.

The Company has identified several areas requiring capital.

The Company does not have a sufficient amount of cash to fund our operations for the next six months. The Company seeks additional financing, either through the sale of shares or the receipt of loans. Most specifically financing will be used to finance the completion of the acquisition of properties and the tests related to these properties; and funding to give the Company the capacity to establish a larger, more aggressive operations.

We cannot guarantee that we will complete any particular acquisition or joint venture or, if completed, we cannot assure any acquisition or joint venture will be successful.

B. Management's Discussion and Analysis of Financial Condition and Results of Operations.
(2015Q3 Quarterly Report)

In 2014 Q4 it was determined that it was in the best interest of Polaris International Holdings, Inc. and Staff IS Co., Ltd. to terminate Business Transfer Agreement entered into on September 23, 2009. The Termination Agreement was entered into on July 31, 2014 despite the Company's revenues had been generated from IT business of Staff IS Co., Ltd. In 2014Q4, the Company determined to pursue a mineral exploration business.

In 2015 Q3, the Company determined to terminate an exclusive agreement with Longevity Holdings, LLC for the ProCannas® product line entered into 2014 Q2 when Patrick Thomas resigned as COO. The Company will focus on its mineral exploration business while continuing to maintain its consulting business. The Company retained two people as an independent outside consultant for a mining business. Additionally, the Company continues to pursue other business opportunities.

The Company and its business advisers have extensively researched the mining exploration sector. The Company signed a letter of intent to purchase from a private party, a 20 acre unpatented Lode Mining Claim located in Granite County Montana on Forest Service and BLM Ground on December 10, 2014. This is one of several mining claim properties identified for either lease or purchase by the Company.

The Company will seek possible acquisitions, joint ventures, as well as utilizing it's advisers to locate mining properties for future exploration and development of gold, silver and base metal rich deposits. The Company's main focus will be identifying historically rich deposits in Nevada, Idaho and Montana in U.S.A. and Sineloa in Mexico for further exploration, testing and development. The Company’s primary goal is to generate substantial revenues and profits for the Company while increasing shareholder value and stability on behalf of its shareholders.

In the next six months additional financing is expected to be raised through either shareholder right offerings, secondary offerings that consist of private individuals and institutions (otherwise known as PIPE’s: Private Equity into Public Entity), conversion of debt to equity and or issuing warrants. This is scheduled to occur during this year. This will provide the bulk of the financing required to grow operations at the planned rate.

There is no assurance the Company will be able to raise any of the funds required to finance the expansion of its businesses either in this or any other period. The failure to obtain future financing or to produce levels of revenue to meet our financial needs could result in our inability to grow and expand our business.
