

OTC Pink® Basic Disclosure Guidelines

Federal securities laws, such as Rules 10b-5 and 15c-11 of the Securities Exchange Act of 1934 (“Exchange Act”) as well as Rule 144 of the Securities Act of 1933 (“Securities Act”), and state Blue Sky laws, require issuers to provide *adequate current information* to the public markets. With a view to encouraging compliance with these laws, OTC Markets Group has created these OTC Pink Basic Disclosure Guidelines. We use the basic disclosure information provided by OTC Pink companies under these guidelines to designate the appropriate tier in the OTC Pink marketplace: Current, Limited or No Information. OTC Markets Group may require companies with securities designated as Caveat Emptor to make additional disclosures in order to qualify for OTC Pink Current Information tier.

USA Real Estate Holding Company
Notes to Consolidated Financial Statements
December 31, 2015
(Unaudited)

NOTE 1 – ORGANIZATION AND DESCRIPTION OF BUSINESS

USA Real Estate Holding Company (the “Company”) was incorporated in Delaware on February 3, 2009. The Company was formed for the purpose of investing in real estate.

On May 1, 2015, the Company entered into a Purchase and Sale Agreement whereby it purchased 100% of Optic Panda, an Ontario sole proprietorship, for 25,000 shares of Series B Preferred stock.

On June 1, 2015, the Company entered into a Purchase and Sale Agreement whereby it purchased 100% of Earthsgift, an Ontario sole proprietorship, for 25,000 shares of Series B Preferred stock.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The Company’s unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”). The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from those estimates. The accompanying unaudited financial statements reflect all adjustments, consisting of only normal recurring items, which, in the opinion of management, are necessary for a fair statement of the results of operations for the periods shown.

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Significant estimates include the estimated useful lives of property and equipment. Actual results could differ from those estimates.

Translation Adjustment

For the periods presented, the accounts of Optic Panda and Earthsgift were maintained, and its financial statements were expressed, in Canadian dollars. Such financial statements were translated into USD in accordance with the Foreign Currency Matters Topic of the Codification (ASC 830), with the CAD as the functional currency. According to the Codification, all assets and liabilities were translated at the current exchange rate at respective balance sheet dates, stockholders’ equity are translated at the historical rates and income statement items are translated at the average exchange rate for the period. The resulting translation adjustments are reported under other comprehensive income in accordance with the Comprehensive Income Topic of the Codification (ASC 220), as a component of shareholders’ equity. Transaction gains and losses are reflected in the income statement.

Comprehensive Income

The Company uses SFAS 130 “Reporting Comprehensive Income” (ASC Topic 220). Comprehensive income is comprised of net income and all changes to the statements of stockholders’ equity, except those due to investments by stockholders and changes in paid-in capital. Comprehensive income for the year ended December 31, 2015 is included in net income and foreign currency translation adjustments.

Principles of Consolidation

The consolidated financial statements include the accounts of USA Real Estate Holding Company and its wholly-owned subsidiaries Optic Panda and Earthsgifts. All significant intercompany accounts and transactions have been eliminated.

Cash equivalents

The Company considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents. There were no cash equivalents for the years ended December 31, 2015 or 2014.

Fair Value of Financial Instruments

We follow paragraph 825-10-50-10 of the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) for disclosures about fair value of its financial instruments and paragraph 820-10-35-37 of the FASB ASC to measure the fair value of our financial instruments. Paragraph 820-10-35-37 establishes a framework for measuring fair value U.S. GAAP and expands disclosures about fair value measurements. To increase consistency and comparability in fair value measurements and related disclosures, paragraph 820-10-35-37 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The fair value hierarchy gives the highest priority to quoted prices (unadjusted) in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The three levels of fair value hierarchy defined by paragraph 820-10-35-37 are described below:

Level 1: Quoted market prices available in active markets for identical assets or liabilities as of the reporting date.

Level 2: Pricing inputs other than quoted prices in active markets included in Level 1, which are either directly or indirectly observable as of the reporting date.

Level 3: Pricing inputs that are generally observable inputs and not corroborated by market data.

The carrying amount of financial assets and liabilities, such as cash, prepaid expenses, and accrued expenses, approximate their fair value because of the short maturity of those instruments. Notes payable approximate the fair value of such instruments based upon management's best estimate of interest rates that would be available to us for similar financial arrangements at December 31, 2015.

The Company does not have any assets or liabilities measured at fair value on a recurring or a non-recurring basis as of December 31, 2015 and 2014.

Stock-based Compensation

The Company accounts for equity-based transactions with nonemployees under the provisions of ASC Topic No. 505-50, *Equity-Based Payments to Non-Employees* ("ASC 505-50"). ASC 505-50 establishes that equity-based payment transactions with nonemployees shall be measured at the fair value of the consideration received or the fair value of the equity instruments issued, whichever is more reliably measurable. The fair value of common stock issued for payments to nonemployees is measured at the market price on the date of grant. The fair value of equity instruments, other than common stock, is estimated using the Black-Scholes option valuation model. In general, we recognize the fair value of the equity instruments issued as deferred stock compensation and amortize the cost over the term of the contract.

The Company accounts for employee stock-based compensation in accordance with the guidance of FASB ASC Topic 718, *Compensation—Stock Compensation*, which requires all share-based payments to employees, including grants of employee stock options, to be recognized in the financial statements based on their fair values. The fair value of the equity instrument is charged directly to compensation expense and credited to additional paid-in capital over the period during which services are rendered.

Revenue Recognition

The Company follows paragraph ASC 605-10-S99-1 for revenue recognition. We will recognize revenue when it is realized or realizable and earned. We consider revenue realized or realizable and earned when all of the following criteria are met: (i) persuasive evidence of an arrangement exists; (ii) the product has been shipped or the

services have been rendered to the customer; (iii) the sales price is fixed or determinable; and (iv) collectability is reasonably assured.

Income taxes

The Company follows Section 740-10-30 of the FASB Accounting Standards Codification, which requires recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been included in the financial statements or tax returns. Under this method, deferred tax assets and liabilities are based on the differences between the financial statement and tax bases of assets and liabilities using enacted tax rates in effect for the fiscal year in which the differences are expected to reverse. Deferred tax assets are reduced by a valuation allowance to the extent management concludes it is more likely than not that the assets will not be realized. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the fiscal years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the Statements of Income in the period that includes the enactment date.

The Company adopted section 740-10-25 of the FASB Accounting Standards Codification (“Section 740-10-25”) with regards to uncertainty income taxes. Section 740-10-25 addresses the determination of whether tax benefits claimed or expected to be claimed on a tax return should be recorded in the financial statements. Under Section 740-10-25, the Company may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such a position should be measured based on the largest benefit that has a greater than fifty percent (50%) likelihood of being realized upon ultimate settlement. Section 740-10-25 also provides guidance on de-recognition, classification, interest and penalties on income taxes, accounting in interim periods and requires increased disclosures. The Company had no material adjustments to its liabilities for unrecognized income tax benefits according to the provisions of Section 740-10-25.

Net income (loss) per common share

Net income (loss) per common share is computed pursuant to section 260-10-45 of the FASB Accounting Standards Codification. Basic net income (loss) per common share is computed by dividing net income (loss) by the weighted average number of shares of common stock outstanding during the period. Diluted net income (loss) per common share is computed by dividing net income (loss) by the weighted average number of shares of common stock and potentially outstanding shares of common stock during the period. The weighted average number of common shares outstanding and potentially outstanding common shares assumes that the Company incorporated as of the beginning of the first period presented.

The Company’s diluted loss per share is the same as the basic loss per share for the years ended December 31, 2015 and 2014, as the inclusion of any potential shares would have had an anti-dilutive effect due to the Company generating a loss.

Recently issued accounting pronouncements

The Company has implemented all new accounting pronouncements that are in effect. These pronouncements did not have any material impact on the financial statements unless otherwise disclosed, and the Company does not believe that there are any other new accounting pronouncements that have been issued that might have a material impact on its financial position or results of operations.

NOTE 3 – GOING CONCERN

The Company’s consolidated financial statements are prepared in accordance with generally accepted accounting principles applicable to a going concern. This contemplates the realization of assets and the liquidation of liabilities in the normal course of business. Currently, the Company does not have material assets, nor does it have operations or a source of revenue sufficient to cover its operating costs and allow it to continue as a going concern. The Company has an accumulated deficit of \$1,211,922. The Company will be dependent upon the raising of additional capital through placement of our common stock in order to implement its business plan, or merge with an operating company. There can be no assurance that the Company will be successful in either situation in order to continue as a going concern. These consolidated financial statements do not include any adjustments relating to the recoverability and classification of recorded assets or the amounts of and classification of liabilities that might be

necessary in the event the company cannot continue in existence. Accordingly, these factors raise substantial doubt as to the Company's ability to continue as a going concern.

NOTE 8 – INCOME TAXES

Deferred taxes are provided on a liability method whereby deferred tax assets are recognized for deductible temporary differences and operating loss and tax credit carry forwards and deferred tax liabilities are recognized for taxable temporary differences. Temporary differences are the differences between the reported amounts of assets and liabilities and their tax bases. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

The provision for Federal income tax consists of the following December 31:

	2015	2014
Federal income tax benefit attributable to:		
Current Operations	\$ 54,343	\$ 202,816
Less: valuation allowance	(54,343)	(202,816)
Net provision for Federal income taxes	\$ -	\$ -

The cumulative tax effect at the expected rate of 34% of significant items comprising our net deferred tax amount is as follows:

	<u>2015</u>	<u>2014</u>
Deferred tax asset attributable to:		
Net operating loss carryover	\$ 412,053	\$ 357,711

No tax benefit has been reported in the December 31, 2015 financial statements since the potential tax benefit is offset by a valuation allowance of the same amount.

Due to the change in ownership provisions of the Tax Reform Act of 1986, net operating loss carry forwards for Federal Income tax reporting purposes are subject to annual limitations. Should a change in ownership occur net operating loss carry forwards may be limited as to use in future years.
