

OTC Pink® Basic Disclosure Guidelines

Federal securities laws, such as Rules 10b-5 and 15c2-11 of the Securities Exchange Act of 1934 ("Exchange Act") as well as Rule 144 of the Securities Act of 1933 ("Securities Act"), and state Blue Sky laws, require issuers to provide *adequate current information* to the public markets. NOTES TO FINANCIAL STATEMENTS
September 30, 2017
(Unaudited)

NOTE 1 -BASIS OF PRESENTATION

Unaudited Financial Statements

The accompanying unaudited financial statements have been prepared in accordance with United States generally accepted accounting principles. They may not include all information and footnotes required by United States generally accepted accounting principles for complete financial statement disclosure. In the opinion of Management, all adjustments considered necessary for a fair presentation, consisting solely of normal recurring adjustments, have been made. These financial statements contain the balance sheet, statements of operations and cash flows, and equity statement of AVEW Holdings, Inc.

Going concern

These unaudited consolidated financial statements have been prepared in accordance with United States generally accepted accounting principles, on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities and commitments in the normal course of business. The continuing operations of the Company is dependent upon the ability of the Company to obtain necessary financing to fund its working capital requirements, and upon future profitable operations. The accompanying financial statements do not include any adjustments relative to the recoverability and classification of asset carrying amounts or the amount and classification of liabilities that might result from the outcome of this uncertainty. There can be no assurance that capital will be available as necessary to meet the Company's working capital requirements or, if the capital is available, that it will be on terms acceptable to the Company. The issuances of additional equity securities by the Company may result in dilution in the equity interests of its current stockholders. Obtaining commercial loans, assuming those loans would be available, will increase the Company's liabilities and future cash commitments. If the Company is unable to obtain financing in the amounts and on terms deemed acceptable, the business and future success may be adversely affected. Management intends to finance operating costs over the next twelve months with private placement of capital stock and loans.
