NOTE 2- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Operations

Gunther Grant, Inc. (the Company) is a holding company organized under the laws of the State of Delaware. Its only subsidiary is Got Chocolates, Inc., a wholly owned company organized under the laws of the State of New York. Got Chocolates, Inc. is engaged in the development, production, distribution and marketing of chocolates and various chocolate related items through retail and wholesale channels.

Basis of Financial Statement Presentation and Consolidation

The consolidated financial statements include the accounts of the Company and its wholly owned subsidiary, Got Chocolates, Inc. Intercompany transactions and accounts have been eliminated.

Reporting Period

The reporting period of these financial statements are for the three months ended September 30, 2017. The Company operates on a December 31st fiscal year end.

Property and Equipment

Property and equipment are stated at cost. Depreciation is computed on the straight –line method over the estimated useful lives of the related assets, ranging from five to ten years. Leasehold improvements are amortized over the lesser of the useful life or over the remaining lease period. Expenditures for maintenance and repairs are charged to expense as incurred.

Income Taxes

The Company accounts for income taxes in accordance with SFAS No. 109, Accounting for Income Taxes. Under the asset and liability method of accounting for income taxes deferred tax assets and liabilities are recognized for the future tax consequences. Accordingly, deferred tax assets and liabilities are determined based on the temporary differences between the financial statement and tax basis of assets and liabilities, using enacted tax rates in effect for the year in which the differences are expected to reverse.

Revenue Recognition

Revenue is recognized when services are rendered or when goods are shipped from production facilities to customers. Revenue is recognized when the following four criteria have been met: the service/product has been completed/shipped and the Company has no significant remaining obligations; persuasive evidence of an arrangement exists; the price to the buyer is fixed or determinable; and collection is probable. Deductions from sales for discounts are recorded as reductions of revenues and are provided for at the time of initial sale of product.

	September 30, 2017 (unaudited)
Numerator for basic and diluted loss per share:	
Net income available to common shareholders	\$ 3,250
Denominator for basic and diluted loss per common share:	
Weighted average common shares outstanding	<u>1,018,558,879</u>
Net loss per common share available to common Shareholders - basic and diluted	<u>\$ 0.00</u>

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure on contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.
