NOTES TO INTERIM CONSOLIDATED STATEMENTS
(in Canadian dollars)

(Unaudited and not reviewed by the Company's independent auditors)

June 30, 2018

1. STATUTES OF INCORPORATION AND NATURE OF OPERATIONS

Nippon Dragon Resources Inc. (hereafter the "Company") specializes in the exploration of metal in mining sites located in Quebec. In addition, the Company's mission is to introduce thermal fragmentation technology in the mining industry to enable the commercialization of this technology.

The Company is incorporated under the *Quebec Business Corporations Act*. The address of the Company's registered office and its principal place of business is 500-7055, boulevard Taschereau, Brossard (Quebec) J4Z 1A7. The Company's shares are listed on the TSX Venture Exchange under the symbol "NIP".

The condensed interim consolidated financial statements for the period ended June 30, 2018 (including comparative statements) were approved and authorized for issue by the Board of Directors on August 23, 2018.

2. GOING CONCERN

The accompanying condensed interim consolidated financial statements have been prepared using International Financial Reporting Standards ("IFRS") applicable to a going concern, which contemplates the realization of assets and settlement of liabilities in the normal course of business as they come due.

In assessing whether the going concern assumption is appropriate, management takes into account all available information about the future, which is at least, but not limited to, twelve months from the end of the reporting period. Management is aware in making its assessment of material uncertainties related to events and conditions that lend a significant doubt upon the Company's ability to continue as a going concern and accordingly, the appropriateness of the use of IFRS applicable to a going concern, as described in the following paragraph. These condensed interim consolidated financial statements do not reflect the adjustment to the carrying values of assets and liabilities, expenses and financial position classifications that would be necessary were the going concern assumption not appropriate. These adjustments could be material.

Given that the Company has not yet found a mineral property containing mineral deposits that are economically recoverable, the Company has not yet generated any income or cash flows from its mining properties. The Company generates revenues from its thermal fragmentation technology distribution, but these are not sufficient to ensure the sustainability of the Company. As at June 30, 2018, the Company has accumulated a deficit of \$56,777,426 (\$56,025,745 as at September 30, 2017) and has a working capital deficiency of \$5,794,158 (\$5,812,883 as at September 30, 2017).

Management considers that the cash balances are insufficient for the Company to continue operating. Any future funding shortfall may be met in a number of ways, including the issuance of new equity instruments, cost reductions and other measures such as the renegotiation of its debts and debentures or the disposal of mining properties. While management has been successful in securing financing in the past, there can be no assurance it will be able to do so in the future, that such sources of funding or initiatives will be available to the Company or that they will be available on terms acceptable to the Company. If management is unable to obtain new funding, the Company may be unable to continue its operations, and amounts realized for assets might be less than amounts reflected in these condensed interim consolidated financial statements.

The accompanying notes form an integral part of these condensed interim consolidated financial statements.

3. BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS AND COMPLIANCE TO IFRS

3.1 Statement of compliance

These condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standard ("IAS") 34 *Interim Financial Reporting* and are in accordance with IFRS as issued by the International Accounting Standards Board ("IASB"). These condensed interim consolidated financial statements therefore do not contain all of the information and notes required under IFRS for the purposes of the annual financial statements.

3.2 Presentation method

These condensed interim consolidated financial statements should be read in conjunction with the audited financial statements for the year ended September 30, 2017, which have been prepared in accordance with IFRS as published by the IASB. These unaudited condensed interim consolidated financial statements have been prepared using the accounting policies as set out in the audited annual consolidated financial statements for the year ended September 30, 2017.

On August 1, 2017, the Company entered into a joint-venture agreement with Val d'Or Resources Corporation ("VRC"). The joint venture will take effect once VRC secures funding in the amount of \$16,200,000 (not effective June 30, 2018) that will be dedicated to the Rocmec 1 and Denain properties. As a result of the joint-venture, VRC will hold 49% of the Company's subsidiary Rocmec Gold inc. while the Company will continue to hold the 51% left. As at June 30, 2018, the funds were not secured by VRC and as such, the Company still owned 100% of its subsidiary.

Respectively on September 22 and 27, 2017, the following claims and mining properties were transferred from the Company into Rocmec Gold inc. as requested by the joint-venture agreement:

100% of Rocmec 1 and its related claims
85 % of Denain and its related claims

Common share purchase options

The Company adopted a stock option plan (the "Plan") wherein the Board of Directors may from time to time grant options to its directors, administrators, employees and consultants to acquire common shares. The conditions and the exercise price of each option are determined by the Board of Directors.

The Plan states that the maximum number of common shares in the capital of the Company which may be reserved for issuance under the Plan is 10,748,106 common shares of the Company and the maximum number of common shares reserved for the granting of options to a single owner may not exceed 5% of the common shares outstanding at the date of the grant. Common shares reserved for consultants or eligible person responsible of investors' relations may not exceed 2% of the common shares outstanding at the date of the grant. Options must be exercised no later than five years after the grant date. The granted options are subject to a gradual vesting period of a sixth (1/6) per quarter except for those granted to consultants providing services for investors' relations which have a vesting period of twelve months for a maximum of a fourth (1/4) per quarter.

The exercise price of each option is determined by the Board of Directors and cannot be lower than the market value of the common shares on the grant date.

A summary of changes in the Company's common shares purchase options is as follows:

	<u>\$ 4,824,590</u>	<u>\$ 4,824,590</u>	<u>\$ 4,870,076</u>	<u>\$ 4,870,076</u>

In determining fair value, the Company uses observable data based on different levels which are defined as follows:

- First level includes quoted prices (unadjusted) in an active market of identical assets or liabilities;
- Second level includes data that are not based on observable inputs other than quoted prices included in the first level; and
- Third level includes data that are not based on observable market data.

The carrying value of cash, accounts receivable and other receivables, investment in a mining company, accounts payable, loans and indemnities payable to subscribers are considered to be a reasonable approximation of fair value because of the short-term maturity of these instruments. (Level 1)

The carrying value of debts and debentures is considered to be a reasonable approximation of fair value as they are past their maturity date or are short-term maturity. (Level 2)
