Special Note Concerning New Management Review of these Consolidated Financials

Upon reviewing all of the Company documents which new management was given and/or had access to, it was deemed there were several errors in this filing as originally posted. As such, corrections and adjustments were made which included:

- CLEC Holdings Letter of Intent decision and status were better defined
- In the Financials Section, a bank balance was added, and long-term liabilities total was corrected to properly reflect the totals in Note C
- A clarification of the name change filed with Wyoming and planned subsequent actions was added to Note A

Further review will continue of the Company's books and records, and while no other corrections or adjustments are contemplated, management reserves the right to make them should any be discovered.

Note A – Nature of Business and Summary of Significant Accounting Policies

On July 5, 2011 Title Consulting Services, Inc. a Delaware Corporation, redomiciled to Nevada from Delaware and changed its name to Andiamo Corporation (the "Company"). The Company is a holding company for several corporations. The Company owns a software application company and a cell phone distributor.

On March 5, 2018, a name change was filed with the state of Wyoming, changing the Company's name from Andiamo Corporation to Utopya Worldwide Holdings, Incorporated. A Corporate Action requesting a name and symbol change was also filed with FINRA which was denied. Because of this denial, new management deems the name change at the state level was invalid and ill advised, and as such is currently working to amend this filing and change the name back to Andiamo Corporation at the state level.

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting. Revenues are recognized at the time when the services are provided and earned and expenses are recorded when incurred.

Cash and Cash Equivalents

For purposes of the statement of cash flows, the Company considers all unrestricted highly liquid investments with an initial maturity of three months or less to be cash equivalents.

Income Taxes

The Company files as a regular C corporation for federal tax purposes.

Use of Estimates

The preparation of financial statements in conformity with generally accepted

Andiamo Corporation
Notes to Consolidated Financial Statements
January 31, 2018

accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Advertising

The Company expenses all advertising and marketing costs as incurred. Advertising and marketing costs for the quarter ended January 31, 2018 was \$0.

Fair Value of Financial Instruments

The Company believes that the carrying value of its current assets and current liabilities approximate the fair value of such items due to their short-term nature. The carrying amounts of cash, accounts receivable, accounts payable and other liabilities are carried at amounts that reasonably approximate their fair values.

Property and Equipment

Property and equipment are stated at cost. The Company provides for amortization on the straight-line method and depreciation on the straight-line and MACRS methods over the estimated useful lives of the related assets. Major classes of property and equipment and their related lives are as follows:

Software - 3 to 15 years

Maintenance and repairs are expensed as incurred. Replacements and betterments are capitalized.

Asset Impairment

When the Company has long-lived assets, which have a possible impairment indicator, the Company estimates the future cash flows from the operation of these assets. Because events and circumstances frequently do not occur as expected, there will usually be differences between the estimated and actual future cash flow and these differences may be material. If the estimated cash flows recoup the recorded value of the assets; they remain on the books at that value. If the net recorded value cannot be recovered, the assets are written down to their market value if lower than the recorded value.
