Financial Statements for year ended
March 31, 2009 (Unaudited)

Quarterly Reporting Obligations

Item 1 **Exact name of the issuer and the address of its principal executive offices.**

Sun Tzu Corp
37 Prospect Street
Amsterdam, New York 12010

Formerly Jenex Gold Corp until 1-2009

Item 2 **Shares Outstanding**

229,222,765

Item 3 **Interim financial statements.**

Attached at the end of this Quarterly Report are the following Quarterly Financial Statements.

Balance sheet

Profit and Loss

Statement of Cash Flow

Statement of Shareholders Equity

Item 4 **Management's discussion and analysis or plan of operation.**

The company believes it is able to satisfy its cash requirements for the next year with the revenue it is currently generating. For additional money, if needed, the company will seek debt or equity contributions from third parties.

The company has already finished product research and development and is currently implementing those products into the market based on the company's business plan.

The company plans on purchasing coolers for display and sale purposes for the products in the Off-Premise Division. It is anticipated that the

company will spend \$120,000 on coolers this year based on a scheduled increase in sales of bottle and can products.

The company plans on hiring a book keeper, and a National Sales Manager, as well as one to two sales reps sometime during the course of the year.

Item 5 Legal Proceedings.

The issuer currently has no legal proceedings.

Notes to Financial Statements
March 31, 2009 (Unaudited)

Background- Sun Tzu Corporation (“The Company”) was organized under the laws of the State of Washington in 1972. The company provides New Age Beverage products to wholesalers for distribution.

Basis of Presentation – The financial statements included herein are for Sun Tzu Corp and are prepared in conformity with GAAP.

Management’s Use of Estimates – The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that effect the reported amounts of assets and liabilities, disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Fair Value of Financial Instruments – Management believes that the carrying values of financial instruments, including cash, accounts receivable, accounts payable and accrued liabilities approximate fair value as a result of the short-term maturities of these instruments.

Income Taxes – The Company accounts for income taxes using the assets and liability method prescribed by SFAS 109. Under this method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to operating loss and tax credit carry forwards and for differences between the carrying amounts of existing assets and liabilities and their respective tax bases. The effect of a change in tax rates is recognized in income in the period of enactment. Valuation allowance are established when management is unable to conclude that it is more likely that not that some portion, or all, of the deferred tax asset will ultimately be realized.

Notes to Financial Statements
March 31, 2009 (Unaudited)

Note 1 – Summary of Significant Accounting Policies (Continued)

Earnings (Loss) Per Share – The Company reports earnings (Loss) per share in accordance with Statement of Financial Accounting Standard (SFAS) No. 128. This statement requires dual presentation of basic and diluted earnings (loss) with a reconciliation of the numerator and denominator of the loss per share computations. Basic earnings per share amounts are based on the weighted average shares of common outstanding. If applicable, diluted earnings per share assume the conversion, exercise or issuance of all common stock instruments such as options, warrants and convertible securities, unless the effect is to reduce a loss or increase earnings per share. Accordingly, this presentation has been adopted for the periods presented. There were no adjustments required to net income for the period presented in the computation of diluted earnings per share. There were no common stock equivalents (CSE) necessary for the computation of diluted loss per share. There were no convertible notes necessary for the computation of diluted loss per share.

Fixed Assets – Fixed assets are recorded at cost and include expenditures that substantially increase the productive lives of the existing assets. Maintenance and repair costs are expensed as incurred. Depreciation is provided using the straight -line method. Depreciation of property and equipment is calculated over the management prescribed recovery periods, which range from 5 years for equipment to 7 years for furniture and fixtures. When a fixed asset is disposed of, its cost and related accumulated depreciation are removed from the accounts. The difference between un-depreciated cost and proceeds from disposition is recorded as a gain or loss.

Advertising Costs - Advertising costs are expensed as incurred.

Preparation – The financials listed above are unaudited and have been self prepared.

Note 2 – Debt

As of March 31, 2009 the company had loans payable to officers of \$900,427. This is debt accruing 6% per annum on a demand note payable to an officer and shareholder. Loans payable to others of \$543,427 are short and long term debt at varying interest rates from out side parties.
