5. Financial Statements

The Issuer is providing consolidated financial statements for the period ending the year ended December 31, 2018 respectively.

- A. Consolidated Balance Sheets*
- B. Consolidated Statements of Operations*
- C. Consolidated Statements of Cash Flows; and*
- D. Financial Notes*

These unaudited consolidated financial statements are incorporated by reference herein and attached as

Exhibit 1.

6. Issuer's Business, Products and Services.

Forward-Looking Statements

This section of the report includes a number of forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, and Section 21E of the Securities Exchange Act of 1934 that reflect our current views with respect to future events and financial performance. Forward looking statements are

often identified by words like: believe, expect, estimate, anticipate, intend, project and similar expressions, or words which, by their nature, refer to future events. You should not place undue reliance on these forward-looking statements, which apply only as of the date of this report. These forward-looking statements are subject to certain risks and uncertainties that could cause actual results to differ materially from historical results or our predictions. Although we believe the expectations reflected in these forward-looking statements are reasonable, such expectations cannot guarantee future results, levels of activity, performance or achievements.

Forward-looking statements included in this report and all subsequent written or oral forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by these cautionary statements. The forward-looking statements speak only as of the date made, other than as required by law, and we undertake no obligation to publicly update or revise any forward-looking statements, whether because of new information, future events or otherwise.

Business operations:

On 06/26/2018, the Company was appointed and granted an appointment of Custodian or Receiver of Corporation. Because of the Company's non-compliance with federal and state law, Ms. Keaveney was granted status as Custodian of the Company. On August 1st, 2019, through issuance of Preferred Voting Super A Shares, Mr ZhouBin Ren became the largest shareholder of the Company and appointed President. In November of 2018, the Company changed the company from China Health to Changming Industrial Management Group Holding to describe the newly formed Company. On March 25th, 2019, the Company, through a share exchange agreement acquired their Chinese Subsidiary, Changming Mineral Products, Ltd.

Date; State; and Jurisdiction of Incorporation:

Changming Industrial Management Group Holding and its predecessors (the "Company"), was incorporated under the laws of Wyoming in 2005.

Issuer's Primary and Secondary SIC Codes;

1099 – Metal Ores and Misc.

Fiscal Year:

The Company's fiscal year ends on December 31.

Products:

Established in Hanbin District, Ankang of Shaanxi Province, Changming Mineral Products Co., Ltd, main business includes the processing and sales of mineral products as well as vanadium mining.

The vanadium ore is located in the Liangcha Village, Dazhuyuan Town, Hanbin District of Ankang City.

According to the statistical studies by the Institute of Mineral Resources, Chinese Academy of Geological Sciences, the ore district has a de facto reserve volume of stone coals 60.94 million tons, V2O₅ 400,000 tons. The average grade of V2O₅ is 0.84%, and the volume of V2O₅ amounts to 0.8145% of the total resources.

Changming Mineral Products Co., Ltd. has obtained the legitimate mining right through a series of processes including tendering, auction and listing, etc. The vanadium ore is located in the Liangcha Village, Dazhuyuan Town, Hanbin District of Ankang City. The geographic coordinate of the ore center is at 108°41'40.1"E and 32°33'20.6"N. The transportation of the ore district is very convenient with a county road on its west connecting to the provincial highway 310 (Ankang-Ziyang), and the Dazhuyuan Station of Xiangyang-Chongqing railway line is only 2.5kms away from its east. There is an AnMao highway 2kms away to the north of the ore, which is helpful for the metallogenic condition. Also, the hydro-geology and engineering geology are quite simple, suitable for exploitation. The scope of the ore is defined by six points with a total size of approximately 2.06 square kms, and the level of mining depth ranges from 646m to 390m.

According to the statistical studies by the Institute of Mineral Resources, Chinese Academy of Geological Sciences, the ore district has a de facto reserve volume of stone coals 60.94 million tons, V2O₅ 400,000 tons. The average grade of V2O₅ is 0.84%, and the volume of V2O₅ amounts to 0.8145% of the total resources. According to the current market price, the potential value of V2O₅ reserves is estimated to at least RMB100 billion.

Since obtaining the mining certificate from the Bureau of Land and Resources on 29 July 2011, Changming has put on a record at the National Development and Reform Commission and received the approval of construction respectively from environmental assessment, water conservation, forestry and safety supervision departments. In August 2013, the basic construction was completed, and two mining belts were put into operation, with an overall investment of RMB60 million. At the beginning of 2015, according to the new national environmental protection policy, the mining area was rectified. By the end of 2018, all mining formalities were postponed and the formality of open mining to tunnel mining was completed.

7. Describe the Issuer's Facilities.

The Company is provided with office space by its President at no charge.

8. Officers, Directors, and Control Persons

Zhuo Bin Ren, President & Secretary

BIO:

Mr. Ren has received his Bachelors degree in Business Administration from Xi'an Jiatong University. He has been previously employed by Addidas and Nike in a retail capacity. He has participated in the listing of 2 companies in China on their Junior Exchange: China Anta Sports and China Xidelong Sports. He

currently holds the positions of President of ChangMing Industrial Group Management Holding, Marketing Director of Shaanxi Yuanwangda Venture Capital Group Company and Operations Director of Changming Mineral Products, Co., Ltd, Hang Bin District, Ankang City.

Changming Industrial Management Group Holding

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 – ORGANIZATION AND BASIS OF PRESENTATION

The Company

ChangMing Industrial Management Group Holding was incorporated in the State of Wyoming USA on November 24, 2018 for the purpose of becoming the holding company of Changming Mineral Product Co. Ltd. A Share Exchange Agreement was closed as of the March 13; the sole purpose of the transaction contemplated under the Agreement is the establishment of a U.S. Holding Company, At the Closing, the Changming Mineral Product Co, Ltd. received from the Changming Industrial Management Group Holding, and Changming Industrial Management Group Holding agree to issue to the shareholders of the Changming Mineral Product Co, Ltd 1,000 Shares of Super A Preferred Voting Stock in exchange for the transfer of 30,000,000 share of the Common Stock of the Changming Mineral Product Co, Ltd ,

The Changming Mineral Product Co, Ltd was a company organized in China in 2010, and it is now Changming Industrial Management Group Holding's wholly-owned subsidiary. The Company's main business includes the processing and sales of mineral products as well as vanadium mining. There have been no significant changes in the nature of these activities during the financial year.

On 06/26/2018, the Company was appointed and granted an appointment of Custodian or Receiver of Corporation. Because of the Company's non-compliance with federal and state law, Ms. Keaveney was granted status as Custodian of the Company. On August 1st, 2019, through issuance of Preferred Voting Super A Shares, Mr. Zhou Bin Ren became the largest shareholder of the Company and appointed President. In November of 2018, the Company changed the company from China Health to Changming Industrial Management Group Holding to describe the newly formed Company. On March 25th, 2019, the Company, through a share exchange agreement acquired their Chinese Subsidiary, Changming Mineral Products, Ltd.

Basis of Presentation

The accompanying unaudited financial statements have been prepared in accordance with accounting principles generally accepted in The United States of America and the rules and regulations of the Securities and Exchange Commission ("SEC").

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates

Conformity with GAAP requires the use of estimates and judgments that affect the reported amounts in the condensed consolidated financial statements and accompanying notes. These estimates form the basis for judgments we make about the carrying values of our assets and liabilities, which are not readily apparent from other sources. We base our estimates and judgments on historical information and on various other assumptions that we believe are reasonable under the circumstances. GAAP requires us to make estimates and judgments in several areas, including, but not limited to, those related to revenue recognition, collectability of accounts receivable, loss contingencies, fair value of financial instruments, fair value of acquired intangible assets and goodwill, useful lives of intangible assets and property and equipment, leases, and income taxes. These estimates are based on management's knowledge about current events and expectations about actions we may undertake in the future. Actual results could differ materially from those estimates.

Cash

Cash consists principally of currency on hand, and demand deposits at commercial banks. The Company had cash of \$4,072 December 31, 2018.

Revenue Recognition

The Company provides clients with a cloud-based online event registration and management system pursuant to agreements with automatically renewable terms. Under the agreements, the Company earns fees (typically a percentage of the transaction amounts subject to a minimum flat rate amount per transaction) on any registration event transaction that occurs through use of the Company's electronic registration program. Such revenues are generally recognized when the registration event occurs.

Software development costs

Capitalized software development costs are carried at cost less accumulated amortization. Capitalized software development costs are amortized using the straight line method over a period of seven years. The Company internally develops software for use by its clients, which is accessed via the Internet.

The Company capitalizes software development costs incurred during the application development stage in accordance with accounting principles generally accepted in the United States of America. These principles provide guidance for the treatment of costs associated with software development and defines those costs to be capitalized and those to be expensed. Costs that qualify for capitalization are

external direct costs, payroll, and payroll-related expenses. Costs related to general and administrative functions are not capitalized and are expensed as incurred. The Company capitalizes software development costs when the projects under development reach technological feasibility.

Net Income or (Loss) Per Share of Common Stock

Basic and diluted loss per common share is based upon the weighted average number of common shares outstanding during the period computed under the provisions of Accounting Standards Codification subtopic 260-10, Earnings per Share (“ASC 260-10”). Diluted income (loss) per share includes the dilutive effects of common stock equivalents on an “as if converted” basis.

Goodwill

The excess of the purchase price over the fair market value of assets acquired and liabilities assumed in acquisition transactions is classified as goodwill. In accordance with Statement No. 142, “Goodwill and Other Intangible Assets,” the Company does not amortize goodwill, but performs impairment tests of the carrying value at least annually. As of September 30, 2018, the Company reduced the carrying value to zero.

Intangible Assets

Intangible assets are stated at the lesser of cost or fair value less accumulated amortization.

Income Taxes

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases, and operating loss and tax credit carry forwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in operations in the period enacted. A valuation allowance is provided when it is more likely than not that a portion or all of a deferred tax asset will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income and the reversal of deferred tax liabilities during the period in which related temporary differences become deductible. The benefit of tax positions taken or expected to be taken in the Company’s income tax returns are recognized in the condensed financial statements if such positions are more likely than not of being sustained.

In accordance with ASC 740-10, the Company recognizes the financial statement benefit of a tax position only after determining that the relevant tax authority would more likely than not sustain the position following an audit. For tax positions meeting this standard, the amount recognized in the financial statements is the largest benefit that has a greater than 50 percent likelihood of being realized upon ultimate settlement with the relevant tax authority.

Fair Value of Instruments

ASC 825-10, Financial Instruments requires disclosure of the fair value of certain financial instruments. The carrying value of cash, and accounts payable and accrued liabilities, as reflected in the balance sheets, approximate fair value because of the short-term maturity of these instruments. All other significant financial assets, financial liabilities and equity instruments of the Company are either recognized or disclosed in the financial statements together with other information relevant for making a reasonable assessment of future cash flows, interest rate risk and credit risk. Where practicable the fair values of financial assets and financial liabilities have been determined and disclosed; otherwise only available information pertinent to fair value has been disclosed.

The company follows ASC 820-10, Fair Value Measurements and Disclosures and Accounting Standards Codification subtopic 825-10, Financial Instruments (“ASC 825-10”), which permits entities to choose to measure many financial instruments and certain other items at fair value.

Recently Issued Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2014-09, Revenue from Contracts with Customers, which will supersede nearly all existing revenue recognition guidance under U.S. GAAP. The core principle of ASU 2014-09 is to recognize revenues when promised goods or services are transferred to customers in an amount that reflects the consideration to which an entity expects to be entitled for those goods or services. ASU 2014-09 defines a five-step process to achieve this core principle and, in doing so, more judgment and estimates may be required within the revenue recognition process than are required under existing U.S. GAAP. As amended by the FASB in July 2015, the standard is effective for annual periods beginning after December 15, 2017, and interim periods therein, using either of the following transition methods: (i) a full retrospective approach reflecting the application of the standard in each prior reporting period with the option to elect certain practical expedients, or (ii) a retrospective approach with the cumulative effect of initially adopting ASU 2014-09 recognized at the date of adoption (which includes additional footnote disclosures). We are currently evaluating the impact of ASU 2014-09 on our future financial statements.

In February 2016, the FASB issued ASU No. 2016-02, Leases (Topic 842), to provide guidance on recognizing lease assets and lease liabilities on the balance sheet and disclosing key information about leasing arrangements, specifically differentiating between different types of leases. The core principle of Topic 842 is that a lessee should recognize the assets and liabilities that arise from all leases. The recognition, measurement, and presentation of expenses and cash flows arising from a lease by a lessee have not significantly changed from previous GAAP. There continues to be a differentiation between finance leases and operating leases. However, the principal difference from previous guidance is that the lease assets and lease liabilities arising from operating leases should be recognized in the balance sheet. The accounting applied by a lessor is largely unchanged from that applied under previous GAAP. The amendments will be effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years, and early adoption is permitted. In transition, lessees and lessors are required to recognize and measure leases at the beginning of the earliest period presented using a modified retrospective approach. The modified retrospective approach includes a number of optional practical expedients that entities may elect to apply. These practical expedients relate to the identification and classification of leases that commenced before the effective date, initial direct costs for leases that commenced before the effective date, and the ability to use hindsight in evaluating lessee options to extend or terminate a lease or to purchase the underlying asset. An entity that elects to apply the practical expedients will, in effect, continue to account for leases that commence before the effective date in accordance with previous GAAP unless the lease is modified, except that lessees are required to recognize a right-of-use asset and a lease liability for all operating leases at each reporting date based on the present value of the remaining minimum rental payments that were tracked and disclosed under previous GAAP. The Company is currently evaluating the impact of these amendments on its financial statements.

In March 2016, the FASB issued ASU No. 2016-08, Revenue from Contracts with Customers (Topic 606): Principal versus Agent Considerations, to clarify the implementation guidance on principal versus agent considerations and address how an entity should assess whether it is the principal or the agent in contracts that include three or more parties. The effective date and transition requirements for these amendments are the same as the effective date and transition requirements of ASU 2014-09 (discussed above). The Company is currently evaluating the impact of these amendments on its financial statements.

In April 2016, the FASB issued ASU No. 2016-10, Revenue from Contracts with Customers (Topic 606): Identifying Performance Obligations and Licensing, to clarify the following two aspects of Topic 606: 1) identifying performance obligations, and 2) the licensing implementation guidance. The

effective date and transition requirements for these amendments are the same as the effective date and transition requirements of ASU 2014-09 (discussed above). The Company is currently evaluating the impact of these amendments on its financial statements.

NOTE 2 - GOING CONCERN

Under ASC 205-40, we have the responsibility to evaluate whether conditions and/or events raise substantial doubt about our ability to meet our future financial obligations as they become due within one year after the date that the financial statements are issued. As required by this standard, our evaluation shall initially not take into consideration the potential mitigating effects of our plans that have not been fully implemented as of the date the financial statements are issued.

In performing the first step of this assessment, we concluded that the following conditions raise substantial doubt about our ability to meet our financial obligations as they become due. We have a history of net losses for the period ended December 31, 2018; we had a cumulative net loss of 59,610. We expect to continue to incur negative working capital until such time as our operating segments generate sufficient cash to finance our operations and debt service requirements.

In performing the second step of this assessment, we are required to evaluate whether our plans to mitigate the conditions above alleviate the substantial doubt about our ability to meet our obligations as they become due within one year after the date that the financial statements are issued. Our future plans include securing additional funding sources that may include establishing corporate partnerships, establishing licensing revenue agreements, issuing additional convertible debentures and issuing public or private equity securities, including selling common stock through an at-the-market facility (ATM).

There is no assurance that sufficient funds required during the next year or thereafter will be generated from operations or that funds will be available through external sources. The lack of additional capital resulting from the inability to generate cash flow from operations or to raise capital from external sources would force the Company to substantially curtail or cease operations and would, therefore, have a material effect on the business. Furthermore, there can be no assurance that any such required funds, if available, will be available on attractive terms or they will not have a significant dilutive effect on the Company's existing shareholders.

The accompanying consolidated financial statements have been prepared on a going-concern basis,

which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The accompanying consolidated financial statements do not include any adjustments to reflect the possible future effects on the recoverability and classification of assets or the amounts and classification of liabilities that may result from uncertainty related to our ability to continue as a going concern.

NOTE 3 — CORPORATE RESTRUCTURING

Disposition of Subsidiary

On 12/31/16, the Company recorded a loss of \$1 arising from the disposal of its wholly owned US subsidiary to its former owners.

NOTE 4 - PROVISION FOR INCOME TAXES

The Company files income tax returns in the United States federal jurisdiction and certain state jurisdictions. We did not provide any current or deferred U.S. Federal Income Tax provision or benefit for any of the periods presented because we have experienced operating losses since our date of incorporation. Accounting for the Uncertainty in Income Taxes when it is more likely than not that a tax asset cannot be realized through future income, the Company must allow for this future tax benefit. We provided full valuation allowance on the net deferred asset, consisting of net operating loss carry forwards, because management has determined that it is more likely than not that we will not earn income sufficient to realize the deferred assets during the carry forward period.

NOTE 5 – ACQUISITION OF Changming Mineral Products, Ltd.

The Company, as previously noted, acquired 100% of YAW as of 03/13/2019 for 1,000 shares valued at \$1. The financial statements were adjusted to reflect the acquisition.

NOTE 6 – SUBSEQUENT EVENTS

None.
