NOTES TO FINANCIAL STATEMENTS

1. Organization and Formation

iTeknik Holding Corporation ("The Company") was organized under the laws of the State of Nevada on January 12, 2007. On December 22, 2010, the Company changed its state of organization to Wyoming by filing the applicable legal documents with both Nevada and Wyoming.

On September 16, 2016, the Company formed a new wholly owned Wyoming subsidiary, Big Rhino Corporation. On December 30, 2016 iTeknik acquired the assets of a former Phoenix based advertising agency and hired a staff to run this business as the Big Rhino Corporation. On January 2, 2017 Big Rhino began operations in the traditional and digital marketing, and media business. On Aug 2017 the Company acquired a second Marketing Company, The Blender Corporation, LLC.

2. Summary of Significant Accounting

Policies Basis of presentation

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Basis of consolidation

Prior to third quarter fiscal year 2017 (beginning January 1, 2017) all of the Company's consolidated financial statements included 100% of the assets, liabilities, revenues, expenses and cash flows of iTeknik Holding Corporation as well as that of its then wholly owned subsidiary Send Global Corporation (the majority interest in Send Global was divested before July 1, 2017). Since January 2017 the consolidated financial statements of the Company represented 100% of the assets, liabilities, revenues, expenses and cash flows of iTeknik Holding Corporation and the financial statements of its operating subsidiaries Big Rhino Corporation and The Blender Company after July 1, 2017. All inter-company accounts and transactions have been eliminated in consolidation.

The results of subsidiaries acquired or disposed of during the respective periods are included in the consolidated statements of operations from the effective date of acquisition or up to the effective date of disposal, as appropriate.

There were no disposals during the period ended June 30, 2019.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make certain estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Estimates are adjusted to reflect actual experience when necessary. Significant estimates and assumptions affect many items in the financial statements. These include estimates of fair value of common stock and related impact to stock-based compensation. Actual results may differ from those estimates and assumptions, and such results may affect income, financial position or cash flows.

Cash and cash equivalents

The Company adopted paragraph 230-10-45-24 of the FASB Accounting Standards Codification for cash flows reporting, classifies cash receipts and payments according to whether they stem from operating, investing, or financing activities and provides definitions of each category, and uses the indirect or reconciliation method ("Indirect method") as defined by paragraph 230-10-45-25 of the FASB Accounting Standards Codification to report net cash flow from operating activities by adjusting net income to reconcile it to net cash flow from operating activities by removing the effects of (a) all deferrals of past operating cash receipts and payments and all accruals

of expected future operating cash receipts and payments and (b) all items that are included in net income that do not affect operating cash receipts and payments.

The Company reports the reporting currency equivalent of foreign currency cash flows, using the current exchange rate at the time of the cash flows and the effect of exchange rate changes on cash held in foreign currencies is reported as a separate item in the reconciliation of beginning and ending balances of cash and cash equivalents and separately provides information about investing and financing activities not resulting in cash receipts or payments in the period pursuant to paragraph 830-230-45-1 of the FASB Accounting Standards Codification .

Fair Value of Financial Instruments

Management believes that the carrying values of financial instruments, including cash, accounts receivable, accounts payable and accrued liabilities, approximate fair value as a result of the short-term maturities of these instruments.

Risks and Uncertainties

The Company's operations are subject to significant risk and uncertainties including financial, operational, technological, and regulatory risks including the potential risk of business failure. Also see Footnote #3 regarding going concern matters.

Intellectual Property

Our success and ability to compete effectively are dependent in part upon our proprietary technology. We rely on a combination of copyright, trademark, and trade secret laws, as well as non-disclosure agreements and other contractual restrictions, to establish and protect our proprietary rights. Employees are required to execute confidentiality and non-use agreements that transfer any rights they may have in copyrightable works or patentable technologies to us. In addition, prior to entering into discussions with potential business partners or customers regarding our business and technologies, we generally require that such parties enter into nondisclosure agreements with us. If these discussions result in a license or other business relationships, we also generally require that the agreement setting forth the parties' respective rights and obligations include provisions for the protection of our intellectual property rights. The steps taken by us may not, however, be adequate to prevent the misappropriation of our proprietary rights or technology.

To date, we do not have any federally registered trademarks.

We do not currently have any patents or patent applications in process. Any future patent applications with respect to our technology may not be granted, and, if granted, patents may be challenged or invalidated. In addition, issued patents may not provide us with any competitive advantages and may be challenged by third parties. Our practice is to affix copyright notices on our product literature in order to assert copyright protection for these works.

Despite our efforts to protect our proprietary rights, unauthorized parties may attempt to duplicate aspects of our products or to obtain and use information that we regard as proprietary. Our steps to protect our proprietary technology may not be adequate to prevent misappropriation of such technology, and may not preclude competitors from independently developing products with functionality or features similar to our products. If we fail to protect our proprietary technology, our business, financial condition and results of operations could be harmed significantly.

Consumer technology markets have been characterized by substantial litigation regarding patent and other intellectual property rights. Litigation, which could result in substantial cost to and diversion of our efforts, may be necessary to enforce trademarks issued to us or to determine the enforceability, scope and validity of the proprietary rights of others. Adverse determinations in any litigation or interference proceeding could subject us to costs related to changing names and a loss of established brand recognition.

Income Taxes

In assessing the realization of deferred tax assets, the Company considers whether it is more likely than not that some portion or all of the deferred tax will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible. The Company considers the scheduled reversal of deferred tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. Based on the level of historical operating results and the uncertainty of the economic conditions, the Company has recorded a full valuation allowance against its deferred tax assets at December 31, 2018, 2017 and, 2016 where it cannot conclude that it is more likely than not that those assets will be realized. While the deferred tax asset is shown in these footnotes, management has not elected to report the deferred tax asset on the financial statements for the periods after June 30, 2015 until such time as the Company again recognizes income from operations where this deferred tax asset may be applied. At that time, it will be determined whether, all, part or none of the tax deferred asset can be utilized under tax laws and regulation then in effect and that time

Revenue Recognition

The Company applies paragraph 605-10-S99-1 of the FASB Accounting Standards Codification for revenue recognition. The Company recognizes revenue when it is realized or realizable and earned. The Company considers revenue realized or realizable and earned when all of the following criteria are met: (i) persuasive evidence of an arrangement exists, (ii) the product has been shipped or the services have been rendered to the customer, (iii) the sales price is fixed or determinable, and (iv) collectability is reasonably assured.

Stock-Based Compensation

The Company accounts for stock-based compensation in accordance with ASC 718. Under the fair value recognition provisions of this statement, stock-based compensation cost is measured at the grant date based on the fair value of the award and is recognized as expense on a straight-line basis over the requisite service period, which is the vesting period. The Company elected the modified-prospective method, under which prior periods are not revised for comparative purposes. The valuation provisions of ASC 718 apply to new grants and to grants that were outstanding as of the effective date and subsequently modified. See the Company's "Continuing Disclosure" Filing for details on stock-based compensation for the current quarter.

Basic and Diluted Net Earnings (Loss) per Share

Basic net earnings (loss) per common share is computed by dividing net earnings (loss) applicable to common shareholders by the weighted-average number of common shares outstanding during the period. Diluted net earnings (loss) per common share is determined using the weighted-average number of common shares outstanding during the period, adjusted for the dilutive effect of common stock equivalents, consisting of shares that might be issued upon exercise of common stock options. In periods where losses are reported, the weighted-average number of common shares outstanding excludes common stock equivalents, because their inclusion would be anti-dilutive. The amount of earnings was insignificant when considered as earnings per share calculation.

Commitments and Contingencies

The Company follows subtopic 450-20 of the FASB Accounting Standards Codification to report accounting for contingencies. Certain conditions may exist as of the date the financial statements are issued, which may result in a loss to the Company but which will only be resolved when one or more future events occur or fail to occur. The Company assesses such contingent liabilities, and such assessment inherently involves an exercise of judgment. In assessing loss contingencies related to legal proceedings that are pending against the Company or un-asserted claims that may result in such proceedings, the Company evaluates the perceived merits of any legal proceedings or un-asserted claims as well as the perceived merits of the amount of relief sought or expected to be sought therein.

If the assessment of a contingency indicates that it is probable that a material loss has been incurred and the amount of the liability can be estimated, then the estimated liability would be accrued in the Company's financial statements. If the assessment indicates that a potential material loss contingency is not probable but is reasonably possible, or is probable but cannot be estimated, then the nature of the contingent liability, and an estimate of the range of possible losses, if determinable and material, would be disclosed.

Loss contingencies considered remote are generally not disclosed unless they involve guarantees, in which case the guarantees would be disclosed. Management does not believe, based upon information available at this time that these matters will have a material adverse effect on the Company's financial position, results of operations or

cash flows. However, there is no assurance that such matters will not materially and adversely affect the Company's business, financial position, and results of operations or cash flows.

Long-Lived Assets

The Company reviews and evaluates its long-lived assets for impairment whenever events or changes in circumstances indicate that their net book value may not be recoverable. When such factors and circumstances exist, including those noted above, the Company compares the assets' carrying amounts against the estimated undiscounted cash flows to be generated by those assets over their estimated useful lives. If the carrying amounts are greater than the undiscounted cash flows, the fair values of those assets are estimated by discounting the projected cash flows. Any excess of the carrying amounts over the fair values are recorded as impairments in that fiscal period.

G. Audit letter, if audited N/A

You may either (i) attach/append the financial statements to this disclosure statement or (ii) file the financial statements through OTCIQ as a separate report using the appropriate report name for the applicable period end. ("Annual Report," "Quarterly Report" or "Interim Report").

If you choose to publish the financial statements in a separate report as described above, you must state in the accompanying disclosure statement that such financial statements are incorporated by reference. You may reference the document(s) containing the required financial statements by indicating the document name, period end date, and the date that it was posted to OTCIQ in the field below.

Financial statement information is considered current until the due date for the subsequent report (as set forth in the qualifications section above). To remain qualified for Current Information, a company must post its Annual Report within 90 days from its fiscal year-end date and Quarterly Reports within 45 days of each fiscal quarter-end date.

5) Issuer's Business, Products and Services

The purpose of this section is to provide a clear description of the issuer's current operations. In answering this item, please include the following:

A. Summarize the issuer's business operations (If the issuer does not have current operations, state "no operations")

iTeknik Holding Corporation's strategy is to acquire fundamentally sound companies that are market accepted, scalable and demonstrate a quantifiable value proposition. Our focus is in companies that have strong market presence, brand awareness and talented and dedicated management teams with the potential to achieve exceptional performance over time in the Marketing, Advertising and Digital Media space. iTeknik lends its operational support, management approach and financial resources to these companies to achieve improvements in both revenue and earnings growth and positioning in the marketplace.

B. Describe any subsidiaries, parents, or affiliated companies, if applicable, and a description of their business contact information for the business, officers, directors, managers or control persons. Subsidiary information may be included by reference

iTeknik Holding Corporation currently operates two wholly owned subsidiaries; Big Rhino Corporation and The Blender Company LLC.

C. Describe the issuers' principal products or services, and their markets

Big Rhino Agency, a wholly owned subsidiary of iTeknik Holding Corporation, is a full-service advertising and digital media agency that focuses on fast, precise, and creative marketing solutions. Big Rhino's digital, interactive and media teams are completely integrated. Big Rhino serves customers in the automotive retail sector, medical industry, and real estate market. 8) Legal/Disciplinary History

A. Please identify whether any of the persons listed above have, in the past 10 years, been the subject of:

1. A conviction in a criminal proceeding or named as a defendant in a pending criminal proceeding (excluding traffic violations and other minor offenses);

NONE

2. The entry of an order, judgment, or decree, not subsequently reversed, suspended or vacated, by a court of competent jurisdiction that permanently or temporarily enjoined, barred, suspended or otherwise limited such person's involvement in any type of business, securities, commodities, or banking activities;

NONE

3. A finding or judgment by a court of competent jurisdiction (in a civil action), the Securities and Exchange Commission, the Commodity Futures Trading Commission, or a state securities regulator of a violation of federal or state securities or commodities law, which finding or judgment has not been reversed, suspended, or vacated; or

NONE

4. The entry of an order by a self-regulatory organization that permanently or temporarily barred, suspended, or otherwise limited such person's involvement in any type of business or securities activities.

NONE

B. Include the name of the court or agency in which the proceedings are pending, the date instituted, the principal parties thereto, a description of the factual basis alleged to underlie the proceeding and the relief sought. Include similar information as to any such proceedings known to be contemplated by governmental authorities.

On April 4, 2017, the Company filed suit in the Arizona Superior Court (case No. CV2017-003585) against the TCA Global Master Credit Fund, L.P, for among other things inducing the Company into an asset purchase transaction by misrepresentation and omissions more specifically as defined as: failure to release escrow, misleading financial projections and undisclosed debts related to the assets among other things. Our litigators chose to bring the action in Arizona because the assets are and have always been located in Arizona and the foreclosure that TCA had previously completed to take title to the assets, prior to selling them to us occurred in Arizona under Arizona statutes. We had previously offered TCA an opportunity to discuss the open items

to come to an amicable solution that involved the payment by TCA of their expenses that we incurred, the immediate release of the funds still held in escrow for us, and an alteration in the repayment plan and or a reduction in the purchase price. Instead, TCA responded to our notice of default to TCA and attempts to amicably negotiate and on March 29, 2017 by sending us a notice of default with a 10-day notice to cure by paying all fees TCA claims without offset of the monies the company has claimed is owed to us by TCA. Under advice of counsel we elected to file suit first to preserve our rights for the benefit of our shareholders.

On June 21, 2019 the Company signed a Settlement Agreement with TCA Global Master Credit Fund, LP in order to end litigation. There will be a hearing in front of the Arizona Court in November regarding the settlement agreement.
