NOTE 1 – BASIS OF PRESENTATION

Nature of the Company

ERF Wireless, Inc. (“Company” or “ERF Wireless”) provides critical infrastructure wireless broadband communications products and services to a broad spectrum of customers in primarily rural oil and gas exploration areas of North America. We also provide high quality broadband services and critical communications services to residential, oil and gas, educational, health care, and regional banks in rural areas. As a total comprehensive solutions-provider we offer a wide array of critical communications services including high speed broadband, voice over Internet Protocol (VOIP) telephone and facsimile service, and video security.

Historically, our revenues have been generated primarily from wireless internet and network construction services. Our Internet revenues have resulted from our offering of broadband and basic communications services to residential and enterprise customers. Our construction revenues typically have consisted of revenues generated from the construction of bank, educational, and healthcare networks and other services associated with providing wireless products and services to the regional banking, educational, oil and gas, and healthcare industries.

More recently, we have formed a wholly owned subsidiary Zona Resources, Inc. to acquire and develop oil and gas properties in oil and gas regions of the US. Our initial activity in this business sector has been in the Permian Basin of West Texas.

subsidiaries. By late 2015, the Company and NetWrk Access National LLC had negotiated an Asset Purchase Agreement whereby NetWrk Access National LLC would purchase a major portion of the Company's private subsidiary operating assets in return for NetWrk Access National assuming all of the Company and subsidiary liabilities except the debt associated with the convertible debentures that the Company had entered into and a small number of liabilities specifically associated with the public company operations. The result of the Asset Purchase Agreement when completed would be to leave the Company essentially free of debt with the exception of the convertible debentures. WISPer Ventures Leasing reviewed the structure of the Asset Purchase Agreement and approved it from its position as Senior Lender and, in addition, agreed to accept a Note of \$1,500,000.00 from NetWrk Access National LLC, with the assets being purchased as collateral, in return for their Master Lease Agreement. Under the terms of the Asset Purchase Agreement the Company was also to receive \$240,000.00 of cash from future revenue collected from the assets being sold to be applied to the accounts payable of the public company. NetWrk Access National LLC also contacted all of the other major creditors of the Company and made proposals to them regarding the ultimate satisfaction of their credit balances to the Company. On October 19, 2015, the company entered into the Asset Purchase Agreement and turned over the operation of the subsidiary assets being purchased to NetWrk Access National LLC.
