

Investors Hub Slander Judgement & 2nd Annual Shareholders Conference April 9 2010**■ Pink Sheets Filing--**

TORONTO, January 21 - Mina Mar Group Inc www.minamargroup.com (MMG) the issuers' mergers and acquisitions firm and Mina Mar Marketing Group www.minamargroup.net (MMM) the issuers' investor relations firm is providing the following updates on behalf of its clients, regarding the January 20, 2010 slander law suit and the court ordered judgment.

In summary the Judgment sought was obtained before Mr. Justice Belobaba . (Justice Belobaba is a former law professor and considered a rising star in the judiciary system). After carefully reviewing the file, all materials submitted the court awarded everything except special damages. These are the actual business losses and they would have to be tried at a trial. Mina Mar Group instructed its barristers not to proceed to a trial to prove these damages as it would be more expensive and the likelihood of collection on the debt was small. The reason for this is twofold. It became clear to all that Investors Hub has organized itself in an array of off shore companies cross ownerships and structured itself to be "judgement proof" and set up in such a way to out of the reach of creditors and authorities. Our investigation concluded that there is no real office, no real "business" in "Investors Hub". There is no "real operation" or a "business" other than a web site a PO box forwarded mail that is re forwarded from the litigants parents house to shady individuals with a chequered past. It is organized similar to a cell operating a terrorist type activity. The revenues generated by this Investors Hub entity are slim and whatever is generated the principals "live off of".

The Judgment awarded \$75,000 for general damages which is the "going amount" for the general damages and \$10,000 for punitive damages. There is also an award for \$20,000 for costs. Actual court documents and a copy of the judgement is enclosed with this filing

The Judgment will now be entered (stamped and put into the court file). Once in receipt of the entered Judgment Mina Mar Group will send it to Florida for enforcement. Both USA and Canada respect each other's jurisdictions and there is a mechanism in place for exportation and enforcement of judgements between the two countries.

Additionally a fresh new suit is being prepared to be used in a new USA claim against several market makers and posters (stock bashers) who we believe acted with malice in order to manipulate patterns and create a downward trend on several clients.

It appears to the Plaintiff that the majority of revenues of Investors Hub is made from stock manipulation(s) posting false and misleading information which uses trickery on novice new and unsuspecting shareholders. The USA authorities seem to share the same view as Mina Mar Group and have began their investigation(s) Some of the damages caused to other issuers have been massive. It appears that the only significant benefactor in these stock bashings have been the Defendants.

The second lawsuit will be launched in USA together with Canada and UK to ascertain the link between these market makers, stock bashers and the effects they created against Mina Mar clients.

A comprehensive investigative campaign is currently under engagement whereby other issuers (non clients) are being contacted to join in the class action lawsuit, and those issuers who feel that outside sources played in the role in their companies downturn. The issuers are being advised to quickly reply to any legitimate concern of their shareholders through the /helpdesk ticket system in order to thwart these activities. Identified stock bashers will be noted in company news releases and their personal information home and business addresses will be posted on the /stock basher section of the web site.

Mina Mar Group has a large following and respects opinions of others however reminds new and or novice posters to think twice before posting negative, untrue, or unsupported allegations against the issuer clients.

On independent litigation matters some litigants (stock bashers) identified on this link http://www.minamargroup.com/stock_bashers.php and <http://iodic.co.cc/stock-bashers/#h3> such as Stratey and itlogic Marine1 are avoiding legal processor service. Alternative court approved measures for service are being currently organized.

Mina Mar Group is providing this general update on its clients' activities, which may or may not be newsworthy. To that end, MMG reminds its followers and readers to never invest in any stock featured on our site, emails or press releases unless you can afford to lose your entire investment. MMG and MMMG its employees are NOT registered as investment advisors in any jurisdiction whatsoever.

SECTION #4 of the Court Judgment is self explanatory and should be reviewed by all readers.

Get the Facts Right. The issuer works hard to continue to keep our shareholders informed, and news is updated frequently via Press Releases, Pink Sheet <http://www.pinksheets.com/> filings, and updates to our websites. Other websites not sponsored, or recognized by the Company may provide misleading or disinformation to investors in order to manipulate trading patterns for a given stock. Always look for original content from trusted sources, rather than relying on 'excerpts' or discussion boards that may not give you the whole story. The Securities and Exchange Commission requires financial institutions or brokerage firms to provide their clients with documentation, describing the risks of investing in penny stocks.

In other events and updates of the client issuers Mina Mar Group will hold its **2nd annual Shareholder and Business Conference in Toronto on Friday April 9, 2010**

The company invites all shareholders to visit and discuss views and opinions on the current state of the small-cap public market, and issues connected to trading of the client companies.

We highly recommend that visitors register their attendance at <http://www.minamargroup.com/multi-company-shareholders-conference.php> although we anticipate a good turn out, we can only speculate as to the number of attendees at this point.

It has been our experience that most speculative companies trading on Pink Sheets are reluctant to disclose any real and substantial information to their shareholders. The majority of our clients are from China, Eastern Europe and Canada. Usually these operating subsidiaries are merged with formerly distressed USA-based Pink Sheet shells, obtained from USA based shareholder advocacy representatives. Some long term shareholders of these issuers wrote off their investments in some cases years ago. Some are quite surprised now to see some of their

investments begin to resurrect, recover or even enter positive territory.

Our recommendations and our approach with our clients are admittedly quite unorthodox or even alien for the players in the penny stock and the "Pink Sheets" industry. This has earned us some harsh criticism from some competitors and others alike with clearly hidden agendas. Although this Shareholders Conference and Exposition should put any non-biased critic's mind at ease we are mindful that there are those whose salary depends upon them "not understanding," and those who continuously pray on novice and unsuspecting shareholders, with their hidden motives

With this years conference plans are being made to include attendance of X market makers, X broker dealers (other consultants the issuers use through Mina Mar) X analysts lawyers, accounting firms CEO's of many issuers (clients) and private company representatives seeking a merger.

Shareholders are invited to speak to company CEOs directly, to ask questions, to hear, see and feel the endless hard work that went into their companies and the opportunities afforded. It is also these issuers' way of expressing gratitude for the support received and allows them to unveil future plans.

Each issuer intends to provide a running PowerPoint presentation (at their station), to provide literature and in some cases samples of their companies products.

As a matter of courtesy, the issuers reminds their shareholder conference attendees that post 9/11 a valid passport is required to enter Canada by air travel for all nationals. The reader is cautioned to check immigration entry requirements to Canada before purchasing any travel tickets.

Additional news, and non-related to this conference filings will be made on Pink Sheets for each issuer in a timely manner as they become relevant and available.

Images of the 2009 conference are available at this link
