5) Issuer's Business, Products and Services

The purpose of this section is to provide a clear description of the issuer's current operations. In answering this item, please include the following:

A. Summarize the issuer's business operations (If the issuer does not have current operations, state "no operations")

A.The Company was incorporated in the State of New Jersey on October 22, 1991 under the name of "PRS SUB VI, INC." On February 6, 2001, the Company amended its Certificate of Incorporation changing its

name from PRS Sub VI, Inc. to Donini, Inc. Up until April 1, 2010, and through its subsidiaries, the Company was in the business of franchising pizza delivery businesses. Donini, Inc. had two Canadian subsidiaries, Donini Group, Inc. and Pizzacorp Franchises DTC, Inc., whose purposes were, respectively, to hold and control the intellectual property of the Company and to license the trademarks and oversee the licensed franchisees. Donini Group, Inc. was a wholly-owned subsidiary of the Company and Pizzacorp Franchises DTC, Inc. was a majority-controlled subsidiary of Donini Group, Inc. The Company was a franchisor of eight (8) pizza delivery restaurants through its Canadian subsidiaries, operating under the trade name "Pizza Donini", with seating of between 23 to 50 seats and one (1) 120- seat, fully-licensed Italian restaurant operating under the trade name "Donini Resto Bar". All units were operated by third parties and were located in the Greater Montreal area, in the province of Quebec, Canada. In 2008, the Company restructured its operations in two ways: first, it ceased all of its production activities and its call center, outsourcing those functions to third parties. The subsidiaries that formerly performed these activities were re-organized in a bankruptcy-type proceeding and liquidated. Secondly, the Company also converted all of its remaining operating units to franchised units, operated by third parties. This further reduced costs, but also substantially reduced gross revenues, which consisted of royalty payments and volume allowances of products to the franchise units. In 2010, the Company disposed of its 2 subsidiaries and all related restaurant assets and incurred a gain of \$30,100 from their disposal. From 2010 until September, 2014, the Company continued with its limited franchise operations, recording residual revenues from its franchised units and with an emphasis on consulting in the field of restaurant and franchise operations.

On September 26, 2014, the Company entered into a Letter of Intent with various parties whereby it agreed, if certain conditions were satisfied, to acquire all of the issued and outstanding ownership interests in Golden Dog Productions, LLC ("Golden Dog"), a California-based production company formed on November 15, 2004, in exchange for a majority of the issued and outstanding shares of the Company (the "Merger Agreement"). Pursuant to the Merger Agreement, and on November 16, 2014, the Company incorporated a wholly-owned subsidiary, GD Entertainment and Technology, Inc. ("GDET"), in the State of Nevada for the purposes of merging with and acquiring all of the issued and outstanding ownership interests in Golden Dog and, for the purpose of being the surviving corporation in the Merger Agreement.

On November 21, 2014, the Company effected the Merger Agreement with GDET and assumed the subsidiary's name, GD ENTERTAINMENT & TECHNOLOGY, INC.

BUSINESS OVERVIEW

GD Entertainment and Technology, Inc. ("GDET") began operations in California in 2004, as Golden Dog Productions, LLC, and was an international entertainment and technology corporation which owned, developed, acquired and monetized media technologies and media intellectual properties. GDET specialized in the development, production and exploitation of multiplatform media and entertainment properties worldwide. GDET has developed significant relationships with major corporations, investors, technologies and production facilities in the US, Canada, Korea, Thailand, China, and Japan.

GDET also owned a substantial amount of assets in children's content on DVDs, TV series' and graphic novels based on well-known and internally developed characters. Over the past 10 years, GDET has created, produced, financed and/or distributed a wide variety of family friendly content.

GDET began in 2004 and provided consulting work to Korean animation production and distribution firms on production strategies involving their U.S. and Canadian counterparts. The business expanded by creating the first co-production partnership between a Korean animation studio and a major North American studio. For the next 10 years, entertainment content production and distribution became the company's primary focus as

the company expanded into graphic novels, ebooks, digital video and distribution of home-entertainment services. With its comprehensive U.S.- Asia distribution network, GDET began acquiring rights for specialty content in an aim to expand into independent, family-focused media distribution and rights ownership.

In 2004, GDET secured its first co-production agreement with **Seoul Movie Co. Ltd.**, receiving a \$1 million advance on the animated DVD, “Conan the Barbarian, Red Nails”. The deal included the distribution rights for Korea and all ancillary rights to the project, which they still control. GDET was responsible for all pre-production, animation production and provided additional production financing for the project. In 2006, GDET provided the animation development work for **Marvel’s** “Fantastic Four” animated series for broadcast TV, on a work-for-hire basis, but provided GDET the opportunity to establish relationships with one of the world’s leading animation studios. Also in 2006, GDET provided post-production services on the theatrical animated feature, “Toy Warrior” which was produced by **Seoul Movie** of Korea. GDET also negotiated the distribution deal for this picture with **Hillcrest Distribution** of Los Angeles. GDET still holds worldwide distribution rights for Korea.

GDET expanded its distribution and co-production relationships in Asia during the next several years. It provided distribution and financing for several successful animated TV series from Seoul Movie, including “Tangoo & Ullashong” and “Legend of Blue”. These two series production budgets exceeded \$5 million, and GDET orchestrated international distribution to China, Japan, Taiwan as well as the U.S. In 2008, GDET arranged the first animated TV series co-production between Korea and China, with the \$5.2 million budgeted “My Little Fox” which was co-produced by China Central Television (CCTV) and Seoul Movie. “My Little Fox” was also the first Korean animation studio TV series production broadcast on CCTV.

In 2010, GDET partnered with Steve Waterman, the Executive Producer of the “Casper the Friendly Ghost” movie, the “Stuart Little” series, and the “Chipmunk” series to produce the animated DVD, “The Voyages of Young Dr. Doolittle”. This video had a production budget of over \$3 million and was distributed by Phase 4 of Canada to all outlets including broadcasting in Canada and HBO. GDET maintains 100% of all Korean distribution rights, and 25% of world-wide and ancillary rights to this property. Also during 2010, and through 2011, GDET developed and produced “The Almighty Bible” graphic novel series, a 10 title graphic novel series based on the stories of the Old and New Testaments. The total budget was \$1.8 million with worldwide gross income being over \$3,000,000. GDET maintains Western Hemisphere distribution rights to this series. The series was valued at over \$5,000,000 by 21st Century Press, a Christian publisher in the U.S. 21st Century has been a Christian book and video distributor for almost 20 years.

During the past several years, GDET has been developing additional intellectual properties and relationships in the family entertainment, media and technology industries. GDET was discussions with major Thailand conglomerates and corporations, to partner with them in developing location based entertainment projects.

On November 27, 2014, GDET signed a co-production agreement with Amaris Media, LLC, for the development, production and distribution of juvenile book titles into digital media and home video products. Amaris was headed by internationally-acclaimed author Bill Myers, whose books and videos have sold over 8 million units in the past decade. Beginning with Mr. Myers “Secret Agent” juvenile book series, GDET and Amaris would produce a multitude of cross-media properties, including a graphic novel, eBooks, and mobile apps. An animated home video will also be produced, with production taking place in Canada, Korea and the U.S. This was the first of several projects in development by GDET and its partners.

On December 9, 2014, GDET entered into an agreement to acquire Toronto based media Company, Eight E Media Inc., a Canadian private marketing and design firm specializing in media and location-based

entertainment marketing, however, in October of 2015, GDET and Eight E Media, Inc. mutually decided to suspend this acquisition pending to pursue other opportunities.

In April, 2015, GDET announced two separate distribution agreements for its graphic novel properties: “StoneAge Santa” will be distributed by 21st Century Press of Springfield, MO, and “The Son” will be distributed by Dickinson Press, Inc./DPZ of Grand Rapids, MI.

GD Entertainment & Technology, Inc.
Notes to Consolidated Financial Statements
For the Quarter Ended February 28, 2021

BUSINESS OVERVIEW

GD Entertainment and Technology, Inc. (“GDET”) began operations in California in 2004, as Golden Dog Productions, LLC, and is an international entertainment and technology corporation which owns, develops, acquires and monetizes media technologies and media intellectual properties.

GD Entertainment & Technology, also known as GDET, focuses on high growth industries to fulfill a diverse selection of premium products worldwide. The company currently has one operating subsidiary, DreamCard, a high-end metal card that personalizes debit and credit cards for a fee, allows users to create a customizable debit or credit card using its state-of-the-art online platform, and also customizes Specialty Cards for the Customer Loyalty and Affinity Networks. Dreamcard simply takes an existing debit or credit card and transfer its data and EMV chip into a new metal, 24karat or Stainless Steel card of the cardholders design and ships it to the holder. DreamCard in a secure seamless transaction. The Company redesigned and relaunched the website in July 2020, www.Dreamcard.cc with a completely improved back-end business portal which makes the User experience much friendlier and more streamlined. The Company markets to the business enterprises that promote commerce to members with a VIP card to accent the importance of member. Casinos and Affinity Networks are our largest consumers.

Note 1 - Nature of Operations and Basis of Presentation

The Company was incorporated in the State of New Jersey on October 22, 1991 under the name of “PRS SUB VI, INC.” On February 6, 2001, the Company amended its Certificate of Incorporation changing its name from PRS Sub VI, Inc. to Donini, Inc. Up until April 1, 2010, and through its subsidiaries, the Company was in the business of franchising pizza delivery businesses.

On September 26, 2014, the Company entered into a Letter of Intent with various parties whereby it agreed, if certain conditions were satisfied, to acquire all of the issued and outstanding ownership interests in Golden Dog Productions, LLC (“Golden Dog”), a California-based production company formed on November 15, 2004, in exchange for a majority of the issued and outstanding shares of the Company (the “Merger Agreement”). Pursuant to the Merger Agreement, and on November 16, 2014, the Company incorporated a wholly-owned subsidiary, GD Entertainment and Technology, Inc. (“GDET”), in the State of Nevada for the purposes of merging with and acquiring all of the issued and outstanding ownership interests in Golden Dog and, for the purpose of being the surviving corporation in the Merger Agreement.

On November 21, 2014, the Company effected the Merger Agreement with GDET and assumed the subsidiary's name, GD ENTERTAINMENT & TECHNOLOGY, INC.

Note 2 - Significant Accounting Policies

Basis of Presentation

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America and the rules of the Securities and Exchange Commission ("SEC"). In the opinion of management, all adjustments necessary in order for the financial statements to be not misleading have been reflected herein. The Company has elected a fiscal year ending on May 31.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Company to make estimates and judgments that affect the reported amounts of assets and liabilities, revenues and expenses, and related disclosures of contingent assets and liabilities. These estimates and judgments are based on historical information, information that is currently available to the Company and on various other assumptions that the Company believes to be reasonable under the circumstances. Actual results could differ from those estimates.

Cash Equivalents

Cash and cash equivalents consist of cash and short-term investments with original maturities of less than 90 days. Cash equivalents are placed with high credit quality financial institutions and are primarily in money market funds. The carrying value of those investments approximates fair value.

Property and equipment

Property and equipment are stated at the lower of cost or fair value. Depreciation is provided on a straight-line basis over the estimated useful lives of the assets, currently three years.

The estimated useful lives are based on the nature of the assets as well as current operating strategy and legal considerations such as contractual life. Future events, such as property expansions, property developments, new competition, or new regulations, could result in a change in the manner in which the Company uses certain assets requiring a change in the estimated useful lives of such assets.

Revenue Recognition

Revenue is only recognized when all of the following criteria are met: (1) persuasive evidence of an arrangement exists, (2) delivery has occurred or services have been rendered, (3) the price to the buyer is fixed or determinable, and (4) collectability is reasonably assured.

Basic Earnings (Loss) per Share

Basic earnings (loss) per common share is computed by dividing net income (loss) available to common shareholders by the weighted-average number of shares of common stock outstanding during the period. Diluted earnings per common share is computed by dividing income available to common shareholders by the weighted-average number of shares of common stock outstanding during the period increased to include the number of additional shares of common stock that would have been outstanding if potentially dilutive securities had been issued. There were no potentially dilutive securities outstanding during the periods presented.

Stock-based compensation

The Company accounts for equity based transactions with non-employees under the provisions of ASC Topic No. 505-50, "Equity-Based Payments to Non-Employees" ("Topic No. 505-50"). Topic No. 505-50 establishes that equity-based payment transactions with non-employees shall be measured at the fair value of the consideration received or the fair value of the equity instruments issued, whichever is more reliably measurable. The fair value of common stock issued for payments to non-employees in accordance with ASC Topic 505, "Equity", whereas the value of the stock compensation is based upon the measurement date as determined at either (a) the date at which a performance commitment is reached, or (b) at the date at which the necessary performance to earn the equity instrument is complete. The fair value of equity instruments, other than common stock, is estimated using the Black-Scholes option valuation model. In general, the Company recognizes an asset or expense in the same manner as if it was to pay cash for the goods or services instead of paying with or using the equity instrument.

The Company accounts for employee stock-based compensation in accordance with the guidance of FASB ASC Topic 718, *Compensation - Stock Compensation* which requires all share-based payments to employees, including grants of employee stock options, to be recognized in the financial statements based on their fair values on the grant date. The fair value of the equity instrument is charged directly to compensation expense and credited to additional paid-in capital over the period during which services are rendered. There has been no stock-based compensation issued to employees.

Fair Value of Financial Instruments

The carrying amount of cash, accounts payable and accrued liabilities, as applicable, approximates fair value due to the short-term nature of these items. The fair value of the related party notes payable cannot be determined because of the Company's affiliation with the parties with whom the agreements exist. The use of different assumptions or methodologies may have a material effect on the estimates of fair values.

ASC Topic 820, "Fair Value Measurements and Disclosures," requires disclosure of the fair value of financial instruments held by the Company. ASC Topic 825, "Financial Instruments," defines fair value, and establishes a three-level valuation hierarchy for disclosures of fair value measurement that enhances disclosure requirements for fair value measures. The carrying amounts reported in the balance sheets for receivables and current liabilities each qualify as financial instruments and are a reasonable estimate of their fair values because of the short period of time between the origination of such instruments and their expected realization and their current market rate of interest. The three levels of valuation hierarchy are defined as follows:

- Level 1: Observable inputs such as quoted prices in active markets;
- Level 2: Inputs, other than the quoted prices in active markets, that are observable either directly or indirectly; and
- Level 3: Unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions.

Impact of New Accounting Standards

In January 2017, the Financial Accounting Standards Board (“FASB”) issued an Accounting Standards Update (“ASU”) 2017-01, *Business Combinations (Topic 805) Clarifying the Definition of a Business*. The amendments in this update clarify the definition of a business with the objective of adding guidance to assist entities with evaluating whether transactions should be accounted for as acquisitions or disposals of assets or businesses. The definition of a business affects many areas of accounting including acquisitions, disposals, goodwill, and consolidation. The guidance is effective for interim and annual periods beginning after December 15, 2017 and should be applied prospectively on or after the effective date. The Company is in the process of evaluating the impact of this accounting standard update.

In November 2016, the FASB issued ASU 2016-18, *Statement of Cash Flows (Topic 230): Restricted Cash*, which requires restricted cash to be presented with cash and cash equivalents on the statement of cash flows and disclosure of how the statement of cash flows reconciles to the balance sheet if restricted cash is shown separately from cash and cash equivalents on the balance sheet. ASU 2016-18 is effective for interim and annual periods beginning after December 15, 2017, with early adoption permitted. The Company is in the process of evaluating the impact of this accounting standard update on its financial statements.

In October 2016, the FASB issued ASU 2016-16, *Income Taxes (Topic 740): Intra-Entity Transfer of Assets Other than Inventory*, which requires the recognition of the income tax consequences of an intra-entity transfer of an asset, other than inventory, when the transfer occurs. ASU 2016-16 is effective for interim and annual periods beginning after December 15, 2018, with early adoption permitted. The Company is in the process of evaluating the impact of this accounting standard update on its financial statements.

In August 2016, the FASB issued ASU 2016-15, *Statement of Cash Flows (Topic 230), Classification of Certain Cash Receipts and Cash Payments*. ASU 2016-15 provides guidance for targeted changes with respect to how cash receipts and cash payments are classified in the statements of cash flows, with the objective of reducing diversity in practice. ASU 2016-15 is effective for interim and annual periods beginning after December 15, 2017, with early adoption permitted. The Company is in the process of evaluating the impact of this accounting standard update on its statements of cash flows.

In March 2016, the FASB issued ASU 2016-09, *Stock Compensation (Topic 718), Improvements to Employee Share-Based Payment Accounting*. ASU 2016-09, which amends several aspects of accounting for employee share-based payment transactions including the accounting for income taxes, forfeitures, and statutory tax withholding requirements, and classification in the statement of cash flows. ASU 2016-09 is effective for fiscal years beginning after December 15, 2016 and

interim periods within annual periods beginning after December 15, 2016, with early adoption permitted. The Company is in the process of evaluating the impact of this accounting standard update on its financial statements.

In February 2016, the FASB issued ASU 2016-02, *Leases (Topic 842)*. ASU 2016-02 requires lessees to recognize lease assets and lease liabilities on the balance sheet and requires expanded disclosures about leasing arrangements. ASU 2016-02 is effective for fiscal years beginning after December 15, 2018 and interim periods in fiscal years beginning after December 15, 2018, with early adoption permitted. The Company is in the process of evaluating the impact of this accounting standard update on its financial statements.

In May 2014, August 2015, April 2016 and May 2016, the Financial Accounting Standards Board ("FASB") issued ASU 2014-09 (ASC Topic 606), Revenue from Contracts with Customers, ASU 2015-14 (ASC Topic 606) Revenue from Contracts with Customers, Deferral of the Effective Date, ASU 2016- from Contracts with Customers, ASU 2015-14 (ASC Topic 606) Revenue from Contracts with Customers, Deferral of the Effective Date, ASU 2016-10 (ASC Topic 10 (ASC Topic 606) Revenue from Contracts with Customers, Identifying Performance Obligations and Licensing, and ASU 2016-12 (ASC Topic 606) Revenue from Contracts with 606) Revenue from Contracts with Customers, Identifying Performance Obligations and Licensing, and ASU 2016-12 (ASC Topic 606) Revenue from Contracts with accounting for revenue arising from contracts with customers and supersedes most current revenue recognition guidance, including industry-specific guidance. It also requires entities to disclose both quantitative and qualitative information that enable financial statements users to understand the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers. The amendments in these ASUs are effective for fiscal years, and interim periods within those years, beginning after December 15, 2017. Early adoption is permitted for annual periods beginning after December 15, 2016. This standard may be applied process of assessing the impact, if any, on its financial statements.

The Company has implemented all new accounting pronouncements that are in effect. These pronouncements did not have any material impact on the financial statements unless otherwise disclosed, and the Company does not believe that there are any other new accounting pronouncements that have been issued that might have a material impact on its financial position or results of operations.

Income Taxes

Income taxes are computed using the asset and liability method of accounting. Under the asset and liability method, a deferred tax asset or liability is recognized for estimated future tax effects attributable to temporary differences and carry-forwards. The measurement of deferred income tax assets is adjusted by a valuation allowance, if necessary, to recognize future tax benefits only to the extent, based on available evidence; it is more likely than not such benefits will be realized. The Company's deferred tax assets were fully reserved at December 31, 2017 and 2016.

The Company accounts for its income taxes using the Income Tax topic of the FASB ASC 740, which requires the recognition of deferred tax liabilities and assets for expected future tax consequences of events that have been included in the financial statements or tax returns. Under this method, deferred tax liabilities and assets are determined based on the difference between the

financial statement and tax bases of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse.

Note 3 - Going Concern

These consolidated financial statements have been prepared on a going concern basis, which implies the Company will continue to realize its assets and discharge its liabilities in the normal course of business. However, the accompanying financial statements reflect that the Company has incurred significant operating losses, and has a deficit in shareholders' equity. These factors raise substantial doubt regarding the Company's ability to continue as a going concern. The continuation of the Company as a going concern is dependent upon the continued financial support from its shareholders, the ability of the Company to obtain necessary equity financing to continue operations. As at May 31, 2018, the Company has accumulated losses of \$19,025,202 since inception. These consolidated financial statements include write off of assets acquired that are no longer useful and have no value.

Note 4 – Property and Equipment

Property and equipment, stated at cost, less accumulated depreciation at February 28, 2021 consisted of the following:

		February 28, 2021
GPU Mining computers	\$	73,308
Leasehold improvement		54,915
ATM		-
Property and equipment, net	\$	128,222

During the quarter ended August 31, 2020 the Company sold a portion of its Bitcoin mining computers and its ATM machine for a loss of \$283,212.

Note 5 - Related Party Transactions

On September 1, 2005, the Company entered into a Convertible Promissory Note with the Company's former CEO for \$50,000 ("CEO Loan"), which is included in loans from related parties. The loan bears interest at 8% per annum, compounded annually and was due on September 1, 2006. On January 15, 2008, \$2,000, \$8,000, \$8,000 and \$5,500 were assigned to third parties in exchange for debt and, subsequently converted into 2,000,000, 8,000,000, 8,000,000 and 5,500,000 shares of common stock, respectively. As of November 30, 2015, a principal balance of \$26,500 of the former CEO's Loan remains unpaid, including \$27,014 in accrued interest. c) On May 7, 2007, the Company entered into a promissory note in the principal amount of \$100,000. Under the terms of the note, the principal of the loan is unsecured and bears 14% interest per annum.

On December 1, 2014, the Company entered into a Purchase and Assumption Agreement ("Assumption Agreement"), whereby the \$100,000 note was assigned to a third party and, concurrently, the Company entered into a modified Convertible Promissory Note ("Modified Note"). The modified note bears interest at 5% per annum and is due on December 1, 2015. The modified note is convertible, at any time, in whole or in part, at the note holder's option, into common stock of the Company at an initial conversion price per share equal to 50% of the lowest trading price of the Company's common stock during the previous twenty (20) trading days.

Pursuant to ASC 470-50, "*Debt – Modification and Extinguishment*," it was determined that the original and modified notes are substantially different and the Company treated the original convertible note extinguished and exchanged for a new convertible note. The modified note was initially recorded at fair value and that amount was compared to the carrying value of the original note prior to modification to determine the gain or loss on extinguishment of debt.

The modified note also provides that the principal amount due to original noteholder shall be prorated based on the consideration actually paid by Maker to original noteholder, such that the Maker is only required to repay the amount of consideration and the Maker is not required to repay any unfunded portion of this modified note.

Concurrent with the Assumption Agreement, the original noteholder, the Maker and, the Escrow Agent entered into an Escrow Agreement which provides that \$65,000 (less legal and administrative fees of \$500) be held in escrow.

Note 7 - Convertible Notes Payable

a) On July 23, 2004, the Company borrowed \$250,000 and entered into an 8%, 5-year Promissory Note. The Note is guaranteed by the Company. The Promissory Note is payable in monthly installments of \$5,054, including interest commencing in October 2004 through September 2009. On September 2, 2009, a portion of the Promissory Note was assigned to a third party and the Company issued 6,000,000 shares of common stock upon the conversion of the principal amount of \$6,000.

On January 15, 2010, portions of the Promissory Note were assigned to third parties and the Company issued 32,000,000, 22,000,000, 2,500,000 and 5,500,000 shares of common stock upon the conversion of the principal amounts of \$32,000, \$22,000, \$2,500 and \$5,500, respectively.

On November 18, 2014, \$42,500 of the Note was assigned to a third party and the assignee subsequently converted the assigned amount into 42,500,000 shares of the common stock of the Company.

On December 9, 2014, \$40,000 of the Note was assigned to a third party pursuant to a Debt Securities Assignment and Purchase Agreement and Securities Exchange and Settlement Agreement (“Debt Assignment”). Pursuant to the Debt Assignment, the Assignee is permitted to convert any portion of the assigned debt at any time until the assigned Note is no longer outstanding. Further, the Assignee is permitted to receive eligible conversions at the lesser of \$0.0004 or a 50% discount from the lowest intra-day trading price for the 20 days prior to a conversion notice submitted to the Company’s Transfer Agent. On December 18, 2014, the Company issued 53,350,000 shares of common stock upon the conversion of the principal amount of \$5,350 at a conversion price of \$0.0001 per share. A principal balance of \$34,650 remains outstanding after said conversion.

On January 29, 2015, \$5,000 of the Note was assigned to a third party and the assignee subsequently converted a portion of the assigned amount into 164,500,000 shares of the common stock of the Company.

During the quarter ended November 30, 2015, the principal balance of \$67,500 on the original Promissory Note and all accrued interest were written off and recorded as a gain in forgiveness of debt.

b) On June 7, 2004, the Company entered into a Securities Purchase Agreement with Global Capital Funding Group, L.P. (“Global”), whereby Global purchased a \$1,500,000 convertible note (the “Note”) for \$1,200,000. The Note was secured by the Company’s accounts receivable, inventory, property and equipment, and general tangibles and matured on June 7, 2007.

Pursuant to the agreement, the Company issued a warrant to Global to purchase 500,000 shares of common stock as additional finance costs. In addition, the Company issued a warrant to an unrelated corporation to purchase 50,000 shares of common stock as a finder’s fee. Both warrants were exercisable at \$0.495 per share and expired on June 7, 2009.

On October 1, 2004, the Company and Global entered into an Exchange Agreement whereby the Note was exchanged for a new note (the “new Note”) in the amount of \$1,540,000. The New Note matured on June 7, 2006 and was secured by a first lien on the Company’s non-real estate assets and the issuance and pledge of 8,400,000 shares of common stock. The effective interest rate on the New Note is 13%.

Other terms under the New Note are as follows:

- i) As long as there is no event of default (as defined), the Company may, at its option, prepay the New Note at a price equal to the outstanding principal amount of the New Note, \$40,000 of liquidating damages and all accrued and unpaid interest.
- ii) Global has the right to convert the New Note into shares of common stock upon an event of default (as defined) or at any time following June 7, 2005 at the following conversion price – (a) Principal amount being converted together with the accrued and unpaid interest through the date of conversion divided by (b) 100% of the three lowest bid prices during the twenty (20) trading days immediately preceding the date of conversion. Global can only convert (other than due to an

event of default) if the price of the Company's common stock is equal to or greater than \$0.60 per share at the time of conversion.

During the quarter ended August 31, 2009, Global instituted a lawsuit in the United States District Court of New Jersey to collect on its defaulted loan. The Company subsequently filed an Answer to the Complaint. During the following quarter ended November 30, 2009, the Company and Global settled, in principal, their lawsuit and all disputes on the following terms:
