Describe any trading List any stock split, stock dividend, recapitalization, merger, acquisition, spin-off, or reorganization either currently anticipated or that occurred within the past 12 months:

Corporate action of Patient Access Solutions. Both these actions involve the new Series C Convertible Preferred Stock. The first is a dividend to all shareholders of record on September 18, 2020 at the close of the market. For every 5,000 shares of common stock then owned, each shareholder received one (1) Series C Convertible Preferred share. This will be processed as follows:

DTC will receive a block of Series C shares from the Transfer Agent and then these Series C shares will be distributed to each shareholder's brokerage firm automatically.

The second item the Company has authorized is a tender offer for all common shareholders of record on the same date. The way this is done is by the shareholder exchanging their common shares for the new Series C Convertible Preferred stock. That conversion rate will be one (1) share of the new Preferred for every 250 shares of common owned.

3) Issuance History

The goal of this section is to provide disclosure with respect to each event that resulted in any direct changes to the total shares outstanding of any class of the issuer's securities in the past two completed fiscal years and any subsequent interim period.

Disclosure under this item shall include, in chronological order, all offerings and issuances of securities, including debt convertible into equity securities, whether private or public, and all shares or any other securities or options to acquire such securities issued for services. Using the tabular format below, please describe these events.

² To be included in the Pink Current Information tier, the transfer agent must be registered under the Exchange Act.

Check this box to indicate there were no changes to the number of outstanding shares within the past two completed fiscal years and any subsequent periods: ☒ D

Example: A company with a fiscal year end of December 31st in addressing this item for its quarter ended September 30, 2018, would include any events that resulted in changes to any class of its outstanding shares from the period beginning on January 1, 2016 through September 30, 2018 pursuant to the tabular format above.

- 1 Each Preferred A share entitles the holder to vote the equivalent of 100 shares of common stock. Accordingly, the holder of 5,000,000 Preferred A shares entitles the holder to vote the equivalent of 500,000,000 shares of common stock, in addition to common stock already held by such holder. Therefore, the holder of 5,000,000 shares of Preferred A has at least a 23% voting interest, in addition to voting rights of common shares held by such holder. The holder of Preferred A may, at any time, convert its Preferred A shares to common shares at a ratio of 100 common shares for each Preferred A share. Accordingly, each holder of 5,000,000 Preferred A shares, upon conversion of all 5,000,000 Preferred A shares would hold at least 500,000,000 common shares (23%) in addition to common shares already held.

9) Issuer's Business, Products and Services

The purpose of this section is to provide a clear description of the issuer's current operations. In answering this item, please include the following:

C. Summarize the issuer's business operations (If the issuer does not have current operations, state "no operations")

Patient Access Solutions Inc. has developed and markets the PASHealth Web Portal System. The PASHealth Web Portal System offers electronic medical eligibility, electronic referrals, and service authorizations, electronic claims

processing, drug formularies, electronic prescriptions, electronic medical records and patient data, automating the labor intensive and expensive manual process currently used by many facilities and healthcare providers. D-PAS utilizes digital pen & paper, to capture handwritten information for Home Healthcare workers, transfer it into a digital form into the PAS web portal and utilize the data to initiate workflows in a secure environment. A patients' medical history and patient records are used to initiate necessary workflows within the web portal, securely and much more efficiently, empowering the healthcare business process. In addition, the Web Portal System offers a complete suite of self-pay receivable management solutions for the healthcare facilities.

In January 2017 the Company opened up an Integrative Medical Facility in Plainview, New York.

For the Quarter ended July 31, 2021 Recent Developments: As a result of the COVID-19 pandemic, we expected our revenue for the year ended October 31, 2020 to be reduced by 90% compared to our revenue for the year ended October 31, 2019. The rapid spread of COVID-19, as well as the measures governments and private organizations have implemented in order to stem the spread of this pandemic, have had, and are continuing to have, a material adverse effect and consequently upon our business.

- In New York, which is our primary market, the government has encouraged social distancing efforts and limits on gathering size, placed significant restrictions on which kind of medical services are considered “essential”;
- State or local governments have issued health-related curfews or “shelter in place” orders which dissuade any provider visits that aren’t considered critical/emergency;
- Employers in both the public and private sectors have issued instructions to employees to work from home having a ripple effect on consumers having the ability to visit a physician for elective procedures;
- Consumers discouraged from interacting with society where COVID-19 is particularly virulent;

These effects related to the COVID-19 pandemic are negatively impacting our business in general, which in turn are materially adversely affecting our revenues and results of operations. Although certain of the restrictions above have begun, and may continue, to ease, the ongoing pandemic, including concentrated outbreaks of COVID-19, may result in their reinstitution. Moreover, additional currently unknown restrictions (including possibly in the near term), lengthening the negative effects of the COVID-19 pandemic on our business.

Our operations could be negatively affected further if our employees are sickened as a result of exposure to COVID-19.

In response to the crisis, we are taking certain steps to mitigate the effects on our business, which themselves may have negative consequences with respect to our business and operations. For example, we have significantly reduced our operating capacity. Despite these efforts, we have experienced significant appointment cancellations. Cancellations and related refunds have negatively affected our revenues and liquidity, and we expect such negative effects to continue. Other cost-saving measures that we are implementing or may consider, such as deferral of nonessential maintenance, capital expenditure reductions, hiring freezes. The pandemic is also having a material adverse effect on third parties whose services we utilize. Depending on the duration of the pandemic, such negative developments may occur over the entirety of the event. At this time, we are also not able to predict whether the COVID-19 pandemic will result in permanent changes to our customers’ behavior, with such changes including but not limited to a permanent reduction in office visits and treatment. All of the foregoing have had a material adverse effect on our business, results of operations and financial condition.

Patient Access Solutions Inc. (“PASO”) was incorporated in the state of Nevada on March 17, 2006. Its wholly owned subsidiary PAS Health Management Companies NY, Inc. (“PASO Health”), incorporated in the State of New York on October 1, 2016, provides administrative, management, and facility services to health care providers at locations in Plainview New York and Center Moriches New York). PASO also rents equipment to other health care providers.

PASO and PASHealth Management Companies NY are collectively referred to as the “Company”.

The Unaudited Financial Statements as of July 31, 2021, have been prepared in accordance with accounting principles generally accepted in the United States. In the opinion of management. the unaudited financial statements reflect all adjustments, which include only normal recurring adjustments, necessary to present fairly the financial data and other information disclosed in these notes. The results for these periods are not necessarily indicative of the results to be expected for future periods.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (a) Basis of Presentation and Going Concern

The financial statements are prepared on a "going concern" basis, which contemplates the realization of assets and liabilities in the normal course of business; however, there is substantial doubt as to the Company's ability to continue as a going concern.

The Company plans to improve its financial condition by obtaining additional financing and by generating positive cash flow from its future business operations. However, there is no assurance that the Company will be successful in accomplishing its objectives. The financial statements do not include any adjustments that might be necessary should the Company be unable to continue as a going concern.

(b) Principles of Consolidation

The Unaudited Consolidated financial statements include the accounts of PASO and its wholly owned subsidiary PASO Health (collectively, the "Company"). All inter-company balances and transactions have been eliminated in consolidation.

(c) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

(d) Cash and Cash Equivalents

The Company considers all liquid investments purchased with original maturities of ninety days or less to be cash equivalents.

(e) Fees and Loans Receivable from Health Care Providers

Fees receivable from health care providers are recorded at net realizable value. The Company periodically assesses the adequacy of valuation allowances for uncollectable receivables by evaluating the collectability of outstanding receivables and general factors such as historical collection experience, length of time individual receivables are past due, and the economic and competitive environment.

(f) Property, Plant and Equipment

Property, plant and equipment is stated at cost less accumulated depreciation and amortization. Depreciation of furniture, fixtures, and equipment is provided using the straight-line method over the estimated useful lives of the respective assets (ranging from five to seven years). Amortization of leasehold improvements is provided over the shorter of the remaining lease term or the assets' useful lives.

(g) Revenue Recognition

Revenue from fees from health care providers and equipment rentals are recognized when all the following criteria are met: when persuasive evidence of an arrangement exists
