Indicate by check mark whether the company is a shell company (as defined in Rule 405 of the Securities Act of 1933 and Rule 12b-2 of the Exchange Act of 1934):

Yes:  No:

Indicate by check mark whether the company’s shell status has changed since the previous reporting period:

Yes:  No:

Indicate by check mark whether a Change in Control<sup>1</sup> of the company has occurred over this reporting period:

Yes:  No:

---

<sup>1</sup> “Change in Control” shall mean any events resulting in:

(i) Any “person” (as such term is used in Sections 13(d) and 14(d) of the Exchange Act) becoming the “beneficial owner” (as defined in Rule 13d-3 of the Exchange Act), directly or indirectly, of securities of the Company representing fifty percent (50%) or more of the total voting power represented by the Company’s then outstanding voting securities;

(ii) The consummation of the sale or disposition by the Company of all or substantially all of the Company’s assets;

(iii) A change in the composition of the Board occurring within a two (2)-year period, as a result of which fewer than a majority of the directors are directors immediately prior to such change; or

(iv) The consummation of a merger or consolidation of the Company with any other corporation, other than a merger or consolidation which would result in the voting securities of the Company outstanding immediately prior thereto continuing to represent (either by remaining outstanding or by being converted into voting securities of the surviving entity or its parent) at least fifty percent (50%) of the total voting power represented by the voting securities of the Company or such surviving entity or its parent outstanding immediately after such merger or consolidation.

During the quarter ended September 30, 2021, Brian Sorrentino resigned his positions as Chairman of the Board and President of the Company and Zbigniew Lambo was appointed to these positions in order to facilitate the revival of the Company and to bring it current in its filings with OTCMarkets. After this is accomplished, the Company will seek to find a new line of business in which to continue in operation. There was no change in voting control of the Company as a result of this management change.

## **NOTE 1: Summary of Significant Accounting Policies, Nature of Operations and Use of Estimates:**

### **Nature of Business**

Day TradeXchange, Inc.(the "Company") was incorporated under the laws of the State of Delaware on December 28, 1987, and had several names as indicated in Item 1 in this Report.

We are a consulting company formed to acquire controlling interests in or to participate in the creation , and to provide financial, management and technical support to, development stage, e-commerce, and traditional brick and mortar businesses.

There are no restrictions or limitations as to the type of industry that we intend to focus our activities on. We do not want to limit the scope of our potential target businesses.

### **Basis of Presentation**

The accompanying financial statements have been prepared in accordance with generally accepted accounting principles in the United States of America and pursuant to the rules and regulations of the United States Securities and Exchange Commission ("SEC").

The preparation of the financial statements requires management to make estimates and assumptions that affect the reported amounts in the financial statements, including the estimated useful lives of tangible and intangible assets. Management believes the estimates used in preparing the financial statements are reasonable and accurate. Actual results could differ from these estimates.

### **Revenue Recognition**

Revenue is recognized in accordance with SEC Staff Accounting Bulletin No. 104, "Revenue Recognition in Financial Statements". The Company recognizes revenue when the significant risks and rewards of ownership have been transferred to the customer pursuant to applicable laws and a regulation, including factors such as when there is evidence of a sale arrangement, delivery has occurred, or service has been rendered, the price to the buyer is fixed or determinable, and collectability is reasonably assured.

### **Use of Estimates**

The preparation of financial statements, in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions, which affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period.

### **Cash and Cash Equivalents**

Cash and Cash equivalents are considered to be highly liquid investments purchased with an initial maturity of three (3) months or less.

### **Inventories**

Inventories are valued at the lower of cost or net realizable value with cost using the first in first out method.

## Allowance for Doubtful Accounts

The allowance for doubtful accounts is based on the Company's assessment of the collectability of customer accounts. The Company regularly reviews the allowance by considering factors such as historical experience, credit quality, the age of the account receivable balances and current economic conditions.

## Property and Equipment

Property and equipment are carried at cost less accumulated depreciation. Expenditures for maintenance and repairs are charged to operations when incurred, while additions and improvements are capitalized. The Company depreciates the costs of these assets over their estimated useful lives. When assets are retired or disposed, the asset's original cost and related accumulated depreciation are eliminated from accounts and any gain or loss is reflected in income. Depreciation and amortization are generally accounted for using the straight-line method over the estimated useful lives of the assets as follows:

Office, protective and demonstration, and computer equipment	4 Years
Manufacturing equipment	10 Years
Leasehold improvements	lease term

## Long-lived Assets

Long-lived assets are reviewed for impairment whenever events or changes in circumstances indicate that the book value of the asset may not be recoverable. The Company periodically evaluates whether events and circumstances have occurred that indicate possible impairment. When impairment indicators exist, the Company uses market quotes, if available or an estimate of the future undiscounted net cash flows of the related asset or asset group over the remaining life in measuring whether or not the asset values are recoverable.

## Intellectual Property

None.

## Accounting for Stock Based Compensation

The Company recognizes all share-based payments to employees, including grants of employee stock options, as compensation expense in the financial statements based on their fair values. That expense will be recognized over the period during which an employee is required to provide services in exchange for the award, known as the requisite service period (usually the vesting period).

The Company accounts for stock-based compensation awards issued to non-employees for services and financing arrangements, as prescribed by FASB ASC 505-50, *Equity-Based Payments to Non-Employees*, at either the fair value of the services rendered or the instruments issued in exchange for such services, whichever is more readily determinable. The fair value of common stock issued for services is based on the closing stock price on the date the common stock was issued.

In September 2006, the Financial Accounting Standards Board (FASB) introduced a framework for measuring fair value and expanded required disclosure about fair value measurements of assets and liabilities. The Company adopted the standard for those financial assets and liabilities as of the beginning of the 2008 fiscal year and the impact of adoption was not significant. FASB Accounting Standards Codification (ASC) 820 "*Fair Value Measurements and Disclosures*" (ASC 820) defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. ASC 820 also establishes a fair value hierarchy that distinguishes between (1)

market participant assumptions developed based on market data obtained from independent sources (observable inputs) and (2) an entity's own assumptions about market participant assumptions developed based on the best information available in the circumstances (unobservable inputs). The fair value hierarchy consists of Six broad levels, which gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The Six levels of the fair value hierarchy are described below:

- Level 1 - Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.
- Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, including quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; inputs other than quoted prices that are observable for the asset or liability (e.g., interest rates); and inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- Level 3 - Inputs that are both significant to the fair value measurement and unobservable.

Fair value estimates discussed herein are based upon certain market assumptions and pertinent information available to management as of September 30, 2021. The respective carrying value of certain on-balance-sheet financial instruments approximated their fair values due to the short-term nature of these instruments. These financial instruments include accounts receivable, other current assets, accounts payable, accrued compensation and accrued expenses. The fair value of the Company's notes payable is estimated based on current rates that would be available for debt of similar terms which is not significantly different from its stated value.

Deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the consolidated financial statements carrying amounts of existing assets and liabilities and their respective income tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the year ended in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized as income in the period that included the enactment date. Due to the Company's continued losses, the Company has placed a full valuation allowance against the deferred tax asset.

The Company records stock as issued at the time consideration is received or the obligation is incurred.

Basic and diluted earnings per share are computed by dividing net income (loss) by the weighted-average number of shares of common shares outstanding during the year ended. Diluted earnings per share are computed by dividing net income (loss) by the weighted average number of shares of common stock outstanding and dilutive options outstanding during the year ended. Common stock to be issued upon conversion of preferred stock, convertible debt and common stock options has not been included in dilutive earnings per share due to the Company's losses and their anti-dilutive effect.

### **Income Taxes**

The Company complies with the Provisions of SFAS No. 109 "Accounting for Income Taxes". Deferred income tax assets and liabilities are computed for differences between the financial statement and tax bases of assets and liabilities that will result in future taxable or deductible amounts and are based on enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established, when necessary, to reduce deferred income tax assets to the amount expected to be realized.

## **Income (Loss) Per Share**

In accordance with SFAS No. 128, "Earnings Per Share", the basic net loss per common share is computed by dividing net loss available to common stockholders by the weighted average number of common shares outstanding. Diluted net loss per common share is computed similar to basic net loss per common share except that the denominator is increased to include the number of additional common shares that would have been outstanding if the potential common shares had been issued and if the additional common shares were dilutive. As of the date of these financial statements, diluted net loss per share is equivalent to basic net loss per share as there were no dilutive securities outstanding and the Company net loss is deemed anti-dilutive.

## **Concentration of Credit Risk**

Financial instruments, which potentially subject the Company to concentrations of credit risk, consist of cash and cash equivalents and accounts receivables. The Company places its cash with high quality financial institutions which at times may exceed the FDIC \$250,000 insurance limit. The Company extends credit based on an evaluation of the customer's financial condition, generally without collateral. Exposure to losses on receivables is principally dependent on each customer's financial condition. The Company monitors its exposure for credit losses and maintains allowances for anticipated losses, as required. Accounts are "written-off" when deemed uncollectible.

## **New Accounting Pronouncements**

None that are applicable in fiscal 2021 to company operations.

## **NOTE 2: Related Party Transactions**

Certain stockholders had made certain advances to the Company on an interest free basis, payable upon demand. The Company has not computed interest on the advances and has treated the interest of \$0 as contributed capital with an offset to interest expense.

During the nine months ended September 30, 2021, the officer paid expenses on the Company's behalf and advanced the Company a net amount of \$0.

## **NOTE 3: Non-Cash Transactions**

The following non-cash investing and financing activities occurred during the period from January 1, 2021, through September 30, 2021:

None.

## **NOTE 4: Management's discussion and analysis or plan of operations**

### **A. Plan of Operation**

(i) We cannot currently satisfy our existing cash needs and will need to raise additional capital unless a substantial improvement in sales occurs during the next twelve months.

(ii) The Company has had no revenue during the reporting period and is seeking capital, the acquisition of new products or product marketing agreements, or a new line of business.

(iii) We do not expect to purchase additional plant or equipment except as required from sales growth.

(iv) We expect to hire additional staff when, if and as may be required by acquisitions.

## B. Management's Discussion and Analysis of Financial Condition and Results of Operations.

### 1. The nine months ended period

(i) The accompanying financial statements represent accurately the condition of the business showing \$0 sales. We expect our sales to improve with the addition of new customers, additional products, and an improving economy.

(ii) The Company does not have sufficient working capital and has been subsidized by shareholder loans and private placements of company stock. Should the shareholders fail to continue loaning capital there is substantial doubt about our ability to continue as a going concern.

(iii) We have no commitments for capital expenditures or expected funds for such expenditures.

(iv) There are no known or expected trends which have not already impacted us.

(v) All significant elements of income or loss have come from our continued operations.

(vi) The company expenses remained constant in the nine months ended September 30, 2021, from the same period in 2020. In preparation for a possible acquisition the Chief Executive Officer entered into a settlement agreement with the Company that allow the Company to move the debt of \$407,359 and the cancellation of the remaining 9,000 Class B shares valued at \$22,500 to be moved to Paid in Capital as reflected on the Balance Sheet in this Report. The deposit was deemed not refundable and has been listed as a Bad debt on the Income Statement included in this Report.

(vii) There are no seasonal effects on our current business involvement.

## C. Off Balance Sheet Arrangements

None known or anticipated.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern no adjustments have been made for any other outcome.

We are currently seeking financing to continue our businesses. There is no assurance that we will find financing to continue our projects.

### **NOTE 5: Legal proceedings.**

## 5) Issuer's Business, Products and Services

The purpose of this section is to provide a clear description of the issuer's current operations. In answering this item, please include the following:

- A. Summarize the issuer's business operations (If the issuer does not have current operations, state "no operations")

No operations.

- B. Please list any subsidiaries, parents, or affiliated companies.

None.

- C. Describe the issuers' principal products or services.

None.

## 6) Issuer's Facilities

The goal of this section is to provide a potential investor with a clear understanding of all assets, properties or facilities owned, used, or leased by the issuer and the extent in which the facilities are utilized.

In responding to this item, please clearly describe the assets, properties, or facilities of the issuer, give the location of the principal plants and other property of the issuer and describe the condition of the properties. If the issuer does not have complete ownership or control of the property (for example, if others also own the property or if there is a mortgage on the property), describe the limitations on the ownership.

If the issuer leases any assets, properties, or facilities, clearly describe them as above and the terms of their leases.

Our principal offices are located at 22909 Davis Mill Rd. Germantown, MD 20876 in space provided free of charge by the president of the Company.

## 7) Company Insiders (Officers, Directors, and Control Persons)

The goal of this section is to provide an investor with a clear understanding of the identity of all the persons or entities that are involved in managing, controlling or advising the operations, business development and disclosure of the issuer, as well as the identity of any significant or beneficial shareholders.

Using the tabular format below, please provide information, as of the period end date of this report, regarding any person or entity owning 5% of more of any class of the issuer's securities, as well as any officer, and any director of the company, or any person that performs a similar function, regardless of the number of shares they own. **If any insiders listed are corporate shareholders or entities, provide the name and address of the person(s) beneficially owning or controlling such corporate shareholders, or the name and contact information (City, State) of an individual representing the corporation or entity in the note section.**
