FOODFEST INTERNATIONAL 2000, INC. NOTES TO FINANCIAL STATEMENTS For the Year Ended December 31, 2021

NOTE 1 – NATURE OF ORGANIZATION Business Operations

The company currently have no operations and will attempt to merge with another entity with experienced management and opportunities for growth in return for shares of our common stock to create value for our shareholders. There can be no assurance that we will successfully complete this type of transaction. In particular, there is no assurance that any such business will be located or that any stockholder will realize any return on their shares after such a transaction. Any merger or acquisition completed by us can be expected to have a significant dilutive effect on the percentage of shares held by our current stockholders.

The Company's fiscal year end is December 31.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States. A precise determination of many periods necessarily involves the use of estimates which have been made using careful judgment.

Use of Estimates

The financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assertions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the reported amounts of expenses during the reporting period. Actual results could differ from those estimates.

The financial statements have, in management's opinion, been properly prepared within the framework of materiality and within the framework of the significant accounting policies summarized below.

NOTE 3 - GOING CONCERN

These financial statements have been prepared in accordance with generally accepted accounting principles applicable to a going concern, which assumes that the Company will be able to meet its obligations and continue its operations for its next fiscal year. Realization values may be substantially different from carrying values as shown and these financial statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern. For the year ended December 31, 2021 and 2020, the Company had not yet achieved profitable operations, has accumulated convertible debt of \$50,028 and \$37,080, respectively, and expects to incur further losses in the development of its business, all of which raise substantial doubt about the Company's ability to continue as a going concern. The Company's ability to continue as a going concern is dependent upon its ability to generate future profitable operations and/or to obtain the necessary financing to meet its obligations and repay its liabilities arising from normal business operations when they come due. Management has no formal plan in place to address this concern but considers that the Company will be able to obtain additional funds by equity financing and/or

related party advances, however, there is no assurance of additional funding being available or on terms acceptable to the Company.
