Notes to Consolidated Unaudited Financial Statements

(December 31, 2021 and 2020)

NOTE 1 - ORGANIZATION AND NATURE OF OPERATIONS

Direct Equity International, Inc. (the Company) was organized in the state of New York as International Telescript in 1987 and became inactive in 1988. On October 15, 1997 International Telescript was acquired by Interstate Care Systems, a Nevada Corporation, through a reverse merger. On November 19, 2017 the Company acquired a Nevada corporation known as Green Touch Awareness, Inc. as a wholly-owned subsidiary and which has been domiciled as an active Florida corporation effective January 12, 2021.

The Company develops and markets Business to Business (B2B) and Business to Consumer (B2C) internet/digital properties for a myriad of business and consumer uses. The Company also provides a variety of branding / marketing and digital services to Health & Wellness, Hemp, CBD and Cannabis industry companies.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

In the opinion of management, the accompanying balance sheets and related interim statements of income, cash flows, and stockholders' equity include all adjustments, consisting only of normal recurring items, necessary for their fair presentation in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP). Preparing financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue, and expenses. Actual results and outcomes may differ from management's estimates and assumptions.

Principles of Consolidation

The consolidated financial statements of the Company include those of the Company and its subsidiary for the periods in which the subsidiary was owned/held by the Company. All significant intercompany accounts and transactions have been eliminated in the preparation of the consolidated financial statements.

Stock-Based Compensation

The Company has on occasion issued equity and equity linked instruments to non-employees in lieu of cash to various vendors for the receipt of goods and services and, in certain circumstances the settlement of short-term loan arrangements. The applicable GAAP establishes that share-based payment transactions with nonemployees shall be measured at the fair value of the consideration received or the fair value of the equity instruments issued, whichever is more reliably measurable.

Fair Value of Financial Instruments

The Company considers the carrying amounts of cash, certificates of deposit, accounts receivable, accounts payable, notes payable, related party and other payables, customer deposits, and short term loans approximate their fair values because of the short period of time between the origination of such instruments and their expected realization. The Company considers the carrying amount of notes payable to approximate their fair values based on the interest rates of the instruments and the current market rate of interest.

Cash Equivalents

The Company considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

Net Income (Loss) Per Share

Basic earnings (loss) per share is computed using the weighted-average number of common shares outstanding during the period. Diluted earnings (loss) per share is computed using the weighted-average number of common shares and the dilutive effect of contingent shares outstanding during the period. Potentially dilutive contingent shares, which primarily consist of convertible notes, stock issuable to the exercise of stock options and warrants have been excluded from the diluted loss per share calculation because their effect is anti-dilutive.

Recent Accounting Guidance

The Company has evaluated the recent accounting pronouncements through ASU 2021-10 and believes that none of the pronouncements will have a material effect on the company's financial statements.

Research and Development Expenses

Costs related to research and development is charged to research and development expense as incurred.

Income Taxes

Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amounts expected to be realized, but no less than quarterly. Currently the company has not valued any NOL because of the expectation that it will not be used.

NOTE 3 - REALIZATION OF ASSETS AND GOING CONCERN

The accompanying consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America, which contemplate continuation of the Company as a going concern. The Company has sustained losses from operations in recent years, and such losses have continued through the current period ended December 31, 2021. In addition, the Company has used, rather than provided, cash in its operations. The Company has attempted during the period to use its resources to commercialize its technology and develop viable commercial products and to provide for its working capital needs.

In view of the matters described in the preceding paragraph, recoverability of a major portion of the asset amounts shown in the accompanying balance sheet is dependent upon continued operations of the Company, which in turn is dependent upon the Company's ability to meet its financing requirements on a continuing basis, to maintain present financing and to succeed in its future operations. The consolidated financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or amounts and classification of liabilities that might be necessary should the Company be unable to continue in existence.

NOTE 6 - PROVISION FOR INCOME TAXES

The Company provides for income taxes under ASC 740 "Income Taxes" which requires the use of an asset and liability approach in accounting for income taxes. Deferred tax assets and liabilities are recorded based on the differences between the financial statement and tax bases of assets and liabilities and the tax rates in effect currently.

The standard requires the reduction of deferred tax assets by a valuation allowance if, based on the weight of available evidence, it is more likely than not that some or all of the deferred tax assets will not be realized. In the Company's opinion, it is uncertain whether they will generate sufficient taxable income in the future to fully utilize the net deferred tax asset. Accordingly, a valuation allowance equal to the deferred tax asset has been recorded. The total deferred tax asset is \$71,907 which is calculated by multiplying a 35% estimated tax rate by the cumulative NOL of \$205,448. The total valuation allowance is a comparable \$71,907.
