Preferred Stock

In October 2018, the Company issued 3,000 shares of Series A Convertible Preferred Shares (the Shares) to the members of the executive management as compensation. Each issued and outstanding Share is entitled to the number of votes equal to the result of: (i) the number of shares of common stock of the Company (the Common Shares) issued and outstanding at the time of such vote multiplied by 1.01; divided by (ii) the total number of Shares issued and outstanding at the time of such vote. The Shares shall vote together with the holders of Common Shares as a single class.

The shares were issued to the investors without registration under the Securities Act of 1933 based upon exemptions from registration provided under Section 4(2) of the Act and Regulation D promulgated thereunder. The issuances did not involve any public offering; no general solicitation or general advertising was used in connection with the issuances.

Summary and History of Convertible Notes Payable

On November 3, 2017, pursuant to a Securities Purchase Agreement, dated as of November 3, 2017, with several institutional accredited investors, the Company completed a private placement of its original issue discount amortizable promissory notes (referred to as the notes) in the aggregate principal amount of \$3,383,325. The investors funded net proceeds of \$1,400,000 at the first closing of the private placement on November 6, 2017, and agreed to fund the remaining net proceeds of \$1,500,000 at a second closing to occur 45 to 90 days after the first closing, subject to the satisfaction of certain closing conditions including the execution of definitive documents to effect the consummation of a contemplated acquisition transaction. Each note was issued at a price equal to 85% of its principal amount, or \$3,000,000 in aggregate purchase price. The notes mature on July 3, 2019 (18 months after the date of their issuance) and do not bear regularly scheduled interest.

On January 29, 2018, pursuant to the Securities Purchase Agreement, dated as of November 3, 2017, with several institutional accredited investors, the Company completed the second closing of its private placement of original issue discount amortizable promissory notes (referred to as the notes) in the aggregate principal amount of \$1,166,725, upon the satisfaction of certain closing conditions including the entry into definitive documents to effect the consummation of the NACB Group and Disco Learning acquisition transactions described above. Each note was issued at a price equal to 85% of its principal amount, or \$1,000,000 in aggregate purchase price.

As part of the second closing, the Company, the original investors and one new investor entered into Amendment No. 1 to the Securities Purchase Agreement, dated as of January 19, 2018, to provide for the addition of a new investor, clarify the use of proceeds from the second closing, increase the number of “commitment shares” to be issued at the second closing and decrease the exercise price of the warrants to be issued at the second closing, as discussed below.

The Company issued to the investors at the second closing three-year common stock purchase warrants (referred to as the warrants) to purchase up to 3,333,500 shares of Company common stock at an exercise price of \$0.175 per share (compared to a warrant exercise price of \$0.45 per share at the first closing), and issued 941,851 shares of Company common stock to the investors at the second closing as “commitment shares” in consideration for entering into the private placement, as required by Amendment No. 1 to the Securities Purchase Agreement.

First Closing of Amortizable Promissory Note and Warrant Private Placement

On November 3, 2017, pursuant to a Securities Purchase Agreement, dated as of November 3, 2017, with several institutional accredited investors, the Company completed a private placement of its original issue discount amortizable promissory notes (referred to as the notes) in the aggregate principal amount of \$3,383,325 for a purchase price of \$2,900,000, resulting in an original issue discount of \$483,325. The transaction was structured in two tranches. The investors funded notes with a face value of \$1,633,325 and net proceeds of \$1,400,000 at the first closing of the private placement on November 6, 2017, and agreed to fund the remaining notes with a face value of up to \$1,750,000 and net proceeds of up to \$1,500,000 at a second closing to occur 45 to 90 days after the first closing, subject to the satisfaction of certain closing conditions including the execution of definitive documents to effect the consummation of a contemplated acquisition transaction. Subsequently, the Securities Purchase Agreement was amended such that the face value of the notes at the second closing was \$1,166,725, and the net proceeds were \$1,000,000. See below. Each note was issued at a price equal to 85% of its principal amount, or \$3,000,000 in aggregate purchase price. The notes mature on July 3, 2019

(18 months after the date of their issuance) and do not bear regularly scheduled interest. The Company also agreed to issue 227,250 shares of its common stock to the investors and to issue warrants to purchase up to 3,888,886 shares of the Company's common stock at a price of \$0.45 per share. The warrants have a five-year term. Warrants to purchase up to 1,814,749 shares of the Company's common stock were issued in connection with the first closing.

Beginning on February 4, 2018 (90 days after the issuance date), the Company is required to make monthly amortization payments, consisting of 1/18th of the outstanding aggregate principal amount, until the notes are no longer outstanding. The investors may elect to receive each monthly payment in cash, or in shares of our common stock (in-kind) if certain equity conditions are satisfied. The equity conditions require that our total trading volume in common stock over the 30 days prior to a monthly payment be equal to or greater than ten times the amount of shares derived in the in-kind payment price of the monthly payment. If the equity conditions are satisfied, and the investor elects to receive a monthly payment in common stock, then the shares of common stock to be delivered will be calculated as the amount of the monthly payment divided by the in-kind payment price. The in-kind payment price will be equal to 75% of the lowest three trade prices of the common stock during the 20 trading days immediately preceding the monthly payment date. If an event of default under the notes is in effect, the investors have the right to receive common stock at 65% of the lowest trade price of the common stock during the 20 trading days immediately preceding the monthly payment date.

The notes are not redeemable or subject to voluntary prepayment by the Company prior to maturity without the consent of the note holders. The notes are identical for all of the investors except for the principal amount.

These notes require timely filing of our periodic reports with the SEC. A default notice related to our filing has not been received and the default will be cured upon filing the delinquent reports. In the event of a default, the interest rate on the note becomes 24% per annum, and the note and all accrued interest become due and payable at 110% of the outstanding principal balance plus accrued interest.

Second Closing and Amendment to Securities Purchase Agreement

On January 29, 2018, pursuant to the Securities Purchase Agreement, dated as of November 3, 2017, as amended on January 29, 2018, with several institutional accredited investors, the Company completed the second closing of its private placement of original issue discount amortizable promissory notes (referred to as the notes) in the aggregate principal amount of \$1,166,725, and net proceeds of \$1,000,000, upon the satisfaction of certain closing conditions including the entry into definitive documents to effect the consummation of the NACB Group and Disco Learning acquisition transactions described above.

As part of the second closing, the Company, the original investors and one new investor entered into Amendment No. 1 to the Securities Purchase Agreement, dated as of January 19, 2018, to provide for the addition of a new investor, clarify the use of proceeds from the second closing, increase the number of "commitment shares" to be issued at the second closing and decrease the exercise price of the warrants to be issued at the second closing, as discussed below.

The Company issued to the investors at the second closing three-year common stock purchase warrants (referred to as the warrants) to purchase up to 3,333,500 shares of ProBility common stock at an exercise price of \$0.175 per share (compared to a warrant exercise price of \$0.45 per share at the first closing), and issued 941,851 shares of ProBility common stock to the investors at the second closing as “commitment shares” in consideration for entering into the private placement, as required by Amendment No. 1 to the Securities Purchase Agreement.

These notes require timely filing of our periodic reports with the SEC. A default notice related to our filing has not been received and the default will be cured upon filing the delinquent reports. In the event of a default, the interest rate on the note becomes 24% per annum, and the note and all accrued interest become due and payable at 110% of the outstanding principal balance plus accrued interest.

Bridge Financing

On May 17, 2018, pursuant to a Securities Purchase Agreement, dated as of May 17, 2018, with several institutional investors, the Company completed a private placement of the Company’s 10% original issue discount senior secured convertible promissory notes (referred to as the convertible notes), receiving gross and net proceeds of \$972,222 and \$875,000, respectively. Each convertible note was issued at a purchase price equal to 90% of its principal amount. The convertible notes mature nine months after the date of their issuance and bear interest at 5% per annum. Investors may convert their convertible notes into shares of the Company’s common stock at any time and from time to time on and after the maturity date at a conversion price of \$0.14 per share. In the event of a default under the convertible notes, the conversion price may be reduced to a price equal to 60% of the lowest closing price of the Company’s common stock during the prior 20 trading days. The Company is in default on these notes.

The convertible notes are secured obligations of the Company, and rank senior to general liabilities. The convertible notes are not redeemable. Prior to maturity, the Company may prepay the convertible notes at any time in an amount equal to 110% of the outstanding principal amount for the first 90 days after the issuance date and 120% of the outstanding principal amount from 91 to 181 days after the issuance date, upon ten trading days’ written notice to the investors. The convertible notes are identical for all of the investors except for principal amount.

As part of the financing, the Company agreed to grant the investors a right of participation in any offering of securities or conventional debt issued by the Company for a period of 18 months following the closing date, other than in connection with strategic investments and other permitted exceptions.

The Company also issued to the investors five-year common stock purchase warrants to purchase up to 5,555,557 shares of the Company’s common stock at an exercise price of \$0.175 per share. The warrants may be exercised on a cashless basis at any time if the underlying shares have not been fully registered for resale with the SEC. The warrants are not callable.

The warrants and the convertible notes each contain a provision for a “full ratchet” anti-dilution adjustment in the event of a subsequent equity financing at a price less than the respective warrant exercise price or convertible note conversion price.

In conjunction with the private placement of the Bridge Notes, , in consideration for the waiver of any and all defaults under the First Closing of Amortizable Promissory Note and Warrant Private Placement and Second Closing and Amendment to

Securities Purchase Agreement (the Prior Notes), (i) the Company agreed to increase by 20% the principal amount of the Prior Notes held by those investors participating in this private placement, (ii) the Company agreed to fix the conversion price of the Prior Notes at \$0.14 per share, and (iii) the Company granted the holders of the Prior Notes a one-time option to convert all of their Prior Notes into shares of the Company's common stock at \$0.10 per share. The principal of the prior notes was increased by \$501,122, effective April 30, 2018.

In August 2018, the Company issued convertible notes payable to five accredited institutional investors totaling \$125,000. The notes bear interest at 8%, are due in 6 months and are convertible at \$0.02 per share. In conjunction with the issuance of the convertible notes, the Company issued warrants to purchase 6,250,000 shares of the Company's common stock at a price of \$0.02. The warrants have a five-year term.

In September 2018, the Company issued convertible notes payable to five accredited institutional investors totaling \$200,000. The notes bear interest at 8%, are due in 6 months and are convertible at the lower of \$0.02 per share or 60% of the lowest closing price in the prior 20 trading days. In conjunction with the issuance of the convertible notes, the Company issued warrants to purchase 10,000,000 shares of the Company's common stock at a price of \$0.02. The warrants have a five-year term.

On February 24th, 2022, the Company secured bridge financing in the amount of \$250,000, minus commissions to the broker from Pickwick Capital Advisors and closing costs. The note is a fixed note to mature 12 months from the date of the agreement and has an original issue discount of \$13,852.25 together with the principal balance of the note all due at maturity. The lender does have the option to convert the note at a fixed price of \$0.0008 per share. In addition, the Company agreed to grant the lender a common stock purchase warrant in the amount of 131,926,125 shares of common stock at the purchase price of \$0.002 per share to expire four years from the date of issuance.

Notes to the Unaudited Consolidated Financial Statements
FEBRUARY 28, 2022 AND FEBRUARY 28, 2021
(Unaudited)

Consolidated net revenue for the quarter ending February 28, 2022 was \$2,018,967, an increase of \$736,256 as compared to the quarter ending February 28, 2021. Corporate Training and Certification Related Revenue (Corp Training) was higher by \$170,539 and Test Preparation and Career Advancement Related Revenue (Test Prep) was higher by \$252,828 as compared to the same period in the previous year.

Selling, general and administrative expenses increased by \$513,716 for the quarter ending February 28, 2022 as compared to the quarter ended February 28, 2021. The increase is a result of an increase to operations and customers coming back online post Covid Shutdown.

Inventory decreased by 5.2% for the quarter ended February 28, 2022 compared to the period ending May 31, 2021. Accounts receivable increased by \$190,659 or 403% for the quarter ending February 28, 2022 compared to the year ending May 31, 2021 in part due to many of our customers resuming business operations.

Accounts Payable and short-term borrowings decreased by \$246,003 for the quarter ending February 28, 2022 compared to the year ending May 31, 2021.

Other current liabilities decreased by \$117,263 for the quarter ending February 28, 2022 compared to the year ending May 31, 2021. In the current period ending February 28, 2022 \$160,000 of PPP loans were forgiven by our lenders and the Small Business Administration for forgiveness.

Long term notes payable decreased by \$215,935 in the quarter ending February 28, 2022 compared to the period ending May 31, 2021.

Convertible notes payable decreased by \$1,069,375 or 38.61% for the quarter ending February 28, 2022 compared to the year ending May 31, 2021 as a result of several settlements with large convertible note holders for reduced settlement amounts and conversions of note principal into common stock.

(1) NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a) Nature of Operations—Upstryve Inc (Upstryve) is principally engaged as a Vocational Education, Publishing, Training and Technology (EdTech) company in the business of education and training for a wide range of industrial trades. The Company utilizes innovation through technology to educate, train and continually develop skill sets for skilled trades such as electricians, plumbers, crane operators, riggers, HVAC, construction, and contractor certification among many others. ProBility is disrupting the way industrial education and training are delivered by replacing conventional methodologies with online programs in all 50 states. The Company offers over 500 e-Learning courses serving numerous state certifications.

b) Principles of Consolidation-- Upstryve has direct control of certain operating companies that have been deemed to be subsidiaries within the meaning of accounting principles generally accepted in the United States of America. Accordingly, the financial statements of such companies have been consolidated with Upstryve's financial statements. All significant intercompany transactions have been eliminated in consolidation.

We use the equity method to account for investments in companies if the investment provides the ability to exercise significant influence, but not control, over operating and financial policies of the companies in which we invest. Investments accounted for under the equity method are recorded initially at cost and subsequently adjusted for our share of the net income or loss and cash contributions and distributions to or from these entities. Our proportionate share of the net income or loss of these companies is included in consolidated net income.

c) Use of Estimates--The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

d) Cash Equivalents--The Company considers all liquid funds in checking and savings bank accounts to be cash equivalents. As of February 28, 2022 cash equivalents consisted of checking accounts with various banks.

e) Receivables--Accounts receivable are stated at the amount billed to customers. The Company provides an allowance for doubtful accounts, which is based upon a review of outstanding receivables, historical collection information and existing economic conditions. Accounts receivables are ordinarily due 30-60 days after the issuance of the invoice. Accounts past due are considered delinquent. Delinquent receivables are written off based on individual credit evaluation and specific circumstances of the customer.

As of February 28, 2022 and May 31, 2021, the Company had no customers that comprised more than ten percent (10%) of total outstanding accounts receivable.

f) Inventories--Inventories of books are recorded at the lower of cost or market on a last-in, first-out (LIFO) basis.

g) Property, Plant and Equipment-- Property, plant and equipment are stated at cost of acquisition. The Company records depreciation, depletion and amortization related to equipment purchased through acquisition of its subsidiaries; those related to general operations are recorded in Selling, General and Administrative Expenses; and those related to non-operational activities are in Other, net on the Consolidated Statements of Income.

h) Revenue Recognition--The Company records revenue from the sale of training services, content production, books and courses sold, following delivery of the products or services to customers, which is the point in time when the Company's performance obligation with the customer is satisfied. In the event the Company receives advance payment on orders, we defer revenue recognition until the product is delivered.

i) Cost of Sales--The Company considers all production and shipping costs, inbound freight charges, purchasing and receiving costs, inspection costs, and warehousing costs as cost of sales.

j) Selling, General and Administrative Expenses--Selling, general and administrative expenses consist of sales personnel salaries and expenses, promotional costs, accounting and IT personnel salaries and expenses, general support staff salaries and expenses, director and administrative officer salaries and expenses, legal and professional expenses and other expenses related to overall corporate costs.

k) Other, net--Other, net contains miscellaneous nonoperating income (expense) items including interest income, interest expense, gains (losses) on sale of equity investments, and unrealized gains (losses) on equity investments.

l) Earnings per Share--Basic earnings per share is based on the weighted average common shares outstanding during each quarter. Diluted earnings per share are based on the weighted average common and common equivalent shares outstanding each quarter. ProBility has no common stock equivalents and therefore does not report diluted earnings per share. The weighted average number of shares outstanding was 3,921,680,025 in 2021, and 2,494,630,815 in 2020.

m) Taxes Collected from Customers and Remitted to Governmental Authorities--Taxes collected from customers and remitted to governmental authorities are presented in the accompanying consolidated statements of income and tax remitted in cost of sales.

n) Intangibles - Goodwill and Other--Goodwill represents the excess of cost over the fair value of net assets of businesses acquired. Goodwill acquired in a purchase business combination is not amortized but is tested for impairment on an annual basis. The Company performed a qualitative assessment of its goodwill during the fourth quarter of 2021 and determined that its goodwill is not impaired and therefore no impairment was required.

Disco Learning Media Inc (Disco) is an online developer and digital publisher with app-based textbooks, course apps for higher education. Disco has developed its award-winning Energy 101 program, the world's first course app, which integrates the best features of an eBook with interactive learning experiences.

In December 2018 Disco extended its development and management of a corporate social responsibility program for Itron, a world leading energy services and technology company. The Resourcefulness program explores conservation, sustainability, and the deep connection between energy and water resources. Together with PBS presenting station Georgia Public Broadcasting (GPB), Disco developed and distributed the web app experience of Resourcefulness, An Introduction to the Energy - Water Nexus authored by energy expert and professor Dr. Michael E. Webber. The contract between Itron extends through the end of 2024.

Through a consortium of the University of Texas at Austin, the Pennsylvania State University, and Colorado School of Mines, Disco was commissioned to build the Top Energy Training and the TOPCORP program for inspectors, regulators and other stakeholders in the oil and gas sector.

One Exam Prep (OEP) has worked with and supplied over 50,000 trade professionals in the construction industry to provide certification education in both an online and classroom setting. OEP has become one of the largest test prep companies in Florida. In 2020, as a result of Covid-19, OEP discontinued the majority of its in-person classes for a pure online format.

As a result of this change, OEP experienced significant growth in its classes from all over the country. These changes allowed OEP to expand beyond Florida into over 15 states.

OEP operates as an e-commerce company offering its products and services using its Learning Management System (LMS) to provide over 500 certification and test prep courses for the construction trade around the United States. OEP also publishes hundreds of study guides well respected throughout the trades industry.

Management of Probility has assembled a top digital marketing team with expertise in customer acquisition, lead generation, social media and brand development.

Moving forward the Company intends to grow into one of the leading eLearning companies through both organic growth and strategic acquisitions. Organic growth is expected through efforts of social media marketing, video production and webinars throughout the United States.

Management is currently pursuing strategic acquisitions and partnerships. Our target will be revenue producing companies that expand our reach into different forms of education delivery to our students.
