List any stock split, stock dividend, recapitalization, merger, acquisition, spin-off, or reorganization either currently anticipated or that occurred within the past 12 months:

On November 7, 2019, the Company, after an extended period of inactivity following the discontinuation of the business operations described in Note 1 to the financial statements of the Company attached to this annual report below, was the subject of a custodial order from the Delaware Court of Chancery (Case No. 2019-0895-MTZ). In this custodianship, Benjamin Berry was appointed by the Delaware Court of Chancery as custodian of the Company, and Mr. Berry was subsequently appointed as the Company's sole director and officer. On May 26, 2020, the Court issued an order discharging Mr. Berry as the Company's custodian.

On February 12, 2020, the Company's board of directors (the "Board") authorized the designation of a class of preferred stock, named the Special 2020 Series A Preferred Shares, with a total of one share authorized. According to the certificate of designation for the Special 2020 Series A Preferred Shares, the share is convertible at the option of the holder into Company into 575,000,000 common shares per Special 2020 Series A Preferred Share held, and the Special 2020 Series A Preferred Share issued grants the holder thereof voting rights that shall equal 60% of all outstanding voting stock of the Company. The single Special 2020 Series A Preferred Share authorized by the Board and issued by the Company was issued to Synergy Management Group LLC, an entity controlled by then-custodian Benjamin Berry.

On March 16, 2020, in a private transaction, Synergy Management Group LLC entered into a Securities Purchase Agreement (the "First SPA") with Krisa Management, LLC, a Texas limited liability company controlled by Carey Cooley, to transfer ownership of the Special 2020 Series A Preferred Share from Synergy Management Group to Krisa Management. Upon closing of the First SPA on March 16, 2020, Krisa Management, LLC acquired majority voting control of the Company from Synergy Management Group LLC and Mr. Berry.

On July 29, 2020, Krisa Management, LLC entered into a Securities Purchase Agreement (the "Second SPA") with Manufacturing 360, LLC, a Washington limited liability company controlled by Richard Hawkins, to transfer ownership of the Special 2020 Series A Preferred Share from Krisa Management to Manufacturing 360. Upon closing of the Second SPA on July 29, 2020, Manufacturing 360, LLC and Mr. Hawkins acquired majority voting control of the Company from Krisa Management and Mr. Cooley. On August 6, 2020, Mr. Carey Cooley, the Company's sole director, secretary, treasurer and president, resigned and appointed Richard Hawkins as sole director, president, secretary and treasurer.

Sunshine Hemp:

On May 28, 2021, the Company entered into a definitive asset purchase agreement with Sunshine Hemp, Inc., a Florida corporation (Sunshine Hemp), a binding agreement by which the Company is in the process of acquiring Sunshine

Hemp's industrial hemp seed and seedling business. Closing is anticipated to occur once the required license, contract and lease assignments and transfers have occurred. Under Florida law, commercial hemp licenses are non-transferable and must be renewed on a yearly basis. The Company is in the process of incorporating an operating subsidiary to segment the Sunshine Hemp business and procuring commercial hemp licenses for the Sunshine Hemp subsidiary.

Pending the closing of the pending items from the asset purchase agreement with Sunshine Hemp and the issuance of commercial hemp licenses to the new operating subsidiary, the Company will book revenue from its Sunshine Hemp operation under a management services agreement. Once the subsidiary is licensed, the Company will operate a licensed commercial hemp operation located in Tallahassee, Florida, under the trade name Sunshine Hemp. Sunshine Hemp was the first Industrial Hemp Research company licensed by the State of Florida to research, produce and sell approved hemp genetics seeds and seedlings for growing in Florida. In partnership with Florida A&M University, Sunshine Hemp has been marketing and selling its' state authorized CBD and CBG "Pilot Project Approved Hemp" seeds and seedlings to the over 850 hemp growers across the state.

Sunshine Hemp currently controls 4 permitted research sites across the state with 5 more sites pending. Sunshine Hemp is poised to become a leader in hemp seeds for cannabinoid products, fiber, and hemp seed oil. With the CBD market nationally contracting until market stabilization, Sunshine Hemp will continue to cultivate, research, test and sell high quality hemp seeds and seedlings for Florida growers and throughout the Southeast.

There is strong support from the Florida Department of Agricultural and Consumer Services and the Florida Legislature to jump start the hemp fiber industry in Florida. The Company anticipates providing financial support for fiber processing facilities as well as supply chain development to make Florida a market maker in the hemp fiber and products industry.

Sunshine Hemp plans to be at the forefront of this effort by being the first to have cultivated, tested, and approved hemp fiber strains, the first to develop contract cultivation partnerships with large scale growers in Florida, and the first to establish market demand with livestock breeders, building material manufacturers and textile manufacturers.

Although assets of all 6 companies were acquired and reported on the Q2 filing with OTC Markets, only 3 of these companies' operations, MicroCap Advisors, LLC, Sunshine Hemp, and Sacred Biosciences, Inc., have been fully consolidated into RNWF's financial statements as of yet. We erroneously included some of these financials in Q2 earnings and will file an amendment with corrections. We would like to reiterate that these were asset purchase agreements that we entered and not business combinations/ mergers that would require full consolidated accounting. Once we are able to implement the assets in a manner we can monetize through operations, we will commence reporting the revenue and corresponding expenses from the operations of our investments.

6) Issuer's Facilities

The goal of this section is to provide a potential investor with a clear understanding of all assets, properties or facilities owned, used or leased by the issuer and the extent in which the facilities are utilized.

In responding to this item, please clearly describe the assets, properties or facilities of the issuer, give the location of the principal plants and other property of the issuer and describe the condition of the properties. If the issuer does not have complete ownership or control of the property (for example, if others also own the property or if there is a mortgage on the property), describe the limitations on the ownership.

If the issuer leases any assets, properties or facilities, clearly describe them as above and the terms of their leases.

None.

7) Company Insiders (Officers, Directors, and Control Persons)

The goal of this section is to provide an investor with a clear understanding of the identity of all the persons or entities that are involved in managing, controlling or advising the operations, business development and disclosure of the issuer, as well as the identity of any significant or beneficial shareholders.

Using the tabular format below, please provide information, as of the period end date of this report, regarding any person or entity owning 5% of more of any class of the issuer's securities, as well as any officer, and any director of the company, or any person that performs a similar function, regardless of the number of shares they own. **If any insiders listed are corporate shareholders or entities, provide the name and address of the person(s) beneficially owning or controlling such corporate shareholders, or the name and contact information (City, State) of an individual representing the corporation or entity in the note section.**

RENEWAL FUELS, INC.
(FORMERLY Tech Laboratories, Inc.)
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE THREE MONTHS ENDED JUNE 30, 2022,
AND JUNE 30, 2021
(UNAUDITED)

NOTE 1 - NATURE OF BUSINESS

The Company was formerly engaged in the renewable fuels business. On April 20, 2007, Renewal Fuels, Inc., formerly Tech Laboratories, Inc. (the "Company" or "we", "us", "our"), and its wholly owned subsidiary, Renewal Fuels Acquisitions, Inc. ("Renewal Acquisitions"), entered into a merger agreement (the "Renewal Merger Agreement") with Renewal Biodiesel, Inc. (formerly Renewal Fuels, Inc.) ("Renewal Biodiesel"). Renewal Biodiesel was incorporated in the state of Delaware on March 9, 2007 for the purpose of the acquisition of the FuelMeister Business described below. Pursuant to the Renewal Merger Agreement, Renewal Acquisitions was merged with and into Renewal Biodiesel. The former shareholders of Renewal Biodiesel were issued an aggregate of 343,610 shares of the Company's series A convertible preferred stock (the "Preferred Stock"), which were immediately convertible at the option of the holders into an aggregate of 268,588 shares of our common stock. Following approval of the Renewal Merger Agreement by our shareholders, the Preferred Stock became convertible at the option of the holders into an aggregate of 22,907,323 shares of our common stock. On June 21, 2007, all of the holders converted their shares of Preferred Stock into 22,907,323 shares of the Company's common stock.

On July 9, 2007, the Company, which was a New Jersey entity ("Tech Labs-NJ"), entered into an Agreement and Plan of Merger with Tech Laboratories, Inc., a Delaware entity ("Tech Labs - DE") under which Tech Labs - NJ and Tech Labs - DE were merged with and into the surviving corporation, Tech Labs - DE, whose name was subsequently changed on August 1, 2007 to Renewal Fuels, Inc. The certificate of incorporation and bylaws of the surviving corporation became the certificate of incorporation and bylaws of the Company, and the directors and officers in office of the surviving corporation became the directors and officers of the Company.

On July 10, 2007, the majority stockholders of the Company authorized a 1-for-15 reverse stock split pursuant to which, on August 1, 2007, the shares of common stock of the Company that were outstanding at July 31, 2007 (the "Old Shares") automatically converted into new shares of common stock (the "New Shares"). All common share and per share amounts in these financial statements have been retroactively restated to reflect this reverse stock split. The New Shares issued pursuant to the reverse stock split are fully paid and non-assessable. All New Shares have the same par value, voting rights and other rights as the Old Shares. Stockholders of the Company do not have preemptive rights to acquire additional shares of common stock which may be issued. Also on August 1, 2007, the Company changed its name from Tech Laboratories, Inc. to Renewal Fuels, Inc. and the Company's quotation symbol on the OTC Bulletin Board was changed from TLBT to RNWF.

Renewal Biodiesel, Inc. (formerly Renewal Fuels, Inc.) ("Renewal Biodiesel") acquired all tangible and intangible assets of the FuelMeister Business of Biodiesel Solutions, Inc. ("BSI"), a Nevada corporation, effective March 30, 2007. As a result, Renewal Biodiesel is engaged in the business of designing, developing, manufacturing and marketing personal biodiesel processing equipment and accessories to convert used and fresh vegetable oil into clean-burning biodiesel. Renewal Biodiesel's products allow customers to make biodiesel fuel, which is capable of powering all diesel fuel engines, for a current cost of approximately 70 cents per gallon. Renewal Biodiesel has a network of dealers in the United States for sale and distribution of its products. Renewal Biodiesel's manufacturing facilities were located in Sparks, Nevada.

In September 2007, the Company purchased two greenhouses which were later transferred to our Renewal Plantations, Inc subsidiary ("RPI"), which was formed as a wholly owned subsidiary on February 11, 2008. RPI is engaged in the growth of cellulosic feedstock for the biofuels industry. A Management Service Agreement between RPI and Emerald Energy, LLC ("Service Agreement") was consummated on February 11, 2008, providing for the completion of the greenhouse installation and operation of the facility. We are establishing customers for the products to be produced by RPI. Recently, RPI learned that the root sections processed and planted by Emerald Energy, LLC in April and May 2008 did not survive. According to Emerald Energy, LLC, the PH level of the soil wasn't proper for the sustained growth of the root sections. RPI has replenished and replanted a number of root sections and has engaged an independent grower to supervise the conditions and growth of the roots.

The foregoing business activities were discontinued by the Company and, after an extended period of inactivity following the discontinuation of those business operations, was the subject of a custodial order from the Delaware Court of Chancery (Case No. 2019-0895-MTZ). On February 12th, 2020, Synergy Management Group, LLC, a company controlled by Benjamin Berry (the "Custodian") was granted a custodianship order in the court of Chancery of the State of Delaware. Subsequently, on February 12, 2020, the Custodian granted to itself 1 share of preferred stock, Special 2020 Series A Preferred Stock at par value of \$0.001. The Special 2020 Series A Preferred

has 60% voting rights over all classes of stock and is convertible into 575,000,000 shares of the Company's common stock. The Custodian was discharged by the Court of Chancery on May 26, 2020.

On March 16, 2020, in a private transaction, the Custodian entered into a Securities Purchase Agreement (the "SPA") with Krisa Management, LLC, a Texas limited liability company, to sell the Special 2020 Series A Preferred Stock. Upon closing of the SPA on March 16, 2020, Krisa Management, LLC acquired 60% voting control of the Company.

On July 29, 2020, Krisa Management, LLC entered into a stock purchase agreement with Manufacturing 360, LLC, a Washington limited liability company. The parties agreed for the sale of one (1) share of the Company's Special 2020 Series "A" Preferred common stock, par value \$0.001, constituting 100% of the authorized and issued Special 2020 Series "A" Preferred common stock designated. By virtue of the purchase by Manufacturing 360, LLC, it acquired rights to cast sixty percent (60%) of all eligible votes of the Company's common shares on any matter properly brought before the shareholders for consideration under the Delaware General Corporation Law. The closing of the purchase and sale are pending completion of terms and conditions. On August 6, 2020, Mr. Carey Cooley, the company's sole director, secretary, treasurer and president, resigned and appointed Richard Hawkins as sole director, president, secretary and treasurer.

During the second quarter of 2021, Alka Badshah became President, CEO, and CFO of the Company. On April 12, 2022, Alka Badshah announced her resignation as President, CEO, and CFO of the Company. Director Justin Costello took over control as acting President, CEO, and CFO in the interim.

ORGANIZATION

Renewal Fuels is a diversified business enterprise focused on providing valuable products and services to consumers and businesses in dynamic and emerging sectors. Through our subsidiaries, we provide financial and management advisory services, and financial technology services to customers in a variety of industries including the legal hemp and cannabis industry.

BASIS OF PRESENTATION

The Company has not earned any revenues from limited principal operations. Accordingly, the Company's activities have been accounted for as those of a "Development Stage Enterprise" as set forth in Financial Accounting Standards Board Statement No. 7 ("SFAS 7"). Among the disclosures required by SFAS 7 are that the Company's financial statements be identified as those of a development stage company, and that the statements of operations, stockholders' equity (deficit) and cash flows disclose activity since the date of the Company's inception. BASIS OF ACCOUNTING The accompanying consolidated financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States. All intercompany transactions have been eliminated.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

GOING CONCERN

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern, which contemplates the realization of assets and the liquidation of liabilities in the normal course of business. The Company currently has minimal operations with an accumulated deficit of \$18,976,688 as of June 30, 2022. The Company intends to commence operations as set out below and raise the necessary funds to carry out the aforementioned strategies. The Company cannot be certain that it will be successful in these strategies even with the required funding.

These factors, among others, raise substantial doubt about the Company's ability to continue as a going concern. The accompanying consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

USE OF ESTIMATES

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

CASH AND CASH EQUIVALENTS

For purposes of the statement of cash flows, cash equivalents include demand deposits, money market funds, and all highly liquid debt instruments with original maturities of three months or less.

FINANCIAL INSTRUMENTS

The FASB issued ASC 820-10, Fair Value Measurements and Disclosures, for financial assets and liabilities. ASC 820-10 provides a framework for measuring fair value and requires expanded disclosures regarding fair value measurements. ASC 820-10 defines fair value as the price that would be received for an asset or the exit price that would be paid to transfer a liability in the principal or most advantageous market in an orderly transaction between market participants on the measurement date. ASC 820-10 also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs, where available. The following summarizes the three levels of inputs required by the standard that the Company uses to measure fair value:

- Level 1: Quoted prices in active markets for identical assets or liabilities
- Level 2: Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the related assets or liabilities.
- Level 3: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

CONCENTRATIONS AND CREDIT RISKS

The Company's financial instruments that are exposed to concentrations and credit risk primarily consist of its cash, sales and accounts receivable.

Cash - The Company places its cash and cash equivalents with financial institutions of high credit worthiness. At times, its cash and cash equivalents with a particular financial institution may exceed any applicable government insurance limits. The Company's management plans to assess the financial strength and credit worthiness of any parties to which it extends funds, and as such, it believes that any associated credit risk exposures are limited.

FOREIGN CURRENCY TRANSLATION

The accounts of the Company are accounted for in accordance with the Statement of Financial Accounting Standards No. 52 (“SFAS 52”), “Foreign Currency Translation”. The financial statements of the Company are translated into US dollars as follows: assets and liabilities at year-end exchange rates; income, expenses and cash flows at average exchange rates; and shareholders’ equity at historical exchange rate. Monetary assets and liabilities, and the related revenue, expense, gain and loss accounts, of the Company are remeasured at year-end exchange rates. Non-monetary assets and liabilities, and the related revenue, expense, gain and loss accounts are re-measured at historical rates. Adjustments which result from the re-measurement of the assets and liabilities of the Company are included in net income.

SHARE-BASED COMPENSATION

ASC 718, *Compensation – Stock Compensation*, prescribes accounting and reporting standards for all share-based payment transactions in which employee services are acquired. Transactions include incurring liabilities, or issuing or offering to issue shares, options, and other equity instruments such as employee stock ownership plans and stock appreciation rights. Share-based payments to employees, including grants of employee stock options, are recognized as compensation expense in the financial statements based on their fair values. That expense is recognized in the period of grant.

The Company accounts for stock-based compensation issued to non-employees and consultants in accordance with the provisions of ASC 505-50, *Equity – Based Payments to Non-Employees*. Measurement of share-based payment transactions with non-employees is based on the fair value of whichever is more reliably measurable: (a) the goods or services received; or (b) the equity instruments issued. The fair value of the share-based payment transaction is determined at the earlier of performance commitment date or performance completion date.

As of June 30, 2022, and June 30, 2021, respectively, there was no unrecognized expense related to non-vested stock- based compensation arrangements granted. There have been no options granted during the three months ended June 30, 2022, and June 30, 2021, respectively.

INCOME TAXES

The Company accounts for income taxes under ASC 740, *Income Taxes*. Under the asset and liability method of ASC 740, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statements carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period the enactment occurs. A valuation allowance is provided for certain deferred tax assets if it is more likely than not that the Company will not realize tax assets through future operations. Deferred tax assets or liabilities were offset by a 100% valuation allowance, therefore there has been no recognized benefit as of June 30, 2022, and December 31, 2021, respectively. Further it is unlikely with the change of control that the Company will have the ability to realize any future tax benefits that may exist.

COMMITMENTS AND CONTINGENCIES

The Company follows ASC 450-20, Loss Contingencies, to report accounting for contingencies. Liabilities for loss contingencies arising from claims, assessments, litigation, fines and penalties and other sources are recorded when it is probable that a liability has been incurred and the amount of the assessment can be reasonably estimated.

EARNINGS PER SHARE

Net income (loss) per share is calculated in accordance with ASC 260, Earnings Per Share. The weighted-average number of common shares outstanding during each period is used to compute basic earnings or loss per share. Diluted earnings or loss per share is computed using the weighted average number of shares and diluted potential common shares outstanding. Dilutive potential common shares are additional common shares assumed to be exercised.

Basic net income (loss) per common share is based on the weighted average number of shares of common stock outstanding at June 30, 2022, and June 30, 2021. Due to net operating loss, there is no presentation of dilutive earnings per share, as it would be anti-dilutive.

FORGIVENESS OF INDEBTEDNESS

The Company follows the guidance of AS 470.10 related to debt forgiveness and extinguishment. Debts of the Company are considered extinguished when the statute of limitations in the applicable jurisdiction expires or when terminated by judicial authority such as the granting of a declaratory judgment. Debts to related parties or shareholders are treated as capital transactions when forgiven or extinguished and credited to additional paid in capital. Debts to non-related parties are treated as other income when forgiven or extinguished.

RECENT ACCOUNTING PRONOUNCEMENTS

We have reviewed all the recently issued, but not yet effective, accounting pronouncements and we do not believe any of these pronouncements will have a material impact on the Company.

In August 2017, the FASB issued ASU No. 2017-12, Derivatives and Hedging (Topic 815), which changes both the designation and measurement guidance for qualifying hedging relationships and the presentation of hedge results, in order to better align an entity's risk management activities and financial reporting for hedging relationships. The amendments expand and refine hedge accounting for both nonfinancial and financial risk components and align the recognition and presentation of the effects of the hedging instrument and the hedged item in the financial statements. FASB ASU No. 2017-12 is effective for annual reporting periods beginning after December 15, 2018, including interim periods within those annual reporting periods, with early adoption permitted. We are still evaluating the impact that this guidance will have on our financial position or results of operations, and we have not yet determined whether we will early adopt FASB ASU No. 2017-12.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (continued)

In March 2016, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2016-09, Compensation – Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting. This guidance changes how companies account for certain aspects of share-based payments to employees. Among other things, under the new guidance, companies will no longer record excess tax benefits and certain tax deficiencies in additional paid-in-capital (“APIC”), but will instead record such items as income tax expense or benefit in the income statement, and APIC pools will be eliminated. Companies will apply this guidance prospectively. Another component of the new guidance allows companies to make an accounting policy election for the impact of forfeitures on the recognition of expense for share-based payment awards, whereby forfeitures can be estimated, as required today, or recognized when they occur. If elected, the change to recognize forfeitures when they occur needs to be adopted using a modified retrospective approach. All of the guidance will be effective for the Company in the fiscal year beginning January 1, 2018. Early adoption is permitted. The Company is currently evaluating the impact of this guidance, if any, on its financial statements and related disclosures.

In February 2016, the FASB issued ASU No. 2016-02, Leases (Topic 842), which establishes new accounting and disclosure requirements for leases. FASB ASU No. 2016-02 requires lessees to classify most leases as either finance or operating leases and to initially recognize a lease liability and right-of-use asset. Entities may elect to account for certain short-term leases (with a term of 12 months or less) using a method similar to the current operating lease model. The statements of operations will include, for finance leases, separate recognition of interest on the lease liability and amortization of the right-of-use asset and for operating leases, a single lease cost, calculated so that the cost of the lease is allocated over the lease term on a straight-line basis. While we are in the early stages of our implementation process for FASB ASU No. 2016-02, and have not yet determined its impact on our financial position or results of operations, these leases would potentially be required to be presented on the balance sheet in accordance with the requirements of FASB ASU No. 2016-02. FASB ASU No. 2016-02 is effective for annual reporting periods beginning after December 15, 2018, including interim periods within those annual reporting periods, with early adoption permitted. FASB ASU No. 2016-02 must be applied using a modified retrospective approach, which requires recognition and measurement of leases at the beginning of the earliest period presented, with certain practical expedients available.

In July 2015, the FASB issued ASU No. 2015-11, Inventory (Topic 330): Simplifying the Measurement of Inventory. The guidance requires an entity to measure inventory at the lower of cost or net realizable value, which is the estimated selling prices in the ordinary course of business, less reasonably predictable costs of completion, disposal, and transportation, rather than the lower of cost or market in the previous guidance. This amendment applies to inventory that is measured using first-in, first-out (FIFO). This amendment is effective for public entities for fiscal years beginning after December 15, 2016, including interim periods within those years. A reporting entity should apply the amendments prospectively with earlier application permitted as of the beginning of an interim or annual reporting period. The Company is currently evaluating the impact of this guidance, if any, on its financial statements and related disclosures.

RECENT ACCOUNTING PRONOUNCEMENTS (continued)

In May 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers (“ASU 2014-09”), which requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. ASU 2014-09 will replace most existing revenue recognition guidance in U.S. generally accepted accounting principles when it becomes effective. In July 2015, the FASB deferred the effective date of the standard by an additional year; however, it provided companies the option to adopt one year earlier, commensurate with the original effective date. Accordingly, the standard will be effective for the Company in the fiscal year beginning January 1, 2018, with an option to adopt the standard for the fiscal year beginning January 1, 2017. The Company is currently evaluating this standard and has not yet selected a transition method or the effective date on which it plans to adopt the standard, nor has it determined the effect of the standard on its financial statements and related disclosures.

NOTE 3 - INCOME TAXES

Income taxes are provided based upon the liability method. Under this approach, deferred income taxes are recorded to reflect the tax consequences in future years of differences between the tax basis of assets and liabilities and their financial reporting amounts at each year-end. A valuation allowance is recorded against deferred tax assets if management does not believe the Company has met the “more likely than not” standard imposed by accounting standards to allow recognition of such an asset.

Deferred tax assets/liabilities were as follows as of June 30, 2022, and December 31, 2021:

<u>Description</u>	<u>June 30, 2022</u>	<u>December 31, 2021</u>
Net operating loss carry forward	\$18,976,688	\$18,856,445
Valuation allowance	<u>(18,976,688)</u>	<u>(18,856,445)</u>
Total	<u>\$ -</u>	<u>\$ -</u>

At June 30, 2022, the Company expected no net deferred tax assets to be recognized, resulting from net operating loss carry forwards. Deferred tax assets were offset by a corresponding allowance of 100%.

The Company experienced a change in control during the year, and therefore no more than an insignificant portion of this net operating allowance will ever be used against future taxable income.

Risks and Uncertainties

The Company's operations are subject to significant risks and uncertainties including financial, operational and regulatory risks, including the potential risk of business failure.

The Company has entered into no contracts during the year as follows:

Legal and other matters

In the normal course of business, the Company may become a party to litigation matters involving claims against the Company. The Company's management is unaware of any pending or threatened assertions and there are no current matters that would have a material effect on the Company's financial position or results of operations.

NOTE 7 - SUBSEQUENT EVENTS

Management has evaluated subsequent events pursuant to the requirements of ASC Topic 855 and has determined that no material subsequent events exist through the date of this filing apart from the following:

None noted.
