**Ameramex International Reports Financials for Its Second Quarter Ended June 30, 2022**  
***Correction to the Statement of Operations for the Six-Month Period***

CHICO, CA – August 15, 2022 – Ameramex International, Inc. (OTCQB:AMMX), a provider of heavy equipment for [logistics companies](#), infrastructure [construction](#), and [forestry conservation](#), reported financial results for its second quarter ended June 30, 2022.

**Statement of Operations for the Quarter Ended June 30, 2022**

The Company reported **revenue** of approximately \$2.4 million versus revenue of \$4.9 million for the comparable 2021 quarter, a 62 percent decrease. Had all the equipment shipped as planned, the Sales of Equipment and Other Revenues would have been \$5,066,746, \$115,140 more than the comparable 2021 quarter. These delays in shipping were caused by back-ordered parts, interstate trucking delays and lack of availability of third-party shippers.

The Company is committed to getting the remaining machines shipped in the third quarter as well as continuing its ongoing sales efforts.

**Gross profit** for the quarter was \$420,000, compared to gross profit of \$970,000 for the comparable quarter. If the additional equipment had shipped, gross profit would have been approximately \$3 million.

**Gross profit as a percentage of sales**, was 18 percent for the quarter compared to gross profit as a percentage of sales of 15 percent for the comparable quarter.

**Net income** for the quarter was \$146,172 compared to net income of \$78,000 for the comparable quarter. Prices of equipment have been adjusted to cover increased cost of goods sold and operating costs. **Earnings per share** were \$0.01 for the quarter compared to \$0.01 for the comparable 2021 quarter.

**Statement of Operations for the Six-Month period June 30, 2022**

The company reported **revenue** of approximately \$7.3 million versus revenue of \$10.3 million for the comparable 2021 period. The 26 percent decrease in Sales of Equipment and Other Revenues for the six-month period, is due to delays in shipping sold machines to customers. Had all sold machines shipped, Sales of Equipment and Other Revenues would have been approximately \$9.6 million, a \$750,000 **decrease** over the comparable six-month period.

**Gross profit** for the period was \$1.7 million compared to gross profit of \$2.1 million for the comparable period. If the additional equipment had shipped, gross profit would have been \$4.4 million.

**Gross profit as a percentage of sales**, was 23 percent for the period compared to gross profit as a percentage of sales of 21 percent for the comparable period.

**Net income** for the period was \$404,489 compared to net income of \$443,879 for the comparable period. **Earnings per share** were \$0.03 for the period compared to \$0.03 for the comparable 2021 period.
