Code Green Apparel Corp.
Notes to Financial Statements (unaudited)
June 30, 2022

NOTE 1 - Organization and Nature of Business

Code Green Apparel Corp is dedicated to becoming an industry leader in Sustainable Textiles by providing corporations with Corporate Logo Wear, Uniforms and other Sustainable Textile products. Management boasts over 75 years of textile experience in the apparel industry and intends to be disruptive in the market. Their wide range of products meet the high quality demands of consumers today while leveraging upcycled fabrications to make positive impacts on the world we all live in.

Financial Statement Presentation and Going Concern

The accompanying unaudited financial statements have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in the consolidated financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted in accordance with such rules and regulations. In the opinion of management, all adjustments considered necessary for the fair presentation consisting solely of normal recurring adjustments, have been made. Operating results for the three months ended June 30, 2022 are not necessarily indicative of the results that may be expected for the year ended December 31, 2022.

The Company has a history of operating losses, including an accumulated deficit of \$ 14,812,885 through June 30, 2022. This and other factors raise substantial doubt about the ability of the Company to continue as a going concern. Management plans to address these matters through the sale of additional shares of its common stock, additional borrowings, the sale in whole or partial property interests, or a combination thereof to finance the Company's future operations.

Although there is no assurance that the Company will be successful in these actions, management believes that it will be able to secure the necessary financing to continue operations for the foreseeable future. Accordingly, these financial statements do not reflect adjustments to the carrying value of assets and liabilities, the reported expenses and balance sheet classifications used that would be necessary if the going concern assumption were not appropriate. Such adjustments would be material and would have an adverse effect on the ability of the Company to continue as a going concern.

Note 2. Summary of Significant Accounting Policies

Revenue Recognition

The company applies paragraph 605-10-S99-1 of the FASB Accounting Standards Codification for revenue recognition. The company recognizes revenue when it is realized or realizable and earned. The Company considers revenue realized or realizable and earned when all of the following criteria are met: (i) persuasive evidence of an arrangement exists, (ii) the sale price is fixed or determinable, (iii) collectability is reasonable assured and (iv) goods have been shipped and/or services rendered.

Accounts Receivable

Accounts receivable is reported at the customers' outstanding balances, less any allowance for doubtful accounts. Interest is not accrued on overdue accounts receivable.

Allowance for Doubtful Accounts

An allowance for doubtful accounts on accounts receivable is charged to operations in amounts sufficient to maintain the allowance for uncollectible accounts at a level management believes is adequate to cover any probable losses.

Management determines the adequacy of the allowance based on historical write off percentages and information collected from individual customers. Accounts receivable are charged off against the allowances when collectability is determined to be permanently impaired.

Stock Based Compensation

When applicable, the Company will account for stock-based payments to employees in accordance with ASC 718, "Stock Compensation" ("ASC 718"). Stock-based payments to employees include grants of stocks, grants of stock options and issuance of warrants that are recognized in the consolidated statement of operations based on their fair values at the date of grant.

The company account for stock-based payments to non-employees in accordance with ASC 505-50, "Equity-Based Payments to Non-Employees." Stock-based payments to non-employees include grants of stock, grants of stock options and issuances of warrants that are recognized in the consolidated statements of operation based on the value of the vested portion of the award over the requisite service period as measured at its then-current fair value as of each financial reporting date.

The Company calculates the fair value of option grants and warrant issuances utilizing the Binomial pricing model. The amount of stock-based compensation recognized during a period is based on the value of the portion of the awards that are ultimately expected to vest. ASC 718 requires forfeitures to be estimated at the time stock options are granted and warrants are issued to employees and non-employees, and revised, if necessary, in subsequent periods if actual forfeitures differ from those estimates. The term "forfeiture" is distinct from "cancellations" or "expirations" and represents only the unvested portion of the surrendered stock option or warrant. The Company estimates forfeiture rates for all unvested awards when calculating the expenses for the period. In estimating the forfeiture rate, the Company monitors both stock option and warrant exercises as well as employee termination patterns. The resulting stock-based compensation expense for both employee and non-employee awards is generally recognized on a straight-line basis over the period in which the Company expects to receive the benefit, which is generally the vesting period.

Earnings (Loss) per Share

The Company reports earnings (loss) per share in accordance with ASC Topic 260-10, "Earnings per Share." Basic earnings (loss) per share is computed by dividing income (loss) available to shareholders' by the weighted average number of shares available. Diluted earnings (loss) per shares available. Diluted earnings (loss) per share is computed similar to basic earnings (loss) per share except the denominator is increased to include the number of additional shares that would have been outstanding if the potential shares had been issued and if the additional shares were dilutive.

Diluted earnings (loss) per share has not been presented since there are no dilutive securities.

Organization and Offering Cost

The Company has a policy to expense organization and offering cost as incurred.

Cash and Cash Equivalents

For purpose of the statements of cash flows, the Company considers cash and cash equivalents to include all stable, highly liquid investments with maturities of three months or less.

Fair Value of Financial Instruments

The company's financial instruments consist of cash and cash equivalents, accounts receivable, and notes payable. The carrying amount of these financial instruments approximates fair value due either to length of maturity or interest rates that approximate prevailing market rates unless otherwise disclosed in these financial statements.

Concentration of Credit Risk

The Company primarily transacts its business with one financial institution. The amount on deposit in that one institution may from time to time exceed the federally- insured limit.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumption that affect the reported amount of assets and liabilities and disclosure of disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Business segment

ASC 280, “*Segment Reporting*” requires use of the “*management approach*” model for segments reporting. The management approach model is based on the way a company’s management organizes segments within the company for making operating decisions and assessing performance. The Company determined it has one operating segment as of March 31, 2022.

Income Taxes

The Company accounts for income tax positions in accordance with Accounting Standards Codification Topic 740, “Income Taxes” (“ASC Topic 740”). This standard prescribes a recognition and measurement of tax positions taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more likely than not to be sustained upon examination by taxing authorities. There was no material impact on the Company’s financial position or results of operations as a result of the application of this standard.
