4) Financial Statements

A. The following financial statements were prepared in accordance with:

- U.S. GAAP
- IFRS

B. The financial statements for this reporting period were prepared by (name of individual)⁴:

Conrad Smith, CPA

Provide the financial statements described below for the most recent fiscal year or quarter. For the initial disclosure statement (qualifying for Pink Current Information for the first time) please provide reports for the two previous fiscal years and any subsequent interim periods.

- C. Balance Sheet;
- D. Statement of Income;
- E. Statement of Cash Flows;
- F. Statement of Retained Earnings (Statement of Changes in Stockholders' Equity)
- G. Financial notes; and
- H. Audit letter, if audited

You may either (i) attach/append the financial statements to this disclosure statement or (ii) file the financial statements through OTCIQ as a separate report using the appropriate report name for the applicable period end. ("Annual Report," "Quarterly Report" or "Interim Report").

If you choose to publish the financial statements in a separate report as described above, you must state in the accompanying disclosure statement that such financial statements are incorporated by reference. You may reference the document(s) containing the required financial statements by indicating the document name, period end date, and the date that it was posted to OTCIQ in the field below. Financial Statements must be compiled in one document.

See attached

Financial statement information is considered current until the due date for the subsequent report (as set forth in the qualifications section above). To remain qualified for Current Information, a company must post its Annual Report within 90 days from its fiscal year-end date and Quarterly Reports within 45 days of each fiscal quarter-end date.

5) Issuer's Business, Products and Services

The purpose of this section is to provide a clear description of the issuer's current operations. In answering this item, please include the following:

A. Summarize the issuer's business operations (If the issuer does not have current operations, state "no operations")

Elinx Corporation has purchased assets to produce and manufacture industrial sand. Primarily with the demand of the oil and gas wells being drilled and completed in the Eagleford Shale play we are focused on Frac Sand. The property has higher grade of in-basin frac sand with very little overburden to remove. The combination of the ease to mine and

of the closest and centrally located mine to the major wells give us a strategic advantage to the competing marketplace. The Company currently does not operate its business pursuant to set contracts; instead the Company's customers issue purchase orders to the Company on an as needed basis.

B. Please list any subsidiaries, parents, or affiliated companies.

None

C. Describe the issuers' principal products or services.

Frac Sand, which the Company produces and manufactures.

6) Issuer's Facilities

The goal of this section is to provide a potential investor with a clear understanding of all assets, properties or facilities owned, used or leased by the issuer and the extent in which the facilities are utilized.

In responding to this item, please clearly describe the assets, properties or facilities of the issuer, give the location of the principal plants and other property of the issuer and describe the condition of the properties. If the issuer does not have complete ownership or control of the property (for example, if others also own the property or if there is a mortgage on the property), describe the limitations on the ownership.

If the issuer leases any assets, properties or facilities, clearly describe them as above and the terms of their leases.

The Company leases with an option to purchase approximately eighty (80) acres in McCoy, Texas (the "Property") on which it conducts its frac sand mining operations. The Company pays the lessor (Jeff McFarlane) two dollars (\$2) per ton of frac sand sold as the combined lease/purchase payment. At the point the Company has paid the lessor an aggregate of nine hundred thousand dollars (\$900,000) title to the Property shall be transferred to the Company.

The Company owns equipment to manufacture and produce Frac Sand. The Company owns loaders, backhoes, skid steers, washers and dryers for sand and other equipment for processing and manufacturing sand. The Company does not have any leased equipment.

7) Company Insiders (Officers, Directors, and Control Persons)

The goal of this section is to provide an investor with a clear understanding of the identity of all the persons or entities that are involved in managing, controlling or advising the operations, business development and disclosure of the issuer, as well as the identity of any significant or beneficial shareholders.

Using the tabular format below, please provide information, as of the period end date of this report, regarding any person or entity owning 5% of more of any class of the issuer's securities, as well as any officer, and any director of the company, or any person that performs a similar function, regardless of the number of shares they own. **If any insiders listed are corporate shareholders or entities, provide the name and address of the person(s) beneficially owning or controlling such corporate shareholders, or the name and contact information (City, State) of an individual representing the corporation or entity in the note section.**

ELINX CORPORATION
(FORMERLY KNOWN AS APERTURE HEALTH, INC.)
NOTES TO THE FINANCIAL STATEMENTS
For the Years Ended June 30, 2022 and 2021

Note 1 - Organization and Operations

The Company, formerly known as Fuel Corporation, and then as Aperture Health, Inc. and now known as Elinx Corporation (the “Company” or “Elinx”), was incorporated on September 8, 2005 under the laws of the State of Nevada. On January 19, 2019, the Company filed a Certificate of Amendment to its Articles of Incorporation with the Secretary of State of the State of Nevada effecting a name change from Aperture Health, Inc. to Elinx Corporation. On December 18, 2019, the Company entered into an agreement to acquire assets from Crown Financial to participate in the sand fracking business. These assets were entered into from an issuance of the Company’s common stock.

Note 2 - Significant and Critical Accounting Policies and Practices

The Management of the Company is responsible for the selection and use of appropriate accounting policies and the appropriateness of accounting policies and their application. Critical accounting policies and practices are those that are both most important to the portrayal of the Company’s financial condition and results and require management’s most difficult, subjective, or complex judgments, often as a result of the need to make estimates about the effects of matters that are inherently uncertain. The Company’s significant and critical accounting policies and practices are disclosed below as required by generally accepted accounting principles.

Basis of Presentation

The accompanying financial statements and related notes have been prepared in accordance with accounting principles generally accepted in the United States of America (“US GAAP”), and with the rules and regulations of the United States Securities and Exchange Commission (“SEC”). The Company has elected June 30th as its fiscal year ending date.

Use of Estimates and Assumptions and Critical Accounting Estimates and Assumptions

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date(s) of the financial statements and the reported amounts of revenues and expenses during the reporting period(s).

These significant accounting estimates or assumptions bear the risk of change due to the fact that there are uncertainties attached to these estimates or assumptions, and certain estimates or assumptions are difficult to measure or value.

Management bases its estimates on historical experience and on various assumptions that are believed to be reasonable in relation to the financial statements taken as a whole under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources.

Management regularly evaluates the key factors and assumptions used to develop the estimates utilizing currently available information, changes in facts and circumstances, historical experience and reasonable assumptions. After such evaluations, if deemed appropriate, those estimates are adjusted accordingly.

Actual results could differ from those estimates.

Fair Value of Financial Instruments

The Company follows ASC 820, “Fair Value Measurement,” to measure and disclose the fair value of its financial instruments. ASC 820 establishes a framework for measuring fair value in accordance with GAAP, and expands disclosures about fair value measurements. To increase consistency and comparability in fair value measurements and related disclosures, ASC 820 establishes a fair value hierarchy

which prioritizes the inputs to valuation techniques used to measure fair value into three (3) broad levels. The fair value hierarchy gives the highest priority to quoted prices (unadjusted) in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The three (3) levels of fair value hierarchy defined by ASC 820 are described below:

Level 1 Quoted market prices available in active markets for identical assets or liabilities as of the reporting date.

Level 2 Pricing inputs other than quoted prices in active markets included in Level 1, which are either directly or indirectly observable as of the reporting date.

Level 3 Pricing inputs that are generally observable inputs and not corroborated by market data.

Financial assets are considered Level 3 when their fair values are determined using pricing models, discounted cash flow methodologies or similar techniques and at least one significant model assumption or input is unobservable.

The fair value hierarchy gives the highest priority to quoted prices (unadjusted) in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. If the inputs used to measure the financial assets and liabilities fall within more than one level described above, the categorization is based on the lowest level input that is significant to the fair value measurement of the instrument.

The carrying amounts of the Company's financial assets and liabilities, such as cash and accounts payable approximate their fair values because of the short maturity of these instruments.

Transactions involving related parties cannot be presumed to be carried out on an arm's-length basis, as the requisite conditions of competitive, free-market dealings may not exist. Representations about transactions with related parties, if made, shall not imply that the related party transactions were consummated on terms equivalent to those that prevail in arm's-length transactions unless such representations can be substantiated.

At the end of the Company's year end June 30, 2022 and 2021, the Company did not have any financial instruments listed at fair value.

Cash Equivalents

The Company considers all highly liquid investments with maturities of three months or less at the time of purchase to be cash equivalents. The Company had cash of \$147,572 and \$374,557 as of June 30, 2022 and 2021, respectively.

Property, Plant and Equipment

We record property, plant and equipment at historical cost. We provide depreciation and amortization in amounts sufficient to match the cost of depreciable assets to operations over their estimated service lives or productive value. We capitalize expenditures for improvements that significantly extend the useful life of an asset. We charge expenditures for maintenance and repairs to operations when incurred. Depreciation is computed using the straight-line method over estimated useful lives as follows:

Vehicles and equipment

3 to 7 years

Related Parties

The Company follows subtopic 850-10 of the FASB Accounting Standards Codification for the identification of related parties and disclosure of related party transactions.

Commitments and Contingencies

The Company follows subtopic 450-20 of the FASB Accounting Standards Codification to report accounting for contingencies. Certain conditions may exist as of the date the financial statements are issued, which may result in a loss to the Company but which will only

be resolved when one or more future events occur or fail to occur. The Company assesses such contingent liabilities, and such assessment inherently involves an exercise of judgment. In assessing loss contingencies related to legal proceedings that are pending against the Company or un-asserted claims that may result in such proceedings, the Company evaluates the perceived merits of any legal proceedings or un-asserted claims as well as the perceived merits of the amount of relief sought or expected to be sought therein.

If the assessment of a contingency indicates that it is probable that a material loss has been incurred and the amount of the liability can be estimated, then the estimated liability would be accrued in the Company's financial statements. If the assessment indicates that a potential material loss contingency is not probable but is reasonably possible, or is probable but cannot be estimated, then the nature of the contingent liability, and an estimate of the range of possible losses, if determinable and material, would be disclosed.

Loss contingencies considered remote are generally not disclosed unless they involve guarantees, in which case the guarantees would be disclosed. As of June 30, 2022 and 2021, the Company does not have any commitments or contingencies.

Revenue Recognition

Effective November 1, 2017, the Company adopted the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Subtopic 606-10, Revenue from Contracts with Customers ("ASC 606-10"). The adoption of ASC 606-10 had no impact on prior year or previously disclosed amounts. In accordance with ASC 606-10, revenue is measured based on a consideration expected to receive, as specified in a contract with a customer and recognized when we satisfy the performance obligation specified in each contract.

Revenue related to contracts with customers is evaluated utilizing the following steps: (i) Identify the contract, or contracts, with a customer; (ii) Identify the performance obligations in the contract; (iii) Determine the transaction price; (iv) Allocate the transaction price to the performance obligations in the contract; (v) Recognize revenue when the Company satisfies a performance obligation.

When the Company enters into a contract, the Company analyzes the services required in the contract in order to identify the required performance obligations which would indicate the Company has met and fulfilled its obligations. For the current contracts in place, the Company has identified performance obligations as agreement from both parties (implicit or explicit) that the obligations have been met. To appropriately identify the performance obligations, the Company considers all of the services required to be satisfied per the contract, whether explicitly stated or implicitly implied. The Company allocates the full transaction price to the single performance obligation being satisfied. As the Company

As of June 30, 2022, the Company recognized approximately \$1.7 million in revenue from contracts with customers from work performed throughout the year. Whereas as of June 30, 2021 the Company recognized approximately \$1.2 million in revenue.

Deferred Tax Assets and Income Tax Provision

The Company accounts for income taxes under Section 740-10-30 of the FASB Accounting Standards Codification. Deferred income tax assets and liabilities are determined based upon differences between the financial reporting and tax bases of assets and liabilities and are measured using the enacted tax rates and laws that will be in effect when the differences are expected to reverse. Deferred tax assets are reduced by a valuation allowance to the extent management concludes it is more likely than not that the assets will not be realized. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the statements of operations in the period that includes the enactment date.

The Company adopted section 740-10-25 of the FASB Accounting Standards Codification ("Section 740-10-25"). Section 740-10-25 addresses the determination of whether tax benefits claimed or expected to be claimed on a tax return should be recorded in the financial statements. Under Section 740-10-25, the Company may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such a position should be measured based on the largest benefit that has a greater than fifty percent (50%) likelihood of being realized upon ultimate settlement. Section 740-10-25 also provides guidance on de-recognition, classification, interest and penalties on income taxes, accounting in interim periods and requires increased disclosures.

The estimated future tax effects of temporary differences between the tax basis of assets and liabilities are reported in the accompanying balance sheets, as well as tax credit carry-backs and carry-forwards. The Company periodically reviews the recoverability of deferred tax assets recorded on its balance sheets and provides valuation allowances as management deems necessary.

Management makes judgments as to the interpretation of the tax laws that might be challenged upon an audit and cause changes to previous estimates of tax liability. In addition, the Company operates within multiple taxing jurisdictions and is subject to audit in these jurisdictions. In management's opinion, adequate provisions for income taxes have been made for all years. If actual taxable income by tax jurisdiction varies from estimates, additional allowances or reversals of reserves may be necessary.

Earnings per Share

Earnings per share ("EPS") is the amount of earnings attributable to each share of common stock. For convenience, the term is used to refer to either earnings or loss per share. EPS is computed pursuant to section 260-10-45 of the FASB Accounting Standards Codification. Pursuant to ASC Paragraphs 260-10-45-10 through 260-10-45-16 Basic EPS shall be computed by dividing income available to common stockholders (the numerator) by the weighted-average number of common shares outstanding (the denominator) during the period. Income available to common stockholders shall be computed by deducting both the dividends declared in the period on preferred stock (whether or not paid) and the dividends accumulated for the period on cumulative preferred stock (whether or not earned) from income from continuing operations (if that amount appears in the income statement) and also from net income. The computation of diluted EPS is similar to the computation of basic EPS except that the denominator is increased to include the number of additional common shares that would have been outstanding if the dilutive potential common shares had been issued during the period to reflect the potential dilution that could occur from common shares issuable through contingent shares issuance arrangement, stock options or warrants.

There were no contingent shares issuance arrangements, stock options or warrants which were issuable and could have potential dilutive effect to the earnings per share for the periods ended June 30, 2022 or 2021.

Coronavirus Pandemic ("COVID-19")

In March 2020, the World Health Organization declared COVID-19 a pandemic. The global spread of COVID-19 has created significant volatility, uncertainty, and economic disruption. Governments in affected regions have implemented, and may continue to implement, safety precautions which include quarantines, travel restrictions, business closures, cancellations of public gatherings and other measures as they deem necessary. Many organizations and individuals, including the Company and its employees, are taking additional steps to avoid or reduce infection, including limiting travel and working from home. These measures are disrupting normal business operations both in and outside of affected areas and have had significant negative impacts on businesses and financial markets worldwide. We will continue to closely monitor the impact of COVID-19 on all aspects of our business, including the impacts to our employees, participants and suppliers; however, at this time, we are unable to estimate the ultimate impact the pandemic will have on our consolidated financial condition, results of operations or cash flows.

On March 27, 2020, the bipartisan Coronavirus Aid, Relief, and Economic Security Act ("CARES Act") was signed into legislation. The CARES Act provides for \$100 billion to healthcare providers, including hospitals on the front lines of the COVID-19 pandemic.

Recently Issued Accounting Pronouncements

Management does not believe that any recently issued, but not yet effective accounting pronouncements, when adopted, will have a material effect on the accompanying financial statements.

Note 3 – Going Concern

The Company's financial statements have been prepared assuming that it will continue as a going concern, which contemplates continuity of operations, realization of assets, and liquidation of liabilities in the normal course of business.

As reflected in the financial statements, the Company had an accumulated deficit of \$1,699,152 and \$1,989,389 at June 30, 2022 and June 30, 2021, respectively for the reporting periods then ended. Although the Company recognized a net income for the period noted, these factors raise substantial doubt about the Company's ability to continue as a going concern.

The Company has commenced operations and has generate revenue; however, the Company’s cash position may not be sufficient to support the Company’s daily operations. Management intends to raise additional funds by way of a private or public offering. While the Company believes in the viability of its strategy to commence operations and generate sufficient revenue and in its ability to raise additional funds, there can be no assurances to that effect. The ability of the Company to continue as a going concern is dependent upon the Company’s ability to further implement its business plan and generate sufficient revenue and its ability to raise additional funds by way of a public or private offering.

The financial statements do not include any adjustments related to the recoverability and classification of recorded asset amounts or the amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

Note 4 – Property and equipment

Property and equipment are recorded at cost less accumulated depreciation and amortization. Depreciation and amortization are recorded using the straight-line method over the estimated useful lives.

Property and equipment were comprised of the following as of June 30, 2022 and 2021:

	June 30, 2022	June 30, 2021
Vehicles and equipment	227,205	227,205
	227,205	227,205
Less Accumulated Depreciation	(94,672)	(29,229)
Total Property, Plant and Equipment	<u>\$ 132,533</u>	<u>\$ 177,976</u>

Depreciation of \$45,444 and \$45,442 was recorded during the fiscal years ended June 30, 2022 and 2021, respectively. Costs of enhancements or modifications that substantially extend the capacity or useful life of an asset are capitalized and depreciated accordingly. Ordinary repairs and maintenance are expensed as incurred.

When property and equipment are retired or otherwise disposed of, the cost and accumulated depreciation are removed from the consolidated balance sheets, and the resulting gain or loss, if any, is reflected in the statements of operations.

Note 5 – Related Party Transactions

From time to time, the Company lent money to a related party for working capital purpose. Those advances are unsecured, non-interest bearing and due on demand. As of June 30, 2022 the Company advanced a related party entity \$372,680. The related party amount is due on demand and has no such interest associated to the repayment of the amount. Management estimates that the amount will be repaid within the next year. No such transactions occurred throughout the year ended June 30, 2021.

Note 6 – Notes Payable

During the 2021 fiscal year, the Company entered into 3 notes payable to support operations of the Company.

The Company entered into the Paycheck Protection Program (PPP) provided by the Small Business Administration (SBA) in response to the effect of Covid-19 on commerce. The Company at the end of the fiscal year had a PPP loan in the amount of \$0 and \$65,792 for the year ending June 30, 2022 and June 30, 2021. The Company has received forgiveness of this PP loan and has included this in income.

The Company entered into a second note with the Economic Income Disaster Loan program also sponsored by the SBA in response to Covid-19. The Company has a loan with the SBA in the amount of \$49,000 which is payable over 30 years and has an interest rate of 2%. This amount is still outstanding and has been recorded in notes payable.

The Company borrowed amounts from related parties throughout the year. These amounts are non-interest bearing, have no set repayment terms and are not secured. The Company has included these in current liabilities. The Company was advanced \$83,000 and \$39,486, including interest, as of June 30, 2022 and June 30, 2021, respectively.

The Company borrowed amounts throughout the year for \$100,000. These amounts have an interest rate of approximately 18% per annum, have monthly repayment terms, within approximately 18 months and is not secured. The Company did not have any amount owed to this party as of June 30, 2021.

Note 7 – Stockholder’s Equity

Shares Authorized

The Company is authorized to issue 480,000,000 shares of Common Stock, par value \$0.001 per share.

Common Stock

The Company did not issue any common shares throughout the fiscal year ending June 30, 2021.

In August of 2021, the Company issued 2,037,500 shares of common stock as compensation for services rendered to the Company. These shares of common stock were valued at the fair market value for a total of \$114,101. These have been recorded as stock-based compensation.

Note 7 – Earnings per share

Basic earnings per share is computed using the weighted-average number of common shares outstanding during the period. Diluted earnings per share is computed using the weighted-average number of common shares outstanding during the period, plus the dilutive effect of outstanding options, using the treasury stock method and the average market price of the Company’s common stock during the applicable period.

As of June 30, 2022 and 2021, there were zero common share equivalents, excluded from the calculation of diluted EPS.

Table of Contents

The following table sets forth the computation of basic and diluted net income per common unit for the years ended June 30, 2022 and 2021:

	June 30, 2022	June 30, 2021
Net Income	\$ 290,237	\$ 220,965
Weighted Average Common Share Outstanding (Basic)	25,989,538	24,908,956
Earnings Per Share - Basic	\$ 0.01	\$ 0.01
Dilutive Shares	-	-
Weighted Average Common Share Outstanding (Diluted)	25,989,538	24,908,956
Earnings Per Share - Diluted	\$ 0.00	\$ 0.01

Note 8 – Income taxes

The Company's effective income tax rate for fiscal 2022 and fiscal 2021 are 21%, and 21%, respectively. Actual income tax expense differs from the amount computed by applying the applicable U.S. federal statutory corporate income tax rate of 21% in fiscal 2022 and 2021. There are no significant differences between the effective rate and statutory rate due to state taxes, nondeductible items, and prior-year true-ups.

As of June 30, 2022 and June 30, 2021, the Company had net operating loss carry-forwards for U.S. federal income tax purposes of approximately \$1,699,152 and \$1,989,389, respectively.

The valuation allowance was established to reduce the deferred tax asset to the amount that will more likely than not be realized. This is necessary due to the Company's continued operating losses and the uncertainty of the Company's ability to utilize all of the net operating loss carry-forwards before they will expire through the year 2040.

The Company is subject to income tax in the U.S. federal jurisdiction. The Company has not been audited by the U.S. Internal Revenue Service in connection with income taxes. The Company's tax years beginning with the year ended June 30, 2022 generally remain open to examination by the Internal Revenue Service until its net operating loss carryforwards are utilized and the applicable statutes of limitation have expired.

Note 9 – Subsequent Events

Management has evaluated subsequent events, in accordance with FASB ASC Topic 855, "Subsequent Events," through the date these financial statements were issued and noted no material subsequent events other than disclosed herein.

None noted at the time of issuance of these financial statements.
