Most experts believe that 5G is best option to deliver the long-term promise of smart transportation and its ability to play a valuable role in creating green infrastructure. It certainly has the following technical capabilities:

- Speed – peak data rate can hit 20Gbps downlink and 10Gbps uplink per mobile base station, while real-world speeds are closer to 100Mbps (download) and 50Mbps (upload).
- Latency – four milliseconds in typical conditions and one millisecond for use cases that demand the utmost speed.
- Capacity – 5G should be able to support one million connected devices per square kilometer.

The global connected car market size was USD 14.34 billion in 2019 and is projected to reach USD 48.77 billion by 2027, exhibiting a CAGR of 26.3% during the forecast period.

## B. Brief description of material pending legal proceedings,

- (1) On August 18, 2017 a Taiwan investor (Yung-Che Fang) filed a Complaint with the Superior Court of California, Orange County, naming Tri Cascade, SkyFidelity Inc and Saddle Ranch Media Inc. for breach of contract under the terms of certain Loans totaling \$ 883,046 made to Tri Cascade, Inc between July 1, 2013 and October 31, 2016. The default arises from the failure to repay such Loans when they became due. In addition, on November 19, 2018 the same investor filed a Judgement Lien in the same court against Saddle Ranch Media, Inc seeking to enforce the collection of such Loans amounts, including accrued but unpaid interest thereon, up to that date. The Company has entered into settlement discussions with this investor directly and has secured an agreement in principle through which full settlement is expected to be achieved partly through the issuance of restricted common stock and partly through a cash instalment repayment plan. This settlement agreement is expected to be executed by the end of 2021, upon which the Complaint's claims will be settled and the Judgement Liens released. The debt has been included on the Company's balance sheet within "loans payable".
- (2) On May 3, 2019 Engie Kahlil, a former employee of Tri Cascade Inc, filed a complaint with the Superior Court of California, Orange County, naming Tri Cascade Inc, SkyFidelity Inc and Saddle Ranch Media Inc. together with certain related individuals, alleging "discrimination, harassment and wrongful termination" seeking the payment of

damages arising therefrom. The Company totally refutes such claims and had paid all of the applicable wages for the term of claimant's employment. The Company is therefore aggressively defending its position including, but not limited to, potentially filing its own counter claims against the claimant. No financial provision has been made by the Company against these allegations other than fully recording in its financial statements the liability payable and related expense for legal fees incurred in defending its position.

## **2. Summary of Significant Accounting Policies:**

### ***Accounting Treatment Following the Acquisition of TriCascade, Inc.)***

Following the acquisition of TriCascade, Inc., which closed as of April 1, 2017 through the cashless exchange of stock, for accounting purposes the consolidated results of Tri Cascade, Inc. are being treated as the continuing reporting entity and the prior comparative financial results have been restated accordingly. Accordingly, these consolidated financial reports have been prepared as if Tri Cascade, Inc. is the successor entity regarding the Company's reporting obligations. Therefore, the consolidated financial statements filed subsequent to this transaction include the historical financial condition, results of operations and cash flows of Tri Cascade, Inc. for all periods presented through and including September 30, 2022. Effective February 15, 2021 the Company processed a routine voluntary dissolution of SkyFidelity, Inc. with the state of its incorporation, Florida. Previously, the Company's pass through ownership of Tri Cascade, Inc. was through its first tier ownership of SkyFidelity, Inc. Immediately prior to dissolution, SkyFidelity, Inc. transferred its intermediary ownership of Tri Cascade, Inc. to Saddle Ranch Media, Inc. Post dissolution therefore, Saddle Ranch Media, Inc. now has a direct ownership of Tri Cascade, Inc., which simplified the corporate structure. This was a routine process aimed at streamlining the chain of ownership, with no operational or financial effect on either Tri Cascade, Inc. or Saddle Ranch Media, Inc.

### ***Use of estimates in the preparation of financial statements***

Preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect reported amounts in the financial statements and accompanying notes. Actual results could differ from those estimates.

### ***Cash and cash equivalents***

For purposes of the consolidated statements of cash flows, cash includes demand deposits. At September 30, 2022 and December 31, 2021 none of the Company's cash balances were in excess of federally insured limits.

### ***Prepaid expense***

Prepaid expense at September 30, 2022 and at December 31, 2021 includes funds used to acquire a standby letter of credit for \$50,000 which was provided to the Company's telecom partner as a condition under which prepaid SIM cards will be provided for insertion in the Company's various products pursuant to Tri-Cascade Inc's connectivity Provider Agreement with T-Mobile USA. It also includes the balance of prepaid OTCMarkets subscription.

### ***Impairment***

The Company's management periodically reviews for the impairment of its assets whenever events or changes in circumstances indicate that the carrying amount of an asset may not be realizable. An impairment loss would be recognized when estimated future cash flows expected to result from the use of the asset and its eventual disposition is less than its carrying amount. With the advent of 5G, management decided to amortize prior product development costs and related goodwill thereon as a conservative approach to the carrying value of the Company's assets. While the majority of the Company's prior product development acts as the design and platform on which enhanced 5G products can and will be further developed, it was nevertheless believed prudent to amortize these "non-5G" prior costs at this time.

### ***Fixed Assets***

Fixed assets are stated at cost less accumulated depreciation. Depreciation is recorded on a straight-line basis over a period of the shorter of the related applicable lease term or the estimated useful lives of the assets ranging from 3 to 5 years. During the quarter ended September 30, 2022 the Company acquired a motor vehicle and computer equipment at a combined cost of \$ 55,753. At December 31, 2021 the Company's fixed assets were fully depreciated.

### ***Non-current Assets***

**Goodwill \$ 2,699,781** – this represents the excess of the cost to acquire Tri Cascade, Inc. over the book value of the net assets acquired at that time.

### ***Fair value of financial instruments***

The carrying amounts of the Company's accounts payable, accrued expenses, and notes payable approximate fair value due to their short-term nature.

### ***Income taxes***

Under ASC Topic 740, "Income Taxes", the Company is required to account for its income taxes through the establishment of a deferred tax asset or liability for the recognition of future deductible or taxable amounts and operating loss and tax credit carry forwards. Deferred tax expense or benefit is recognized as a result of timing differences between the recognition of assets and liabilities for book and tax purposes during the year. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Deferred tax assets are recognized for deductible temporary differences and operating losses, and tax credit carry forwards. A valuation allowance is established to reduce that deferred tax asset if it is "more likely than not" that the related tax benefits will not be realized. At this time, no provision for the payment of income taxes is required on the results of the Company's operations through September 30, 2022. Accumulated net losses, on a consolidated basis, through September 30, 2022 totaled approximately \$ 9 million.

### ***Net Loss per Share***

Net loss per share is calculated using the weighted average number of shares of common stock outstanding during the year. The Company has adopted the provisions of SFAS No. 128, Earnings per Share.

### ***Additional Paid in Capital***

During the three months ended March 31, 2021 Tri Cascade, Inc., a subsidiary of Saddle Ranch Media, Inc., received US\$ 500,000 from a private investor for the purchase of 1 million Preferred Series "B" shares issued by Tri Cascade, Inc. The purchase has been documented through a formal Securities Purchase Agreement between the investor and Tri Cascade, Inc. This influx of funding will fuel the continuance of Tri Cascade's operations, including but not limited to NB IoT product development, product testing and certification, and operating costs. The private investor has accepted a position on the board of directors and as Vice Chairman of Tri Cascade, Inc., as well as becoming the Company Secretary. The investor also brings years of experience, expertise and relationships in the telecommunication and IoT technology industries. The receipt of the \$ 500,000 was treated as an increase to additional paid in capital.

There can be no assurance that the Company can reach, or will reach, profitability. Unless continued significant additional cash flows are raised by the Company, the Company could be in jeopardy of continuing operations. The Company seeks to continue to generate needed funds from the sale of Company stock through a Private Placement and/or a Regulation A offerings; Section 3(a)10 debt restructuring and/or by entering into financing arrangements with third-parties including, but not limited to, possible off-
