RESULTS OF OPERATIONS
FINANCIAL FOOTNOTES

Revenues: For Nine Months ended September 30, 2022

There was service revenue of \$61,760 for the period referenced above and \$3,904 for the same period in 2021. Southern Home Medical, Inc. (the "Company") has launched during the period a new health coach and functional medical platform that provides digital health coach program and clinical functional medical care.

Expenses: For Nine Months ended September 30, 2022.

Operating expenses for the period were \$21,572, compared to \$47,084 for the same period in 2021. The decrease of operating expenses was due to only partial payments of professional fees that were made during the period.

Income Taxes: For Nine Months ended September 30, 2022.

The Company had no provision for income taxes for the period ended September 30, 2022. We do not currently have any net deferred tax assets.

Impact of Inflation

We believe that inflation has had a negligible effect on operations.

Capitalization

Liquidity & Capital Resources

We do not rely on financing from outside sources to provide us with capital. This has no effect on our operations and financial conditions.

We had a cash balance of \$18,605 on September 30, 2022. Our current amount of cash in the bank is not sufficient for our operations. We will rely on the future revenue from our business to operate the business. Demand for our business will be dependent on, among other things, market acceptance of our potential business in the near future.

RESULTS OF OPERATIONS
FINANCIAL FOOTNOTES

Basic of Presentation

This is a preliminary overview of the unaudited financial statements of the Company for the period ended September 30, 2022. The accompanying unaudited financial statements are being prepared internally in accordance with accounting principles generally accepted in the United States of America for interim financial information and pursuant to the rules and regulations of the Securities and Exchange Commission. Accordingly, they currently do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements.

In the opinion of management, the unaudited financial statements contain no current adjustments consisting only of normal recurring accruals considered necessary to present fairly the Company's financial position at September 30, 2022.

Management's Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Fair Value of Financial Instruments

The carrying amounts of financial instruments including accounts receivables, medical equipment, accounts payables, stockholder loans payable and notes payable approximated fair value of the immediate short-term maturity of these instruments.

Earnings (loss) Per Share

The Company reports earnings (loss) per share in accordance with Statement of Financial Accounting Standards (SFAS) No. 128. This statement requires dual presentation of basic and diluted earnings (loss) with a reconciliation of the numerator and denominator of the loss per share computations. Basic earnings per share amounts are based on the weighted average shares of common outstanding. If applicable, diluted earnings per share assume the conversion, exercise or issuance of all common stock instruments such as options, warrants, and convertible securities, unless the effect is to reduce a loss or increase earnings per share. Accordingly, this presentation has been adopted for the period presented. There were no adjustments required to net income for the period presented in the computation of diluted earnings per share. There were no common stock equivalents (CSE) necessary for the computation of diluted loss per share.

Income Taxes

Income taxes are provided for the tax effects of transactions reported in the financial statements and consist of deferred taxes related primarily to differences between the basis of certain assets and liabilities for financial and tax reporting and net operating loss carry-forwards. Deferred taxes present the future tax consequences of those differences, which will either be taxable or deductible when the assets and liabilities are recovered or settled. The income tax benefit consists of taxes currently refundable due to net operating loss carry-back provisions less the effects of accelerated depreciation for the federal tax purposes. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion of the entire deferred tax asset will not be realized. Deferred tax assets and liabilities are adjusted for the effect of changes in tax laws and tax rates on the date of enactment.

RESULTS OF OPERATIONS
FINANCIAL FOOTNOTES

Fixed Assets

Fixed assets are recorded at cost and included expenditures that substantially increase the productive lives of the existing assets. Maintenance and repairs costs are expensed as incurred. Depreciation is provided using the straight-line method. Depreciation of property and equipment is calculated over the management prescribed recovery periods, which range from 5 years for equipment to 7 years for furniture and fixtures.

When a fixed asset is disposed of, its cost and related accumulated depreciation are removed from the accounts. The difference between the undepreciated cost and proceeds from disposition is recorded as a gain or loss.

Advertising Costs

Advertising costs are expensed as incurred. The Company did not incur any direct-response advertising costs and nor did the Company employ an agency.

Long-lived Assets

In accordance with Financial Accounting Standards Board Statement of Financial Accounts Standards No. 121, "Accounting for Impairment of Long-lived Assets and for Long-lived Assets to be disposed of," the carrying value of long-lived assets is reviewed by management on a regular basis for the existence of facts or circumstances, both internally and externally, that may suggest impairment. To date, no such impairment has been indicated. Should there be impairment in the future, the Company will recognize the amount of impairment based on discounted expected future cash flows from the impaired assets.

Comprehensive Income (Loss)

The Company adopted Financial Accounting Standards Board Statement of Financial Accounts Standards No. 130, "Reporting Comprehensive Income," which establishes standards for the reporting and display of comprehensive income and its components in the financial statements. There were no items of comprehensive income (loss) applicable to the company during the period covered in the financial statements.

Cash and Cash Equivalents

For purposes of the Statement of Cash Flows, the Company considers liquid investments with an original maturity of nine months or less as cash equivalents.

Other Current Liabilities:

There were \$189,221 in loans from officers and/or affiliated companies owned by officers for the period ended September 30, 2022. There are no formal documents evidencing these loans and are payable on demand (which demand has not been made).

Loans Payable

There were no loans made by other parties made to the Company for the period.

Uninsured Deposits

At no times during the period, the Company maintained a bank account balance that exceeded the federal insured limits.
