**1. NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Nature of Operations**

Bravada International, Ltd. (the Company) owns and operates online properties in the women's fashion industry, personal protective equipment space, and consumer pets supplies for both retail and wholesale customers throughout the United States and internationally. The Company owns each website's domain, design, and programming infrastructure. The Company inventories the products sold online from its various web properties at its warehouse units and additionally provides fulfillment and shipping duties for its online orders. The Company was originally incorporated under the laws of the State of Delaware in December 1996 and became Bravada International, Ltd. in July 2010. The Company's headquarters and warehouse are located in Los Angeles, California.

**Basis of Presentation**

The accompanying financial statements are prepared in accordance with accounting principles generally accepted in the United States of America using the accrual basis of accounting.

**Impact from COVID-19**

The recent outbreak of the novel coronavirus COVID-19, which was declared a pandemic by the World Health Organization in March 2020, has led to adverse impacts on the global economies, disruptions of financial markets, and created uncertainty regarding potential impacts to the Company's supply chain and operations. The COVID-19 pandemic has impacted and could further impact the Company's operations and the operations of the Company's customers, suppliers, and vendors as a result of quarantines, facility closures, and travel and logistics restrictions. The extent to which the COVID-19 pandemic impacts the Company's business, results of operations and financial condition will depend on future developments, which are highly uncertain and cannot be predicted, including, but not limited to the duration, spread, severity, and impact of the COVID-19 pandemic, the effects of the COVID-19 pandemic on the Company's customers, suppliers, and vendors and the remedial actions and stimulus measures adopted by local and federal governments, and to what extent normal economic and operating conditions can resume. Therefore, the Company cannot reasonably estimate the impact at this time on its business, liquidity, capital resources and financial results. The management team is closely following the progression of COVID-19 and its potential impact on the Company.

**Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reported periods. Actual results could materially differ from those estimates.

## **Cash and Cash Equivalents**

For purposes of the balance sheets and statements of cash flows, the Company considers all highly liquid debt instruments purchased with maturity of three months or less to be cash equivalents.

## **Inventory**

The Company's inventory consists primarily of finished goods and is valued at average cost, which management believes best approximates market, on the first-in, first-out basis.

## **Fair Value of Financial Instruments**

The Company is required to estimate the fair value of all financial instruments included on its balance sheet. The carrying value of cash, accounts payable and accrued expenses approximate their fair value due to the short period to maturity of these instruments pursuant to Financial Accounting Standards Board (FASB), Accounting Standards Codification (ASC) 825, *Financial Instruments*.

## **Property and Equipment**

Property and equipment are stated at cost. Expenditures for major additions and improvements are capitalized and minor replacements, maintenance, and repairs are charged to expense as incurred. When property and equipment are retired or otherwise disposed of, the cost and accumulated depreciation are removed from the accounts and any resulting gain or loss is included in the results of operations for the year. Depreciation of property and equipment is computed using the straight-line method over the estimated useful lives of the assets, which range from three to seven years. Leasehold improvements are amortized over the shorter of the estimated useful life of the asset or the related lease term.

## **Identifiable Intangible Assets**

Intangible assets that are determined to have definite lives are amortized over the shorter of their legal lives or their estimated useful lives in accordance with ASC 350, *Intangibles – Goodwill and Other*. The identifiable intangible asset are then measured for impairment only when events or circumstances indicate the carrying value may be impaired pursuant to ASC 360, *Property, Plant and Equipment* discussed below.

## **Impairment of Long-Lived Assets**

The Company reviews the carrying values of its long-lived and intangible assets for possible impairment whenever events or changes in circumstances indicate that the carrying amount of the assets may not be recoverable. In cases where undiscounted expected future cash flows are less than the carrying value, an impairment loss is recognized equal to an amount by which the carrying value exceeds the fair value of assets. The factors considered by management in performing this assessment include current operating results, trends, and prospects, as well as the effects of obsolescence, demand, competition, and other economic factors. The Company's goodwill and intangible assets have been written down to their estimated carrying value as of Sept 30, 2022.

## **Revenue Recognition**

The Company derives its revenues from the sale of women's clothing, pet supplies, and other consumer products. Revenue is recognized at a point in time when the products are transferred to the customer, the customer obtains control of the product or risk of loss passes to the customer, no significant obligations remain, and returns can be reasonably estimated. The Company does not have any significant financing components as payments are received at the point of sale.

The nature of the Company's business gives rise to variable consideration, including rebates, allowances, and returns that generally decrease the transaction price which reduces revenue. These variable amounts are generally credited to the customer, based on product returns or price concessions. Provisions for discounts and rebates to customers, estimated returns and allowances, and other adjustments are provided for in the same period the related revenue are recorded. Revenues are recorded net of these provisions, if any.

## **Cost of Goods Sold**

Cost of goods sold includes the purchase cost of inventory sold to its customers (net of vendor allowances) and allocable indirect costs. The Company's shipping and handling costs are included in the cost of goods sold for all periods presented.

## **Advertising**

Advertising and promotion costs for internet, display ads, magazines, events and other media are expensed as incurred. Total advertising expenses, net of vendor allowances, for twelve months ended December 31, 2021, and 2020 were \$62,319.90 and \$41,541, respectively, and are included in selling and marketing expenses.

## **Comprehensive Income (Loss)**

The Company applies ASC 220, *Comprehensive Income*, for the reporting and display of comprehensive income, which requires its components to be reported in a financial statement that is displayed with the same prominence as other financial statements. For the full year ended December 31, 2021, and 2020, the Company had no other components of comprehensive income (loss) other than net income (loss) as reported on the statements of operations.

## **Income Taxes**

The Company accounts for income taxes under ASC 740, *Accounting for Income Taxes*. Under the asset and liability method of ASC 740, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statements carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period the enactment occurs. A valuation allowance is provided for certain deferred tax assets if it is more likely than not that the Company will not realize tax assets through future operations.

ASC 740 prescribes a recognition threshold and measurement attribute for financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more-likely-than-not to be sustained upon examination by taxing authorities. For the twelve months ended December 31, 2021, and 2020, the Company has no material uncertain tax positions to be accounted for in the financial statements. The Company recognizes interest and penalties, if any, related to unrecognized tax benefits in interest expense. The Company is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

## **COMPENSATED ABSENCES**

The Company currently has four (4) employees. The majority of costs and services have been provided to the Company by the officer. As such, there is no accrual for compensated absences as of September 30, 2022.

## **RELATED PARTY PAYABLES**

Throughout the year, the Company receives cash advances from shareholders to be used for operating costs and working capital purposes. These advances bear no interest and have no specific terms of repayment. Repayment is to be made as cash becomes available. As of September 30, 2022, there were \$0.00 advances outstanding.
