Issuance History

1. The goal of this section is to provide disclosure concerning each event that resulted in any direct changes to the total shares outstanding of any class of the issuer's securities in the past two completed fiscal years and any subsequent interim period.

- Disclosure under this item shall include, in chronological order, all offerings and issuances of securities, including debt convertible into equity securities, whether private or public and all shares or any other securities or options to acquire such securities issued for services. Using the tabular format below, please describe these events.

² "Public Float" shall mean the total number of unrestricted shares not held directly or indirectly by an officer, director, any person who is the beneficial owner of more than 10 percent of the total shares

outstanding (a "control person"), or any affiliates thereof, or any immediate family members of officers, directors, and control persons.

³ To be included in the Pink Current Information tier, the transfer agent must be registered under the Exchange Act.

A. Changes to the Number of Outstanding Shares

Check this box to indicate there were no changes to the number of outstanding shares within the past two completed fiscal years and any subsequent periods:

Shares Outstanding on the Date of This Report: Ending Balance: Date 10/31/2022 Common: 2,115,876,871 Preferred: 1,058,500									

The Company's reports are for October 31, 2022, updating the Shares Outstanding as of the Most Recent Fiscal Year End.

The 4th Quarter, the Year Ending October 31, 2022, increased the outstanding by 187,463,429 common shares, which is over the outstanding shares reported as of July 31, 2022.

- One transaction increased the outstanding by 187,413,442. The number of shares outstanding between the last, most fiscal Year 10/31/2021 and the current year-end balance 10/31/2022.

Here is how the 187,413,442 increase occurred.

In July 2022, One of the 3(a)(10) eligible listee presented an opinion letter to the Transfer Agent. The holder had refused to relinquish the certificates awarded, which was not a court order to cancel any certificate but released IJJ Corporation from being required to issue the balance of eligible Issuance.

1. On July 8, 2022, IJJ Corporation was presented with an Opinion letter entered as a court order under the 3(a)(10) of the Securities Act of 1933 to issue Issuance of shares of the Corporation's common stock (the "Share Issuance"), for the benefit of Securities Counselors Inc. and its Assignee, was fair and reasonable to the share recipient, with due notice to the Share Recipients, including as to the right to attend such hearing, following which the Court approved the Share Issuances in extinguishment of the claims, and determined that such Share Issuance was in exchange for bona fide claims, thus ordering the Share Issuances, which entitlements SCI assigned to Expanse Enterprises, LLC.
2. In response to the Special Note: In 1h. Goodwill and Intangibles impairment related to unexpected new Issuance, Mr. Pope canceled 100,000,000 of his common shares issued in April 2015, in July 2022, to offset the increase against the Shareholder's equity from the 3(a)(10). Accordingly, in the 3(a)(10), we anticipate other required issuances.
3. Reducing the addition to the outstanding to 187,413,442, This Issuance further impacted the Shareholder equity, increasing the outstanding and thus increasing the Goodwill amount, which offset the impairment decrease, reflected in the asset compared to the 4th Quarter Year-ending on October 31, 2021, as reported.

B. Debt Securities, Including Promissory and Convertible Notes

Use the chart and additional space below to list and describe all outstanding promissory notes, convertible notes, debentures, or any other debt instruments that may be converted into a class of the issuer's equity securities.

Check this box if there are no outstanding promissory, convertible notes, or debt arrangements:

Date of Note Issuance	Outstanding Balance (\$)	Principal Amount at Issuance (\$)	Interest Accrued (\$)	Maturity Date	Conversion Terms (e.g., pricing mechanism for determining the conversion of the instrument to shares)	Name of Noteholder (entities must have an individual with voting/investment control disclosed).	Reason for Issuance (e.g., Loan, Services, etc.)
None							

Use the space below to provide any additional details, including footnotes to the table above:

- Since 2017, the Company has not executed any debt security, including promissory and Convertible notes. The Transfer Agent account is active, and no such transactions have occurred since October 31, 2022.

Issuer's Business, Products, and Services

The purpose of this section is to provide a clear description of the issuer's current operations. In answering this item, please include the following:

A. Summarize the issuer's business operations (If the issuer does not have current operations, state "no operations").

IJJ Corporation (IJJCorp) is a Publicly Traded company, stock symbol "IJJP," incorporated in Wyoming and has a fiscal year ending on October 31. At IJJCorp, we have always marketed a Business Partnership Development network service. We view partnerships as a commitment to demonstrate the value of building relationships designed to stimulate positive market growth.

Our mission: In 2023, the final preparation of the business model will require the Company to execute several material events designed to establish the corporate funding to position its ability to engage in RRP.

The focus is to participate in Economic Impact initiatives for betterment and improvement within communities in the USA and worldwide. To engage our Socially Responsible Commitment (SRC) to structure funding initiatives for real-time needs as betterment and improvement programs and projects within Opportunity Zones (OZ) as Economic and Environment Impacts (EEI).

As stated, Our Core Business Objectives:

1. Designate an Opportunity Zone (OZ) For Economic Impact Developments.

2. Operate A Committee Structured Qualify Opportunity Fund (QOF).
3. Utilizing the 2017 Tax Cut and eCommerce Exchange Trading Platform (eCETP) as Alternative Funding Resources.
4. Implement a Jobs Act platform for the Revitalized Renaissance Program (RRP).

Partnership Building focus:

The Summary:

Within our SRC, the commitment to building B4B partnership programs between Public traded and Private companies.

IJJ Corporation fee services to maintain its reporting and business development in the Private Companies marketplace and to build and promote funding for humanitarian and economic impact initiatives.

IJJ Corporation's corporate experience has evolved into a structure to build the foundation to implement RRP within the USA as a humanitarian initiative within our Four Core Objectives.

In 2023, IJJ Corp will have two new officers to engage in funding, application deployments, and infrastructure oversight. The onboarding of Corporate Partners is to contribute, share and benefit in developing the IJJ Corp Business Partnership.

The Material Events will be announced in the First Quarter of OTC Filings; the Reporting period is November 2022 to January 2023.

IJJ Corp, in 2023, will pursue avenues for funding application deployments and infrastructure development.

On January 26, 2022, the Webapp eCETP official launch was successful. Once eCETP was finalized, we developed four MP4 training videos in four sections with additional short videos for quick reference, projected for completion in February 2022.

In April 2022, eCETP will provide onboarding of customers and marketing eCETP services. eCETP will still have three additional modules to deploy, requiring monthly or annual sustainable expenses. In addition, hiring key personnel to manage CRM and EPR services will happen with sustainable revenue from eCETP product sales.

B. Please list any subsidiaries, parents, or affiliated companies.

- One acquisition as of January 31, 2022. Montech Studio it is a Subsidiary.
- Acquires management control of Montech Studio as a cryptocurrency and blockchain application developer who also developed eCETP IJJ Corporation at <https://www.ecetp.co>

C. Describe the issuers' principal products or services.

- The principal product or service is an online Business Processing as Software (BPaaS) for funding & payments disbursements using an innovative accounting and distribution module within a donation platform. With the primary purpose of funding budgetary requirements for ongoing programs and project initiatives with subscribers as backers (donating).

Past Events:

As of October 2021, the vision was born, and the self-funded eCETP WebApp launched was completed in November 2021. After that, we tested and modified the WebApp in January 2022, which delayed the User Manuals' last hurdle.

By 2020, the concept of funding humanitarian and economic impact initiatives resulted in creating a software solution to fund the ability to generate working capital to finance the initiative. Although by 2021, we added cryptographic minting of Tokens and APIs, the brainstorm resulted in an eCommerce Exchange Trading Platform (eCETP).

In 2019, through social media and business development networking, we increased awareness of IJJ Corp's business partnership initiatives resulting in over 7,500 active followers and companies/groups we are following, with 17,000 active day trading shareholders.

In 2018, we incorporated the cryptographic minting of Tokens and Application Program Interface. (APIs) as a new resource to produce a product and service. The two resources will create a means of funding.

In 2017, we minted 25,000,000 Ethereum Tokens under the Symbol IJJCoin, as a digital utility, benefit, and reward commodity and as an asset offered in eCETP as an added value.

We are implementing fee subscription services to maintain Corporate reporting and business development in the Private Companies marketplace and to build and promote funding for humanitarian and economic impact initiatives.

Completed and deployed Corporate Assets:

By implementing a donation tracking and transaction base product, we generate multiple residual revenue streams to ensure our ability to participate in the success of our partnerships and growth objectives, meeting decision-makers' real and immediate funding requirements.

In addition, we have minted IJJ Ethereum ERC-20 tokens for the Exchange Trading module within eCETP. We created preset pricing to establish the market value and build business activities and transactions to support the business concept. Our product is a Donation Backer Package with Account Receipts and Tickets (**ART**) offered in six different packages.

Additional products include an eCETP perpetual license and bonus equations used to generate working capital generators for approved Alliance certified Operator of eCETP who have completed the No Commitment to Join Mandatory Training Program (MTP).

With a BPaaS, we limited the need for corporate licensing and permits required to participate in currency transactions in four ways:

1. The targeted customer base is nonprofit organizations and governments worldwide.
2. The marketplace is a private network that requires KYC and AML screening approval to obtain a membership.
3. eCETP provides a startup package as a Mandatory Training Program to certify that all members receive training to operate eCETP independently.
4. eCETP never controls nor handles any fiat transactions or donations. Instead, the Certified eCETP Operator controls all donations and cash deposits as the campaign sponsor.

The components of our approach – Business For Business (B4B), collaborative relationships, contractor/subcontractor, and mentor relationships are not new. However, the cooperation between technology and management consulting, as IJJCorp has applied it- is a new and innovative approach.
