Welltek Incorporated
Notes to Financial Statements
For the Nine Months Ended September 30, 2022
(unaudited)

1. SUMMARY DESCRIPTION OF BUSINESS

As used herein, the “Company” means WellTek Incorporated. The Company was incorporated in Nevada on January 23, 2009, as Welltek Incorporated. The Company operated as a shell company from inception to April 5, 2021, with no revenue and extremely limited expenses. In connection with a change in control on April 5, 2021, the Company’s new controlling stockholder, who is now the Company’s sole director and chief executive officer, transferred CLStv, LLC, a Georgia limited liability company, which was wholly owned by him, to the Company. The transaction is being treated for accounting purposes as an asset acquisition.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation - Company financial statements are audited and have been compiled following United States GAAP (Generally Accepted Accounting Principles). The fiscal year of the company is December 31.

Presentation of Consolidated Financial Statements – Financial statements represent the consolidated balance sheet, Operations, cash flow and shareholder’s equity of CLStv, Corp. and WellTek, Inc.

Revenue Recognition –The Company follows ASC 606 2014-09 Revenue from Contracts with Customers. This involves identifying the contract with the customer, identify separate performance obligations, determine the transaction price, allocate the transaction price to the separate performance obligations, and then recognize revenue when (or as) performance obligations are satisfied. Our revenue is derived from advertising through the media that we create or host. Sales revenue of roughly \$19,000 year to date ending September 30, 2022, is split between advertising sales of \$7,000 and broadcasting sales of \$12,000.

Cash and Cash Equivalents - All highly liquid investments with original maturities of twelve months or less are classified as cash and cash equivalents. The fair value of cash and cash equivalents approximate the amounts shown on the financial statements.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. These estimates and assumptions are used in, but not limited to, certain receivables and accounts payable and the provision for uncertain liabilities. Actual results could differ materially from those estimates.

Income Taxes - The Company is subject to income taxes in the United States. Income tax expense (benefit) is provided for using the asset and liability method. Deferred income taxes are recognized at currently enacted tax rates for the expected future tax consequences attributable to temporary differences between amounts reported for income tax purposes and financial reporting purposes. Deferred taxes are provided for the undistributed earnings as if they were to be distributed. The tax rate for a future period is affected by the estimated valuation allowance against the Company’s deferred tax assets. The Company regularly reviews its deferred tax assets for recoverability taking into consideration such factors as recurring operating losses, projected future taxable income, and the expected timing of the reversals of existing temporary differences. The authoritative guidance issued by the FASB requires the Company to record a valuation allowance when it is more likely than not that some portion or all of the deferred tax assets will not be realized.

Recently Adopted Accounting Standards - The Company has adopted all recently issued accounting pronouncements. The adoption of the accounting pronouncements, including those not yet effective, is not anticipated to have a material effect on the financial position or results of operation of the Company.

3. SHAREHOLDERS' EQUITY

As of the date of inception, the total number of shares of all classes of stock, which the Company shall have authority to issue is 600,000,000 shares of common stock. 598,672,000 are issued and outstanding and valued at par value (\$0.00001) which is reported as \$5,987.

4. COMMITMENTS AND CONTINGENCIES

Convertible Notes- The amount of \$15,500 is the stated value of notes created in Q3'21 between more than 1 party that represent convertible notes that mature one year from inception with a stated interest rate. They are convertible within the first-year equivalent to the value of the notes at the closing price of the shares on the date funds are received plus a 20% discount on the purchase.

No other debts are owed by this company except as noted above.

5 LITIGATION

The Company has no pending or historical litigation.

6. CONTRACTUAL ARRANGEMENTS

The Company has no contractual arrangements.

7. SUBSEQUENT EVENTS

As of April 5, 2021, the Company acquired CLStv LLC in consideration for a transfer of 75.09% of the Company's issued and outstanding common stock by the then controlling stockholder. This transaction is being treated for accounting purposes as an asset acquisition versus a business acquisition, because CLStv LLC is not engaged in business, which is defined as an integrated set of activities and assets that is capable of being conducted and managed for the purpose of providing a return in the form of dividends, lower costs, or other economic benefits directly to investors or other owners, members, or participants. There was no property, equipment, labor contracts, inventory, or value-added intangible assets acquired that would constitute a business acquisition. The value of the asset received is \$0.00
