ITOCO INC.
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2022
(Unaudited)

NOTE 1 – ORGANIZATION AND NATURE OF BUSINESS

Itoco Inc. (“the Company”) was incorporated as a Nevada corporation on March 9, 2007. On December 1, 2015, the Company’s name was changed to Itoco Mining Corp. On April 19, 2018, the Board of Directors and Majority Stockholders approved to amend the Company’s Certificate of Incorporation to change the name of the Company to ITOCO INC. The name change was effective at the open of business May 8, 2018.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The Company’s unaudited financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”).

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period.

Concentrations of Credit Risk

We maintain our cash in bank deposit accounts, the balances of which at times may exceed federally insured limits. We continually monitor our banking relationships and consequently have not experienced any losses in our accounts. We believe we are not exposed to any significant credit risk on cash.

Cash equivalents

The Company considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents. There were no cash equivalents for the years ended December 31, 2022 or 2021.

Basic and Diluted Earnings Per Share

Net income (loss) per common share is computed pursuant to section 260-10-45 of the FASB Accounting Standards Codification. Basic net income (loss) per common share is computed by dividing net income (loss) by the weighted average number of shares of common stock outstanding during the period. Diluted net income (loss) per common share is computed by dividing net income (loss) by the weighted average number of shares of common stock and potentially outstanding shares of common stock during the period. The weighted average number of common shares outstanding and potentially outstanding common shares assumes that the Company incorporated as of the beginning of the first period presented. As of December 31, 2022 and 2021, the Company has no potentially dilutive shares of common stock.

Stock-based Compensation

In June 2018, the FASB issued ASU 2018-07, *Compensation – Stock Compensation (Topic 718): Improvements to Nonemployee Share-Based Payment Accounting*. ASU 2018-07 allows companies to account for nonemployee awards in the same manner as employee awards. The guidance is effective for fiscal years beginning after December 15, 2018, and interim periods within those annual periods.

Fair Value of Financial Instruments

The Company follows paragraph 825-10-50-10 of the FASB Accounting Standards Codification for disclosures about fair value of its financial instruments and paragraph 820-10-35-37 of the FASB Accounting Standards Codification (“Paragraph 820-10-35-37”) to measure the fair value of its financial instruments. Paragraph 820-10-35-37 establishes a framework for measuring fair value in accounting principles generally accepted in the United States of America (U.S. GAAP) and expands disclosures about fair value measurements. To increase consistency and comparability in fair value measurements and related disclosures, Paragraph 820-10-35-37 establishes a fair value hierarchy which prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The fair value hierarchy gives the highest priority to quoted prices (unadjusted) in active markets for identical assets or liabilities

and the lowest priority to unobservable inputs. The three levels of fair value hierarchy defined by Paragraph 820-10-35-37 are described below:

Level 1: Quoted market prices available in active markets for identical assets or liabilities as of the reporting date.

Level 2: Pricing inputs other than quoted prices in active markets included in Level 1, which are either directly or indirectly observable as of the reporting date.

Level 3: Pricing inputs that are generally unobservable inputs and not corroborated by market data.

The carrying amount of the Company's financial assets and liabilities, such as cash, prepaid expenses and accrued expenses approximate their fair value because of the short maturity of those instruments. The Company's notes payable approximates the fair value of such instruments as the notes bear interest rates that are consistent with current market rates.

Recently Adopted Accounting Pronouncements

The Company has implemented all new accounting pronouncements that are in effect. These pronouncements did not have any material impact on the unaudited financial statements unless otherwise disclosed, and the Company does not believe that there are any other new accounting pronouncements that have been issued that might have a material impact on its financial position or results of operations.

NOTE 3 – GOING CONCERN

The accompanying unaudited financial statements have been prepared assuming that the Company will continue as a going concern, which contemplates the continuity of operations, realization of assets, and liquidation of liabilities in the normal course of business. As reflected in the accompanying financial statements, the Company has no revenue and has an accumulated deficit. These factors among others raise substantial doubt about the Company's ability to continue as a going concern.

While the Company is attempting to commence operations and generate revenues, the Company's cash position may not be significant enough to support the Company's daily operations. Management intends to raise additional funds by way of a public or private offering. Management believes that the actions presently being taken to further implement its business plan and generate revenues provide the opportunity for the Company to continue as a going concern. While the Company believes in the viability of its strategy to generate revenues and in its ability to raise additional funds, there can be no assurances to that effect. The ability of the Company to continue as a going concern is dependent upon the Company's ability to further implement its business plan and generate revenues. The financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

NOTE 4 – ACCOUNTS PAYABLE

During the year ended December 31, 2021, various service providers forgave a total of \$1,225,708 of accounts payable due. The amount has been recognized as a gain on forgiveness of debt.

The CEBA loan is unsecured and non-interest bearing during an initial term ending December 31, 2023 and bearing interest at 5% per annum starting on January 1, 2024. No principal repayment is required before December 31, 2023. If the loan remains outstanding after December 31, 2023, only interest payments are required until full principal is due on December 31, 2026. If the outstanding principal, other than the amount of potential debt forgiveness of 33% of the amount borrowed, is repaid by December 31, 2023, the remaining principal amount will be forgiven, provided that no default under the CEBA loan has occurred.

As of December 31, 2022 and 2021, the Company had other loans payable from third parties of \$129,376 and \$179,807, respectively. All loans are non-interest bearing and due on demand.

Per the terms of the agreement the Company was to purchase 49% of the shares of Colorful for 40,000,000 shares of common stock and a loan payable, however, the agreement was subsequently cancelled, and the parties entered into a new agreement. On January 4, 2023, the Company and Colorful executed an Agency Agreement, effective until December 31, 2027.

The shares were valued at \$0.035, the closing price on January 4, 2023, the effective date of the new agreement, for a total of \$1,400,000. As of December 31, 2022, this amount is on the balance sheet as a prepaid asset that will be amortized over the term of the agreement.

NOTE 11 - INCOME TAX

Deferred taxes are provided on a liability method whereby deferred tax assets are recognized for deductible temporary differences and operating loss and tax credit carry forwards and deferred tax liabilities are recognized for taxable temporary differences. Temporary differences are the differences between the reported amounts of assets and liabilities and their tax bases. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. The Company has evaluated Staff Accounting Bulletin No. 118 regarding the impact of the decreased tax rates of the Tax Cuts & Jobs Act. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment. The U.S. federal income tax rate of 21% is being used.

Net deferred tax assets consist of the following components as of December 31:

	2022	2021
Deferred Tax Assets:		
NOL Carryover	\$ 1,063,700	\$ 1,085,400
Payroll accrual	160,700	77,500
Related party accrual	60,000	52,300
Deferred tax liabilities:		
Less valuation allowance	(1,284,400)	(1,215,200)
Net deferred tax assets	\$ —	\$ —

The income tax provision differs from the amount of income tax determined by applying the U.S. federal income tax rate to pretax income from continuing operations for the period ended December 31, due to the following:

	2022	2021
Book loss	\$ (382,300)	\$ (8,000)
Other nondeductible expenses	156,200	(210,500)
Related party accruals	7,700	16,400
Accrued payroll	83,160	45,150
Valuation allowance	135,240	156,950
	<u>\$ —</u>	<u>\$ —</u>

At December 31, 2022, the Company had net operating loss carry forwards of approximately \$5,065,000 that may be offset against future taxable income. NOLs from tax years up to 2018 can be carried forward twenty years. Under the CARES Act, the Company carry forward NOLs indefinitely for NOLs generated in a tax year beginning after 2018, that remain after they are carried back to tax years in the five-year carryback period. No tax benefit has been reported in the December 31, 2022 financial statements since the potential tax benefit is offset by a valuation allowance of the same amount.

Due to the change in ownership provisions of the Tax Reform Act of 1986, net operating loss carry forwards for Federal Income tax reporting purposes are subject to annual limitations. Should a change in ownership occur, net operating loss carry forwards may be limited as to use in future years. With few exceptions, the Company is no longer subject to U.S. federal, state and local income tax examinations by tax authorities for years before 2016.

NOTE 12 – SUBSEQUENT EVENTS

In accordance with SFAS 165 (ASC 855-10) management has performed an evaluation of subsequent events through the date that the unaudited financial statements were issued and has determined that it does not have any material subsequent events to disclose in these financial statements other than the following.

On January 1, 2023, the Company granted 255,000 shares of common stock for services.

On January 4, 2023, the Company and Colorful executed an Agency Agreement, effective until December 31, 2027 (Note 9). The shares were valued at \$0.035, the closing price on January 4, 2023, the effective date of the new agreement, for a total of \$1,400,000. This amount is on the balance sheet as a prepaid asset that will be amortized over the term of the agreement.
