FORWARDLY, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 2023

NOTE 1- NATURE OF OPERATIONS

Nature of Operations

Forwardly, Inc. (the "Company") was incorporated in the State of Nevada in September 27, 2005. The Company is a holding company organized with a goal of investing, acquiring and managing a diversified portfolio of profitable, growth-oriented companies.

On June 1, 2020, the Company formed Breathe Medical Devices, Inc., through which the Company intends to perform the Exclusive Distributor Agreement they entered into with Ligand Innovation Global for the sale of portable ventilator medical equipment, under the brand name LifeAir G1 throughout the United States in perpetuity, subject to a right of Ligand Innovation Global to terminate the Exclusive Distributor Agreement if the Company has not sold at least 1,000 portable ventilators within two years following United States Food and Drug Administration approval of the ventilator equipment. No approvals have occurred as of March 31, 2023.

Going Concern

Liquidity is the ability of a company to generate funds to support its current and future operations, satisfy its obligations, and otherwise operate on an ongoing basis. Significant factors in the management of liquidity are funds generated by operations, levels of accounts receivable and accounts payable and capital expenditures.

We have incurred an increased accumulated deficit as of March 31, 2023 as we continued to identify acquisition candidates as Ligand Innovation Global continues going through the development process. We have no revenues to date and have streamlined our operations significantly until such time as our operations can sustain themselves. We have converted and/or repaid our convertible notes and the related party debt which was incurred in 2021.

As of March 31, 2023, we had \$382,049 in cash. We expect to receive our final payment on the note receivable we incurred with HUMBL, Inc. in June 2023 in the amount of \$440,000. Upon receipt of the final payment, we will cancel the remaining 115,000,000 warrants we received in 2020. Our net loss in 2022 was principally comprised of bad debt we incurred on the investment we made in Ligand Innovation Global as well as the note receivable and accrued interest on Maverick Energy Group as discussed herein, as well as the impairment recorded on digital assets we purchased in 2022. In addition we incurred a loss on the shares of common stock purchased through the exercise of warrants, offset by the gain on the sale of our warrants back to HUMBL, Inc. in a settlement agreement executed on November 15, 2022. The losses incurred in the three months ended March 31, 2023 related to professional fees incurred in operating the business as well as unrealized losses on the HUMBL stock we own and impairment of the digital assets.

As a result of the operating losses and accumulated deficit, management has determined that there is substantial doubt about the Company's ability to continue as a going concern.

The consolidated financial statements of the Company have been prepared assuming that the Company will continue as a going concern, which contemplates, among other things, the realization of assets and the satisfaction of liabilities in the normal course of business over a reasonable period. The consolidated financial statements of the Company do not include any adjustments that may result from the outcome of the uncertainties.

Impact of COVID-19

The COVID-19 pandemic previously had a profound effect on the U.S. and global economy and may continue to affect the economy and the industries in which we operate, depending on the vaccine rollouts and the emergence of virus mutations.

COVID-19 did not have a material effect on the Consolidated Statements of Operations or the Consolidated Balance Sheets.

Our ability to access the capital markets and maintain existing operations is unknown during the COVID-19 pandemic. Any such limitation on available financing and how we conduct business with our customers and vendors would adversely affect our business.

Because the federal government and some state and local authorities are reacting to the many variants of COVID-19, it is creating uncertainty on whether these actions could disrupt the operation of the Company's business and have an adverse effect on the Company. The extent to which the COVID-19 outbreak may impact the Company's results will depend on future developments that are highly uncertain and cannot be predicted, including new information that may emerge concerning the severity of the virus and the actions to contain its impact.

NOTE 2- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

These consolidated financial statements are presented as unaudited and in United States dollars and have been prepared in accordance with generally accepted accounting principles in the United States of America. The Company believes that these consolidated financial statements present fairly, in all material respects, the financial position of the Company and the results of its operations and cash flows for the periods presented.

The consolidated financial statements include the accounts of the Company as well as their wholly-owned subsidiary, Breathe Medical Devices, Inc. All inter-company transactions have been eliminated in consolidation.

The Company has a calendar year-end accounting period.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the U.S. requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. These estimates include, but are not limited to, management's estimate of provisions required for permanent and temporary differences related to income taxes, liabilities to accrue, and determination of the fair value of stock awards. Actual results could differ from those estimates.

Cash

Cash consists of cash and demand deposits with an original maturity of three months or less. The Company holds no cash equivalents as of March 31, 2023 and December 31, 2022, respectively. The Company maintains cash balances in excess of the FDIC insured limit at a single bank.

Revenue Recognition

The Company will account for a contract with a customer that is within the scope of this Topic only when the five steps of revenue recognition under ASC 606 are met.

The five core principles will be evaluated for each service provided by the Company and is further supported by applicable guidance in ASC 606 to support the Company's recognition of revenue.

The Company has not recognized any revenue to date.

Income Taxes

Income taxes are accounted under the asset and liability method. The current charge for income tax expense is calculated in accordance with the relevant tax regulations applicable to the entities. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and for operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled.

The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. Differences between statutory tax rates and effective tax rates relate to permanent tax differences.

Uncertain Tax Positions

The Company follows ASC 740-10 Accounting for Uncertainty in Income Taxes. This requires recognition and measurement of uncertain income tax positions using a “more-likely-than-not” approach. Management evaluates their tax positions on an annual basis.

The Company files income tax returns in the U.S. federal tax jurisdiction and various state tax jurisdictions. The federal and state income tax returns of the Company are subject to examination by the IRS and state taxing authorities, generally for three years after they were filed.

Fair Value of Financial Instruments

ASC 825 Financial Instruments requires the Company to disclose estimated fair values for its financial instruments. Fair value estimates, methods, and assumptions are set forth below for the Company’s financial instruments: The carrying amount of cash, accounts receivable, prepaid and other current assets, accounts payable and accrued liabilities, and amounts payable to related parties, approximate fair value because of the short-term maturity of those instruments. The Company does not utilize derivative instruments.

Earnings (Loss) Per Share of Common Stock

Basic net income (loss) per common share is computed using the weighted average number of common shares outstanding. Diluted earnings per share (“EPS”) include additional dilution from common stock equivalents, such as convertible notes, preferred stock, stock issuable pursuant to the exercise of stock options and warrants.

Common stock equivalents are not included in the computation of diluted earnings per share when the Company reports a loss because to do so would be anti-dilutive for periods presented, so only the basic weighted average number of common shares are used in the computations.

Digital Assets

Digital assets are included in the consolidated balance sheets. We have ownership of and control over our digital assets and may use third party custodial services to secure them. Digital assets are initially recorded at cost and are subsequently remeasured at cost, net of any impairment losses on our consolidated balance sheets. We assign costs to digital asset transactions on a first-in, first-out basis. Gains or losses are not recorded until realized upon sale(s).

We determine the fair value of our digital assets on a nonrecurring basis, based on quoted prices on the active exchange(s) that we have determined is the principal market for such assets (Level 1 inputs). We perform a quarterly, or more frequent review to identify whether events or changes in circumstances, principally decreases in the quoted prices on active exchanges on any day during the quarter, indicate that it is more likely than not that our digital assets are impaired.

The cost basis of digital assets will not be adjusted upward for subsequent increases in fair value. Such impairment in the value of digital assets is recorded as a component of other operating expenses in our consolidated statements of operations. We recorded an impairment loss of approximately \$5,126 and \$216,910 related to digital assets during the three months ended March 31, 2023 and 2022, respectively.

Fair Value Measurements

ASC 820 Fair Value Measurements defines fair value, establishes a framework for measuring fair value in accordance with GAAP, and expands disclosure about fair value measurements. ASC 820 classifies these inputs into the following hierarchy:

Level 1 inputs: Quoted prices for identical instruments in active markets.

Level 2 inputs: Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations whose inputs are observable or whose significant value drivers are observable.

Level 3 inputs: Instruments with primarily unobservable value drivers.

The Company expensed \$16,000 related to these warrants when 10,000,000 warrants were exercised.

In November 18, 2021, the Company entered into a Share Registration Agreement with HUMBL under which HUMBL agreed to register the Warrant Shares through the filing with the SEC of a Form S-1 and to extend the exercise period from December 3, 2022 to December 31, 2023. The Company exercised 10,000,000 warrants on January 21, 2022. As of March 31, 2023 and December 31, 2022, the Company owns 10,000,000 shares of HUMBL, Inc. (See Note 8).

The Company’s CEO, loaned the Company \$2,000,000 to allow the Company to purchase the Warrant Shares under the terms of the Share Registration Agreement (See Note 7).

The Company had elected to account for the purchase of this warrant as an investment under the guidance of ASC 321. The warrants are not traded on a national exchange, so do not have a readily determinable fair value as defined in ASC 321. The Company has elected to apply the measurement alternative discussed in ASC 321-10-35-2, and as a result will measure the investment at cost and remeasure to fair value if impaired or upon observable prices.

On November 15, 2022, the Company and HUMBL entered into a Settlement Agreement and Mutual Release of Claims (the "Settlement Agreement"). Under the terms of the Settlement Agreement, HUMBL agreed to pay \$2,200,000 in the form of a Promissory Note and execute a confession of judgment to settle certain disputes between the parties. In return, the Company agreed to return their 115,000,000 unexercised warrants to HUMBL. The 10,000,000 shares issued to the Company from the original 125,000,000 warrants which represented the 10,000,000 warrant exercise in January 2022, will be retained by the Company in lieu of interest on the note.

The Promissory Note is to be repaid in five equal monthly payments of \$440,000 commencing November 15, 2022 with final payment due on March 15, 2023. The Company received four of the five installments, including the January and February 2023 payments on December 30, 2022 and agreed to extend the March 15, 2023 payment to June 15, 2023. As of March 31, 2023 and December 31, 2022, the balance of the note receivable is \$440,000.
