NOTES TO FINANCIAL STATEMENTS
(UNAUDITED)

NOTE 1 – BASIS OF PRESENTATION AND GOING CONCERN

Basis of Presentation

These financial statements are presented to conform to Generally Accepted Accounting Principles. The last set of financial statements were issued for the quarter and nine months ended September 30, 2017 and there are no books and records to support any activity subsequent to that date. Operations appear to have not ceased immediately, but details on when it did and what activity occurred is unknown. We constructed the financials in this report on anecdotal evidence that has occurred in the last year.

Facts we learned included:

- 1) By July, 2022, when a Custodian was appointed the corporation had been inactive and had no operations for an extended period.
- 2) At the last reporting date, the total issued common stock was 3,582,383,902; at 12/31/20 the total was 5,194,795,902; At 5/24/21, the total was 5,856,417,461, with no shares issued subsequently. For the change in 2021, all shares issued were for cancellation of convertible debt.
- 3) Between 10/01/17 and 12/31/20, there were 1,612,412,000 shares issued of which 1,610,312,000 shares are not identified.

Assumptions we made to prepare the statements:

- 1) All assets no longer exist. The largest asset was a \$50,000 formula for a beverage. It conceivably still may exist, but the Company has no access to it.
- 2) All payables to vendors and accrued expenses have been eliminated due to the passage of time.
- 3) Convertible notes and the Derivative liabilities were fully converted into common shares. This assumption was made as the total due at 9/30/17 was \$1,495,094. We know that 661,621,559 shares were issued in 2021 and **assume** that within the unknown 1,610,312 (#3 above) shares included conversion of the balance of the debt. The shares issued during 2021 did not fully disclose the conversion rate, therefore we **assumed** the remaining debt at 12/31/20 was at par value.
- 4) The custodian's issuance of preferred shares in 2022 provided voting rights of 60% which conflicts with the original preferred shares issued which had a 66.67% voting bloc. We assumed that part of the large unexplained common share issuance was to convert those earlier preferred shares.
- 5) Sometime between 2018 and 2020 it appears that operations ceased. While stock may have been issued by the Company and used in operations is possible, no records or indications of activity can be identified. We thus **assumed** that any activity by that time would be immaterial to the financial statements of the Company and is presented as zero income statement activity and zero cash flow activity.

Unfortunately, assumptions had to be made in order to prepare these statements. We believe that in the absence of definitive documentation, there is not means of providing 100% accurate financials. What is obvious however, is that the Company has been inactive for several years. We know the exact number of shares issued for the period. Many of the convertible notes were in default back in 2017, and with the size of the share growth, it is highly likely that they were all converted. Being that the Company was assigned a Custodial agent indicates that no former Control persons were active and had abandoned the Company.

Going Concern

The accompanying unaudited consolidated financial statements have been prepared in conformity with GAAP, which contemplates continuation of the Company as a going concern, which is dependent upon the Company's ability to establish itself as a profitable business. At December 31, 2021, the Company has an accumulated deficit of \$8,265,598 and a no working capital. These matters raise substantial doubt about the Company's ability to continue as a going concern. These unaudited condensed financial statements do not include any adjustments that might result from the outcome of these uncertainties, nor do they include adjustments relating to the recoverability and realization of assets and classification of liabilities that might be necessary should the Company be unable to continue in operation. The Company's ability to continue in business is dependent upon obtaining sufficient financing or attaining profitable operations. However, there can be no assurance that management will be successful in obtaining additional funding or in attaining profitable operations.

NOTE 2 – STOCKHOLDER CHANGES

The Company is authorized to issue up to 7,000,000,000 shares of common stock at \$0.001 par value per share and 0 shares of preferred stock at \$0.00001 par value per share. As of December 31, 2021, and December 31, 2020, the Company had 5,856,417,461 and 5,603,417,461 shares of common stock plus 0 and 0 shares of Series A preferred stock issued and outstanding, respectively.

During the year ended December 31, 2021, the Company issued 661,621,559 common shares with a par value of \$661,622 for the conversion of debt including interest and penalties.

NOTE 3 – CONVERTIBLE NOTES PAYABLE

Prior to 2020, we eliminated all but the convertible note that was converted during the year ended December 31, 2021

	December 31, 2021	December 31, 2020
Convertible notes payable	\$ 0	\$ 661,621
Unamortized debt discounts	0	0
Total	<u>\$ 0</u>	<u>\$ 661,621</u>

As disclosed in Note 1, the Company issued 2,274,033,559 shares since its last official reporting date. The issuance of so many shares is most likely due to the converting of convertible debt that was reported as of that last report.

NOTE 4– SUBSEQUENT EVENTS

On July 15, 2022 the Wyoming Court appointed UMA, LLC (Nikki Lee, President) to be the custodial agent for the Company. On July 16, 2022, the Custodian approved the issuance of Special 2022 Class A Preferred Stock. These shares have voting rights equal to 60% of all shares of stock in the Company. On September 16, 2022, Nairobi Anderson was appointed as the sole Director of the Company and the preferred shares were transferred to her. On March 6, 2023, the same shares were transferred to Krista Management Inc. (Carey Cooley).
