NOTE 1 - NATURE OF BUSINESS

ORGANIZATION

On April 16th, 2021, Benjamin Berry was appointed the Court Appointed Custodian/Receiver of Universal Systems, Inc., by the Clark County Superior Court of Washington by Case Number 2120043106.

Previously, Universal Systems, Inc., (the “Company”) formerly known as Berry Shino Securities of Washington, Inc., changed its name to New Century Industries, Inc. On July 21st, 2003, Berry Shino Securities of Washington, Inc., changed its name to New Century Industries, Inc. On October 27th, 2003, the New Century Industries, Inc., changed its name to New Century Metals Corporation. On November 18th, 2003, New Century Metals Corporation changed its name to Universal Systems, Inc., and began focusing its operational efforts as a full-service wastewater treatment service provider for the oil industry.

On July 22nd, 2021 Benjamin Berry resigned, and Andrew Lane was appointed as President/CEO of the Company.

On July 22nd, 2021, MKH Ventures, LLC., a Nevada Limited Liability Company, entered into an agreement with Synergy Management Group, LLC, a Wyoming Limited Liability Company for the acquisition of Universal Systems, Inc., a Washington Corporation, in exchange for one hundred (100) Special 2021 Series A Preferred Shares, and 60% super voting rights of Universal Systems, Inc.

On September 15th, 2021, as part of the consolidation of assets of MKH Ventures, LLC., Critical Solutions, Inc., was assigned one hundred (100) Special 2021 Series A Preferred Shares, and 60% super voting rights of Universal Systems, Inc.

On September 21st, 2021, Universal Systems, Inc., filed an amendment with the State of Washington, pursuant to Washington CORP § 307 for the creation of 100 shares of Special 2021 Series A Preferred stock shares, and 2 shares of Special 2021 Series B Preferred stock shares. The Special 2021 Series B Preferred shares are only authorized, have not been issued, and are not currently outstanding.

The Company currently has no operations.

BASIS OF PRESENTATION

The Company has not earned any revenues from limited principal operations. Accordingly, the Company’s activities have been accounted for as those of a “Development Stage Enterprise” as set forth in Financial Accounting Standards Board Statement No. 7 (“SFAS 7”). Among the disclosures required by SFAS 7 are that the Company’s financial statements be identified as those of a development stage company, and that the statements of operations, stockholders’ equity (deficit) and cash flows disclose activity since the date of the Company’s inception.

BASIS OF ACCOUNTING

The accompanying consolidated financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States. All intercompany transactions have been eliminated.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

GOING CONCERN

The Company's consolidated financial statements are prepared using the GAAP applicable to a going concern, which contemplates the realization of assets and liquidation of liabilities in the normal course of business. At September 30, 2023 and December 31, 2022, the Company had \$673 and \$23,558 in cash and \$3,126 in negative working capital at September 30, 2023 and \$15,438 in working capital at December 31, 2022. For the nine months ended June 30, 2023 and 2022, the Company had a net loss of \$18,564 and \$822,945, respectively. Continued losses may adversely affect the liquidity of the Company in the future.

These factors, among others, raise substantial doubt about the Company's ability to continue as a going concern. The accompanying consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

USE OF ESTIMATES

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

CASH AND CASH EQUIVALENTS

For purposes of the statement of cash flows, cash equivalents include demand deposits, money market funds, and all highly liquid debt instruments with original maturities of three months or less.

FINANCIAL INSTRUMENTS

The FASB issued ASC 820-10, *Fair Value Measurements and Disclosures*, for financial assets and liabilities. ASC 820-10 provides a framework for measuring fair value and requires expanded disclosures regarding fair value measurements. ASC 820-10 defines fair value as the price that would be received for an asset or the exit price that would be paid to transfer a liability in the principal or most advantageous market in an orderly transaction between market participants on the measurement date. ASC 820-10 also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs, where available. The following summarizes the three levels of inputs required by the standard that the Company uses to measure fair value:

- Level 1: Quoted prices in active markets for identical assets or liabilities
- Level 2: Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the related assets or liabilities.
- Level 3: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

CONCENTRATIONS AND CREDIT RISKS

The Company's financial instruments that are exposed to concentrations and credit risk primarily consist of its cash, sales and accounts receivable.

Cash - The Company places its cash and cash equivalents with financial institutions of high credit worthiness. At times, its cash and cash equivalents with a particular financial institution may exceed any applicable government insurance limits. The Company's management plans to assess the financial strength and credit worthiness of any parties to which it extends funds, and as such, it believes that any associated credit risk exposures are limited.

INCOME TAXES

The Company accounts for income taxes under ASC 740, *Income Taxes*. Under the asset and liability method of ASC 740, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statements carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period the enactment occurs. A valuation allowance is provided for certain deferred tax assets if it is more likely than not that the Company will not realize tax assets through future operations. Deferred tax assets or liabilities were offset by a 100% valuation allowance, therefore there has been no recognized benefit as of the nine months ended September 30, 2023 and 2022, respectively. Further it is unlikely with the change of control that the Company will have the ability to realize any future tax benefits that may exist.

COMMITMENTS AND CONTINGENCIES

The Company follows ASC 450-20, *Loss Contingencies*, to report accounting for contingencies. Liabilities for loss contingencies arising from claims, assessments, litigation, fines and penalties and other sources are recorded when it is probable that a liability has been incurred and the amount of the assessment can be reasonably estimated.

EARNINGS PER SHARE

Net income (loss) per share is calculated in accordance with ASC 260, *Earnings Per Share*. The weighted-average number of common shares outstanding during each period is used to compute basic earnings or loss per share. Diluted earnings or loss per share is computed using the weighted average number of shares and diluted potential common shares outstanding. Dilutive potential common shares are additional common shares assumed to be exercised.

Basic net income (loss) per common share is based on the weighted average number of shares of common stock outstanding on September 30, 2023 and 2022, respectively. Due to net operating loss, there is no presentation of dilutive earnings per share, as it would be anti-dilutive.

RECENT ACCOUNTING PRONOUNCEMENTS

We have reviewed all the recently issued, but not yet effective, accounting pronouncements and we do not believe any of these pronouncements will have a material impact on the Company.

On August 2017, the FASB issued ASU No. 2017-12, *Derivatives and Hedging (Topic 815)*, which changes both the designation and measurement guidance for qualifying hedging relationships and the presentation of hedge results, to better align an entity's risk management activities and financial reporting for hedging relationships. The amendments expand and refine hedge accounting for both nonfinancial and financial risk components and align the recognition and presentation of the effects of the hedging instrument and the hedged item in the financial statements. FASB ASU No. 2017-12 is effective for annual reporting periods beginning after December 15, 2018, including interim periods within those annual reporting periods, with early adoption permitted. We are still evaluating the impact that this guidance will have on our financial position or results of operations, and we have not yet determined whether we will early adopt FASB ASU No. 2017-12.

RECENT ACCOUNTING PRONOUNCEMENTS (continued)

On March 2016, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2016-09, Compensation – Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting. This guidance changes how companies account for certain aspects of share-based payments to employees. Among other things, under the new guidance, companies will no longer record excess tax benefits and certain tax deficiencies in additional paid-in-capital (“APIC”) but will instead record such items as income tax expense or benefit in the income statement, and APIC pools will be eliminated. Companies will apply this guidance prospectively. Another component of the new guidance allows companies to make an accounting policy election for the impact of forfeitures on the recognition of expense for share-based payment awards, whereby forfeitures can be estimated, as required today, or recognized when they occur. If elected, the change to recognize forfeitures when they occur needs to be adopted using a modified retrospective approach. All the guidance will be effective for the Company in the fiscal year beginning January 1, 2018. Early adoption is permitted. The Company is currently evaluating the impact of this guidance, if any, on its financial statements and related disclosures.

On February 2016, the FASB issued ASU No. 2016-02, *Leases (Topic 842)*, which establishes new accounting and disclosure requirements for leases. FASB ASU No. 2016-02 requires lessees to classify most leases as either finance or operating leases and to initially recognize a lease liability and right-of-use asset. Entities may elect to account for certain short-term leases (with a term of 12 months or less) using a method like the current operating lease model. The statements of operations will include, for finance leases, separate recognition of interest on the lease liability and amortization of the right-of-use asset and for operating leases, a single lease cost, calculated so that the cost of the lease is allocated over the lease term on a straight-line basis. While we are in the early stages of our implementation process for FASB ASU No. 2016-02, and have not yet determined its impact on our financial position or results of operations, these leases would potentially be required to be presented on the balance sheet in accordance with the requirements of FASB ASU No. 2016-02. FASB ASU No. 2016-02 is effective for annual reporting periods beginning after December 15, 2018, including interim periods within those annual reporting periods, with early adoption permitted. FASB ASU No. 2016-02 must be applied using a modified retrospective approach, which requires recognition and measurement of leases at the beginning of the earliest period presented, with certain practical expedients available.

On July 2015, the FASB issued ASU No. 2015-11, Inventory (Topic 330): Simplifying the Measurement of Inventory. The guidance requires an entity to measure inventory at the lower of cost or net realizable value, which is the estimated selling prices in the ordinary course of business, less reasonably predictable costs of completion, disposal, and transportation, rather than the lower of cost or market in the previous guidance. This amendment applies to inventory that is measured using first-in, first-out (FIFO). This amendment is effective for public entities for fiscal years beginning after December 15, 2016, including interim periods within those years. A reporting entity should apply the amendments prospectively with earlier application permitted as of the beginning of an interim or annual reporting period. The Company is currently evaluating the impact of this guidance, if any, on its financial statements and related disclosures.

On May 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers (“ASU 2014-09”), which requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. ASU 2014-09 will replace most existing revenue recognition guidance in U.S. generally accepted accounting principles when it becomes effective. In July 2015, the FASB deferred the effective date of the standard by an additional year; however, it provided companies the option to adopt one year earlier, commensurate with the original effective date. Accordingly, the standard will be effective for the Company in the fiscal year beginning January 1, 2018, with an option to adopt the standard for the fiscal year beginning January 1, 2017. The Company is currently evaluating this standard and has not yet selected a transition method or the effective date on which it plans to adopt the standard, nor has it determined the effect of the standard on its financial statements and related disclosures.

NOTE 3 - COMMITMENTS AND CONTINGENCIES

Risks and Uncertainties

The Company's operations are subject to significant risks and uncertainties including financial, operational, and regulatory risks, including the potential risk of business failure.

The Company has entered no contracts during the year as follows:

Legal and other matters

In the normal course of business, the Company may become a party to litigation matters involving claims against the Company. The Company's management is unaware of any pending or threatened assertions and there are no current matters that would have a material effect on the Company's financial position or results of operations.

NOTE 4 - SUBSEQUENT EVENTS

Management has evaluated subsequent events through the date of filing the consolidated financial statements with OTC Markets, the date the consolidated financial statements were available to be issued. Management is not aware of any significant events that occurred after the balance sheet date that would have a material effect on the consolidated financial statements thereby requiring adjustment or disclosure, other than those noted below:
