**NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES AND LIQUIDITY**

**Critical Accounting Policies**

Our significant accounting policies are disclosed in the Notes to our Unaudited Financial Statements ended September 30, 2023 and December 31, 2022. Particular points of our policies require the application of management judgment in making estimates and assumptions that affect the amounts reported in the financial statements and disclosures made in the accompanying notes. Those estimates and assumptions are based on historical experience and various other factors deemed to be applicable and reasonable under the circumstances. The use of judgment in determining such estimates and assumptions is by nature, subject to a degree of uncertainty. Accordingly, actual results could differ from the estimates made and all is "subject to revision".

**Basis of the Presentation**

The accompanying unaudited condensed financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America by the Issuer and in the opinion of management, include all adjustments consisting only of normal recurring accruals considered necessary to present fairly the Company's financial position at September 30, 2023 and the results of operations for the year ended December 31, 2022. The preparation of financial statements in conformity with accounting principles generally accepted in United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**Unaudited Quarterly Report and Interim Financial Statements**

The accompanying unaudited Quarterly Report has been prepared on a basis consistent with generally accepted accounting principles in the United States ("GAAP") for quarterly or annual report information and pursuant to the rules of the Securities and Exchange Commission (SEC). In the opinion of management, the accompanying unaudited financial statements reflect all adjustments, consisting of only normal and recurring adjustments, necessary for a fair presentation of the results of operations, financial position and cash flows for the periods presented. The results of operations for the periods presented are not necessarily indicative of the results expected for any future period.

## **Summary of Significant Accounting Policies**

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

### **Principle of Consolidation and Presentation**

The accompanying financial statements include the accounts of Wanderport International.

### **Use of estimates**

The preparation of the accompanying financial statements in conformity with accounting principles generally accepted in the United States requires management to make certain estimates and assumptions that directly affect the results of reported assets, liabilities, revenue, and expenses. Actual results may differ from these estimates and could be subject to revision.

### **Revenue Recognition**

The Company will recognize product revenue when persuasive evidence of an arrangement exists, delivery has occurred, the fee is fixed or determinable, and collection is probable. In instances where final acceptance of the product is specified by the customer, revenue is deferred until all acceptance criteria have been met. No provisions were established for estimated product returns and allowances based on the Company's historical experience. All orders are customized with substantial down payments. Products will be released upon receipt of the remaining funds.

All convertible notes payable were evaluated and determined not to be conventional convertible debt instruments and, therefore, because of certain terms and provisions including liquidating damages under the associated registration rights agreement the embedded conversion option was bifurcated and has been accounted for as a derivative liability instrument, therefore, classified as a liability on the balance sheet. The accounting guidance also requires that the conversion feature and warrants be recorded at fair value for each reporting period with changes in fair value recorded in the consolidated statements of operations.

### **Cash requirements in the next twelve months**

Over the subsequent twelve months (2023-2024) Wanderport Corporation has identified several areas requiring capital. (1) Funding our continuing business development and working capital needs. (2) Additional efforts associated with investing in the Company's core activities. Please see LIQUIDITY AND CAPITAL RESOURCES AND FINANCE below for more information about our fund raising possibilities moving forward. More specifically, financing, if obtained, will be used to fund overhead, marketing and inventory. Funding could also be for the order process with letters of credit and the internal staff structure in the company and the establishment of larger headquarters; travel and sales. Since the establishment of the Company, Wanderport has adopted a strategy of growing the Company in a controlled manner to minimize spending and expenditures while using its own capital sources (i.e.: sales, officers' investment and private money). Wanderport may also use a portion of expected product sale net proceeds for the possible acquisition of additional businesses and technologies or the establishment of joint ventures that are complementary to our current or future business. We cannot be certain that we will complete any acquisition or joint venture or, that if completed, any acquisition or joint venture will be successful. We cannot be certain that we will be able to obtain financing to attain the goals and enhancements discussed above.

### **Liquidity and Capital Resources and Finance**

There may be a possibility but not a certainty of offering common shares in a SEC Regulation A private placement offering at some point within 2023 or 2024. Additional financing may be raised through either shareholder rights offerings, secondary offerings that consist of private individuals and institutions (otherwise known as PIPE's; Private Equity into Public Entity), conversion of debt to equity and or issuing options or warrants. This may or may not occur during this calendar fiscal year. This could provide financing required to repay debt and/or grow operations at the planned rate. There is no assurance the Company will be able to raise any of the funds required to finance the expansion of our business either in this or any other period.

### **Net Loss per Share**

Basic net loss per share includes no dilution and is computed by dividing net loss available to common shareholders by the weighted average number of common stock outstanding for the period. Diluted net loss per share does not differ from basic net loss per share since potential shares of common stock are anti-dilutive for all periods presented.

Management does not believe there would have been a material effect on the accompanying financial statements had any recently issued, but not yet effective, accounting standards been adopted in the current period.
