1. For common equity, describe any dividend, voting and preemption rights.

Common stockholders have the right to vote on all matters submitted to a vote of the shareholders, including the election of directors and approval of significant corporate transactions. Common stockholders have no preemptive rights to subscribe to any additional shares of the company.

2. For preferred stock, describe the dividend, voting, conversion, and liquidation rights as well as redemption or sinking fund provisions.

Series A Super Voting Preferred: Each share of Series A Super Voting Preferred has voting rights equal to 9,000 common shares.

Series X Preferred Stock: The holders of Class X Preferred Stock shall be entitled to vote on any proposed amendment to the Company's Articles of Incorporation if such amendment would:

2.1 Effect an exchange or reclassification of all or part of the Class X Preferred Stock into shares of another class;

2.2 Effect an exchange or reclassification, or create the right of exchange, of all or part of the shares of another class of the Company into shares of Class X Preferred Stock;

2.3 Adversely change the rights, preferences, or limitations of all or part of the shares of Class X Preferred Stock;

2.4 Change the shares of all or part of the Class X Preferred Stock into a different number of shares of Class X Preferred Stock;

2.6 Increase the rights, preferences, or number of authorized shares of any class that, after giving effect to the amendment, have rights or preferences with respect to dissolution that are prior or superior to the shares of Class X Preferred Stock.

Series Z Preferred Stock:

Dividends.

The Corporation shall not declare, pay or set aside any dividends on shares of any other class or series of capital stock of the Corporation unless (in addition to the obtaining of any consents required elsewhere in the Articles of Incorporation) the holders of the Series Z Preferred Stock then outstanding shall first receive, or simultaneously receive, a dividend on each outstanding share of Series Z Preferred Stock in an amount at least equal to (i) in the case of a dividend on Common Stock or any class or series that is convertible into Common Stock, that dividend per share of Series Z Preferred Stock as would equal the product of (A) the dividend payable on each share of such class or series determined, if applicable, as if all shares of such class or series had been converted into Common Stock and (B) the number of shares of Common Stock issuable upon conversion of a share of Series Z Preferred Stock, in each case calculated on the record date for determination of holders entitled to receive such dividend or (ii) in the case of a dividend on any class or series that is not convertible into Common Stock, at a rate per share of Series Z Preferred Stock determined by (A) dividing the amount of the dividend payable on each share of such class or series of capital stock by the original issuance

price of such class or series of capital stock (subject to appropriate adjustment in the event of any stock dividend, stock split, combination or other similar recapitalization with respect to such class or series) and (B) multiplying such fraction by an amount equal to the Series Z Original Issue Price (as defined below); provided that, if the Corporation declares, pays or sets aside, on the same date, a dividend on shares of more than one class or series of capital stock of the Corporation, the dividend payable to the holders of Series Z Preferred Stock pursuant to this Section | shall be calculated based upon the dividend on the class or series of capital stock that would result in the highest Series Z Preferred Stock dividend. The "Series Z Original Issue Price" shall mean \$1.00 per share, subject to appropriate adjustment in the event of any stock dividend, stock split, combination or other similar recapitalization with respect to the Series Z Preferred Stock.

Liquidation

In the event of any voluntary or involuntary liquidation, dissolution or winding up of the Corporation or Deemed Liquidation Event, the holders of shares of Series Z Preferred Stock then outstanding shall be entitled to be paid out of the assets of the Corporation available for distribution to its shareholders before any payment shall be made to the holders of any series of junior Preferred Stock or Common Stock by reason of their ownership thereof, an amount per share equal to the Series Z Original Issue Price.

Voting

Series Z Preferred Stock shall not be entitled to vote, except as required by law, or that would alter the rights and preferences of the Series Z Preferred Stock.

Conversion

Each share of Series Z Preferred Stock shall be convertible, at the option of the holder thereof, at any time and from time to time, and without the payment of additional consideration by the holder thereof, into that number of fully paid and nonassessable shares of Common Stock (whether whole or fractional) that have a Fair Market Value, in the aggregate, equal to the "Series Z Original Issue Price". The "Series Z Original Issue Price" shall mean \$1.00 per share, subject to appropriate adjustment in the event of any stock dividend, stock split, combination or other similar recapitalization. "Fair Market Value" shall mean as of any date of determination, the average closing price of a share of Common Stock on the principal exchange or market on which such shares are then trading for the 20 trading days immediately preceding such date.

Notwithstanding the foregoing or the provisions of Section 4.1, upon the effectiveness of a reverse split of the Common Stock in a ratio of 1,000 to 1 or greater (meaning the issued and outstanding shares of Common Stock of the Company is divided by an amount equal or great to 1,000) then the Series Z Preferred Stock shall be convertible into shares of Common Stock on a 1 for 1 basis; one share of Series Z Preferred Stock being exchangeable for 1 post-split share of Common Stock

INTERNATIONAL CONSOLIDATED COMPANIES, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

NOTE 1 – NATURE OF OPERATIONS AND GOING CONCERN

International Consolidated Companies, Inc. (the “Company”) was previously known Sign Media Systems Inc. The Company was incorporated on January 28, 2002 as a Florida corporation.

International Consolidated Companies, Inc. (“INCC”) is focused on acquiring and expanding businesses that offer services and technologies to assist in reducing carbon dioxide from the planet. Working with a team of experienced farmers and financial experts, the company will evaluate small and large business opportunities. International Consolidation Companies, Inc. will provide both technology and consulting services to bamboo and eucalyptus growers, carbon footprint reduction activists, and industry professionals.

Common Control Merger

Effective June 19, 2017, the Company entered into a share exchange agreement with BluDog Products LLC (“BluDog”), a Florida limited liability company for which the Company issued 5,000,000 shares of Series Z Preferred stock for all of the authorized stock of BluDog. BluDog became a wholly owned subsidiary of INCC. The Company’s majority stockholder was the Managing Member of BluDog and as a result this transaction was accounted for as a common control merger.

Acquisition of 100% Membership Interest

Effective September 28, 2023, the Company entered into a membership interest purchase agreement with Agtech Carbon LLC (“Agtech”), a Florida limited liability company for which the Company issued 15,000,000 shares of Series Z Preferred stock for 100% of the membership interests of Agtech. Agtech became a wholly owned subsidiary of the Company. The Company’s majority stockholder had a 33.33% membership interest in Agtech before the acquisition.

Going concern

To date the Company has generated limited revenues from its business operations and has incurred operating losses since inception of \$30,902,180. As of September 30, 2023, the Company has a working capital deficit of \$7,052,378. The Company will require additional funding to meet its ongoing obligations and to fund anticipated operating losses. The ability of the Company to continue as a going concern is dependent on raising capital to fund its initial business plan and ultimately to attain profitable operations. Accordingly, these factors raise substantial doubt as to the Company’s ability to continue as a going concern. These financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or amounts and classification of liabilities that might result from this uncertainty.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The financial statements present the balance sheet, statements of operations, stockholders’ equity and cash flows of the Company. These financial statements are presented in the United States dollars and have been prepared in accordance with accounting principles generally accepted in the United States (“GAAP”).

Use of Estimates and Assumptions

Preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Accordingly, actual results could differ from those estimates.

Principles of Consolidation

The unaudited consolidated financial statements represent the consolidation of the accounts of the Company and its subsidiaries in conformity with GAAP. All intercompany accounts and transactions have been eliminated in consolidation.

Cash and Cash Equivalents

For the purposes of the statement of cash flows, the Company considers highly liquid financial instruments purchased with a maturity of three months or less to be cash equivalents.

Fair Value of Financial Instruments

The carrying amount of the Company's financial assets and liabilities approximates their fair values due to their short-term maturities.

Property and Equipment

Property and equipment are stated at cost less accumulated depreciation and amortization. Depreciation of property and equipment is calculated using the straight-line method over the estimated useful lives of the assets, which are five years. Leasehold improvements are amortized over the lesser of the remaining term of the lease or the estimated useful life of the asset. Expenditures for repairs and maintenance are expensed as incurred.

Depreciation is provided using the straight-line method over the estimated useful lives of the assets, which are as follows:

Equipment	5 years
-----------	---------

Impairment of Long-Lived Assets

Long-lived assets are comprised of property and equipment. The Company evaluates its long-lived assets for impairment whenever events or changes in circumstances indicate the carrying value of an asset or group of assets may not be recoverable. If these circumstances exist, the recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset group to future undiscounted net cash flows expected to be generated by the asset group. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the assets exceeds the fair value of the assets. There were no impairments to long-lived assets for the period ended September 30, 2023 and December 31, 2022.

Deferred Financing Costs

The Company records origination and other expenses related to its debt obligations as deferred financing costs. These expenses are deferred and amortized over the life of the related debt instrument. In accordance with Accounting Standards Update ("ASU") No. 2015-03, deferred finance costs, net of accumulated amortization have been included as a contra to the corresponding loans in the accompanying consolidated balance sheets as of September 30, 2023 and December 31, 2022, respectively.

Income Taxes

The Company follows the liability method of accounting for income taxes. Under this method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax balances and tax loss carryforwards. Deferred tax assets and liabilities are measured using enacted or substantially enacted tax rates expected to apply to the taxable income in the years in which those differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the date of enactment or substantive enactment.

Stock-based Compensation

The Company follows ASC 718-10, "Stock Compensation", which addresses the accounting for transactions in which an entity exchanges its equity instruments for goods or services, with a primary focus on transactions in which an entity obtains employee services in share-based payment transactions. ASC 718-10 is a revision to SFAS No. 123, "Accounting for Stock Based Compensation," and supersedes Accounting Principles Board ("APB") Opinion No. 25, "Accounting for Stock Issued to Employees," and its related implementation guidance. ASC 718-10 requires measurement of the cost of employee services received in exchange for an award of equity instruments based on the grant-date fair value of the award (with limited exceptions). Incremental compensation costs arising from subsequent modifications of awards after the grant date must be recognized. The Company has not adopted a stock option plan and has not granted any stock options. As of September 30, 2023, the Company had not adopted a stock option plan nor had it granted any stock options.

Net Loss per Share

Basic net loss per common share is computed by dividing net loss by the weighted average number of shares of common stock outstanding during the period. Diluted net loss per common share is computed by dividing net loss by the weighted average number of shares of common stock and potentially outstanding shares of common stock during the period. There were no potentially dilutive shares as of September 30, 2023 and December 31, 2022.

Recent Accounting Pronouncements

The Company does not expect the adoption of any recent accounting pronouncements to have a material impact on its financial statements.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

NOTE 1 – NATURE OF OPERATIONS AND GOING CONCERN

International Consolidated Companies, Inc. (the “Company”) was previously known Sign Media Systems Inc. The Company was incorporated on January 28, 2002 as a Florida corporation.

International Consolidated Companies, Inc. (“INCC”) is focused on acquiring and expanding businesses that offer services and technologies to assist medical marijuana growers and patients. The company will provide or arrange for venture capital funding for qualified projects in the expanding legal cannabis industry. Through targeted acquisitions, brand recognition and real estate and technology joint ventures the company believes it can capture significant market share in Colorado, Washington State, and California. Working with a team of experienced growers and financial experts, the company will evaluate small and large business opportunities. International Consolidation Companies, Inc. will provide both technology and consulting services to medical cannabis growers, activists and industry professionals. Through perpetual rental agreements, the company offers growers’ state of the art turnkey solutions to improve efficiency, efficacy and increase yield. The company believes it will generate revenue by renting its propriety technologies to qualified licensed medical growers; and by providing training and consulting services to assist lessees in operating their businesses more profitably.

Common Control Merger

Effective June 19, 2017, the Company entered into a share exchange agreement with BluDog Products LLC (“BluDog”), a Florida limited liability company for which the Company issued 5,000,000 shares of Series Z Preferred stock for all of the authorized stock of BluDog. BluDog became a wholly owned subsidiary of INCC. The Company’s majority stockholder was the Managing Member of BluDog and as a result this transaction was accounted for as a common control merger.

Going concern

To date the Company has generated limited revenues from its business operations and has incurred operating losses since inception of \$30,727,936. As of June 30, 2023, the Company has a working capital deficit of \$8,308,892. The Company will require additional funding to meet its ongoing obligations and to fund anticipated operating losses. The ability of the Company to continue as a going concern is dependent on raising capital to fund its initial business plan and ultimately to attain profitable operations. Accordingly, these factors raise substantial doubt as to the Company’s ability to continue as a going concern. These financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or amounts and classification of liabilities that might result from this uncertainty.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The financial statements present the balance sheet, statements of operations, stockholders’ equity and cash flows of the Company. These financial statements are presented in the United States dollars and have been prepared in accordance with accounting principles generally accepted in the United States (“GAAP”).

Use of Estimates and Assumptions

Preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Accordingly, actual results could differ from those estimates.

Principles of Consolidation

The unaudited consolidated financial statements represent the consolidation of the accounts of the Company and its subsidiary in conformity with GAAP. All intercompany accounts and transactions have been eliminated in consolidation.

Cash and Cash Equivalents

For the purposes of the statement of cash flows, the Company considers highly liquid financial instruments purchased with a maturity of three months or less to be cash equivalents.

Fair Value of Financial Instruments

The carrying amount of the Company's financial assets and liabilities approximates their fair values due to their short-term maturities.

Property and Equipment

Property and equipment are stated at cost less accumulated depreciation and amortization. Depreciation of property and equipment is calculated using the straight-line method over the estimated useful lives of the assets, which are five years. Leasehold improvements are amortized over the lesser of the remaining term of the lease or the estimated useful life of the asset. Expenditures for repairs and maintenance are expensed as incurred.

Depreciation is provided using the straight-line method over the estimated useful lives of the assets, which are as follows:

Equipment	5 years
-----------	---------

Impairment of Long-Lived Assets

Long-lived assets are comprised of property and equipment. The Company evaluates its long-lived assets for impairment whenever events or changes in circumstances indicate the carrying value of an asset or group of assets may not be recoverable. If these circumstances exist, the recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset group to future undiscounted net cash flows expected to be generated by the asset group. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the assets exceeds the fair value of the assets. There were no impairments to long-lived assets for the period ended June 30, 2023 and December 31, 2022.

Deferred Financing Costs

The Company records origination and other expenses related to its debt obligations as deferred financing costs. These expenses are deferred and amortized over the life of the related debt instrument. In accordance with Accounting Standards Update ("ASU") No. 2015-03, deferred finance costs, net of accumulated amortization have been included as a contra to the corresponding loans in the accompanying consolidated balance sheets as of June 30, 2023 and December 31, 2022, respectively.

Income Taxes

The Company follows the liability method of accounting for income taxes. Under this method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax balances and tax loss carryforwards. Deferred tax assets and liabilities are measured using enacted or substantially enacted tax rates expected to apply to the taxable income in the years in which those differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the date of enactment or substantive enactment.

Stock-based Compensation

The Company follows ASC 718-10, "Stock Compensation", which addresses the accounting for transactions in which an entity exchanges its equity instruments for goods or services, with a primary focus on transactions in which an entity obtains employee services in share-based payment transactions. ASC 718-10 is a revision to SFAS No. 123, "Accounting for Stock Based

Compensation," and supersedes Accounting Principles Board ("APB") Opinion No. 25, "Accounting for Stock Issued to Employees," and its related implementation guidance. ASC 718-10 requires measurement of the cost of employee services received in exchange for an award of equity instruments based on the grant-date fair value of the award (with limited exceptions). Incremental compensation costs arising from subsequent modifications of awards after the grant date must be recognized. The Company has not adopted a stock option plan and has not granted any stock options. As of June 30, 2023, the Company had not adopted a stock option plan nor had it granted any stock options.

Net Loss per Share

Basic net loss per common share is computed by dividing net loss by the weighted average number of shares of common stock outstanding during the period. Diluted net loss per common share is computed by dividing net loss by the weighted average number of shares of common stock and potentially outstanding shares of common stock during the period. There were no potentially dilutive shares as of June 30, 2023 and December 31, 2022.

Recent Accounting Pronouncements

The Company does not expect the adoption of any recent accounting pronouncements to have a material impact on its financial statements.
