Notes to Financial Statements

NOTE 1 – ORGANIZATION AND NATURE OF OPERATIONS

Autris, Inc. (the "Company") was incorporated in the State of Nevada on February 28, 2000 as Big Sky Productions, Inc. The Company filed a Certificate of Amendment with the Nevada Secretary of State on January 6, 2014 effecting the name change to Autris, Inc. Autris, Inc. has a fiscal year end of June 30 and trades on the OTC Markets under the trading symbol AUTR.

On October 09, 2013, we acquired 100% of the membership interest of Nitroheat, LLC. Under a membership interest purchase agreement, Autris issued 20,000,000 shares of its common stock to Derek Naidoo (100% membership owner) in exchange for 100% of Nitroheat, LLC. For accounting purposes, the acquisition of the Nitroheat, LLC by Autris was accounted for as a re-capitalization, similar to a reverse acquisition whereby the private company, Nitroheat, LLC, acquired (Autris) due to a change in control. Accordingly, Nitroheat, LLC was considered the acquirer for accounting purposes and thus, the historical financial statements were primarily that of Nitroheat LLC. As a result of this transaction, Autris changed its business direction and was a manufacturer and distributor of heated nitrogen systems primarily focused towards the spray painting industry.

In September 2015, Mr. Derek Naidoo, the former CEO transferred the sole operating subsidiary, Nitroheat into his own name. Mr. Naidoo returned 15,329,997 of the 20 million shares issued in connection with the acquisition The company therefore re-classified the subsidiary as "held for disposal" as it no longer controlled the subsidiary. The company wrote down the remaining investment in Nitroheat as at year end June 30th, 2016 and incurred a loss of $ 1,313,615.

By the year ended June 30th, 2016, the Company had abandoned its business and failed to take steps to dissolve, liquidate and distribute its assets. It had also failed to meet the required reporting requirements with the Nevada Secretary of State, hold an annual meeting of stockholders and pay its annual franchise tax which resulted in its Nevada charter being revoked.

On June 3rd, 2022, a shareholder, UMA LLC, represented by Ms. Nikki Lee filed a petition for custodianship, with the District Court, Clark County, Nevada (case number A-22-852240-C) and was appointed as the custodian of the Company. The Company's Nevada charter was reinstated on June 9th, 2022 , and all required reports were filed with the State of Nevada soon after.

The custodian was not able to recover any of the Company's accounting records from previous management but was able to get the shareholder information hence the Company's outstanding common shares were reflected in the equity section of the accompanying unaudited financial statements for the twelve months ended June 30, 2023, and 2022.

On August 15th, 2023 the custodian appointed Mr. Arnold Patrick Hiebert as the companies new CEO. On September 9, 2023, the District Court of Clark County, Nevada entered an Order Granting UMA LLC's motion to terminate custodianship.

Note 2 – Basis of Presentation

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Areas requiring the use of estimates include impairment of long lived assets, valuation allowance applied to deferred tax assets and useful lives used in the depreciation of equipment. Actual results could differ from those estimates.

Cash and Cash Equivalents

All highly liquid investments with maturity of three months or less are considered to be cash equivalents. There were no cash equivalents as of June 30, 2023 or 2022

Property and Equipment

Property and equipment are carried at cost. Expenditures for maintenance and repairs are charged against operations. Renewals and betterments that materially extend the life of the assets are capitalized. When assets are retired or otherwise disposed of, the cost and related accumulated depreciation are removed from the accounts, and any resulting gain or loss is reflected in income for the period

Depreciation is computed for financial statement purposes on a straight-line basis over estimated useful lives of the related assets. The estimated useful lives of depreciable assets are:

	Estimated Useful Lives
Furniture and Fixtures	5 - 10 years
Computer Equipment	2 - 5 years
Vehicles	5 - 10 years

Revenue Recognition

The Company's financial statements are prepared under the accrual method of accounting. Revenues are recognized when evidence of an agreement exists, the price is fixed or determinable, collect-ability is reasonably assured and goods have been delivered or services performed.

Income taxes

The Company accounts for income taxes under ASC 740 *"Income Taxes"* Under the asset and liability method of ASC 740, deferred tax assets and liabilities are recognized for the future tax

consequences attributable to differences between the financial statements carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Under ASC 740, the effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period the enactment occurs. A valuation allowance is provided for certain deferred tax assets if it is more likely than not that the Company will not realize tax assets through future operations.

Fair Value of Financial Instruments

The Company's financial instruments as defined by FASB ASC 825-10-50 include cash, accounts receivable, related party payable and accounts payable. The fair value of accounts receivable, related party payable and accounts payable approximate the financial statement carrying amounts due to the short-term maturities of these instruments.

FASB ASC 820 defines fair value, establishes a framework for measuring fair value in accordance with generally accepted accounting principles, and expands disclosures about fair value measurements. ASC 820 establishes a three-tier fair value hierarchy which prioritizes the inputs used in measuring fair value as follows:

Level 1. Observable inputs such as quoted prices in active markets;

Level 2. Inputs, other than the quoted prices in active markets, that are observable either directly or indirectly; and

- Level 3. Unobservable inputs in which there is little or no market data, which requires the reporting entity to develop its own assumptions.

Earnings (Loss) Per Share Information

FASB ASC 260, "*Earnings Per Share*" provides for calculation of "basic" and "diluted" earnings (loss) per share. Basic earnings per share includes no dilution and is computed by dividing net income (loss) available to common shareholders by the weighted average common shares outstanding for the period. Diluted earnings per share reflect the potential dilution of securities that could share in the earnings of an entity similar to fully diluted earnings per share. Basic and diluted loss per share were the same, at the reporting dates, as there were no common stock equivalents outstanding.

Share Based Expenses
