Management's Discussion and Analysis (MD&A)

For the six months ended December 31, 2023, and 2022

Expressed in US Dollars

NEXTSOURCE MATERIALS INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the six months ended December 31, 2023 and 2022

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING INFORMATION

This MD&A contains "forward-looking information" within the meaning of applicable Canadian securities legislation and "forward-looking statements" within the meaning of applicable United States securities laws (collectively referred to herein as "**forward-looking information**"). Generally, forward-looking information can be identified by the use of forward-looking terminology such as "plans," "expects," or "does not expect," "is expected," "budget," "scheduled," "goal," "estimates," "forecasts," "intends," "anticipates," or "does not anticipate," or "believes" or variations of such words and phrases or statements that certain actions, events or results "may," "could," "would," "might," or "will be taken," "occur," or "be achieved".

Forward-looking information includes, but is not limited to, information and statements with respect to the intended use of proceeds of the Offering (as defined herein); certain expectations, development plans, and production estimates in respect of the Molo Graphite Mine; certain expectations, development plans, and estimates in respect of the Mauritius BAF (as defined herein) and additional BAFs (as defined herein) located in other key geographical locations, and strategies and project evaluation measures relating thereto; the potential completion of a New Mauritius BAF Technical Study (as defined herein); the potential impact of the Company's BAF Partnership (as defined herein); potential construction of an AG (as defined herein) production facility; a potential agreement with POSCO (as defined herein); supply, demand and pricing outlook in the graphite and EV (as defined herein) market; potential completion of a Feasibility Study (as defined herein); and the Company's business objectives and targeted milestones (and timing thereof).

Forward-looking information is subject to known and unknown risks, uncertainties and other factors that may cause the actual results, level of activity, performance or achievements of the Company to be materially different from those expressed or implied by such forward-looking information. Such factors relate to, among others, BAF technical studies, emerging markets; development, commissioning, and operation of the Molo Graphite Mine; development, commissioning, and operation of the BAFs; construction and start-up of new mines and industrial plants; geopolitical risk and conflict; additional financings; the Company's development and exploration projects are in the African country of Madagascar and are subject to country political and regulatory risks; the Company has a significant shareholder; economic dependence on the Molo Graphite Mine; permits and licenses are necessary to continue to operate the Molo Graphite Mine and export products from Madagascar; additional permits and licenses are necessary to complete development of Phase 2 of the Molo Graphite Mine; fluctuations in the market price of graphite and other metals may adversely affect the value of the Company's securities, revenue projections and the ability of the Company to develop Phase 2 of the Molo Graphite Mine; estimates of mineral resources may not be realized; the Company has a limited operating history and expects to incur operating losses for the foreseeable future; due to the speculative nature of mineral property exploration, there is substantial risk that the Company's mineral property assets will not achieve forecast production capacities or achieve commercial production; mining companies are increasingly required to consider and provide benefits to the communities and countries in which they operate, and are subject to extensive environmental, health and safety laws and regulations; because of the inherent dangers involved in mining operations and mineral exploration, there is a risk that the Company may incur liability or damages as the Company conducts business; should the Company lose the services of key executives, the Company's financial condition and proposed expansion may be negatively impacted; access to the Company's properties, mine operations, and export of product may be restricted by inclement weather or lack of proper infrastructure; climate change and related regulatory responses may impact the Company's business; compliance with changing regulation of corporate governance and public disclosure will result in additional expenses and pose challenges for management; tax risks; the Company may experience losses due to foreign exchange translations; the Company's business is subject to anti-corruption and anti-bribery laws, a breach or violation of which could lead to civil and criminal fines and penalties, loss of licenses or permits and reputational harm; the Company is exposed to general economic conditions, which could have a material adverse impact on its business, operating results and financial condition; the market price for the common shares of the Company (the "Common Shares") is particularly volatile given the Company's status as a company with a small public float, limited operating history and lack of profits which could lead to wide fluctuations in the market price for the Common Shares; the Company does not intend to pay dividends in the foreseeable future; and other risks involved in the mineral exploration and development industry and risks specific to the Company, including the risk factors identified elsewhere in the annual information form of the Company dated September 28, 2023 (the "AIF") and in this MD&A under "*Risk Factors*" and in other continuous disclosure documents of the Company filed under the Company's SEDAR+ profile at www.sedarplus.ca.

Forward-looking information is based on the reasonable assumptions, estimates, analysis and opinions of management and/or "qualified persons" (as such term is defined under National Instrument 43-101 – *Standards of Disclosure for Mineral Projects* ("NI 43-101")) made in light of their experience and their perception of trends, current conditions and expected developments, as well as other factors that management and/or qualified persons believe to be relevant and reasonable in the circumstances at the date that such statements are made, but which may prove to be incorrect. Although the Company believes that the assumptions and expectations reflected in such forward-looking information are reasonable, undue reliance should not be placed on forward-looking information because the Company can give no assurance that such expectations will prove to be correct. In addition to the assumptions discussed in this MD&A, the material assumptions upon which such forward-looking information is based include, among others, that: the Company will be successful in its financing activities, the demand for graphite will develop as anticipated; graphite prices will remain at or attain levels that would make the Molo Graphite Mine and BAFs economic; that any proposed operating and capital plans will not be disrupted by operational issues, title issues, loss of permits, environmental concerns, power supply, labour disturbances, financing requirements or adverse weather conditions; the Company will continue to have the ability to attract and retain skilled staff; and there are no material unanticipated variations in the cost of energy or supplies. Readers are cautioned that the foregoing list is not exhaustive of all factors and assumptions which may have been used. Although the Company has attempted to identify key factors that could cause actual results to differ materially from those contained in forward-looking information, there may be other factors that cause results not to be as anticipated, estimated or intended. There can be no assurance that such information will prove to be accurate, as actual results and future events could differ materially from those anticipated in such information. Accordingly, readers should not place undue reliance on forward-looking information. The forward-looking information contained in this MD&A is presented for the purposes of assisting investors in understanding the Company's expected financial and operating performance and the Company's plans and objectives and may not be appropriate for other purposes.

In respect of any forward-looking information or statements relating to the Mauritius BAF or other BAFs, including but not limited to annual sales and operating cash flows, such figures, if any, have been included herein for the purposes of providing information on the project evaluation measures of the BAFs and should not be viewed as financial outlooks or guidance for the Company.

The Company does not undertake to update any forward-looking information, except in accordance with applicable securities laws.

This MD&A includes market, industry and economic data and projections obtained from various publicly available sources and other sources believed by the Company to be true. Although the Company believes these to be true, the Company has not independently verified the information from third party sources, or analyzed or verified the underlying reports relied upon or referred to by the third parties, or ascertained the underlying economic and other assumptions relied upon by the third parties. The Company believes that the market, industry and economic data and projections are accurate and that the estimates and assumptions are reasonable, but there can be no assurance as to their accuracy or completeness. The accuracy and completeness of the market, industry and economic data and projections in this MD&A are not guaranteed and the Company does not make any representation as to the accuracy or completeness of such information. For the avoidance of doubt, nothing stated in this paragraph operates to relieve the Company from liability for any misrepresentation contained in this MD&A under applicable Canadian securities laws.

The forward-looking information contained in this MD&A and documents incorporated by reference herein are expressly qualified by the foregoing cautionary statement.

NEXTSOURCE MATERIALS INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the six months ended December 31, 2023 and 2022

INTRODUCTION

This Management's Discussion and Analysis ("MD&A") dated February 9, 2024 of NextSource Materials Inc. ("NextSource", "we", "our" or "the Company") should be read in conjunction with the Company's Condensed Interim Consolidated Financial Statements for the six months ended December 31, 2023 and 2022 (the "Financial Statements") that were prepared in accordance with International Financial Reporting Standards ("IFRS") International Accounting Standard 34 Interim Financial Reporting ("IAS 34") as issued by the International Accounting Standards Board ("IASB") (the "Financial Statements") that were filed on the Canadian Securities Administrators' SEDAR+ website at www.sedarplus.ca. This MD&A should also be read in conjunction with the Company's Management's Discussion and Analysis and Audited Consolidated Financial Statements for the years ended June 30, 2023, and 2022 and the AIF that were filed on the Canadian Securities Administrators' SEDAR+ website at www.sedarplus.ca. For additional information with respect to risks, readers are referred to the "*Risk Factors*" section of the AIF.

The Financial Statements and this MD&A are presented United States dollars ("USD" or "\$") and all units of measurement are expressed using the metric system, unless otherwise specified. Certain information in this MD&A is presented in Canadian dollars ("CAD\$").

Additional information relating to the Company is available on the Canadian Securities Administrators' (the "CSA") SEDAR+ website at www.sedarplus.ca.

EXECUTIVE SUMMARY

NextSource Materials Inc. was continued under the *Canada Business Corporations Act* from the State of Minnesota to Canada on December 27, 2017. The Company's head and registered office is located at 130 King Street West, Exchange Tower, Suite 1940, Toronto, Ontario M5X 2A2. The Company's website is www.nextsourcematerials.com.

The outstanding Common Shares are listed and posted for trading on the Toronto Stock Exchange (the "TSX") under the symbol "NEXT" and on the OTCQB under the symbol "NSRCF". The Company is a reporting issuer in each of the provinces of Canada, except Quebec.

Business Strategy

The Company is intent on becoming a vertically integrated global supplier of battery materials through the mining and value-added processing of graphite and other minerals. The Company's principal business is the development of the Molo Graphite Mine in Madagascar and has announced plans to build the first of several battery anode facilities ("BAFs") in Mauritius.

Molo Graphite Mine

The Company is developing the Molo Graphite Mine (the "Molo Mine") located near the town of Fotadrevo in the Province of Toliara, Madagascar, which is the Company's sole material mineral property.

On February 15, 2019, the Company received a 40-year mining license for the Molo property, located in southern Madagascar, that does not limit mining to any specific volume. On March 29, 2021, the Company announced the initiation of construction of the Molo Mine with a production capacity of 17,000 tonnes per annum ("tpa") of SuperFlake® graphite concentrate and began capitalizing mine development costs. On March 23, 2023, the Company announced initiation of commissioning activities and on June 22, 2023, the Company announced production of the first tonne of graphite concentrate as part of the commissioning process. As of December 31, 2023, the Molo Mine was still undergoing commissioning.

On December 12, 2023, the Company announced the results of a technical study for a proposed expansion of the Molo Mine up to a production capacity of 150,000 tpa of SuperFlake® graphite concentrate. For additional information with respect to the Molo Mine and mineral resources and reserves, readers are referred to the technical report, which replaces the technical information on the Molo Mine that is contained in the AIF.

Anode Facilities

The Company announced on February 28, 2023, its strategy for the staged buildout of BAFs in key jurisdictions starting with Mauritius. The BAFs are value-added processing facilities that are capable of converting flake graphite into spheronized and purified graphite ("SPG") and coated spheronized and purified graphite ("CSPG"), which are the intermediate and final forms of the anode material that is then assembled along with cathode material into lithium-ion batteries used in electric vehicle ("EV") applications. The BAFs are not considered "mineral projects" as defined in NI 43-101, and the Mauritius BAF Technical Study and any similar studies to be completed by the Company are not and will not be "technical reports" for the purposes of NI 43-101 but rather are preliminary economic and technical studies relating to the design, construction and operation of the Mauritius BAF and potential other BAFs. See "*Cautionary Statement Regarding Forward-Looking Information*" and "*Risk Factors*" in the AIF. In respect of any forward-looking information or statements relating to the Mauritius BAF or other BAFs, including but not limited to annual sales and operating cash flows, such figures have been included herein for the purposes of providing information on the project evaluation measures of the BAFs and should not be viewed as financial outlooks or guidance for the Company.

NEXTSOURCE MATERIALS INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the six months ended December 31, 2023 and 2022

The Company has an exclusive technical partnership with a leading value-added graphite processor to utilize its proprietary graphite processing technology outside of the People's Republic of China and with a graphite trader for the international sale of the products. The technology partner is a well-established supplier of graphite into the supply chains of major EV automotive companies including Tesla and Toyota. The technology partner will receive a 2% technology licensing royalty for the design and development of the BAF process flowsheets, sourcing of all necessary equipment, and provision of all necessary training and operational expertise. The sales partner will receive a 3% sales commission for leveraging its international relationships and acting as a sales, marketing, and trading agent of our BAF products. BAF research and development costs are being capitalized.

The highlights of the BAF strategy are as follows:

- Leverage the exclusive technology and sales partnership to construct BAFs in key international jurisdictions capable of producing SPG and CSPG.
- Construction of the first BAF in Mauritius (the "Mauritius BAF") due to its proximity to the Molo Graphite Mine in Madagascar and its strategic position along international shipping routes from Europe to Asia.
- An initial technical study for the Mauritius BAF (based on the previously announced site) presented certain economic results and project evaluation measures for the Mauritius BAF, as more particularly disclosed in the short form prospectus dated July 27, 2023, and filed by the Company in connection with the Offering (the "Initial Mauritius BAF Technical Study"). While the Initial Mauritius BAF Technical Study continues to be valuable in completing the contemplated New Mauritius BAF Technical Study (as defined herein), the previously announced results of the Initial Mauritius BAF Technical Study relating to project evaluation measures, including the construction costs, timing of construction, sales potential, operating cash flows, NPV, IRR and other metrics relating to the Mauritius BAF may not be achieved and should not be relied upon. The Company will provide an update in respect of project evaluation measures once a New Mauritius BAF Technical Study has been completed.
- Evaluation of the potential construction of a BAF in North America (a "North America BAF") has involved the evaluation of suitable sites in Canada and the USA, and the application to various financial loans and grants offered under Canadian federal and provincial programs and under the U.S. Inflation Reduction Act (the "IRA").
- Evaluation of the potential construction of a BAF in the United Kingdom (a "UK BAF") has involved the application various financial loans and grants offered under the UK Government Automotive Transformation Fund.
- Evaluation of the potential construction of a BAF in the European Union (a "European BAF").
- Evaluation of the potential construction of an artificial graphite ("AG") production facility capable of producing AG anode material ("AG Facility") has involved the negotiation of technology partnerships and the evaluation of suitable sites along international trade routes.
- Evaluation of a potential agreement with South Korea's POSCO International ("POSCO") for a strategic collaboration that could involve an investment into the Company as well as a long-term offtake agreement for spheronized and purified graphite ("SPG") and the Company's other graphite products.

For additional information with respect to the BAFs, readers are referred to the AIF and in particular under the heading "*Description of the Business – Battery Anode Facilities*", which includes disclosures related to the Mauritius BAF Technical Study and other BAF-related items, and the "*Risk Factors*" section of the AIF.

Exploration and Evaluation Properties

The Company also owns the Green Giant Vanadium Project, located in Madagascar, and the Sagar Project, located in Quebec, both of which are at the exploration and evaluation stage. Although these projects are of interest to the Company, there are no current development plans and therefore are not considered material to the Company.

OUTLOOK AND MILESTONES

General

On August 1, 2023, the Company completed a prospectus equity funding of \$37,750,585 (CAD\$50,000,775) through the issuance of 30,303,500 common shares at a price of CAD\$1.65 per share resulting in net proceeds of \$36,266,783.

On September 5, 2023, the Company announced the signing of a non-binding memorandum of understanding (the "MoU") with South Korea's POSCO for strategic collaboration that could involve an equity investment into the Company as well as a long-term offtake agreement for SPG and the Company's other graphite products. The MoU envisages the potential for a definitive offtake agreement for 30,000 tpa of SuperFlake® graphite concentrate and 10,000 to 15,000 tpa of SPG over a ten-year period, to be supplied to POSCO Future M, a POSCO Group subsidiary that is responsible for EV battery businesses and supplies all of South Korea's major battery cell

NEXTSOURCE MATERIALS INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the six months ended December 31, 2023 and 2022

manufacturers with finished cathode and anode materials. Prior to executing a definitive agreement, certain customary technical and economic studies will need to be completed.

Molo Mine

Since announcing the completion of construction and the initiation of the plant commissioning process on March 23, 2023 and the production of graphite in June 2023, the Company has progressed methodically through debottlenecking and optimization activities to achieve the plant nameplate capacity of 17,000 tonnes per annum of SuperFlake® graphite. During this ramp-up process, the Company further identified and is rectifying underperforming equipment in the screening circuit. These constraints have delayed the point at which NextSource expects to reach plant nameplate capacity.

In October, a comprehensive third-party assessment of the plant by operations specialists, and by metallurgical and process design engineers was completed. In particular, this assessment identified underperformance of the dryer and dry product screens. Installation of replacement equipment is expected to be complete in April and ramp-up projected to continue until June, with the aim of achieving nameplate capacity in July. As a result of the revised commissioning schedule, the Company expects the first commercial shipment and sale of SuperFlake® concentrate under offtake agreements to occur in June 2024.

Notwithstanding a slower than expected commissioning process, the Company has produced SuperFlake® graphite concentrate with a carbon (C) content of over 95% and completed the shipment of 60 tonnes of qualifying material to our BAF Technology Partner for testing and conversion into CSPG. Graphite concentrate is being stockpiled at the mine and at a third-party warehouse facility at the Port of Tulear for shipment as qualifying material for prospective customers.

On December 12, 2023, the Company announced the results of the “*Molo Graphite Mine Expansion NI 43-101 Technical Feasibility Study Report 2023*” prepared by Erudite Strategies (Pty) Ltd” (the “Feasibility Study”) for a proposed expansion of the Molo Mine up to a production capacity of 150,000 tpa of SuperFlake® graphite concentrate. Readers should refer to the Feasibility Study for details and assumptions relating to the Molo Mine mineral resource and reserve estimates and data verification procedures.

The Company has initiated the environmental permitting process for an expansion of the Molo Mine. However, the decision to commence construction of the expansion will only be taken once initiatives to secure a binding offtake agreement for the expanded capacity and sufficient funding for construction costs and working capital have been satisfactorily concluded.

The Company is working to achieve the following Molo Mine milestones over the next twelve months:

- Completion of Molo mine commissioning optimization activities
- Ramp-up of Molo mine production capacity and declaration of commercial production
- First commercial shipment of flake graphite
- Construction decision on an expansion of the Molo Mine

Anode Plants

On February 28, 2023, the Company signed an industrial lease for the Mauritius BAF at an industrial zoned site in Mauritius. On September 28, 2023, the Company announced the termination of the lease. On November 24, 2023, the Company signed a new lease for the Mauritius BAF at a site in the port of Port Louis that is expected to reduce ground logistics costs and improves the project's social and environmental standards. The Mauritius BAF port site is expected to have an initial production capacity of 3,600 tpa of CSPG.

The fabrication of long-lead equipment was ordered in October 2023 and main process equipment was ordered in November 2023. The initiation of construction activities and the installation of equipment at the Mauritius BAF port site is subject to the completion of a prescribed environmental and impact assessment (“EIA”) process, the front-end engineering and design study (“FEED” study), and obtaining all necessary construction and operating permits.

The Company is negotiating a technology partnership for the construction of artificial graphite anode plants and has started evaluating suitable sites along international trade routes.

The Company is working to achieve the following BAF milestones over the next twelve months:

- Completion of EIA for the Mauritius BAF
- Construction of the Mauritius BAF and installation of process equipment
- Announcement of an artificial graphite technology partnership
- Securing a North American automotive industry relationship and initiating an economic study of a BAF facility in North America
- Securing a European Union automotive industry relationship and initiating an economic study of a BAF facility in the EU

NEXTSOURCE MATERIALS INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the six months ended December 31, 2023 and 2022

RESULTS OF OPERATIONS

The Company has two operating segments, consisting of mine development and BAF development. No commercial revenues have been generated by the Company. The Company's President and Chief Executive Officer and Chief Financial Officer are the operating decision-makers and direct the allocation of resources to its segments.

Financial Results for the six months ended December 31, 2023, and 2022

Discussion of the six months ended December 31, 2023, and 2022

Net loss and comprehensive loss decreased to \$3,769,311 (2022: net loss and comprehensive loss of \$8,228,665) due to the following:

- Mine expenditures decreased to \$1,248,191 (2022: \$3,436,996), which is composed of the following:
 - Operating expenses of \$nil (2022: \$510,851) due to the capitalization of \$3,448,912 commissioning costs (2022: capitalization of \$nil).
 - Exploration and evaluation expenditures increased to \$12,180 (2022: \$nil) consisting of mineral claim renewal costs.
 - Depreciation increased to \$367,945 (2022: \$29,887) consisting of mining camp, buildings and civil works, and mining vehicles depreciation.
 - Lease finance costs of \$20,701 (2022: \$22,557).
 - VAT receivables impairment of \$847,129 (2022: \$2,873,701) due to considerable uncertainty as to the timing and recoverability of refundable Madagascar value added taxes.
 - Royalties of \$236 (2022: \$nil) charged on the export value of graphite samples.
- BAF expenditures increased to \$447,571 (2022: \$nil) consisting of depreciation and lease finance costs for the Mauritius BAF right of use assets and obligations.
- General and administrative expenses increased to \$2,652,860 (2022: \$1,309,239) consisting of:
 - Payroll and benefits increased to \$762,797 (2022: \$424,405) due to an expansion of management and administrative employees.
 - Consulting fees increased to \$559,971 (2022: \$216,357) primarily due to severance related to the departure of Robin Borley as COO.

NEXTSOURCE MATERIALS INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the six months ended December 31, 2023 and 2022

- Professional fees increased to \$424,371 (2022: \$150,432) due to increased legal and audit fees.
 - Public company expenses increased to \$194,827 (2022: \$170,925) due to increased media communications.
 - Corporate travel expenses increased to \$217,963 (2022: \$111,200) due to increased international travel.
 - Insurance expenses decreased to \$28,260 (2022: \$71,363) due to adjustments to accruals.
 - Sales and marketing expenses increased to \$66,778 (2022: \$nil) due to automotive industry marketing initiatives.
 - Office and administration expenses increased to \$397,893 (2022: \$164,557) due to increased IS/IT and office administration expenditures in Canada, Mauritius, and Madagascar.
- Share-based compensation was \$216,000 (2022: \$346,146) consisting of share-based severance costs.
 - Amortization of corporate assets increased to \$8,784 (2022: \$5,032).
 - Foreign currency translation loss of \$683,605,605 (2022: \$1,711,534) as a result of a decrease in the value of the CAD and MGA currencies against the USD.
 - Interest income increased to \$740,487 (2022: \$143) from interest earned on bank deposits.
 - Lease liabilities were remeasured resulting in a gain of \$178,339 (2022: \$nil).
 - Commercial production obligation was remeasured resulting in a gain of \$46,362 (2022: gain of \$49,255).

Net loss and comprehensive loss decreased to \$1,249,120 (2022: net loss and comprehensive loss of \$2,415,565) due to the following:

- Mine expenditures decreased to \$434,960 (2022: \$606,000), which is composed of the following:
 - Operating expenses of \$nil (2022: \$286,475) due to the capitalization of \$1,736,915 commissioning costs (2022: capitalization of \$nil).

NEXTSOURCE MATERIALS INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the six months ended December 31, 2023 and 2022

- Exploration and evaluation expenditures increased to \$2,220 (2022: \$nil) consisting of mineral claim renewal costs.
 - Depreciation increased to \$49,212 (2022: \$14,942) consisting of mining camp, buildings and civil works, and mining vehicles depreciation.
 - Lease finance costs of \$13,496 (2022: \$11,183).
 - VAT receivables impairment of \$369,796 (2022: \$293,400) due to considerable uncertainty as to the timing and recoverability of refundable Madagascar value added taxes.
 - Royalties of \$236 (2022: \$nil) charged on the export value of graphite samples.
- BAF expenditures increased to \$131,315 (2022: \$nil) consisting of depreciation and lease finance costs of the Mauritius BAF right of use assets.
 - General and administrative expenses increased to \$1,373,878 (2022: \$656,849) consisting of:
 - Payroll and benefits increased to \$305,568 (2022: \$214,178) due to an expansion of management and administrative employees.
 - Consulting fees increased to \$403,214 (2022: \$107,850) due to the inclusion of severance fees.
 - Professional fees increased to \$217,607 (2022: \$100,718) due to increased legal and audit fees.
 - Public company expenses decreased to \$64,075 (2022: \$98,881).
 - Corporate travel expenses increased to \$140,846 (2022: \$66,855).
 - Insurance expenses decreased to \$749 (2022: gain of \$30,601) due to adjustments to accruals.
 - Sales and marketing expenses increased to \$33,245 (2022: \$nil).
 - Office and administration expenses increased to \$208,575 (2022: \$98,969) due to increased IS/IT and office administration expenditures in Canada, Mauritius, and Madagascar.
 - Share-based compensation was \$216,000 (2022: \$166,403) consisting of share-based severance costs.
 - Amortization of corporate assets increased to \$4,140 (2022: \$3,102).
 - Foreign currency translation gain of \$102,424 (2022: loss of \$1,487,030) as a result of an increase in the value of the CAD and MGA currencies against the USD.
 - Interest income increased to \$401,9727 (2022: \$186) from interest earned on bank deposits.
 - Lease liabilities were remeasured resulting in a gain of \$115,735 (2022: \$nil).

STATEMENT OF FINANCIAL POSITION

Cash and Cash Equivalents

The Company's cash balances are deposited with major financial institutions in Canada and with reputable financial institutions in Madagascar and Mauritius. Limited amounts of cash are held in Madagascar and Mauritius.

Cash and cash equivalents	Canada	Mauritius	Madagascar	Total
	\$	\$	\$	\$
As at December 31, 2023	30,091,329	23,371	758,687	30,873,388
As at June 30, 2023	6,309,738	139,408	436,312	6,885,458

Amounts Receivable

Amounts receivables increased to \$565,888 (June 30, 2023: \$494,250).

During the six months ended December 31, 2023, due to considerable uncertainty as to the timing and recoverability of refundable Madagascar value added tax (VAT) denominated in local currency and recognized in amounts receivable, the Company recognized an impairment of VAT receivable of \$847,129 (2023: \$2,873,701). As of December 31, 2023, amounts receivable are presented net of an impairment of VAT receivable of \$4,741,364 (June 30, 2023, \$3,953,376).

Inventories

Inventories increased to \$788,585 (June 30, 2023: \$470,336) due to increases in raw material stocks, which will be consumed through mine operations. As at December 31, 2023, there were no finished goods recognized within inventory (June 30, 2023: \$nil) since stockpiles at the mine and port are expected to be used as qualifying material.

Prepaid Expenses

NEXTSOURCE MATERIALS INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the six months ended December 31, 2023 and 2022

Prepaid expenses increased to \$2,345,992 (June 30, 2023: \$172,384) due to increased prepaid insurance, goods and services and includes prepayments of the Mauritius BAF port lease payments.

Long-Term Prepayments and Deposits

Deposits for long-term assets decreased to \$261,640 (June 30, 2023: \$717,403).

Property, Plant, Equipment, and Development

As of December 31, 2023, the carrying value of property, plant, equipment, and development was \$50,136,225 (June 30, 2023: \$44,236,829).

The property and plant consist entirely of the Molo Mine. The equipment includes \$2,364,058 (June 30, 2023: \$2,433,800) for the Molo Mine. The right of use assets consists of \$445,250 (June 30, 2023: \$456,060) for the Molo Mine and \$12,847,723 (\$11,963,148) for the Mauritius BAF lease.

The assets under construction consist of \$19,999,421 (June 30, 2023: \$15,181,485) for the Molo Mine, \$2,804,884 (June 30, 2023: \$2,612,845) for the Molo Mine Phase 2 development costs, \$1,232,941 (June 30, 2023: \$909,647) for Mauritius BAF development costs, and \$305,510 (June 30, 2023: \$295,083) for North American BAF development costs.

During the six months ended December 31, 2023, the Company capitalized additions of \$15,435,020 (year ended June 30, 2023: \$25,518,369), capitalized mine development costs of \$3,448,912 (year ended June 30, 2023: \$2,077,755), transferred \$nil from assets under construction into property, plant and equipment (year ended June 30, 2023: \$7,987,025), recorded depreciation of \$502,238 (year ended June 30, 2023: \$380,286), and recognized an impact of foreign exchange of \$601,471 (year ended June 30, 2023: \$1,631,403). Disposals consists of the termination and derecognition of the BAF lease right of use asset on September 28, 2023. Additions include of \$739,029 of accretion for the royalty obligation.

Accounts Payable and Accrued Liabilities

Accounts payable and accrued liabilities decreased to \$1,627,467 (June 30, 2023: \$3,014,594).

Right-of-Use Lease Obligations

The Company has recognized the following Right-of-Use ("ROU") assets and long-term lease obligations:

NEXTSOURCE MATERIALS INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the six months ended December 31, 2023 and 2022

- On July 1, 2019, the Company recognized a ROU asset and lease obligation of \$24,164 using an incremental borrowing rate of 10.43% for the exploration camp located in Fotadrevo, Madagascar. The exploration camp lease was terminated on June 30, 2023, and was derecognized.
- On March 31, 2022, the Company recognized a ROU asset and lease obligation of \$389,049 using an incremental borrowing rate of 13.8% for the emphyteutic property lease of the Molo mine, which has an initial term of 50 years. The lease is payable annually in Ariary to the Government of Madagascar and as of December 31, 2023, the lease had a remaining term of 48.25 years.
- On February 28, 2023, the Company signed a lease for the Mauritius BAF and recognized a ROU asset and lease obligation of \$12,125,134 using an incremental borrowing rate of 11.5% based on an initial term of 20 years plus a renewal of 5 years. The lease payments are payable annually in advance. The lease was terminated on September 28, 2023, in accordance with provisions in the lease agreement. The lease obligation was remeasured resulting in a gain of \$178,339 and was derecognized.
- On November 24, 2023, the Company signed a new lease for the Mauritius BAF at an industrial site in the port of Port Louis and recognized a ROU asset and lease obligation of \$12,870,911 using an incremental borrowing rate of 11.5% based on an initial term of 20 years plus a renewal of 5 years. The lease payments are payable annually in advance.

The following table sets out the carrying amounts of lease obligations for ROU assets included in the consolidated statements of financial position and the movements between the reporting periods:

	Exploration Camp	BAF Lease	BAF Port Lease	Molo Property	Total Obligations
	\$	\$	\$	\$	\$
As at June 30, 2022	5,654	-	-	344,164	349,818

As at December 31, 2023	-	-	12,988,197	327,221	13,315,418

The following table sets out the lease obligations included in the consolidated statements of financial position:

	Exploration Camp	BAF Lease	BAF Port Lease	Molo Property	Total Obligations
	\$	\$	\$	\$	\$
Current portion of lease obligations	-	-	1,433,921	41,056	1,474,977
Long-term lease obligations	-	-	11,554,276	286,165	11,840,441
As at December 31, 2023	-	-	12,988,197	327,221	13,315,418

Future minimum lease payments required to meet obligations that have initial or remaining non-cancellable lease terms are set out in the following table:

	Exploration Camp	BAF Lease	BAF Port Lease	Molo Property	Total Obligations
	\$	\$	\$	\$	\$
Within 12 months	-	-	1,470,000	41,576	1,511,576
Between 13 and 24 months	-	-	1,470,000	41,576	1,511,576
Between 25 and 36 months	-	-	1,470,000	41,576	1,511,576
Between 37 and 48 months	-	-	1,470,000	41,576	1,511,576
Between 49 and 60 months	-	-	1,470,000	41,576	1,511,576
Over 60 months	-	-	29,400,000	1,787,783	31,187,783
Total undiscounted lease obligations	-	-	36,750,000	1,995,664	38,745,664

Low value leases, short term leases of less than 12 months, and leases with variable payments proportional to the rate of use of the underlying assets do not give rise to lease obligations. During the six months ended December 31, 2023, the Company recognized short-

NEXTSOURCE MATERIALS INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the six months ended December 31, 2023 and 2022

term and low value rent expenses of \$32,190 (2022: \$nil) in the consolidated statements of operations and comprehensive (loss) income for office leases in Toronto and Madagascar.

Royalty obligation

On February 8, 2021, the Company announced a financing agreement with Vision Blue for gross proceeds of \$29.5 million consisting of private placements and a royalty financing agreement. As part of the royalty financing agreement:

- (a) The Company received the initial royalty funding of \$8.0 million (less a \$1.5 million royalty financing fee) on June 28, 2021, and received the remaining \$3.0 million on August 17, 2022.
- (b) Beginning on the biannual period ending June 30, 2022, the Company must pay the greater of: (i) \$825,000 (the "Minimum Repayment") or (ii) 3% of the gross sales revenues from graphite concentrate sales (the "GSR"). Once Vision Blue has received cumulative royalty payments of \$16.5 million, the Minimum Repayment will cease, and the royalty will only be based on the GSR. NextSource has the option at any time to reduce the GSR to 2.25% by paying \$20 million to Vision Blue. Each of the biannual Minimum Repayments can be deferred by 12 months, subject to accrued interest of 15% per annum.
- (c) Vision Blue received a royalty of 1.0% of the gross revenues from sales of vanadium pentoxide ("V2O5") from the Green Giant Vanadium Project for a period of 15 years following commencement of production of V2O5.

On June 30, 2021, the Company recognized a royalty obligation at the fair value of \$6.5 million, which was equal to the present value using an effective discount rate of 13.8% of (1) the deferred \$3.0 million royalty funding, (2) the minimum royalty payments, (3) the accrued interest on the deferral of minimum royalty payments, and (4) the perpetual 3% GSR for the remaining 30-year life of mine for Phase 1. The discount rate was determined at recognition by calculating the internal rate of return (IRR) of the expected cash flows. Upon recognition, a total of \$169,279 of capitalized legal fees was netted against the obligation resulting in an initial carrying value of \$6,330,721. The carrying value of the royalty obligation will be remeasured at each reporting period based on the revised expected future cash flows using the original discount rate under the amortized cost method.

On December 31, 2023, the obligation was remeasured at \$11,807,160 (June 30, 2023: \$12,016,881).

	Total
	\$
As at June 30, 2022	7,731,196
Accretion of royalty obligation	1,373,075
Royalty proceeds	3,000,000

Between 49 and 60 months	1,897,500
Over 60 months	8,538,750
Total undiscounted lease obligations	18,026,250

NEXTSOURCE MATERIALS INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the six months ended December 31, 2023 and 2022

Commercial production provision

On April 16, 2014, the Company signed a Sale and Purchase Agreement and a Mineral Rights Agreement (together “the Agreements”) with Capricorn Metals (formerly Malagasy Minerals) to acquire the remaining 25% interest in the Molo Property. Pursuant to the Agreements, a further cash payment of CAD\$1,000,000 is due within 30 days of the commencement of commercial production (the “Commercial Production Fee”). On June 30, 2021, the Company recognized a provision of \$708,514 using a 13.8% discount rate based on an initial expectation of settlement on or around June 30, 2022. The provision was recorded at amortized cost and capitalized as property under property, plant, equipment, and development. The obligation expected to be settled upon the declaration of commercial production of the Molo Mine.

During the six months ended December 30, 2023, the obligation increased through accretion of \$nil (2022: \$47,318). On December 31, 2023, the obligation was remeasured at \$677,278 (June 30, 2023: \$754,973) resulting in remeasurement gain of \$46,362 (June 30, 2023: \$nil) and a foreign exchange gain of \$31,333 (June 30, 2023: \$nil) that were recognized through the consolidated statements of operations and comprehensive (loss) income.

Asset retirement obligations

The Company has recognized provisions for asset retirement obligations at its Molo Mine property. Although the ultimate amounts of the future site reclamation provisions are uncertain, the provision of these obligations is based on information currently available, including closure plans and applicable regulations. The amount and timing of closure plans will vary depending on several factors including changes in the mining plan. Significant closure activities will include demolition of facilities, land rehabilitation, water treatment, monitoring, and other costs.

As of December 31, 2023, the present value of future cash flows required to settle the Company’s closure and decommissioning costs was estimated at \$490,141 (June 30, 2023: \$492,346)

As of December 31, 2023, the undiscounted estimated cash flows required to settle the Company’s estimated future closure and decommissioning costs was estimated at \$1,404,798 (June 30, 2023: \$1,404,798). The obligation is expected to be settled at the end of the 30-year life of mine in 2053. The estimated future cash flows were converted into local currency and inflated using an expected inflation rate of 8.15%. The provision for closure and decommissioning costs was then calculated using a discount rate of 12%.

Commitments

The Company has contractual commitments under an energy services agreement (“ESA”) with CrossBoundary Energy Madagascar (“CBE”) for the hybrid solar thermal power plant owned and operated by CBE that is supplying electricity to the Molo Mine. The ESA has a term of 20 years ending in 2043 and requires the Company to purchase a minimum energy output of 11,200,000 KWh per annum at a tariff of \$0.0837 per KWh equivalent to \$937,440 per annum. The Company is also subject to contractual commitments related to royalties.

CASH FLOWS FROM OPERATING, INVESTING, AND FINANCING ACTIVITIES

The following are the Company’s cash flows from operating, investing and financing activities for the six months ended December 31, 2023, and 2022:

	Six months ended December 31, 2023	Six months ended December 31, 2022
Operating activities		
Net (loss) income	\$ (4,291,823)	(9,551,396)
<i>Add (deduct) items not affecting cash:</i>		
Depreciation of property, plant, equipment, and development (note 5)	502,238	34,919
Lease finance costs (note 6)	342,763	-

Fully diluted common shares	157,653,507	157,653,507	127,141,007

Common Shares

As of December 31, 2023, the Company had 155,783,507 common shares issued and outstanding (June 30, 2023: 125,271,007). The Company's common shares have no par value, and the authorized share capital is composed of an unlimited number of common shares.

The following changes occurred during the six months ended December 31, 2023:

- On August 1, 2023, the Company completed a prospectus equity funding of \$37,750,585 (CAD\$50,000,775) through the issuance of 30,303,500 common shares at a price of CAD\$1.65 per share resulting in net proceeds of \$36,266,783.
- On November 28, 2023, the Company issued 209,000 common shares to an officer as part of their severance with a fair value of \$216,000.

RELATED PARTY TRANSACTIONS

Parties are related if one party has the direct or indirect ability to control or exercise significant influence over the other party in making operating and financial decisions. Parties are also related if they are subject to common control or common significant influence. Related parties include the Company subsidiaries and key management. Key management consists of the Board of Directors, Chief Executive Officer, Chief Financial Officer, and Senior Vice Presidents. Related parties also include companies controlled by key management. Related party transactions occur when there is a transfer of economic resources or financial obligations between related parties. Related party transactions in the normal course of business that have commercial substance are initially measured at fair value. Balances and transactions between the Company and its wholly owned subsidiaries have been eliminated and are not disclosed in this note.

The following key management *related party transactions* occurred during the following reporting periods:

Related party transactions contained within	Six months ended	Six months ended	Three months ended	Three months ended
	December 31, 2023	December 31, 2022	December 31, 2023	December 31, 2022
Payroll and benefits	\$ 621,668	\$ 324,589	\$ 232,620	\$ 175,002
Management consulting fees	450,852	181,947	\$ 360,016	\$ 89,308
Professional fees	6,673	10,293	\$ 3,323	\$ 5,099

NEXTSOURCE MATERIALS INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the six months ended December 31, 2023 and 2022

contained within	December 31, 2023	June 30, 2023
Amounts receivable	\$ 185,460	\$ 185,478
Accounts payable and accrued liabilities	228,881	63,750
Current portion of royalty obligations	2,846,250	2,846,250
Royalty obligations	8,960,910	9,170,631

Amounts receivable are for short-term loans to officers related to the exercise of stock options. Accounts payable and accrued liabilities are for accounts payable to related parties and the accrual of director fees. The royalty obligations are owed to Vision Blue.

Vision Blue participated in the prospectus offering financing completed on August 1, 2023 by subscribing to 14,151,500 common shares for gross proceeds of 17,629,523 (CAD\$23,349,975).

CAPITAL MANAGEMENT

Capital Management

There were no changes in the Company's approach to capital management during the six months ended December 31, 2023.

The Company's investment policy is to invest excess cash in very low risk financial instruments such as term deposits or by holding funds in high yield savings accounts with major Canadian banks. The Company is not subject to any externally imposed capital requirements. To date, the Company has funded operations by raising equity and obtaining royalty financing.

The Company manages its capital structure (consisting of shareholders' equity and debt obligations) on an ongoing basis and in response to changes in economic conditions and risk characteristics of its underlying assets. Changes to the capital structure can involve the issuance of new equity, obtaining working capital loans, construction financing, issuing debt, the acquisition or disposition of assets, or adjustments to the amounts held in cash, cash equivalents and short-term investments.

Capital Resource Analysis

As of December 31, 2023, the Company had working capital of \$27,946,881 (June 30, 2023: \$120,050). Based on management's past ability to manage its working capital, the Company believes it will be able to satisfy its current and long-term obligations as they become due.

	As at December 31, 2023	As at June 30, 2023
Current Assets:		
Cash and cash equivalents	\$ 30,873,388	\$ 6,885,458
Amounts receivable	564,888	494,250
Inventories	788,585	470,336
Prepaid expenses	2,345,992	172,384
Total Current Assets	34,572,853	8,022,428
Current Liabilities:		
Accounts payable and accrued liabilities	1,627,467	3,014,594
Current portion of lease obligations	1,474,977	1,286,561
Current portion of royalty obligations	2,846,250	2,846,250
Commercial production obligation	677,278	754,973
Total Current Liabilities	6,625,972	7,902,378
Working Capital	27,946,881	120,050

As of December 31, 2023, the Company had cash and cash equivalents of \$30,873,388 (June 30, 2023: \$6,885,458). Cash and cash equivalents are expected to be sufficient to settle current liabilities as they become due, fund commissioning costs for the Molo Mine until commercial production can be achieved, and fund planned Mauritius BAF construction costs. The Company will require additional funding to cover general and administrative costs, general working capital and development costs related to any future expansion of the Molo Mine and construction of additional BAF plants.

NEXTSOURCE MATERIALS INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the six months ended December 31, 2023 and 2022

The Company may choose to raise additional capital by issuing new equity, obtaining working capital, construction financing, or secured loans, or arranging other financing arrangements. While the Company has been successful at obtaining additional financing in the past, there can be no assurance it will be able to do so in the future or on terms that are acceptable to the Company.

Contractual Obligations and Commitments

The Company has contractual commitments under an energy services agreement ("ESA") with CrossBoundary Energy Madagascar ("CBE") for the hybrid solar thermal power plant owned and operated by CBE that is supplying electricity to the Molo Graphite Mine. The ESA has a term of 20 years ending in 2043 and requires the Company to purchase a minimum energy output of 11,200,000 KWh per annum at a tariff of \$0.0837 per KWh equivalent to \$937,440 per annum. The Company is also subject to contractual obligations related to royalties, and the royalty obligation minimum repayments.

The Company's future operating cash flows are expected to be sufficient to satisfy contractual obligations and contractual commitments.

Off-balance sheet arrangements

The Company does not have any off-balance sheet arrangements including any arrangements that would affect the liquidity, capital resources, market risk support and credit risk support or other benefits.

FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

Liquidity risk

The following obligations have contractual maturities over the next twelve months:

- Accounts payable and accrued liabilities, which are generally due within 30 days.
- Minimum repayments under the royalty agreement that are due semi-annually on June 30 and December 31.
- Commercial production obligation that is due upon the declaration of commercial production at the Molo Mine.
- Lease payment obligations that are due annually.

As of December 31, 2023, the Company had cash and cash equivalents of \$30,873,388 (June 30, 2023: \$6,885,458) to settle current liabilities of \$6,625,972 (June 30, 2023: \$7,902,378). As a result, the Company was not exposed to liquidity risk on December 31, 2023.

Liquidity risk is the risk that the Company will not be able to meet its obligations associated with financial liabilities. Liquidity risk arises from the Company's financial obligations and in the management of its assets, liabilities, and capital structure. To minimize liquidity risk, the Company has implemented cost control measures including a construction budget and the minimizing of discretionary expenditures unless the project has sufficient economic or geologic merit. In managing liquidity, the Company's primary objective is to ensure the entity can continue as a going concern while obtaining sufficient funding to meet its obligations as they come due. The Company manages this risk by regularly evaluating its liquid financial resources to fund current and long-term obligations and to meet its capital commitments in a cost-effective manner. The main factors that affect liquidity include working capital requirements, capital-expenditure requirements, and equity capital market conditions. The Company's liquidity requirements are met through a variety of sources, including cash and cash equivalents and equity capital markets. The Company will require additional funding to cover general and administrative costs, general working capital and development costs related to any future expansion of the Molo Mine and construction of additional BAF plants.

Credit risk

The Company does not have commercial receivables and therefore does not have credit risk related to amounts receivables. The Company has credit risk arising from amounts classified as loans to officers. The Company manages this risk by settling against amounts due to officers. The Company has credit risk arising from the potential from counterparty default on cash and cash equivalents held on deposit with financial institutions. The Company manages this risk by ensuring that deposits are only held with large Canadian banks and financial institutions, whereas any offshore deposits are held with reputable foreign financial institutions. The Company also limits the deposits held with foreign financial institutions.

During the six months ended December 31, 2023, due to considerable uncertainty as to the timing and recoverability of refundable Madagascar value added tax (VAT) denominated in local currency and recognized in amounts receivable, the Company recognized an impairment of VAT receivable of \$847,129 (2023: \$2,873,701). As of December 31, 2023, amounts receivable are presented net of an impairment of VAT receivable of \$4,741,364 (June 30, 2023, \$3,953,376).

Interest rate risk

This is the sensitivity of the fair value or of the future cash flows of a financial instrument to changes in interest rates. The Company does not have any financial assets or liabilities that are subject to variable interest rates.

Commodity price risks

NEXTSOURCE MATERIALS INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the six months ended December 31, 2023 and 2022

This is the sensitivity of the fair value of, and future cash flows, generated from its mineral projects to changes in commodity prices. The Molo Mine property and assets under construction are carried at historical cost. As a result, the recoverability of the carrying values are exposed to commodity price risks. The royalty obligation remeasurement includes an estimate of the present value of royalties paid on graphite revenues and as a result, is exposed to graphite price risk with a sensitivity to a 10% change in graphite prices of 1%. Graphite does not have an established forward pricing or futures market that could be used to hedge against this exposure. The Company manages this risk by monitoring mineral and commodity price trends to determine the appropriate timing for funding the development, acquisition or disposition of its mineral exploration and development projects.

Currency risk

This is the sensitivity of the fair value or of the future cash flows of financial instruments to changes in foreign exchange rates. The Company transacts in currencies other than the US dollar, including the Canadian dollar, the Madagascar Ariary, the Mauritius Rupee, and the South African Rand. The Company purchases services and has certain salary commitments in those foreign currencies. The Company also has monetary and financial instruments that may fluctuate due to changes in foreign exchange rates. Derivative financial instruments are not used to reduce exposure to fluctuations in foreign exchange rates. The Company is not sensitive to foreign exchange exposure on revenues since it has not made commitments to deliver products quoted in foreign currencies. Since construction of the Molo Mine, the Company is sensitive to foreign exchange risk arising from the translation of the financial statements of subsidiaries with a functional currency other than the US dollar, whereby changes in the carrying amounts of certain assets, liabilities and equity are measured through other comprehensive income.

As at December 31, 2023, the Company had the following balances in foreign currency:

		As at December 31, 2023	As at June 30, 2023
Cash and cash equivalents	CAD	\$ 4,925,473	\$ 2,119,393
Cash and cash equivalents	MGA	445,171	104,293
Cash and cash equivalents	MUR	30,568	38,448
Amounts receivable	CAD	209,026	246,616
Amounts receivable	MGA	7,991	-
Prepaid expenses	CAD	19,671	46,667
Prepaid expenses	MUR	3,674	-
Prepaid expenses	ZAR	-	8,170
Prepaid expenses	MGA	642,627	4,184
Accounts payable and accrued liabilities	CAD	(121,060)	(306,903)
Accounts payable and accrued liabilities	MGA	(906,751)	(1,875,766)
Accounts payable and accrued liabilities	MUR	(18,009)	(92,542)
Accounts payable and accrued liabilities	GBP	-	16,469
Accounts payable and accrued liabilities	ZAR	-	(836)
Commercial production obligations	CAD	(677,278)	(754,973)
Current portion of lease obligations	MGA	(41,056)	(41,628)
Net foreign exchange exposure in USD		\$ 4,520,048	\$ (480,236)
Impact of 10% increase in CAD/USD exchange rates		\$ 435,583	\$ 135,080
Impact of 10% increase in MGA/USD exchange rates		14,798	(180,892)
Impact of 10% increase in MUR/USD exchange rates		1,623	(5,409)
Impact of 10% increase in ZAR/USD exchange rates		-	733
Impact of 10% increase in GBP/USD exchange rates		-	1,647
Total		\$ 452,005	\$ (48,841)

As at December 31, 2023, the Company estimated that a 10% decrease of the USD versus foreign exchange rates would result in a gain of \$452,005 (June 30, 2023: loss of \$48,841) and a 10% increase in the USD versus foreign exchange rates would result in a loss of \$452,005 (June 30, 2023: gain of \$48,841).

RISK FACTORS

The Company manages risks inherent to its business and has procedures to identify and manage significant operational and financial risks. The reader is cautioned to carefully review the risk factors identified in our most recent AIF.

CRITICAL IFRS ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES

The Company's Consolidated Financial Statements are prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board. The Consolidated Financial Statements follow the same accounting policies and methods of their application as disclosed in Note 3 to the Company's audited consolidated financial statements for the year ended June 30, 2023.

To prepare financial statements in conformity with IFRS, the Company must make estimates, judgements and assumptions concerning the future that affect the carrying values of assets and liabilities as of the date of the consolidated financial statements and the reported values of revenues and expenses during the reporting period. By their nature, these are uncertain and actual outcomes could differ from the estimates, judgments, and assumptions. The impacts of such estimates are pervasive throughout the consolidated financial statements and may require accounting adjustments based on future occurrences. Revisions to accounting estimates are recognized in the period in which the estimate is revised and in future periods when the revision affects both current and future periods. Significant accounting judgments, estimates and assumptions are reviewed on an ongoing basis. The areas involving significant judgments, estimates and assumptions have been detailed in Note 4 to the Company's audited consolidated financial statements for the year ended June 30, 2023.

Management has discussed the development and selection of critical accounting policies and estimates with the Audit Committee, which has reviewed the Company's disclosure in this MD&A.

QUALIFIED PERSON

Craig Scherba, P.Geo., the Company's President and Chief Executive Officer is the Qualified Person, as defined by NI 43-101, who has reviewed and approved the technical information disclosed in this MD&A.

DISCLOSURE CONTROLS AND PROCEDURES

Disclosure controls and procedures are designed to provide reasonable assurance that all relevant information is gathered and reported to management, including the Chief Executive Officer and Chief Financial Officer, on a timely basis so that appropriate decisions can be made regarding public disclosure.

Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting that occurred during the six months ended December 31, 2023, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

As of December 31, 2023, the end of the period covered by this MD&A, our management, including our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that as of December 31, 2023, the end of the period covered by this MD&A, we maintained effective disclosure controls and procedures.

NEXTSOURCE MATERIALS INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the six months ended December 31, 2023 and 2022

Management's Report on Internal Control Over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate. Internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with IFRS.

Our management, including our Chief Executive Officer and Chief Financial Officer, conducted an evaluation of the effectiveness of internal control over financial reporting using the criteria set forth in the *COSO Internal Control – Integrated Framework (2013)*. Based on the results of this evaluation, our management concluded that our internal control over financial reporting was effective as of December 31, 2023.

NextSource Materials Inc.
Notes to the Unaudited Condensed Interim Consolidated Financial Statements
For the six months ended December 31, 2023 and 2022
(Expressed in US Dollars)

1. Nature of operations

NextSource Materials Inc. (the “Company” or “NextSource”) was continued under the Canada Business Corporations Act from the State of Minnesota to Canada on December 27, 2017, and has a fiscal year end of June 30. The Company’s registered head office and primary location of records is 130 King Street West, Exchange Tower, Suite 1940, Toronto, Ontario Canada, M5X 2A2. The Company’s common shares are listed on the Toronto Stock Exchange (the “TSX”) under the symbol “NEXT” and the OTCQB under the symbol “NSRCF”.

NextSource is intent on becoming a vertically integrated global supplier of battery materials through the mining and value-added processing of graphite and other minerals. The Company’s principal business is the development of the Molo Mine in Madagascar and has announced plans to build the first of several Battery Anode Facilities (“BAF”) in Mauritius.

The Company also owns the Green Giant Vanadium Project, located in Madagascar, and the Sagar Project, located in Quebec, both of which are at the exploration and evaluation stage.

The Company has not previously operated any mines or processing facilities, and no commercial revenues have been generated from any mineral resources. The Company does not pay dividends and is unlikely to do so in the immediate or near future.

These consolidated financial statements were approved by the Board of Directors of the Company on February 9, 2024.

2. Basis of presentation

Statement of compliance with IFRS

These condensed interim consolidated financial statements have been prepared in accordance and comply with International Accounting Standard 34 Interim Financial Reporting (“IAS 34”) using accounting principles consistent with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) and interpretations issued by the IFRS Interpretations Committee (“IFRIC”). These condensed interim consolidated financial statements do not include all the disclosures required by IFRS for annual audited consolidated financial statements.

These condensed interim consolidated financial statements should be read in conjunction with the Company’s annual audited consolidated financial statements for the year ended June 30, 2023, including the accounting policies and notes thereto, and the Annual Information Form for the year ended June 30, 2023, which were prepared in accordance with IFRS.

In the opinion of management, these condensed interim consolidated financial statements reflect all adjustments, which consist of normal and recurring adjustments necessary to present fairly the financial position as at December 31, 2023, and June 30, 2023, and the results of operations and cash flows for the six months ended December 31, 2023, and 2022.

Operating results for the six months ended December 31, 2023, are not necessarily indicative of the results that may be expected for the full year ending June 30, 2024.

Basis of measurement

The consolidated financial statements have been prepared on the basis of a going concern, which contemplates the realization of assets and liquidation of liabilities in the normal course of business. Assets and liabilities are presented under the historical cost basis, except for certain financial instruments that are measured at fair value, as explained in the accounting policies below.

Basis of consolidation

These condensed interim consolidated financial statements include the financial position, results of operations and comprehensive (loss) income and cash flows of the Company and its wholly owned subsidiaries. Intercompany balances, transactions, income and expenses, profits, and losses, including gains and losses relating to subsidiaries have been eliminated on consolidation.

NextSource owns 100% of NextSource Materials (Mauritius) Ltd. (“MATMAU”), a Mauritius subsidiary, and 2391938 Ontario Inc., an Ontario Company. MATMAU owns 100% of NextSource Minerals (Mauritius) Ltd. (“MINMAU”), a Mauritius subsidiary, NextSource Graphite (Mauritius) Ltd (“GRAMAU”), a Mauritius subsidiary, NextSource CSPG (Mauritius) Ltd (“CSPGMAU”), a Mauritius subsidiary, and NextSource Materials (Madagascar) SARLU (“MATMAD”), a Madagascar subsidiary. MINMAU owns 100% of NextSource Minerals (Madagascar) SARLU (“MINMAD”), a Madagascar subsidiary. GRAMAU owns 100% of ERG (Madagascar) SARLU (“ERGMAD”), a Madagascar subsidiary.

NextSource Materials Inc.
Notes to the Unaudited Condensed Interim Consolidated Financial Statements
For the six months ended December 31, 2023 and 2022
(Expressed in US Dollars)

3. Significant accounting policies

These condensed interim consolidated financial statements follow the same accounting policies and methods of their application as disclosed in Note 3 to the Company's audited consolidated financial statements for the year ended June 30, 2023.

4. Significant judgments, estimates and assumptions

To prepare financial statements in conformity with IFRS, the Company must make estimates, judgments and assumptions concerning the future that affect the carrying values of assets and liabilities as of the date of the consolidated financial statements and the reported values of revenues and expenses during the reporting period. By their nature, these are uncertain and actual outcomes could differ from the estimates, judgments, and assumptions. The impacts of such estimates are pervasive throughout the consolidated financial statements and may require accounting adjustments based on future occurrences. Revisions to accounting estimates are recognized in the period in which the estimate is revised and in future periods when the revision affects both current and future periods. Significant accounting judgments, estimates and assumptions are reviewed on an ongoing basis.

The areas involving significant judgments, estimates and assumptions have been detailed in Note 4 to the Company's audited consolidated financial statements for the year ended June 30, 2023.

5. Property, plant, equipment, and development

As of December 31, 2023, the carrying value of property, plant, equipment, and development was \$50,136,225 (June 30, 2023: \$44,236,829).

	Property	Plant	Equipment	Right of Use Assets	Assets Under Construction	Total
	\$	\$	\$	\$	\$	\$

Accumulated depreciation	(4,440)	(232,820)	(360,120)	(83,196)	-	(680,576)
As at December 31, 2023	2,111,722	7,824,789	2,484,676	13,292,973	24,422,065	50,136,225

The property and plant consist entirely of the Molo Mine. The equipment includes \$2,364,058 (June 30, 2023: \$2,433,800) for the Molo Mine. The right of use assets consists of \$445,250 (June 30, 2023: \$456,060) for the Molo Mine and \$12,847,723 (\$11,963,148) for the Mauritius BAF lease.

The assets under construction consist of \$19,999,421 (June 30, 2023: \$15,181,485) for the Molo Mine, \$2,804,884 (June 30, 2023: \$2,612,845) for the Molo Mine Phase 2 development costs, \$1,232,941 (June 30, 2023: \$909,647) for Mauritius BAF development costs, and \$305,510 (June 30, 2023: \$295,083) for North American BAF development costs.

During the six months ended December 31, 2023, the Company capitalized additions of \$15,435,020 (year ended June 30, 2023: \$25,518,369), capitalized mine development costs of \$3,448,912 (year ended June 30, 2023: \$2,077,755), transferred \$nil from assets under construction into property, plant and equipment (year ended June 30, 2023: \$7,987,025), recorded depreciation of \$502,238 (year ended June 30, 2023: \$380,286), and recognized an impact of foreign exchange of \$601,471 (year ended June 30, 2023: \$1,631,403). Disposals consists of the termination and derecognition of the BAF lease right of use asset on September 28, 2023. Additions include \$739,029 of accretion for the royalty obligation.

NextSource Materials Inc.
Notes to the Unaudited Condensed Interim Consolidated Financial Statements
For the six months ended December 31, 2023 and 2022
(Expressed in US Dollars)

5. Property, plant, equipment, and development (continued)

Molo Graphite Mine Development

On February 15, 2019, the Company received a 40-year mining license for the Molo property, located in southern Madagascar, that does not limit mining to any specific volume. On March 29, 2021, the Company announced the initiation of construction of the Molo Mine with a production capacity of 17,000 tonnes per annum (“tpa”) of SuperFlake® graphite concentrate and began capitalizing mine development costs. On March 23, 2023, the Company announced initiation of commissioning activities. On June 22, 2023, the Company announced production of the first tonne of graphite concentrate as part of the commissioning process. As of December 31, 2023, the Molo Mine was still undergoing commissioning and as a result, the Molo Mine processing plant is still classified as an asset under construction and commissioning costs are being capitalized until commercial production is achieved.

The Molo Mine is subject to the following royalties:

- 3% of the gross sales revenue royalty is owned by Vision Blue Resources Limited (see also *Note 7 Royalty Obligation*).
- 1.5% net smelter royalty (“NSR”) owned by Capricorn Metals (formerly known as Malagasy Minerals) (“Capricorn”). Prior to becoming a Director of the Company, Brett Whalen purchased an option to acquire the 1.5% NSR from Capricorn upon the mine achieving commercial production in return for a further payment to Capricorn.
- 2% gross revenue royalty payable to the Government of Madagascar.

Mauritius BAF Development Project

The Company has an exclusive technical partnership with a leading value-added graphite processor to utilize its proprietary graphite processing technology outside of the People's Republic of China and with a graphite trader for the international sale of the products. The technology partner is a well-established supplier of graphite into the supply chains of major EV automotive companies including Tesla and Toyota. The technology partner will receive a 2% technology licensing royalty for the design and development of the BAF process flowsheets, sourcing of all necessary equipment, and provision of all necessary training and operational expertise. The sales partner will receive a 3% sales commission for leveraging its international relationships and acting as a sales, marketing, and trading agent of our BAF products. BAF research and development costs are being capitalized.

On February 28, 2023, the Company signed an industrial lease for the Mauritius BAF at an industrial zoned site in Mauritius and recognized a right-of-use asset and lease obligation. On September 28, 2023, the Company announced the termination of the lease and derecognized the right of use asset. On November 24, 2023, the Company signed a new industrial lease for the Mauritius BAF at a site in the port of Port Louis and recognized a right-of-use asset and lease obligation.

Exploration and Evaluation Expenditures

The Company owns the Green Giant Vanadium Project, located in Madagascar, and the Sagar Project, located in Quebec, which are at the exploration and evaluation stage. Since early 2012, the Company has focused its efforts on the Molo Project and as such only limited work has been completed on these properties. Exploration and evaluation expenditures are expensed as incurred.

As of December 31, 2023, the Company had not capitalized any acquisition, exploration, and evaluation costs for exploration and evaluation projects.

6. Right-of-Use lease obligations

The Company has recognized the following Right-of-Use (“ROU”) assets and long-term lease obligations:

- On July 1, 2019, the Company recognized a ROU asset and lease obligation of \$24,164 using an incremental borrowing rate of 10.43% for the exploration camp located in Fotadrevo, Madagascar. The exploration camp lease was terminated on June 30, 2023, and was derecognized.
- On March 31, 2022, the Company recognized a ROU asset and lease obligation of \$389,049 using an incremental borrowing rate of 13.8% for the emphyteutic property lease of the Molo mine, which has an initial term of 50 years. The lease is payable annually in Ariary to the Government of Madagascar and as of December 31, 2023, the lease had a remaining term of 48.25 years.
- On February 28, 2023, the Company signed a lease for the Mauritius BAF and recognized a ROU asset and lease obligation of \$12,125,134 using an incremental borrowing rate of 11.5% based on an initial term of 20 years plus a renewal of 5 years. The lease payments are payable annually in advance. The lease was terminated on September 28, 2023, in accordance with provisions in the lease agreement. The lease obligation was remeasured resulting in a gain of \$178,339 and was derecognized.
- On November 24, 2023, the Company signed a new lease for the Mauritius BAF at an industrial site in the port of Port Louis and recognized a ROU asset and lease obligation of \$12,870,911 using an incremental borrowing rate of 11.5% based on an initial term of 20 years plus a renewal of 5 years. The lease payments are payable annually in advance.

NextSource Materials Inc.
Notes to the Unaudited Condensed Interim Consolidated Financial Statements

(Expressed in US Dollars)

6. Right-of-Use lease obligations (continued)

The following table sets out the carrying amounts of lease obligations for ROU assets included in the consolidated statements of financial position and the movements between the reporting periods:

	Exploration Camp	BAF Lease	BAF Port Lease	Molo Property	Total Obligations
	\$	\$	\$	\$	\$
As at June 30, 2022	5,654	-	-	344,164	349,818
Additions	-	12,125,135	-	-	12,125,135
Finance costs	289	398,574	-	43,642	442,505
Lease payments	(5,685)	(1,338,637)	-	(43,308)	(1,387,630)
Foreign exchange adjustments	(258)	-	-	(33,639)	(33,897)
As at June 30, 2023	-	11,185,072	-	310,859	11,495,931
Additions	-	-	12,870,911	-	12,870,911
Finance costs	-	204,776	117,286	20,701	342,763
Remeasurement of lease liability	-	(178,339)	-	-	(178,339)
Disposals	-	(11,211,509)	-	-	(11,211,509)
Foreign exchange adjustments	-	-	-	(4,339)	(4,339)
As at December 31, 2023	-	-	12,988,197	327,221	13,315,418

The following table sets out the lease obligations included in the consolidated statements of financial position:

	Exploration Camp	BAF Lease	BAF Port Lease	Molo Property	Total Obligations
	\$	\$	\$	\$	\$
Current portion of lease obligations	-	-	1,433,921	41,056	1,474,977
Long-term lease obligations	-	-	11,554,276	286,165	11,840,441
As at December 31, 2023	-	-	12,988,197	327,221	13,315,418

Future minimum lease payments required to meet obligations that have initial or remaining non-cancellable lease terms are set out in the following table:

	Exploration Camp	BAF Lease	BAF Port Lease	Molo Property	Total Obligations
	\$	\$	\$	\$	\$
Within 12 months	-	-	1,470,000	41,576	1,511,576
Between 13 and 24 months	-	-	1,470,000	41,576	1,511,576
Between 25 and 36 months	-	-	1,470,000	41,576	1,511,576
Between 37 and 48 months	-	-	1,470,000	41,576	1,511,576
Between 49 and 60 months	-	-	1,470,000	41,576	1,511,576
Over 60 months	-	-	29,400,000	1,787,783	31,187,783
Total undiscounted lease obligations	-	-	36,750,000	1,995,664	38,745,664

Low value leases, short term leases of less than 12 months, and leases with variable payments proportional to the rate of use of the underlying assets do not give rise to lease obligations. During the six months ended December 31, 2023, the Company recognized short-term and low value rent expenses of \$32,190 (2022: \$nil) in the consolidated statements of operations and comprehensive (loss) income for office leases in Toronto and Madagascar.

(Expressed in US Dollars)

7. Royalty obligation

On February 8, 2021, the Company announced a financing agreement with Vision Blue for gross proceeds of \$29.5 million consisting of private placements and a royalty financing agreement. As part of the royalty financing agreement:

- (a) The Company received the initial royalty funding of \$8.0 million (less a \$1.5 million royalty financing fee) on June 28, 2021, and received the remaining \$3.0 million on August 17, 2022.
- (b) Beginning on the biannual period ending June 30, 2022, the Company must pay the greater of: (i) \$825,000 (the “Minimum Repayment”) or (ii) 3% of the gross sales revenues from graphite concentrate sales (the “GSR”). Once Vision Blue has received cumulative royalty payments of \$16.5 million, the Minimum Repayment will cease, and the royalty will only be based on the GSR. NextSource has the option at any time to reduce the GSR to 2.25% by paying \$20 million to Vision Blue. Each of the biannual Minimum Repayments can be deferred by 12 months, subject to accrued interest of 15% per annum.
- (c) Vision Blue received a royalty of 1.0% of the gross revenues from sales of vanadium pentoxide (“V2O5”) from the Green Giant Vanadium Project for a period of 15 years following commencement of production of V2O5.

On June 30, 2021, the Company recognized a royalty obligation at the fair value of \$6.5 million, which was equal to the present value using an effective discount rate of 13.8% of (1) the deferred \$3.0 million royalty funding, (2) the minimum royalty payments, (3) the accrued interest on the deferral of minimum royalty payments, and (4) the perpetual 3% GSR for the remaining 30-year life of mine for Phase 1. The discount rate was determined at recognition by calculating the internal rate of return (IRR) of the expected cash flows. Upon recognition, a total of \$169,279 of capitalized legal fees was netted against the obligation resulting in an initial carrying value of \$6,330,721. The carrying value of the royalty obligation will be remeasured at each reporting period based on the revised expected future cash flows using the original discount rate under the amortized cost method.

On December 31, 2023, the obligation was remeasured at \$11,807,160 (June 30, 2023: \$12,016,881).

	Total
	\$
As at June 30, 2022	7,731,196
Accretion of royalty obligation	1,373,075
Royalty proceeds	3,000,000
Royalty minimum repayments	-
Remeasurement of royalty obligation	(87,390)
As at June 30, 2023	12,016,881
Accretion of royalty obligation	739,029
Royalty minimum repayments	(948,750)
Remeasurement of royalty obligation	-
As at December 31, 2023	11,807,160

	Total
	\$
Current portion of royalty obligation	2,846,250
Long-term royalty obligation	8,960,910
As at December 31, 2023	11,807,160

During the six months ended December 31, 2023, the obligation increased due accretion of \$739,029 (2022: \$614,937) and remeasurement gain of \$nil (2022: loss of \$8,201) recognized through the condensed interim consolidated statements of operations and comprehensive (loss) income.

Future undiscounted minimum royalty payments including accrued interest on deferrals are set out in the following table:

	Total
	\$
Within 12 months	1,897,500
Between 13 and 24 months	1,897,500
Between 25 and 36 months	1,897,500
Between 37 and 48 months	1,897,500
Between 49 and 60 months	1,897,500
Over 60 months	8,538,750
Total undiscounted lease obligations	18,026,250

NextSource Materials Inc.
Notes to the Unaudited Condensed Interim Consolidated Financial Statements
For the six months ended December 31, 2023 and 2022
(Expressed in US Dollars)

8. Warrant Derivative Financial Liabilities

Warrants issued in a currency other than the Company's functional currency are considered a derivative financial liability settled through the consolidated statement of operations and comprehensive loss as per IFRS 9 *Financial Instruments*. The fair value of warrants is initially measured on their issue date as a financial liability using the Black-Scholes option valuation model. The fair value of exercised warrants is remeasured on their exercise date and the fair value is reallocated to equity. The fair value of expired warrants is remeasured on their expiration date and at each reporting period date through the condensed interim consolidated statement of operations and comprehensive loss.

	Warrant Liability
	\$
As at June 30, 2022	21,689,490
Reclassification to equity on exercise of warrants	(24,472,850)
Change in fair value through profit and loss	2,783,360
As at June 30, 2023 and December 31, 2023	-

9. Commercial production obligation

On April 16, 2014, the Company signed a Sale and Purchase Agreement and a Mineral Rights Agreement (together "the Agreements") with Capricorn Metals (formerly Malagasy Minerals) to acquire the remaining 25% interest in the Molo Property. Pursuant to the Agreements, a further cash payment of CAD\$1,000,000 is due within 30 days of the commencement of commercial production (the "Commercial Production Fee"). On June 30, 2021, the Company recognized a provision of \$708,514 using a 13.8% discount rate based on an initial expectation of settlement on or around June 30, 2022. The provision was recorded at amortized cost and capitalized as property under property, plant, equipment, and development. The obligation expected to be settled upon the declaration of commercial production of the Molo Mine.

During the six months ended December 30, 2023, the obligation increased through accretion of \$nil (2022: \$47,318). On December 31, 2023, the obligation was remeasured at \$677,278 (June 30, 2023: \$754,973) resulting in remeasurement gain of \$46,362 (June 30, 2023: \$nil) and a foreign exchange gain of \$31,333 (June 30, 2023: \$nil) that were recognized through the consolidated statements of operations and comprehensive (loss) income.

10. Asset retirement obligations

The Company has recognized provisions for asset retirement obligations at its Molo Mine property. Although the ultimate amounts of the future site reclamation provisions are uncertain, the provision of these obligations is based on information currently available, including closure plans and applicable regulations. The amount and timing of closure plans will vary depending on several factors including changes in the mining plan. Significant closure activities will include demolition of facilities, land rehabilitation, water treatment, monitoring, and other costs.

As of December 31, 2023, the present value of future cash flows required to settle the Company's closure and decommissioning costs was estimated at \$490,141 (June 30, 2023: \$492,346)

As of December 31, 2023, the undiscounted estimated cash flows required to settle the Company's estimated future closure and decommissioning costs was estimated at \$1,404,798 (June 30, 2023: \$1,404,798). The obligation is expected to be settled at the end of the 30-year life of mine in 2053. The estimated future cash flows were converted into local currency and inflated using an expected inflation rate of 8.15%. The provision for closure and decommissioning costs was then calculated using a discount rate of 12%.

11. Commitments

The Company has contractual commitments under an energy services agreement ("ESA") with CrossBoundary Energy Madagascar ("CBE") for the hybrid solar thermal power plant owned and operated by CBE that is supplying electricity to the Molo Mine. The ESA has a term of 20 years ending in 2043 and requires the Company to purchase a minimum energy output of 11,200,000 KWh per annum at a tariff of \$0.0837 per KWh equivalent to \$937,440 per annum.

The Company is also subject to contractual commitments related to royalties as described in notes 5 and 7.

NextSource Materials Inc.
Notes to the Unaudited Condensed Interim Consolidated Financial Statements
For the six months ended December 31, 2023 and 2022
(Expressed in US Dollars)

12. Share capital

As of December 31, 2023, the Company had 155,783,507 common shares issued and outstanding (June 30, 2023: 125,271,007). The Company's common shares have no par value, and the authorized share capital is composed of an unlimited number of common shares.

The following changes occurred during the six months ended December 31, 2023:

- On August 1, 2023, the Company completed a prospectus equity funding of \$37,750,585 (CAD\$50,000,775) through the issuance of 30,303,500 common shares at a price of CAD\$1.65 per share resulting in net proceeds of \$36,266,783.
- On November 28, 2023, the Company issued 209,000 common shares to an officer as part of their severance with a fair value of \$216,000.

13. Stock options

The Company determined the fair value of stock options using the Black-Scholes option valuation model, which has several inputs including the market price, the exercise price, compound risk free interest rate, annualized volatility, and the number of periods until expiration. The fair value is recorded in equity and expensed through profit and loss over the vesting period. Each stock option entitles the holder to purchase one common share of the Company at the respective exercise price prior to, or on, its expiration date.

As of December 31, 2023, the Company had 1,710,000 stock options outstanding (June 30, 2023: 1,710,000) with a weighted average expiration of 0.25 years (June 30, 2023: 0.75) exercisable into 1,710,000 common shares (June 30, 2023: 1,710,000) at a weighted average exercise price of CAD\$2.70 (June 30, 2023: CAD\$2.70). All outstanding stock options vested on their respective grant dates.

Grant Date	Expiration Date	Exercise Price	As at			Exercised	As at
			June 30, 2023	Awarded	Cancelled		December 31, 2023
March 26, 2019	March 26, 2024	CAD \$1.00	580,000	-	-	-	580,000
March 19, 2021	March 19, 2024	CAD \$3.60	1,100,000	-	-	-	1,100,000
May 11, 2022	May 11, 2025	CAD \$2.50	30,000	-	-	-	30,000
Totals			1,710,000	-	-	-	1,710,000

There were no changes during the six months ended December 31, 2023.

14. Restricted share units (RSUs)

The fair value of RSUs is based on the grant-day intrinsic value of the shares that are expected to vest by the vesting date. Each RSU entitles the holder to receive a common share of the Company prior to, or on, its expiration date subject to achieving the performance criterion ("milestone") prior to, or on, its vesting date. The fair value is recorded in equity and expensed through profit and loss over the expected vesting period and is subject to remeasurement at the end of each reporting period based on the probability of achieving the milestone and adjustments for potential forfeitures.

As of December 31, 2023, the Company had 160,000 RSUs outstanding (June 30, 2023: 160,000) that subject to satisfying their respective vesting conditions entitle the holders to receive 160,000 common shares (June 30, 2023: 160,000) for no additional consideration. The RSUs have a weighted average time until vesting of nil years (June 30, 2023: nil) and weighted average time until expiration of 0.5 years (June 30, 2023: 1.00).

Grant Date	Vesting Measurement Date	Expiration Date	As at			Settled in Shares	As at
			June 30, 2023	Awarded	Settled in Cash		December 31, 2023
<i>Vested RSUs</i>							
July 28, 2022	June 30, 2023	June 30, 2024	160,000	-	-	-	160,000
Totals			160,000	-	-	-	160,000

There were no changes during the six months ended December 31, 2023.

15. Segment reporting

The Company has two operating segments, consisting of mine development and BAF development. No commercial revenues have been generated by the Company. The Company's President and Chief Executive Officer and Chief Financial Officer are the operating decision-makers and direct the allocation of resources to its segments.

The Company's reportable segments for purposes of assessing performance are presented as follows:

	Six months ended December 31, 2023			Six months ended December 31, 2022

16. Related party transactions

Parties are related if one party has the direct or indirect ability to control or exercise significant influence over the other party in making operating and financial decisions. Parties are also related if they are subject to common control or common significant influence. Related parties include the Company subsidiaries and key management. Key management consists of the Board of Directors, Chief Executive Officer, Chief Financial Officer, and Senior Vice Presidents. Related parties also include companies controlled by key management. Related party transactions occur when there is a transfer of economic resources or financial obligations between related parties. Related party transactions in the normal course of business that have commercial substance are initially measured at fair value. Balances and transactions between the Company and its wholly owned subsidiaries have been eliminated and are not disclosed in this note.

The following key management *related party transactions* occurred during the following reporting periods:

Related party transactions contained within	Six months ended December 31, 2023	Six months ended December 31, 2022	Three months ended December 31, 2023	Three months ended December 31, 2022
Payroll and benefits	\$ 621,668	\$ 324,589	\$ 232,620	\$ 175,002
Management consulting fees	450,852	181,947	\$ 360,016	\$ 89,308
Professional fees	6,673	10,293	\$ 3,323	\$ 5,099
Share-based compensation	216,000	346,146	\$ 216,000	\$ 166,403
Total	\$ 1,295,193	\$ 862,975	\$ 811,959	\$ 435,812

Payroll and benefits are for management compensation for Craig Scherba (CEO), Brent Nykoliati (SVP), Danniell Stokes (VP), and Markus Reichardt (VP), and for remuneration of Directors for Brett Whalen (Director), Chris Kruba (Director), Ian Pearce (Director) and Sir Mick Davis (Chair of the Board). Consulting fees are for management compensation for companies controlled by Marc Johnson (CFO), Johnny Velloza (interim COO), and Robin Borley (former COO). Professional fees are for accounting services performed by a company controlled by Marc Johnson (CFO). Share-based compensation is for the vesting of stock options and RSUs expenditures.

The following key management *related party balances* existed at the end of the following reporting periods:

Related party transactions contained within	As at December 31, 2023	As at June 30, 2023
Amounts receivable	\$ 185,460	\$ 185,478
Accounts payable and accrued liabilities	228,881	63,750
Current portion of royalty obligations	2,846,250	2,846,250
Royalty obligations	8,960,910	9,170,631

Amounts receivable are for short-term loans to officers related to the exercise of stock options. Accounts payable and accrued liabilities are for accounts payable to related parties and the accrual of director fees. The royalty obligations are owed to Vision Blue.

Vision Blue participated in the prospectus offering financing completed on August 1, 2023 by subscribing to 14,151,500 common shares for gross proceeds of \$17,629,523 (CAD\$23,349,975).

NextSource Materials Inc.
Notes to the Unaudited Condensed Interim Consolidated Financial Statements
For the six months ended December 31, 2023 and 2022
(Expressed in US Dollars)

17. Capital management

There were no changes in the Company's approach to capital management during the six months ended December 31, 2023.

The Company's investment policy is to invest excess cash in very low risk financial instruments such as term deposits or by holding funds in high yield savings accounts with major Canadian banks. The Company is not subject to any externally imposed capital requirements. To date, the Company has funded operations by raising equity and obtaining royalty financing.

The Company manages its capital structure (consisting of shareholders' equity and debt obligations) on an ongoing basis and in response to changes in economic conditions and risk characteristics of its underlying assets. Changes to the capital structure can involve the issuance of new equity, obtaining working capital loans, construction financing, issuing debt, the acquisition or disposition of assets, or adjustments to the amounts held in cash, cash equivalents and short-term investments.

Capital Resource Analysis

As of December 31, 2023, the Company had working capital of \$27,946,881 (June 30, 2023: \$120,050). Based on management's past ability to manage its working capital, the Company believes it will be able to satisfy its current and long-term obligations as they become due.

As of December 31, 2023, the Company had cash and cash equivalents of \$30,873,388 (June 30, 2023: \$6,885,458). Cash and cash equivalents are expected to be sufficient to settle current liabilities as they become due, fund commissioning costs for the Molo Mine until commercial production can be achieved, and fund planned Mauritius BAF construction costs. The Company will require additional funding to cover general and administrative costs, general working capital and development costs related to any future expansion of the Molo Mine and construction of additional BAF plants.

The Company may choose to raise additional capital by issuing new equity, obtaining working capital, construction financing, or secured loans, or arranging other financing arrangements. While the Company has been successful at obtaining additional financing in the past, there can be no assurance it will be able to do so in the future or on terms that are acceptable to the Company.

18. Financial Instruments and Risk Management

Financial instruments are exposed to certain financial risks, which may include liquidity risk, credit risk, interest rate risk, commodity price risk, and currency risk:

Liquidity risk

The following obligations have contractual maturities over the next twelve months:

- Accounts payable and accrued liabilities, which are generally due within 30 days.
- Minimum repayments under the royalty agreement that are due semi-annually on June 30 and December 31.
- Commercial production obligation that is due upon the declaration of commercial production at the Molo Mine.
- Lease payment obligations that are due annually.

As of December 31, 2023, the Company had cash and cash equivalents of \$30,873,388 (June 30, 2023: \$6,885,458) to settle current liabilities of \$6,625,972 (June 30, 2023: \$7,902,378). As a result, the Company was not exposed to liquidity risk on December 31, 2023.

Liquidity risk is the risk that the Company will not be able to meet its obligations associated with financial liabilities. Liquidity risk arises from the Company's financial obligations and in the management of its assets, liabilities, and capital structure. To minimize liquidity risk, the Company has implemented cost control measures including a construction budget and the minimizing of discretionary expenditures unless the project has sufficient economic or geologic merit. In managing liquidity, the Company's primary objective is to ensure the entity can continue as a going concern while obtaining sufficient funding to meet its obligations as they come due. The Company manages this risk by regularly evaluating its liquid financial resources to fund current and long-term obligations and to meet its capital commitments in a cost-effective manner. The main factors that affect liquidity include working capital requirements, capital-expenditure requirements, and equity capital market conditions. The Company's liquidity requirements are met through a variety of sources, including cash and cash equivalents and equity capital markets. The Company will require additional funding to cover general and administrative costs, general working capital and development costs related to any future expansion of the Molo Mine and construction of additional BAF plants.

Credit risk

The Company does not have commercial receivables and therefore does not have credit risk related to amounts receivables. The Company has credit risk arising from amounts classified as loans to officers. The Company manages this risk by settling against amounts due to officers. The Company has credit risk arising from the potential from counterparty default on cash and cash equivalents held on deposit with financial institutions. The Company manages this risk by ensuring that deposits are only held with large Canadian banks and financial institutions, whereas any offshore deposits are held with reputable foreign financial institutions. The Company also limits the deposits held with foreign financial institutions.

NextSource Materials Inc.
Notes to the Unaudited Condensed Interim Consolidated Financial Statements
For the six months ended December 31, 2023 and 2022

(Expressed in US Dollars)

18. Financial instruments and risk management (continued)

During the six months ended December 31, 2023, due to considerable uncertainty as to the timing and recoverability of refundable Madagascar value added tax (VAT) denominated in local currency and recognized in amounts receivable, the Company recognized an impairment of VAT receivable of \$847,129 (2023: \$2,873,701). As of December 31, 2023, amounts receivable are presented net of an impairment of VAT receivable of \$4,741,364 (June 30, 2023, \$3,953,376).

Interest rate risk

This is the sensitivity of the fair value or of the future cash flows of a financial instrument to changes in interest rates. The Company does not have any financial assets or liabilities that are subject to variable interest rates.

Commodity price risks

This is the sensitivity of the fair value of, and future cash flows, generated from its mineral projects to changes in commodity prices. The Molo Mine property and assets under construction are carried at historical cost. As a result, the recoverability of the carrying values are exposed to commodity price risks. The royalty obligation remeasurement includes an estimate of the present value of royalties paid on graphite revenues and as a result, is exposed to graphite price risk with a sensitivity to a 10% change in graphite prices of 1%. Graphite does not have an established forward pricing or futures market that could be used to hedge against this exposure. The Company manages this risk by monitoring mineral and commodity price trends to determine the appropriate timing for funding the development, acquisition or disposition of its mineral exploration and development projects.

Currency risk

This is the sensitivity of the fair value or of the future cash flows of financial instruments to changes in foreign exchange rates. The Company transacts in currencies other than the US dollar, including the Canadian dollar, the Madagascar Ariary, the Mauritius Rupee, and the South African Rand. The Company purchases services and has certain salary commitments in those foreign currencies. The Company also has monetary and financial instruments that may fluctuate due to changes in foreign exchange rates. Derivative financial instruments are not used to reduce exposure to fluctuations in foreign exchange rates. The Company is not sensitive to foreign exchange exposure on revenues since it has not made commitments to deliver products quoted in foreign currencies. Since construction of the Molo Mine, the Company is sensitive to foreign exchange risk arising from the translation of the financial statements of subsidiaries with a functional currency other than the US dollar, whereby changes in the carrying amounts of certain assets, liabilities and equity are measured through other comprehensive income.

As at December 31, 2023, the Company had the following balances in foreign currency:

		As at December 31, 2023	As at June 30, 2023
Cash and cash equivalents	CAD	\$ 4,925,473	\$ 2,119,393
Cash and cash equivalents	MGA	445,171	104,293
Cash and cash equivalents	MUR	30,568	38,448

NextSource Materials Inc.

Notes to the Unaudited Condensed Interim Consolidated Financial Statements

For the six months ended December 31, 2023 and 2022

(Expressed in US Dollars)

18. Financial instruments and risk management (continued)

As at December 31, 2023, the Company estimated that a 10% decrease of the USD versus foreign exchange rates would result in a gain of \$452,005 (June 30, 2023: loss of \$48,841) and a 10% increase in the USD versus foreign exchange rates would result in a loss of \$452,005 (June 30, 2023: gain of \$48,841).
