

March 15, 2023

Dear Fellow Shareholders,

Given our 2022 financial results, we started 2023 with a lot of synergy. Unfortunately, it only lasted the first few months of the year. In short, we had a deplorable last semester, and consequently, the company's financial results during 2023 were very challenging.

Sales for 2023 were \$348K, down from \$922K in 2022. To understand this result, we need to examine the composition of our revenues.

Equitech commercialized four distinct products: its original UV-Vis spectrophotometer and three products inherited with the acquisition of CompSOL. These three products contributed nicely to the results obtained in 2022. We projected sales of all four products to increase during 2023. Unfortunately, none of the CompSOL products generated revenues in 2023 for different reasons including technical obsolescence and commercial agreements that ended once we purchased the minority interest in CompSOL.

The lack of sales continuity was a major disappointment considering that we purchased CompSOL to diversify our product base and acquire new talent. The only positive remark about CompSOL's acquisition was the agreement signed between Equitech and M&M, allowing Dr. Jonathan Babaie to work full-time for Equitech.

FIG 1. Equitech Sales Revenues 2018 to 2022

With the UV-Vis technology, we faced a different problem. Sales of process equipment (including monitoring equipment) across different industries were down significantly throughout the year. For instance, in the plastics industry (one of our major markets), shipments of primary plastics processing machinery in Q4 2023 were down 19.5 percent compared to Q4 2022.

Other reasons that affected the sales of process equipment included continued supply chain disruptions, decreased factory employment, and economic uncertainty. To this end, Equitech worked on several projects that would have resulted in the sales of instruments but were pushed over 'to the next period' because of economic concerns or because the customer did not have the engineering capacity to absorb them.

- COGS increased percentage - wise from \$686,432 (74.38%) in 2022 to \$292,485 (83.90%) in 2023, reflecting a higher cost for lower volume compared to 2022 and thus lowering our gross profit from 26% to 16%.
- Equitech's expenses decreased from \$735.7K (2022) to \$487.5K (2023). The main components of the operating costs and their variation from 2022 are explained below.
- Accounting expenses. As reported before, in July of 2023, we purchased the portion of CompSOL we did not owe. With the acquisition, accounting expenses diminished from \$89.9K (2022) to \$57K (2023).
- Attorney fees diminished slightly from \$12.2K (2022) to \$11K (2023).
- Marketing & advertising expenses decreased from \$60.7K (2022) to \$22K (2023). The company carried out direct mail campaigns instead of advertising.
- Payroll expenses decreased from \$331.6K (2022) to \$296K (2023). Some costs were shifted to R&D for better tracking.
- R&D expenses decreased from \$130.9K (2022) to \$79K (2023). This number includes payroll under this category and payments made to CompSOL during the first semester 2023.

Equitech is a Pink Sheets Current Information company complying with all the Over the Counter (OTC) requirements. The company acquired the remaining 19% of CompSOL that we did not own and continues to service historical liabilities and those absorbed with the acquisition of CompSOL.

During the traditional strategic planning meeting that we conduct every January, we will be evaluating a series of alternatives to address the issue that has disturbed us for many years, the lack of demand for our technology.

Equitech Int'l Corporation

Management is responsible for the accompanying financial statements of Equitech Int'l Corporation (a C corporation), which comprise the balance sheets as of December 31, 2023 and 2022, and the related statements of operations, stockholders' deficit, and cash flows for the years then ended, and the related notes to the financial statements in accordance with accounting principles generally accepted in the United States of America. We have performed a compilation engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. We did not audit or review the financial statements nor were we required to perform any procedures to verify the accuracy or completeness of the information provided by management. We do not express an opinion, a conclusion, nor provide assurance on these financial statements.

Substantial Doubt about the Company's Ability to Continue as a Going Concern

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note A to the financial statements, the Company's significant operating losses raise substantial doubt about its ability to continue as a going concern. Management's evaluation of the events and conditions and management's plans regarding those matters are also described in Note A. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

EQUITECH INT'L CORPORATION
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2023 AND 2022

Note A
Summary of Significant Accounting Policies

Nature of Operations:

Equitech Int'l Corporation ("Equitech"), a Nevada Corporation, was formed on March 28, 1995, to specialize in the design, sales, installation of service of fiber optic instrumentation systems. Equitech is a publicly held corporation trading over the counter on pink sheets whose product lines will include a wide range of sensors, analytical products and electronic equipment used in research, industrial process control and commercial consumer electronics. Equitech is headquartered in Indian Trail, North Carolina.

Consolidation and Share Exchange Agreement:

For the period from January 1, 2023 to June 30, 2023 and for the year ended December 31, 2022, the financial statements were consolidated between Equitech and CompSOL USA Inc ("CompSOL") with Equitech owning the majority (81%) of CompSOL. Effective July 1, 2023, the minority shareholders of CompSOL exchanged the remaining 19% of their ownership in CompSOL for approximately 2% ownership of the Company. There was no purchase consideration for the agreement. Upon completion of this transaction, CompSol was merged into Equitech with Equitech remaining as the surviving corporation. Significant intercompany balances and transactions were eliminated in consolidation for the applicable periods. Equitech Int'l Corporation will be collectively referred to as "the Company".

Noncontrolling Interest:

For the period from January 1, 2023 to June 30, 2023 and for the year ended December 31, 2022, noncontrolling interest was the portion of the ownership in CompSOL not directly attributable to Equitech and was reported as a separate component of the Company's stockholders' deficit in its consolidated financial statements. The Company's net loss was reported at amounts that include the amounts attributable to both the Company and the noncontrolling interest.

Liquidity:

The financial statements have been prepared assuming the Company will continue as a going concern. The Company has incurred net losses since its inception, with an accumulated deficit of approximately \$15.5 million and a negative current ratio as of December 31, 2023. Management's plans with regard to these matters include converting the notes payable due to stockholders and accrued liabilities to equity and creating synergies and expense cuts with the share exchange agreement between Equitech and CompSOL to increase financial viability. Significant amounts of the accounts payable balance at December 31, 2023, are due to a strategic partner and related parties that are allowing extended payment terms as cash is available. Management projected that they will start generating enough cash flow to cover the operating needs in the coming years. The financial statements do not include any adjustments that might result from the outcome of these uncertainties.

Note A
Summary of Significant Accounting Policies (Continued)

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statement. Estimates are used for, but not limited to, accrued liabilities and contingencies. Actual results could differ from these estimates.

Concentration of Credit Risk Arising From Cash Deposits in Excess of Insured Limits:

The Company maintains cash balances at four commercial bank(s). These balances may, at times, exceed the Federal Deposit Insurance Corporation ("FDIC") insured deposit limit of \$250,000 per financial institution. At December 31, 2023 and 2022, the Company's cash balances held at the commercial banks did not exceed the FDIC limit. The Company has not experienced any losses in these accounts through the date when the financial statements were available to be issued.

Accounts Receivable - Trade:

The Company extends credit to customers located throughout the world based on the size of the customer, its payment history, and other factors. The Company generally does not require collateral to support customer receivables. The Company provides an allowance for credit losses based upon a review of the outstanding accounts receivable, historical collection information and existing economic conditions. The Company determines if receivables are past due based on days outstanding, and amounts are written off when determined to be uncollectible by management. The maximum accounting loss from the credit risk associated with accounts receivable is the amount of the receivable recorded, which is the face amount of the receivable, net of the allowance for credit losses. For the years ended December 31, 2023 and 2022, the Company believes all receivables are fully collectible, and accordingly, no allowance for credit losses has been established.

The opening and closing balances of accounts receivable - trade from contracts with customers as of December 31, 2023, 2022 and 2021, are as follows:

	<u>December 31,</u> <u>2023</u>	<u>December 31,</u> <u>2022</u>	<u>December 31,</u> <u>2021</u>
<u>Assets:</u>			
Accounts receivable-trade	\$ 25,601	\$ 44,616	\$ 47,699

Inventory:

Inventory consists of parts, and is stated at the lower of cost or net realizable value. Inventory is valued using the first-in, first-out method. Provisions are made in each period for the estimated effect of obsolete and slow-moving inventories. For the years ended December 31, 2023 and 2022, the Company determined no reserve for obsolete and slow-moving inventories was necessary.

EQUITECH INT'L CORPORATION
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2023 AND 2022

Note A
Summary of Significant Accounting Policies (Continued)

Investment in Optoniks Corp:

The Company owns a 2% ownership interest in Optoniks Corp. ("Optoniks"). This investment is accounted for using the cost method of accounting. Accordingly, the investment is recorded at the historical cost of the Company's equity in Optoniks.

Impairment of Long-Lived Assets:

Long-lived assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be fully recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of the assets to their fair value, which is normally determined through analysis of the future net cash flows expected to be generated by the assets. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount that the carrying amount of the assets exceeds the fair value of the assets. There is no impairment necessary for the years ended December 31, 2023 and 2022.

Accrued Compensation:

Accrued compensation consists of wages earned by employees, but not paid by the Company. The employees have deferred the receipt of these wages through verbal and written agreements.

Revenue Recognition:

The Company recognizes revenue in accordance with ASC 606 when: (i) a contract with a client has been identified, (ii) the performance obligation(s) in the contract have been identified, (iii) the transaction price has been determined, (iv) the transaction price has been allocated to each performance obligation in the contract, and (v) the Company has satisfied the applicable performance obligation.

The Company designs, sells, installs and services fiber optic instrumentation systems. Revenue is recognized when performance obligations under the terms of the contracts with customers are satisfied. The Company's performance obligation generally consists of the promise to manufacture and install finished products to its customers. The performance obligation is satisfied upon transfer of control of finished goods, which occurs upon shipment to or installation at the customer locations, as determined by specific terms. Revenue is measured as the amount of consideration the Company expects to receive in exchange for transferring goods and is recognized upon transfer of control. The Company also performs maintenance and repair services for the systems and the performance obligation is recognized at a point in time upon the completion of the services since the services are completed within a short period of time. The Company also rents out the systems and recognizes revenue over the rental period. The Company's invoices are due within 30 days.

Shipping and Handling Costs:

The Company classifies shipping and handling amounts billed to customers as sales, and shipping and handling costs as a component of cost of goods sold.

EQUITECH INT'L CORPORATION
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2023 AND 2022

Note A
Summary of Significant Accounting Policies (Continued)

Advertising:

The Company expenses advertising costs as incurred. Advertising expenses were approximately \$22,000 and \$61,000 for the years ended December 31, 2023 and 2022, respectively.

Income Taxes:

The Company accounts for income taxes using the asset and liability approach. Deferred tax assets and liabilities are recognized for the future tax consequences of differences between the financial statements carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates scheduled to be in effect when temporary differences are expected to be recovered or settled. The effect of a change in enacted tax rates on the deferred tax assets and liabilities is recognized in income in the financial statement period when the new tax rates are enacted. The Company assesses the realizability of its deferred tax assets annually and records a valuation allowance when it is determined more likely than not that a deferred tax asset will not be realized in full.

The Company accounts for the uncertainty in income taxes as prescribed by the minimum probability threshold that a tax position must meet before a financial statement benefit is recognized. The minimum threshold is defined as a tax position that is more likely than not to be sustained upon examination by the applicable taxing authority, including resolution of any related appeals or litigation processes, based on the technical merits of the position. The tax benefit to be recognized is measured as the largest amount of benefit that is greater than 50% likely of being realized upon ultimate settlement. There were no uncertain tax positions as of December 31, 2023 and 2022.

The Company is no longer subject to Federal or State income tax examination for calendar years prior to 2020.

Fair Value of Financial Instruments:

The Company's financial instruments, including cash, accounts receivable, accounts payable, and accrued liabilities, are carried at cost, which approximates their fair value because of the short-term nature of these financial instruments. The carrying value of notes payable are based on the instruments' interest rate, terms, maturity date and collateral, if any, in comparison to the Company's incremental borrowing rate for similar financial instruments.

EQUITECH INT'L CORPORATION
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2023 AND 2022

Note A
Summary of Significant Accounting Policies (Continued)

Leases:

The Company adopted ASC 842 - Leases effective January 1, 2022, with all the available practical expedients, retrospectively at the beginning of the period of adoption. There was no retained earnings impact on the adoption of ASC 842. The Company recognizes and measures its leases in accordance with ASC 842 Leases. The Company determines if an arrangement is a lease, or contains a lease, at inception of a contract and when the terms of an existing contract are changed. The Company recognizes a lease liability and a right of use (ROU) asset at the commencement date of each lease. The lease liability is initially and subsequently recognized based on the present value of the contract's future lease payments.

Variable payments are included in the future lease payments when those variable payments depend on an index or a rate. The discount rate is the implicit rate, if it is readily determinable, or the Company's incremental borrowing rate. The Company's incremental borrowing rate for a lease is the rate of interest it would have to pay on a collateralized basis to borrow an amount equal to the lease payments under similar terms and in a similar economic environment.

The Company has elected to not recognize ROU assets and lease liabilities for short-term leases that have a lease term of 12 months or less at lease commencement and do not include an option to purchase the underlying asset that the Company is reasonably certain to exercise. The Company recognizes lease costs associated with its short-term leases on a straight-line basis over the lease term. When contracts contain lease and non-lease components, the Company accounts for both components as a single lease component. As of December 31, 2023 and 2022, the Company had one outstanding lease (see Note G) to evaluate for adoption of ASC 842. It was determined that the recording of the ROU asset and lease liability would not cause the financial statements to be misstated. The lease agreement ended effective February 10, 2023, and will continue month-to-month as a new agreement has not been reached.

Recent Accounting Pronouncements:

Instruments - Credit Losses (Topic 326), or CECL, which prescribes an impairment model for most financial instruments based on expected losses rather than incurred losses. Under this model, an estimate of expected credit losses over the contractual life of the instrument is to be recorded as of the end of a reporting period as an allowance to offset the amortized cost basis, resulting in a net presentation of the amount expected to be collected on the financial instrument. For most instruments, entities must apply the standard using a cumulative-effect adjustment to beginning retained earnings as of the beginning of the fiscal year of adoption.

The Company adopted the CECL standard effective January 1, 2023, using the required modified retrospective approach. The impact of the adoption was not considered material to the financial statements. Financial assets and liabilities held by the Company subject to the "expected credit loss" model prescribed by CECL include trade receivables.

EQUITECH INT'L CORPORATION
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2023 AND 2022

Note B
Notes Payable

Notes payable consists of unsecured agreements with certain stockholders and other employees. The notes bear interest at fixed rates ranging from 0% to 10% and are due upon demand. The total outstanding balance as of December 31, 2023 and 2022, was \$257,724 and \$265,724. Certain agreements, if elected, can be converted to shares of common stock.

Note C
Stock-Based Compensation

During 2021, the Company's Board approved a stock option plan for employees, directors, officers, and other service providers of the Company (the "Equity Plan"). The Equity Plan provided the Board the authority to grant options to purchase up to 620,000 shares of common stock. The option exercise price for each grant of incentive stock option shall not be less than the fair market value of a share on the grant date. Fair market value of each share is determined by the amount of the obligation being exchanged compared to the amount of options granted, agreed upon by both parties. The options generally vest 100% after the first year of service following the grant date. Certain options were granted with an immediate vesting. The options expire as set forth by the Board, but not more than 10 years from the date of grant.

A summary of the Company's common stock option activity and related information is as follows:

	<u>Options</u>	<u>Weighted Average Exercise Price</u>	<u>Weighted Average Remaining Contractual Term (in years)</u>
Outstanding at January 1, 2023	608,986	\$ 5.00	9.14

As of December 31, 2023 and 2022, there was no unrecognized stock-based compensation. During the year ended December 31, 2023, the weighted average grant date fair value of common stock options granted was \$2.36.

Note D
Stockholders' Equity

The Company has two classes of preferred stock: Class A Preferred Stock and Class B Preferred Stock (collectively, "Preferred Stock"). The Board of Directors of the Company establishes the rights, privileges, voting, liquidation preference, series, convertibility, dividend and redemption provisions of the Preferred Stock. The holders of the Preferred Stock are entitled to dividends at a rate established by the Board of Directors with Priority over the holders of common stock. Upon dissolution, the holders of Preferred Stock will hold first priority over the holders of common stock. Upon dissolution, the holders of Preferred Stock will hold first priority of the liquidation value of the remaining assets of the Company. All outstanding preferred shares are convertible at \$1.00 per share at a rate of 1 to 3 shares of common stock, depending on the stockholder's agreement.

Note F
Income Taxes

The tax effects of temporary differences that give rise to significant portions of the deferred tax asset at December 31, consist of:

	<u>2023</u>	<u>2022</u>
<u>Deferred tax asset:</u>		
Available net operating loss carryforwards	\$ 2,006,760	\$ 1,979,025
Valuation allowance	<u>(2,006,760)</u>	<u>(1,979,025)</u>
Net deferred tax asset	<u>\$ -</u>	<u>\$ -</u>

As of December 31, 2023, the Company has generated a net operating loss ("NOL") carryforward for tax purposes of approximately \$9,556,000, which can be carried forward to offset future taxable income. The NOL carryovers created prior to 2017 amount to approximately \$7,328,000 and expire 20 years from the year generated. The NOL carryovers created beginning in 2018 amount to approximately \$2,228,000 and do not expire, but are limited to the 80% of income limitation. No benefit for income taxes has been recorded due to the uncertainty of the realization of any tax assets, accordingly, the Company recorded a full valuation allowance on the deferred tax asset as of December 31, 2023.

Note G
Commitments and Contingencies

Operating Leases:

On February 10, 2021, the Company entered into a Strategic Alliance Agreement with four other companies to consolidate expenses and integrate commercial synergies between all parties. Prior to this agreement, the Company leased office space under a noncancelable operating lease agreement that was set to expire in September 2023. The lease agreement was cancelled upon execution of the Strategic Alliance Agreement with no penalty. As part of the Strategic Alliance Agreement, a facility was leased in which the Company's portion of the rent is \$1,250 per month for 24 months. The lease agreement ended effective February 10, 2023, and will continue month-to-month as a new agreement has not been reached.

Rent expense under this agreement totaled \$9,750 and \$24,100 for the years ended December 31, 2023 and 2022, respectively.

Security Description:

The goal of this section is to provide a clear understanding of the material rights and privileges of the securities issued by the company. Please provide the below information for each class of the company's equity securities, as applicable:

1. For common equity, describe any dividend, voting and preemption rights.

Common shareholders are granted six rights: voting power, ownership, the right to transfer ownership, dividends, the right to inspect corporate documents, and the right to sue for wrongful acts. The corporation has the authority to issue up to 12,500,000 shares, \$0.001 par value per share. Each share entitles the holder thereof to one vote and to share ratably in any dividend declared on the common stock.

2. For preferred stock, describe the dividend, voting, conversion, and liquidation rights as well as redemption or sinking fund provisions.

The corporation has the authority to issue up to 2,000,000 shares, \$0.001 par value per share, of which 179,906 have been designated as Series A Preferred. Out of 179,906 preferred shares, there are 6,000 shares have the right to convert 1 preferred share to 1 common share; 87,265 preferred shares convert to 2 common shares; 66,641 preferred shares convert to 3 common shares; 15,000 preferred shares convert to 25,000 common shares.

3. Describe any other material rights of common or preferred stockholders.

None

4. Describe any material modifications to rights of holders of the company's securities that have occurred over the reporting period covered by this report.

None.

3) Issuance History

The goal of this section is to provide disclosure with respect to each event that resulted in any changes to the total shares outstanding of any class of the issuer's securities **in the past two completed fiscal years and any subsequent interim period.**

Disclosure under this item shall include, in chronological order, all offerings and issuances of securities, including debt convertible into equity securities, whether private or public, and all shares, or any other securities or options to acquire such securities, issued for services. Using the tabular format below, please describe these events.

4) Issuer's Business, Products and Services

The purpose of this section is to provide a clear description of the issuer's current operations. (Please ensure that these descriptions are updated on the Company's Profile on www.otcmarkets.com).

A. Summarize the issuer's business operations (If the issuer does not have current operations, state "no operations")

Equitech is positioned to become a global leader of opto-electronic solutions (device + software) capable of in-line measurements in manufacturing processes. Equitech systems will be used in batch or continuous processes and are capable of measuring properties such as color, composition, thickness, turbidity, haze, warpage, flatness, socket pin coplanarity, socket pin 3D coordinates, etc. Typical industries that can use our products are semiconductors, biomedical, advanced electronics, packaging, paper, plastics, chemical, food, pharmaceutical, cosmetics, paint, inks, water treatment industries, and many others.

Equitech Customized Solutions (CS) market segment encompasses all opto-electronic products that are designed, developed, and manufactured for specific functions that satisfy certain customer needs. The products are not classified in any of the other business sectors.

Equitech will participate in a few major business sectors: UV-Vis spectroscopy and customize solutions.

B. List any subsidiaries, parent company, or affiliated companies.

Equitech has completed the acquisition of the minority interest of CompSOL and now owns 100% of the entity. CompSOL has capabilities to produce opto-electronic devices used for the in-line measurement of key processing

variables in many industries. With this acquisition, Equitech has repositioned itself as a provider of “Optoelectronic Solutions for Process Management”.

In addition to the engineering and manufacturing capabilities, CompSOL provides Equitech with a diversified product line and an immediate stream of revenue generating products with contracts already established. CompSOL invested on a new manufacturing facility to produce fiber-optic probes and a new laboratory space for the quality control of Equitech’s UV-Vis spectrophotometers.

M&M Technology (MMTI) provides printed circuit boards and contract manufacturing services to the industrial, automotive, computer, and telecommunication industries in North America. MMTI also provides box-level integrations and assembly including panel assemblies and related subassemblies. CompSOL will subcontract with MMTI some of the subassemblies required by Equitech.

C. Describe the issuers’ principal products or services.

Equitech's products consist of opto-electronic devices developed to measure different variables in production (in-line, real-time) in a variety of process environments.

5) Issuer’s Facilities

The goal of this section is to provide a potential investor with a clear understanding of all assets, properties or facilities owned, used or leased by the issuer and the extent in which the facilities are utilized.

In responding to this item, please clearly describe the assets, properties, or facilities of the issuer, give the location of the principal plants and other property of the issuer and describe the condition of the properties. If the issuer does not have complete ownership or control of the property (for example, if others also own the property or if there is a mortgage on the property), describe the limitations on the ownership.

If the issuer leases any assets, properties, or facilities, clearly describe them as above and the terms of their leases.

In March 2021, Equitech relocated its manufacturing facilities to Indian Trail, a suburb of Charlotte, North Carolina where it shares 25,000 sq. ft. with its strategic alliance partners. The site has dedicated areas for each of the companies: bridgeTec, Lumia Group, Optoniks, CompSOL, M&M Technology, and Equitech. The manufacturing site has a stock room for inventory parts, several conference rooms, and a packaging and shipping area. CompSOL has several dedicated rooms for opto-electronic assembly. Equitech enjoys 3 areas: a QC laboratory that serves also as an office, a manufacturing line on the main floor, and a brand-new probe assembly area on the second floor.

On January 1, 2022, Equitech consolidated its corporate headquarters and manufacturing facilities in Indian Trail, NC.

6) Officers, Directors, and Control Persons

Using the table below, please provide information, as of the period end date of this report, regarding any officers, or directors of the company, individuals or entities controlling more than 5% of any class of the issuers securities, or any person that performs a similar function, regardless of the number of shares they own. **If any insiders listed are corporate shareholders or entities, provide the name and address of the person(s) beneficially owning or controlling such corporate shareholders, or the name and contact information (City, State) of an individual representing the corporation or entity in the note section.**

Include Company Insiders who own any outstanding units or shares of any class of any equity security of the issuer.

The goal of this section is to provide an investor with a clear understanding of the identity of all the persons or entities that are involved in managing, controlling or advising the operations, business development and disclosure of the issuer, as well as the identity of any significant or beneficial shareholders.
