Security Description:

Common Stock

The goal of this section is to provide a clear understanding of the material rights and privileges of the securities issued by the company. Please provide the below information for each class of the company's equity securities, as applicable:

1. For common equity, describe any dividend, voting, and preemption rights.

None

2. For preferred stock, describe the dividend, voting, conversion, and liquidation rights as well as redemption or sinking fund provisions.

There is one class of Preferred stock outstanding, designated, Series A. Series A Preferred Stock holders are not entitled to dividends; The record holder(s) of the Preferred A Stock shall have the right to vote on any matter with holders of common stock voting together as one class. A holder of the Series A Preferred Stock shall be entitled to the number of votes on such matters ("Voting Power") equal to the results of the of calculation described following, whose components are: (a) the number of shares of the Series A Preferred Stock held by such holder being the multiplicand; (b) the number of issued and outstanding shares of the Company's common stock, on a fully diluted basis as of the record date for the vote, or, if no such record date is established, as of the date such vote is taken or any written consent of stockholders is solicited, being the multiplier; the product of the multiplicand and the multiplier, being the product; the product then becoming the dividend, with the dividend divided by; (c) 0.2 (two tenths) being the divisor. The result of this dividend and divisor formula is the Quotient. The Quotient is equal to the number of votes eligible to be cast by the holder(s) of the Series A Preferred Stock Voting Power in any matter with the holders of the common stock voting as one class. Upon a dissolution of the Company, the Series A holders shall take pro rata such distributions with the holders of the common stock ("Common Stock") of the Corporation, in proportion to the respective voting powers of each; The holder of the Series A Preferred stock, In the event of any liquidation, dissolution, or winding up of the Corporation, whether voluntary or involuntary, the assets of the Corporation available for distribution to its stockholders shall be distributed to all holders of Preferred A Stock and pro rata with the holders of Common Stock based on the respective voting power of the Common and Preferred A shares. Series A Preferred have no conversion rights. There are no redemption or sinking funds provisions.

² "Public Float" shall mean the total number of unrestricted shares not held directly or indirectly by an officer, director, any person who is the beneficial owner of more than 10 percent of the total shares outstanding (a "control person"), or any affiliates thereof, or any immediate family members of officers, directors and control persons.

3. Describe any other material rights of common or preferred stockholders.

None

4. Describe any material modifications to rights of holders of the company's securities that have occurred over the reporting period covered by this report.

None

4) Issuer's Business, Products, and Services

The purpose of this section is to provide a clear description of the issuer's current operations. (Please ensure that these descriptions are updated on the Company's Profile on www.otcm Markets.com).

A. Summarize the issuer's business operations (If the issuer does not have current operations, state "no operations")

A. Issuer's Business, Products and Services

The Company owns several movie properties that it seeks to film for distribution in theaters and through other media, including DVD's, and streaming.

The Company plans to become fully reporting with the U.S. Securities and Exchange Commission ("SEC") again. This is part of its plans to uplift to the OTC Markets' OTCQB tier for the Company's common shares. The OTCQB, also called "The Venture Market," is the middle tier of the OTC Markets trading platforms for stocks. It consists mainly of early-stage and developing U.S. and international companies that are not yet able to qualify for the OTCQX but are not as speculative as the lowest tier, the Pink Market (The Company's common shares now trade on the Pink Tier of OTC Markets.).

The Company filed a \$500,000 Regulation A Tier 1 Form 1-A with the SEC to fund an uplift to the OTCQB and for various other corporate purposes including an audit, and for working capital. The Form 1-A was qualified by the Securities and Exchange Commission on January 6, 2022. The January 6, 2022 qualified Form 1-A ceased to be qualified routinely upon the passage of one year after it became qualified.

From December of 1999 through January 19, 2012, the Company had been a "reporting Company" with the Securities and Exchange Commission. It filed a de-registration form in 2012 and so ceased such reporting. The Company reports its financial and corporate information using the Alternative Reporting Standard. Its common stock is currently trading on the Pink Tier of OTC Markets' three tiers. The Company's primary SIC code is 7330.

REZN8 was a primary outside design source for Microsoft's graphical user interface, (including Microsoft Windows XP, and Microsoft XBOX).

TDOJ, LLC

Three Dimensions of Jerusalem has been fully scripted and budgeted movie. This is a family-oriented, faith-based film. Attached as Producer is Aaron Norris of the Norris Brothers. As Director Michael Landon, Jr. has been retained. Academy-Award-winning screenwriter Pamela Wallace has been secured as screenwriter. Israeli- Oscar nominated composer Misha Segal is the music composer. Academy Award winning special effects artist Harvey Lowry will handle special effects. For motion graphics and titles is 10-time Emmy-Award-winning graphic design artist Paul Sidlo. Currently, the film has a \$6,500,000 production budget. The financing formula calls for the investors to advance \$3,000,000 for half ownership. The balance of the budget would be funded through the Texas and Israel incentives and distribution advances. This is an action/adventure story about three teenagers that live in Jerusalem. One is Christian, one is Muslim, and one is Jewish. They're best friends and this story outlines the trials and dangers that they encounter in today's Jerusalem.

Climate Cure Capital Corporation (See Note 12 - Subsequent Events, to the Financial Statement Notes)

Climate Cure Capital Corporation ("CCC") has a management team comprised of experts with over 40 years of experience in project design, management, and implementation in the greenhouse gas reduction and renewable energy arenas. Its strategy identifies specific opportunities to provide emission reductions and/or energy efficiency in a startup project's early stages. For established operations, CCC provides innovative solutions and technologies by directing a project to achieve planned results. It receives a base fee and a considerable share of the environmental offset credits generated from the completed project. It provides environmental commodities services that can finance pollution mitigation from the production, sale, and brokerage of carbon credits, emissions credits and other environmental credits.

Climate Cure plans to activate a Landfill Methane Outreach Program operation, mitigating for profit the methane generated by landfills. Climate Cure will also operate its Alternative Compliance Program, to help fund pollution mitigation projects. This involves pre-sales of credits that would result in order to fund the projects' set-up.

A number of years ago, Climate Cure developed a proprietary fast-growth Paulownia Elongata tree named the SuperGreenTree™. These trees were developed by non-genetic modification through grafting. Climate Cure's SuperGreenTree™ seeds inventory were assigned to sister Company Eco Allies for use as needed. Eco Allies has applied for a registered trademark for SuperGreenTree. Eco Allies has licensed the common law trademark for SuperGreenTrees to a grower of Paulownia Elongata trees, which will include the registered trademark once granted.

For many years, SuperGreenTrees™ have been successfully grown domestically, and harvested by CCC. Leading Industry expert Philip Scalzo analyzed HDF SuperGreenTrees™ for revenue potential and calculated that over three years trees could yield \$44 each, just from biomass. Their carbon offset credit value increases their revenue potential considerably. One revenue stream from the trees is biofuel pellets. Six weeks after planting, these trees grow to about 1 1/2 feet and continue growing about 20 feet a year, to a maximum 60-foot height. They can be harvested after just one year for biomass for clean energy, making biochar, and even to make a product that supplants coal. They are a phytoremediator, meaning they can remove toxins from soil. Their ingestion of CO₂, as part of their natural life cycle, will produce offset credits that can be sold to offset carbon footprints of people and businesses. These trees will fully re-grow from their stumps up to 6 more times after the original planting and subsequent harvestings. Mixing mulched SuperGreenTrees™ with effluent from animal farms produces a cleaner burning, efficient fuel to sell. Animal farm effluent produces methane. Unabated, methane is a dangerous (and smelly) greenhouse gas vastly more dangerous to the climate than carbon dioxide. Preventing or lowering methane emissions benefits the atmosphere and results in high value, marketable methane offset credits. In addition, SuperGreenTrees™ produce a high-quality biochar. Biochar is a type of charcoal that is used in agriculture as a soil amendment, but has numerous uses, including waterway algae removal, mercury removal from smoke stacks at coal fired plants, plastic lumber component, enhance growth for specialty

agriculture (hemp, fruits, vegetables), activated carbon replacement, and as a livestock feed additive that reduces methane output from animals.

In late June 2023, ECO Allies, Climate Cure, and Arborescentum, of Leon, Mexico, agreed to the planting of SuperGreenTrees at Melissa Gonzalez’s Rancho San Miguel de la Soledad farm in Chihuahua, Mexico.

Eco Allies Inc.

Eco Allies Inc. (“EA”) is minority owned subsidiary, but controlled by the Company through super voting preferred shares it owns in EA. EA is a for-profit Nevada benefit corporation. Nevada benefit corporations are required to undertake actions that will have a material positive impact on society and the environment in some manner. For Eco Allies, it is climate decarbonization.

EA has a joint venture agreement with Biochar Now, LLC to build a 120 kiln Eco Allies biochar plant in Florida. This plant and the purchase of sufficient land to grow at least 1,000,000 SuperGreenTrees™ would be funded from the placement of Eco Allies’ recently filed and qualified \$20 million Form 1-A Reg A+ filing with the SEC. Revenue and income from the joint venture’s operations will be split 75% for EA and 25% for Biochar Now.

EA is pursuing opportunities in the Renewable and Sustainable Technologies Sectors and the Climate Change Mitigation Industry. EA has entered the joint venture agreement with Biochar Now, LLC (whose CEO is a member of the Board of Directors of both Stereo Vision and Eco Allies), The Joint Venture encompasses initial activities to manufacture, distribute, and market an Eco Allies™ branded biochar to be produced with Biochar Now’s patented technology. Eco Allies biochar products are to be sold to regional, national, and global markets for livestock feed (It is approved for such use by the USDA.), fertilizer, government pollution remediation projects, renewable energy, and for other renewable and sustainable uses, as well as for climate mitigation. A registration for the words ‘Eco Allies’ was provided by the US Patent and Trademark Office to make the words Eco Allies a registered trademark.

EA and Biochar Now, LLC expanded their J/V's terms to include a second plant in Mexico, and to increase in the number of kilns for each plant, of the two plants now planned to be built, from 120 to 180, or 360 kilns in total.

5) Issuer’s facilities

The goal of this section is to provide a potential investor with a clear understanding of all assets, properties or facilities owned, used or leased by the issuer and the extent in which the facilities are utilized.

In responding to this item, please clearly describe the assets, properties or facilities of the issuer, give the location of the principal plants and other property of the issuer and describe the condition of the properties. If the issuer does not have complete ownership or control of the property (for example, if others also own the property or if there is a mortgage on the property), describe the limitations on the ownership.

If the issuer leases any assets, properties or facilities, clearly describe them as above and the terms of their leases.

The Company does not own any properties and has no tangible assets, except assets as described above.

6) Officers, Directors, and Control Persons

Using the table below, please provide information, as of the period end date of this report, regarding any officers, or directors of the company, individuals or entities controlling more that 5% of any class of the issuers securities, or any person that performs a similar function, regardless of the number of shares they own. If any insiders listed are corporate shareholders or entities, provide the name and address of the person(s) beneficially owning or controlling such corporate shareholders, or the name and contact information (City, State) of an individual representing the corporation or entity in the note section.

Include Company Insiders who own any outstanding units or shares of any class of any equity security of the issuer. The goal of this section is to provide an investor with a clear understanding of the identity of all the persons or entities that are involved in managing, controlling or advising the operations, business development and disclosure of the issuer, as well as the identity of any significant or beneficial shareholders.

Include the name of the court or agency in which the proceedings are pending, the date instituted, the principal parties thereto, a description of the factual basis alleged to underlie the proceeding and the relief sought. Include similar

information as to any such proceedings known to be contemplated by governmental authorities.

7. Contract Lawsuit

On February 26, 2024, the Company was sued by Alta Waterford, LLC ("Alta"), in Small Claims court in Lake County, Illinois, the complaint for which was served on March 14, 2024. The complaint alleged breach of contract for investor relations services it claimed to have provided to the Company, valued by Alta at \$6,800. The Company denies the services were performed and has answered the complaint stating so, and alleging a variety of affirmative defenses. The Company engaged counsel in Illinois to answer the complaint and to represent it in court. The matter is currently ongoing. The Company believes that it will prevail in its defense and that Alta will collect nothing.

Notes to the Financial Statements

For the 3 Months Ending March 31, 2024

(Unaudited)

NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

This summary of accounting policies for Stereo Vision Entertainment, Inc. is presented to assist in understanding the Company's financial statements. The accounting policies conform to generally accepted accounting principles and have been consistently applied in the preparation of the financial statements.

The unaudited financial statements as March 31, 2024 include, in the opinion of management, all adjustments (which are only normally recurring adjustments) necessary to fairly state the financial position and results of operations for the twelve months period. Operating results for interim periods are not necessarily indicative of the results which can be expected for full years.

Nature of Operations and Going Concern

The accompanying financial statements have been prepared on the basis of accounting principles applicable to a "going concern", which assumes that the Company will continue in operation for at least one year and will be able to realize its assets and discharge its liabilities in the normal course of operations.

Several conditions and events cast doubt about the Company's ability to continue as a "going concern". The Company has incurred net losses of approximately \$19,221,714 for the period from May 5, 1999 (inception) to March 31, 2024, has a liquidity problem, and requires additional financing in order to finance its business activities on an ongoing basis. The Company is actively pursuing alternative financing and has had discussions with various third parties, although no firm commitments have been obtained. In the interim, shareholders of the Company have continued to meet its minimal operating expenses as they have done in the past.

The Company's future capital requirements will depend on numerous factors including, but not limited to, continued progress developing its products and market penetration and profitable operations.

These financial statements do not reflect adjustments that would be necessary if the Company were unable to continue as a "going concern". While management believes that the actions already taken or planned, will mitigate the adverse conditions and events which raise doubt about the validity of the "going concern" assumption used in preparing these financial statements, there can be no assurance that these actions will be successful.

If the Company were unable to continue as a "going concern", then substantial adjustments would be necessary to the carrying values of assets, the reported amounts of its liabilities, the reported expenses, and the balance sheet classifications used.

Principles of Consolidation

The consolidated financial statements for the three months ended March 31, 2024 include the accounts of the parent entity and its wholly-owned subsidiaries TDOJ LLC, REZN8, and Climate Cure Capital Corporation.

Organization and Basis of Presentation

The Company was incorporated under the laws of the State of Nevada on December 23, 1999. As of March 31, 2024, the Company has acquired three wholly-owned subsidiaries and one minority owned subsidiary, that is controlled by the Company through its super voting preferred stock of the subsidiary. Each of these subsidiaries, as well as the Company, have active processes, operations, or planned operations for their respective principal focus of activity.

Nature of Business

The Company has positioned itself to exploit its slate of movie and media properties. It plans to deploy its climate change mitigation strategies through the means created by its team of experts, its affiliates in the industry, and the

opportunities available to do so through its own resources, and from multiple industry affiliations. The Company anticipates generating revenues and income from these diversified areas because of their management's general and specific capabilities to operate successfully in each respective arena, and the ability to do so simultaneously under one corporate umbrella.

Cash and Cash Equivalents

For purposes of the statement of cash flows, the Company considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents to the extent the funds are not being held for investment purposes.

Pervasiveness of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles required management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Fair Value of Financial Instruments

The carrying value of the Company's financial instruments, including accounts payable and accrued liabilities at December 31, 2023 approximates their fair values due to the short-term nature of these financial instruments.

Loss per Share

Basic loss per share has been computed by dividing the loss for the year applicable to the common stockholders by the weighted average number of common shares outstanding during the year. The effect of outstanding common stock equivalents would be anti-dilutive for the quarter ended December 31, 2023 and are thus not considered. At December 31, 2023, there were no outstanding common stock equivalents.

Reclassification

Certain re-classifications were made in the 2021 financial statements to conform with the 2020 presentation. No re-classifications occurred in the 2022 or 2023 financial statements.

Intangible Assets

The Company identifies and records impairment losses on intangible assets when events and circumstances indicate that such assets might be impaired or when the property is not set for production within three years of acquisition. The Company considers factors such as significant changes in the regulatory or business climate and projected future cash flows from the respective asset. Impairment losses are measured as the amount by which the carrying amount of intangible asset exceeds its fair value.

NOTE 2 - INCOME TAXES

As of December 31, 2023, the Company had a net operating loss carry forward for income tax reporting purposes of approximately \$19,565,657 that may be offset against future taxable income through 2033. Current tax laws limit the amount of loss available to be offset against future taxable income when a substantial change in ownership occurs. Therefore, the amount available to offset future taxable income may be limited. No tax benefit has been reported in the financial statements, because the Company believes there is a 50% or greater chance the carry-forwards will expire unused. Accordingly, the potential tax benefits of the loss carry-forwards are offset by a valuation allowance of the same amount.

	<u>Q/E 3/31/24</u>	<u>Q/E 12/31/23</u>
Net Operating Losses	\$ 62,956	45,638
Valuation Allowance	<u>(\$62,956)</u>	<u>(45,638)</u>
	<u>\$ -</u>	<u>\$ -</u>

The provision for income taxes differs from the amount computed using the federal US statutory income tax rate as follows:

	<u>2024 YTD</u>	<u>2023 YTD</u>
Provision (Benefit) at US Statutory Rate	0	0
Increase (Decrease) in Valuation Allowance	0	0

The Company evaluates its valuation allowance requirements based on projected future operations. When circumstances change and causes a change in management's judgment about the recoverability of deferred tax assets, the impact of the change on the valuation is reflected in current income.

NOTE 3 - DEVELOPMENT STAGE COMPANY/ GOING CONCERN

The Company has begun activities related to its principal operations as is common for development stage companies. The Company has had recurring losses during its development stage, and has now added additional areas of operation. Continuation of the Company as a going concern is dependent upon obtaining the additional working capital necessary to be successful in its planned activities. The management of the Company has developed a strategy, which it believes will accomplish this objective, through additional equity funding and long term financing, which will enable the Company to operate for the coming year. The Company filed a Form 1-A with the SEC to raise \$500,000 to assist in this plan. It was qualified by the Securities and Exchange Commission on January 6, 2022. Through the addition of its climate mitigation operations, additional funding can be made available as revenue through the pre-sale of environmental offset credits from projects and activities it has planned, and through operations once on line. The January 6, 2022 qualified Form 1-A ceased to be qualified routinely upon the passage of one year after it became qualified.

NOTE 4 - RENT EXPENSE

The Company's principal executive offices are located at 601 East Charleston Boulevard Suite 100, Las Vegas, Nevada. During the three month period ending December 31, 2023, the Company paid rent for two months for an office located in St. Petersburg, Florida at \$985 /month. No rent was paid for quarter ending March 31, 2024.

Certain debt previously reflected as convertible has been re-classified solely as debt as it was inadvertently and incorrectly classified as convertible.

Note 11 – LITIGATION MATTER

On February 26, 2024, the Company was sued by Alta Waterford, LLC ("Alta"), in Small Claims court in Lake County, Illinois, the complaint for which was served on March 14, 2024. The complaint alleged breach of contract for investor relations services it claimed to have provided to the Company, valued by Alta at \$6,800. The Company denies the services were performed and has answered the complaint stating so, and alleging a variety of affirmative defenses. The Company engaged counsel in Illinois to answer the complaint and to represent it in court. The matter is currently ongoing. The Company believes that it will prevail in its defense and that Alta will collect nothing. As such, the Company has not accrued any potential judgment.

Note 12 - SUBSEQUENT EVENTS
