CORPORATE RESTAURANT CONCEPTS, INC.
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2023 AND 2022
(UNAUDITED)

NOTE 1. NATURE OF OPERATIONS

Nature of Business

Corporate Restaurant Concepts, Inc. (“the Company”, “We”, “Us”, “Our” or “CRSQ”) was incorporated in the State of Kansas in 2006 as The Corporate Café, Inc. In 2008, we merged with Corporate Restaurant Concepts, Inc., a Delaware Corporation. As a result of the name change, our trading symbol on the Over-the-Counter Bulletin Board was changed to “CRSQ”.

We were organized to engage in any activity or business not in conflict with the laws of the State of Delaware of the United States of America.

On September 23, 2022, we entered into a cooperation agreement with Safe4R Inc. (“SAFE4R”), a Texas C Corporation, to act as a marketing agent for a proprietary program to outreach to the insurance industry, university campus, sporting events and others. SAFE4R is a mobile application company offering a personal protection service globally. We will share and promote SAFE4R application services at a discount to clients we attract and SAFE4R will pay us a commission of up to 15% of monthly user fees.

Effective, December 21, 2022, we believe that we are no longer a Shell Company under the SEC definition of a Shell Company as we now provide marketing services under the agreement with SAFE4R.

During the year ended December 31, 2023, we made available 100 SAFE4R mobile application licenses to the congregation of a Church on a free trial basis to the congregants of the Church. The Church paid us \$724 during the year ended December 31, 2023, as compensation for the provision of these licenses on a free trial basis to its congregants which we recognized as Other Income in the period. It is believed that a number of congregants may have signed up to receive the SAFE4R mobile application on an ongoing paid basis. As of the date of these financial statements, the Company has no knowledge how many paid SAFE4R mobile application licenses have been, sold, if any, as a result of this program, the amount of any commission that may be due and payable to us by SAFE4R or when any such commission income may be paid to us by SAFE4R.

Impact of the Ukrainian Conflict

We have not previously had operations and consequently have not been directly impacted by the Ukrainian conflict at this time and we do not believe that the conflict between Ukraine and Russia will have any direct impact on our future operations, financial condition or financial reporting. We believe the conflict will have only a general impact on our future operations in the same manner as it is having a general impact on all business operations resulting from international sanction and embargo regulations, possible shortages of goods and goods incorporating parts that may be supplied from the Ukraine or Russia, supply chain challenges, and the international and domestic inflationary results of the conflict and government spending for and funding of their response. We do not believe we will be targeted for cyber-attacks. We have no operations in the countries directly involved in the conflict or that are specifically impacted by any of the sanctions and embargoes, we do not believe that the conflict will have any impact on our internal control over financial reporting. Other than general securities market trends, we do not have reason to believe that investors will evaluate the company as having special risks or exposures related to the Ukrainian conflict.

Inflation

We anticipate that our business and financial position will be impacted by the current inflationary environment. To the extent that we use borrowed funds, we believe costs will increase for us. Access to capital will be impacted by increased interest rates and may affect our ability to obtain capital. Inflation will also have an impact on the cost of supplies of goods and services that we use with the consequence of an adverse impact on our operating costs.

NOTE 2. GOING CONCERN

Our financial statements are prepared using accounting principles generally accepted in the United States of America (“GAAP”) applicable to a going concern, which contemplates the realization of assets and the liquidation of liabilities in the normal course of business. We have not established a profitable operating business as yet and for the year ended December 31, 2023 incurred a loss of \$16,040 and had an accumulated deficit of \$797,160 as of December 31, 2023. These conditions raise substantial doubt about our ability to continue as a going concern. The financial statements do not include any adjustments to reflect the possible future effects on the recoverability and classification of assets or the amounts and classification of liabilities that may result from the outcome of these uncertainties. Our ability to continue as a going concern is dependent upon our ability to raise additional debt or equity funding to meet our ongoing operating expenses and ultimately in establishing a profitable business that will be able to fund our ongoing operating costs. No assurances can be given that we will be successful in achieving these objectives.

NOTE 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

This summary of significant accounting policies is presented to assist in the understanding of our financial statements. These policies conform to GAAP and have been consistently applied. The Company has selected December 31 as its financial year end. The Company has not earned any revenue to date.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

We maintain cash balances in a non-interest-bearing account that currently does not exceed federally insured limits. For the purpose of the statements of cash flows, all highly liquid investments with a maturity of three months or less are considered to be cash equivalents. As of December 31, 2023 and December 31, 2022 our cash balances were \$504 and \$500, respectively.

Fair Value Measurements:

ASC Topic 820, Fair Value Measurements and Disclosures (“ASC 820”), provides a comprehensive framework for measuring fair value and expands disclosures which are required about fair value measurements. Specifically, ASC 820 sets forth a definition of fair value and establishes a hierarchy prioritizing the inputs to valuation techniques, giving the highest priority to quoted prices in active markets for identical assets and liabilities and the lowest priority to unobservable value inputs. ASC 820 defines the hierarchy as follows:

Level 1 – Quoted prices are available in active markets for identical assets or liabilities as of the reported date. The types of assets and liabilities included in Level 1 are highly liquid and actively traded instruments with quoted prices, such as equities listed on the New York Stock Exchange.

Level 2 – Pricing inputs are other than quoted prices in active markets but are either directly or indirectly observable as of the reported date. The types of assets and liabilities in Level 2 are typically either comparable to actively traded securities or contracts or priced with models using highly observable inputs.

Level 3 – Significant inputs to pricing that are unobservable as of the reporting date. The types of assets and liabilities included in Level 3 are those with inputs requiring significant management judgment or estimation, such as complex and subjective models and forecasts used to determine the fair value of financial transmission rights.

Our financial instruments consist of our prepaid expenses, accounts payable, note payable – related party and note payable. The carrying amount of our prepaid expenses, accounts payable, note payable – related party and note payable approximates their fair values because of the short-term maturities of these instruments.

Related Party Transactions:

A related party is generally defined as (i) any person that holds 10% or more of our membership interests including such person's immediate families, (ii) our management, (iii) someone that directly or indirectly controls, is controlled by or is under common control with us, or (iv) anyone who can significantly influence our financial and operating decisions. A transaction is considered to be a related party transaction when there is a transfer of resources or obligations between related parties. See Notes 6 below for details of related party transactions in the period presented.

Leases:

We determine if an arrangement is a lease at inception. Operating leases are included in operating lease right-of-use (“ROU”) as assets, operating lease non-current liabilities, and operating lease current liabilities in our balance sheet. Finance leases are property and equipment, other current liabilities, and other non-current liabilities in the balance sheet.

ROU assets represent the right to use an asset for the lease term and lease liability represent the obligation to make lease payment arising from the lease. Operating lease ROU assets and liabilities are recognized at the commencement date based on the present value of lease payments over lease term. As most of the leases do not provide an implicit rate, we generally use the incremental borrowing rate on the estimated rate of interest for collateralized borrowing over a similar term of the lease payments at commencement date. The operating ROU asset also includes any lease payments made and excludes lease incentives. Lease expense for lease payment is recognized on a straight-line basis over lease term.

The Company was not party to any lease transaction for the years ended December 31, 2023 and 2022.

Income Taxes:

The provision for income taxes is computed using the asset and liability method, under which deferred tax assets and liabilities are recognized for the expected future tax consequences of temporary differences between the financial reporting and tax bases of assets and liabilities, and for operating losses and tax credit carry-forwards. Deferred tax assets and liabilities are measured using the currently enacted tax rates that apply to taxable income in effect for the years in which those tax assets are expected to be realized or settled. We record a valuation allowance to reduce deferred tax assets to the amount that is believed more likely than not to be realized.

Uncertain Tax Positions:

We evaluate tax positions in a two-step process. We first determine whether it is more likely than not that a tax position will be sustained upon examination, based on the technical merits of the position. If a tax position meets the more-likely-than-not recognition threshold, it is then measured to determine the amount of benefit to recognize in the financial statements. The tax position is measured as the largest amount of benefit that is greater than 50% likely of being realized upon ultimate settlement. We classify gross interest and penalties and unrecognized tax benefits that are not expected to result in payment or receipt of cash within one year as long-term liabilities in the financial statements.

Revenue Recognition:

Revenues are recognized when control of the promised goods or services are transferred to a customer, in an amount that reflects the consideration that the Company expects to receive in exchange for those goods or services. The Company applies the following five steps in order to determine the appropriate amount of revenue to be recognized as it fulfills its obligations under each of its agreements:

Step 1: Identify the contract(s) with customers

Step 2: Identify the performance obligations in the contract

- Step 3: Determine the transaction price
- Step 4: Allocate the transaction price to performance obligations
- Step 5: Recognize revenue when the entity satisfies a performance obligation

On September 23, 2022, we entered into an agreement with SAFE4R to act as marketing agent and anticipate receiving commission income in due course.

During the years ended December 31, 2023 and 2022, we did not recognize any revenue.

Advertising Costs:

We expense advertising costs when advertisements occur. No advertising costs were incurred during the years ended December 31, 2023 and 2022.

Stock Based Compensation:

The cost of equity instruments issued to employees and non-employees in return for goods and services is measured by the grant date fair value of the equity instruments issued in accordance with ASC 718, Compensation – Stock Compensation. The related expense is recognized as services are rendered or vesting periods elapse.

Net Loss per Share Calculation:

Basic earnings (loss) per common share ("EPS") is computed by dividing net income (loss) available to common stockholders by the weighted-average number of common shares outstanding for the period. Diluted earnings (loss) per share is computed by dividing net income (loss) by the weighted average shares outstanding, assuming all dilutive potential common shares were issued. Dilutive loss per share excludes all potential common shares if their effect is anti-dilutive.

No potentially dilutive debt or equity instruments were issued or outstanding during the years ended December 31, 2023 and 2022.

Recently Accounting Pronouncements:

We have reviewed all the recently issued, but not yet effective, accounting pronouncements and do not believe any of these pronouncements will have a material impact on our financial statements.

NOTE 4. PREPAID EXPENSES

As of December 31, 2023 and 2022, the balance of prepaid expenses was \$3,840 and \$3,667, respectively, which related to the annual disclosure and news service subscription for OTC Markets which is being amortized monthly over the course of the year commencing September 1, 2023.

NOTE 5. ACCOUNTS PAYABLE

As of December 31, 2023 and 2022, the balance of accounts payable was \$2,450 and \$4,600, respectively which related to fees for accounting services and a balance due to our share transfer agent.

NOTE 6. NOTE PAYABLE – RELATED PARTY

During the years ended December 31, 2023 and 2022, we received \$6,524 and \$7,896, respectively, by way of a note payable – related party to finance our working capital requirements from a greater than 10% shareholder of ours.

The note payable is interest free, unsecured, and due on demand.

As of December 31, 2023 and 2022, the balance outstanding under the note payable – related party was \$26,362 and \$19,838, respectively.

NOTE 7. NOTE PAYABLE

As of December 31, 2023 and 2022, the balance outstanding under the note payable was \$15,086 and \$3,243, respectively.

The note payable is interest free, unsecured and due on demand.

During the years ended December 31, 2023 and 2022, we received \$11,843 and \$3,243, respectively as a loan from our corporate attorney.

NOTE 8. INCOME TAXES

We did not recognize any current or deferred US federal income tax provision or benefit for the years ended December 31, 2023 or 2022 as we incurred tax losses in both years. When it is more likely than not, that a tax asset cannot be realized through future income, we must record an allowance against any future potential future tax benefit.

We have provided a full valuation allowance against the net deferred tax asset, consisting of net operating loss carry forwards, because management has determined that it is more likely than not that we will not earn income sufficient to realize the deferred tax assets during the carry forward periods.

The Company has not taken a tax position that, if challenged, would have a material effect on the financial statements for the years ended December 31, 2023 or 2022 as defined under ASC 740, "Income Taxes." We did not recognize any adjustment to the liability for uncertain tax position and therefore did not record any adjustment to the beginning balance of the accumulated deficit on the balance sheet.

The provision for income taxes differs from the amount computed by applying the statutory federal income tax rate to income before provision for income taxes.

The sources and tax effects of the differences for the periods presented are as follows:

	December 31, 2023	December 31, 2022
Statutory U.S. Federal Income Tax Rate	21%	21%
State Income Taxes	5%	5%
Valuation Allowance	(26%)	(26%)
Effective Income Tax Rate	<u>0%</u>	<u>0%</u>

A reconciliation of the income taxes computed at the statutory rate is as follows:

	December 31, 2023	December 31, 2022
Tax credit (expense) at federal and statutory rate (26%)	4,170	41,528
Increase in valuation allowance	<u>(4,170)</u>	<u>(41,528)</u>
Net deferred tax assets	<u>—</u>	<u>—</u>

As of December 31, 2023, we had a federal net operating loss carryforward of approximately \$797,000 (2022 - \$781,000). The federal net operating losses arising before December 31, 2017, if not utilized, will expire in the years 2028 through 2037. NOLs generated subsequent to December 31, 2017 do not expire but may only be used against taxable income to 80%. In addition, pursuant to Section 382 of the Internal Revenue Code of 1986, as amended, use of our NOLs carryforwards may be limited in the event of cumulative changes in ownership of more than 50% within a three-year period.

NOTE 9. COMMITMENTS AND CONTINGENCIES

Legal Proceedings

We were not subject to any legal proceedings during the years ended December 31, 2023 and 2022 and, to the best of our knowledge, no legal proceedings are pending or threatened.

Contractual Obligations

On September 23, 2022, we entered into cooperation agreement with Safe4R Inc. ("SAFE4R"), a Texas C Corporation, to act as a marketing agent for a proprietary program to outreach to the insurance industry, university campus, sporting events and others. SAFE4R is a mobile application company offering a personal protection service globally. We will share and promote SAFE4R application services at a discount to clients we introduce and SAFE4R will pay us commission of up to 15% of monthly user fees.

NOTE 10. SHAREHOLDERS' DEFICIT

Common Stock

We are authorized to issue 100,000,000 shares of common stock with a par value of \$0.0001.

As of December 31, 2023 and 2022, 44,614,427 shares of common stock were issued and outstanding.

No shares of common stock were issued during the year ended December 31, 2023.

During the year ended December 31, 2022, we issued a total of 970,000 shares valued at \$145,500 in consideration for services received by the Company.

NOTE 11. SUBSEQUENT EVENTS

The Company evaluated subsequent events after December 31, 2023, in accordance with FASB ASC 855 *Subsequent Events*, through the date of the issuance of these financial statements and has determined there have been no subsequent events for which disclosure is required.
