As of December 31, 2022, this suit was still in the initial pleading stages and there was a counterclaim against Takeover and Third-Party Claims against Jason Tucker, Toby McBride, and Joseph Pavlik. Currently, the claims originally filed by Takeover (against Michael Holley) and all claims against Takeover itself have either been dismissed. Takeover has filed a proposed set of claims in the same case against former CEO Jason Tucker and his wife Melissa Tucker, based on conduct of the Tuckers that Takeover discovered during a forensic investigation. It is alleged the Tuckers engaged in a scheme that involved breaches of fiduciary duties. The Company was granted a default judgment, but the Tucker Defendants had the default set aside and in their answer to the complaint they filed a counter-suit and they cross-sued the Company and its principals and spouses. The Company believes this suit to be without merit and that the case will be settled with no financial impact.

The Company asserts that Mr. Zarro that pursuant to the explicit terms and conditions of his Note and Promissory Note, that the Deppoleto debt was not properly authorized by the board of directors of the Company, and furthermore, that Zarro is the secured creditor of the Company with a priority claim senior on all collateral, both tangible and intangible, including its subsidiary, Takeover. Lastly, Zarro asserts that Joe Pavlik (hereinafter, “Pavlik”), was an authorized officer of the Company, that authority having been conveyed upon him by the board of directors, and that Pavlik entered into a

valid and enforceable agreement with Zarro on June 18, 2021, eleven months, and seven days prior to Deppoleto. According to Section 7 of Zarro's Note. The Company has accrued a total of \$2,167,697 the total of loans and accrued interest that Mr. Deppoleto claiming. The Company is currently in negotiations with the other parties to settle the lawsuit.

On April 19, 2024, Takeover Industries, Inc. was sued in the United States District Court for the Southern District of New York, Case 24-CV-01335, Professional Fighters League, LLC v. Takeover Industries, Inc. a/k/a/ NXT LVL. This suit arises out of a sponsorship agreement Takeover entered into with Professional Fighters League, LLC on December 16, 2021. LABOR SMART, INC. AND SUBSIDIARIES
FINANCIAL STATEMENTS
June 30, 2024

1. NATURE OF OPERATIONS, SIGNIFICANT ACCOUNTING POLICIES AND GOING CONCERN

Nature of Business Operations

Nature of Business

Labor Smart, Inc. (the “Company”) was incorporated in the State of Nevada on May 31, 2011. Labor Smart, Inc. provides temporary blue-collar staffing services. It supplies general laborers on demand to the light industries, including manufacturing, logistics, and warehousing, skilled trades’ people, and general laborers to commercial construction industries.

Takeover Industries, Inc. negotiated a deal with a publicly traded OTC Markets entity known as Labor Smart, Inc. By a stock purchase agreement dated February 26, 2021, LTNC agreed to the purchase of Takeover’s equity in exchange for 6,800,000,000 restricted shares of LTNC (The “Stock Purchase Agreement”). As part of the Stock Purchase Agreement, the principles of Takeover received all 51 Series A Preferred Shares of LTNC. The Company began the process of updating the books of the parent company, LTNC.

Takeover Industries, Inc. is a Nevada corporation focused on selling its proprietary line NXT LVL, including hydrogen infused waters and 2 oz “Gamer Shots.” After acquiring Labor Smart, Takeover’s management quickly went into motion to implement a line of enhanced water products under the NXT LVL brand. These products include NXT LVL Hydrogen Water (“NXT LVL Water”). NXT LVL Water features a proprietary blend of ingredients and utilizes a confidential, proprietary process to infuse the water with additional hydrogen and compounds

On July 14, 2021, the Company entered into a Purchase and Sale Agreement whereby the Company sold all of the assets and liabilities related to its staffing business the (“Staffing Business”) to the former Chief Executive Officer of the Company. The Company, pursuant to the Agreement, sold the Staffing Business for a purchase price of \$500,000, \$300,000 of which has been received by the Company, with the additional \$200,000 to be received within 90 days from the date of the Agreement.

The Company formed Next Gen Beverage LLC a Wyoming Corporation on June 14, 2023 focused on selling hydrogen infused waters. The Company redomiciled to Wyoming on January 30, 2020 and is active and in Good Standing.

Going Concern

The accompanying condensed consolidated unaudited financial statements have been prepared assuming a continuation of the Company as a going concern. The Company had negative cash flows from operations of \$793,031, a working capital deficit balance of \$3,399,627 and an accumulated deficit of \$9,957,815 as of and for the six months ended June 30, 2024. This raises substantial doubt about our ability to continue as a going concern.

The Company’s ability to continue as a going concern is dependent upon the Company generating profitable operations in the future and/or obtaining the necessary financing to meet its obligations and repay its liabilities arising from normal business operations when they come due. There is no assurance that this series of events will be satisfactorily completed.

Further, if we issue additional equity or debt securities, stockholders may experience additional dilution or the new equity securities may have rights, preferences or privileges senior to those of existing holders of our common stock. If additional financing is not available or is not available on acceptable terms, we will have to curtail or cease our operations. The financial statements do not include any adjustments relating to the recoverability and classification of recorded assets, or the amounts of and classification of liabilities that might be necessary in the event the Company cannot continue in existence. These financial statements do not include any adjustments that might arise from this uncertainty.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the accompanying financial statements and accompanying notes. Significant estimates include the assumption used in the valuation of equity-based transactions, valuation of intangible assets, allowance for doubtful accounts and inventory valuation and reserves. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents include all highly liquid investments with original maturities of three months or less at the time of purchase. June 30, 2024 and December 31, 2023, the Company had \$434,468 and \$97,869, respectively of cash and cash equivalents.

Fair Value of Financial Instruments

The carrying amounts of cash, accounts receivable, prepaid expenses, inventory and other assets, accounts payable, accrued liabilities, note payable and convertible note payable approximate their fair values as of June 30, 2024, and December 31, 2023, respectively, because of their short-term natures and the Company's borrowing rate of interest.

Accounts Receivable

Accounts receivable are recorded at fair value on the date revenue is recognized. The Company provides allowances for doubtful accounts for estimated losses resulting from the inability of its customers to repay their obligation. If the financial condition of the Company's customers were to deteriorate, resulting in an impairment of their ability to repay, additional allowances may be required. The Company provides for potential uncollectible accounts receivable based on specific customer identification and historical collection experience adjusted for existing market conditions. If market conditions decline, actual collection experience may not meet expectations and may result in decreased cash flows and increased bad debt expense.

The policy for determining past due status is based on the contractual payment terms of each customer, which are generally net 30 or net 60 days. Once collection efforts by the Company and its collection agency are exhausted, the determination for charging off uncollectible receivables is made. At June 30, 2024 and December 31, 2023, the Company has recorded an allowance for doubtful accounts of \$ 0.

Inventory

Inventories are stated at the lower of cost or net realizable value. Cost is determined by the first-in, first-out basis and net realizable value. Net realizable value is defined as sales price less cost of completion, disposition and transportation and a normal profit margin. As of June 30, 2023, and December 31, 2023, inventory amounted to \$146,552 and \$49,356, respectively. As of June 30, 2024, and December 31, 2023 inventory reserves were \$0.

Revenue Recognition

We account for revenue in accordance with the Financial Accounting Standards Board ("FASB") Accounting Standard Codification Topic 606, "Revenue from Contracts with Customers". Revenue is measured based on the amount of consideration that we expect to receive, reduced by discounts and estimates for credits and returns (calculated based upon previous experience and management's evaluation). Outbound shipping charged to customers is recognized at the time the related merchandise revenues are recognized and are included in net revenues. Inbound and outbound shipping and delivery costs are included in cost of revenues.

Our products are sold through our online and telephonic channels. Revenue is recognized when control of the merchandise is transferred to the customer, which generally occurs upon shipment. Payment is typically due on the date of shipment. The Company offers a 30- day return policy on sales.

Stock Based Compensation

Stock options and warrants issued to consultants and other non-employees as compensation for services provided to the Company are accounted for based on the fair value of the services provided or the estimated fair market value of the option or warrant, whichever is more reliably measurable, and in accordance with FASB ASC 718, *Compensation-Stock Compensation*, including related amendments and interpretations.

Net Income / (Loss) per Share

Basic income / (loss) per share amounts are computed based on net income / (loss) divided by the weighted average number of common shares outstanding. Diluted earnings per share reflect the potential dilution that could occur if potentially dilutive securities were exercised or converted to common stock

Recent accounting pronouncements

From time to time, new accounting pronouncements are issued by the Financial Accounting Standards Board (“FASB”) or other standard setting bodies that are adopted by the Company as of the specified effective date.

Income Taxes

We utilize the asset and liability method of accounting for income taxes. We recognize deferred tax liabilities or assets for the expected future tax consequences of temporary differences between the book and tax basis of assets and liabilities. We regularly assess the likelihood that our deferred tax assets will be recovered from future taxable income. We consider projected future taxable income and ongoing tax planning strategies in assessing the amount of the valuation allowance necessary to offset our deferred tax assets that will not be recoverable. We have recorded and continue to carry a full valuation allowance against our gross deferred tax assets that will not reverse against deferred tax liabilities within the scheduled reversal period. If we determine in the future that it is more likely than not that we will realize all or a portion of our deferred tax assets, we will adjust our valuation allowance in the period we make the determination. We expect to provide a full valuation allowance on our future tax benefits until we can sustain a level of profitability that demonstrates our ability to realize these assets. The deferred tax assets and liabilities are classified according to the financial statement classification of the assets and liabilities generating the differences.

2. LICENSING AGREEMENT

To create its NXT LVL Hydrogen Water product, Takeover uses a company in Georgia and has entered into an agreement with inventor Danny Day, who owns the rights to the infusion process for Takeover’s Hydrogen Water product. In a very short period of time, Takeover has signed several professional athletes to use and endorse its NXT LVL water. One reason for Takeover’s success has been its small management team and their deep connections with the beverage and health industries, and their long-term relationships based on trust and demonstrated results.

All claims originally filed against Takeover have been dismissed. Takeover filed a proposed set of claims in the same case against former CEO Jason Tucker and his wife Melissa Tucker, based on the conduct of the Tuckers that Takeover discovered during a recent investigation. It is alleged the Tuckers engaged in a scheme that involved breaches of fiduciary duties. The Tucker defendants failed to file an answer and Takeover was granted a default judgment. The Tuckers filed a Motion to Set Aside the Default due to an error by counsel and on June 24, 2024, the motion to set aside the default was granted.
