4) Issuer's Business, Products and Services

The purpose of this section is to provide a clear description of the issuer's current operations.
(Please ensure that these descriptions are updated on the Company's Profile on www.otcm Markets.com).

A. Summarize the issuer's business operations (If the issuer does not have current operations, state "no operations")

On July 16, 2018, the company completed a definitive agreement to acquire a subsidiary D5 Partners, containing certain assets pertaining to the marketing and manufacturing rights of GrowBox5000 ("GB5K"), a self-contained hydroponic system for growing plants, vegetables, and cannabis. The GB5K family of products were to manage the sum total of all surroundings of a living organism, including natural forces and other living things, which provide conditions for development and growth as well as of danger and damage. The products were to incorporate a complex of physical, chemical, and biotic factors (such as climate, soils, and living things) that act upon an organism or an ecological community and ultimately determine its form and survival. (www.growboxecosystem.com). Mr. Jamani, our majority voting shareholder, who won a judgement against the Corporation and its previous management, is considering along with the Company taking legal action against Eric Dena, the former CEO for non-compliance with the terms of his Agreement with the Company. Mr. Margaretis vended in additional assets to the Company, consisting primarily of proprietary code to semi-automate the product and strengthen the business of the Company for \$1. Beginning in late 2019, Mr. Margaretis changed the focus of the Company from cannabis to vegetables. The Company's first product is called Kipos. The Kipos is a countertop greenhouse designed to efficiently and effectively grow leafy greens, as well as super greens. The Company's new website is www.edenecosystems.com. The Kipos will incorporate the proprietary code as well as the complex of physical, chemical, and biotic factors (such as climate, soils, and living things) that act upon an organism or an ecological community and ultimately determine its form and survival that was to have been included in the GB5K transaction. The Company has spent the last year manufacturing our proprietary molds, securing our supply chain, and testing the beta models already built, and preparing to sell the units.

B. List any subsidiaries, parent company, or affiliated companies.

None

C. Describe the issuers' principal products or services.

The company manufactures and sells self-contained hydroponic systems for growing vegetables and super greens. The Kipos features clean lines and proprietary design, along with a faster grow/harvest cycle.

County Line Energy Corp.
Notes to the Consolidated Financial Statements as of September 30, 2024
(Unaudited)

NOTE 1: NATURE OF OPERATIONS

County Line Energy, Inc. (“County Line”, “we”, “our”, or “the Company”) was incorporated on February 5, 1998 in the State of Nevada. On August 28, 2018, the Company changed its name from County Line Energy Corp to D5 Inc and then back to County Line Energy, Inc. The Company was originally incorporated as Bio-Safe Technologies, Inc. and was in the business of acquiring and developing certain mineral rights in Canada. Subsequently, the name was changed to Nubio Ventures in August 2001, to County Line Resources, Inc. in March 2005 and to County Line Energy Corp. in May 2006.

In 2006 the Company formed a wholly-owned subsidiary, County Line (Canada) Inc., in the Province of Alberta, Canada. This company was permitted to act as operator in its oil and gas exploration activities.

Effective January 4, 2018, the Company effected a 1,000-for-one reverse stock split. All share of common stock and per share in these financial statements retroactively reflect this reverse stock split.

On March 20, 2018, the Company issued 100,000,000 shares of Common Stock to Daniel Serruya for \$10,000. On March 26, 2018, Daniel Serruya was elected as sole Director and appointed as sole Officer of the Company.

On July 16, 2018, the Company completed a definitive agreement to acquire all the assets through its subsidiary D5 Partners, of Grow Box 5000, a self-contained hydronic system for growing plants, vegetables and cannabis. The Company has also agreed to provide financing to the new D5 Partners subsidiary in the amount of a minimum of \$1,000,000 and up to \$2,000,000 within one year of the closing of the Definitive Agreement. Initial equity of the Subsidiary has been allocated as 51% to the Company and 49% to Eric Dena (“ED Equity”). The Company has retained an irrevocable option to purchase the entire 49% ED Equity interest based on a negotiated valuation determined by an independent third party. Due to the change in control of the Company, the Company has consolidated the subsidiary as 100% ownership.

In conjunction with the execution of the Definitive Agreement Eric Dena purchased 70,000,000 restricted shares of CYLC common stock from Daniel Serruya, and Vince Andreula purchased 28,500,000 shares of CYLC common stock from Serruya. The Definitive Agreement also specifies that the Company will exchange all or part of the 28,500,000 shares of CYLC common stock owned by Andreula for Preferred Shares which will contain super voting rights that provide him voting control of the Company.

Following execution of the Definitive Agreement, Eric Dena was appointed as CEO and the director of the Company. Vince Andreula was also appointed to be Board of Directors of the Company. Daniel Serruya has resigned from all positions held with the Company.

On May 8, 2019, D5 Inc, formerly known as County Line Energy Corp, now known as County Line Energy Inc. (i.e. the Company), Eric Dena and Vincent Andreula, along with Does I-V inclusive were named as Defendants in a lawsuit where the Plaintiffs eventually won a judgement against all Defendants.

On August 1, 2019, the Company changed its name to County Line Energy, Inc and Eric Dena and Vince Andreula resigned as officers and directors appointing Emanuel Margaretis as sole officer and director. The Company switched its focus to the manufacture and marketing of hydroponic units to grow leafy greens.

On September 22, 2023 Emanuel Margaretis resigned as an officer and director and Aarif Jamani was elected as sole officer and director of the Company.

On May 7, 2024, Aarif Jamani resigned as sole officer and director. Lowell Holden was elected sole officer and director of the Company. On September 27, 2024 Lowell Holden resigned as sole officer and director of the Company. On October 14, 2024, Jose Cisneros was elected as sole Director, and appointed CEO and CFO.

NOTE 2: SUMMARY OF SIGNIFICAT ACCOUNTING POLICIES

These financial statements have been prepared assuming that the Company will continue as a going concern which contemplates, among other things, the realization of assets and the satisfaction of liabilities in the normal course of business. Additional financing is needed for the successful completion of County Line's contemplated plan of operations and its transition, ultimately, to the attainment of profitable operations. The Company's ability to raise additional equity or debt financing is unknown. The inability to resolve these factors raise substantial doubts about the Company's ability to continue as a going concern. These financial statements do not include any adjustments that may result from the outcome of the uncertainties.

Basis of Presentation

These unaudited financial statements have been prepared in accordance with U.S. generally accepted accounting principles ("GAAP") and are presented in U.S. dollars The Company reports revenues and expenses using the accrual method of accounting for financial and income tax purposes.

Use of Estimates

Management uses estimates and assumptions in preparing these financial statements in accordance with generally accepted accounting principles. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses.

Cash and Cash Equivalents

County line considers all investments with an original maturity of three months or less to be a cash equivalent.

Stock-Based Compensation

The Company accounts for stock-based compensation to employees and consultants in accordance with FASB ASC 718. Stock-based compensation to employees is measured at the grant date, based on the fair value of the award, and is recognized as expense over the requisite employee service period. The Company accounts for stock-based compensation to other than employees in accordance with FASB ASC 505-50. Equity instruments issued to other than employees are valued at the earlier of a commitment date or upon completion of the services, based on the fair value of the equity instruments and is recognized as expense over the service period. The Company estimates the fair value of stock-based payments using the Black Scholes option-pricing model for common stock options and warrants and the closing price of the Company's common stock for common share issuances.

Equipment

Equipment is carried at the cost of acquisition and depreciated over the estimated useful lives of the assets. Costs associated with repair and maintenance is expensed as incurred. Costs associated with improvements which extend the life, increase the capacity or improve the efficiency of our property and equipment are capitalized and depreciated over the remaining life of the related asset. Gains and losses on dispositions of equipment are reflected in operations. Depreciation is provided using the straight-line method over the estimated useful lives of the assets

Income Taxes

Deferred income taxes are provided for temporary differences between the GAAP and tax-reporting amounts of assets and liabilities. However, if it is more likely than not that the Company will not realize the tax asset through future operations, no benefit is recorded.

Fair value of Financial Instruments

Financial Accounting Standards Statement No. 107, “Disclosure About Fair Value of Financial Instruments”, requires the Company to disclose, when reasonably attainable, the fair market value of its assets and liabilities which are deemed to be financial instruments. The Company’s financial instruments consist primarily of cash and certain investments.

Beneficial Conversion Feature

For conventional convertible debt where the rate of conversion is below market value, the Corporation records a Beneficial Conversion Feature (the “BCF”) and related debt discount.

When the Company records a BCF, the intrinsic value of the BCF is recorded as a debt discount against the face amount of the respective debt instrument (offset to additional paid-in capital) and amortized to interest expense over the life of the debt.

Earnings (Loss) per Share

Basic earnings per share are calculated by dividing net income (loss) by the weighted average number of shares outstanding during the period. The calculation of diluted earnings per share is like the calculation of basic earnings per share, except for the inclusion of all potentially dilutive securities. In the case of a loss, however, they are excluded from the calculation because their effect is antidilutive.

The quantity of previously issued shares used to calculate earnings per share is adjusted to give effect to any stock splits and rollbacks.

NOTE 3: GOING CONCERN

As shown in the accompanying financial statements, the Company has an accumulated deficit of \$5,432,114 as of September 30, 2024 and incurred a loss from operations of \$265,698 for the nine months ended September 30, 2024 compared to net loss of \$141,843 for the same period in 2023. Unless profitability and increases in stockholders’ equity continues, these conditions raise substantial doubt as to the Company’s ability to continue as a going concern.
