## INTERNATIONAL ENDEAVORS CORPORATION

### NOTES TO THE FINANCIAL STATEMENTS

#### **Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

A summary of the significant accounting policies applied in the preparation of the accompanying financial statements follows.

#### *BUSINESS AND BASIS OF PRESENTATION*

International Endeavors Corporation. ("IEC") was incorporated under the laws of the State of Nevada on May 7, 2014.

International Endeavors Corporation (IEC) is a technology holdings company focused on identifying, acquiring, and partnering with established companies, brands, and technologies, with a particular emphasis on the Artificial Intelligence (AI) sector. We have developed various AI-driven technologies, which we sell or license. Our current products include BOTs, automation scripts, and AI solutions for gaming.

The Company is in the development stage as defined under Statement on Financial Accounting Standards Accounting Standards Codification FASB ASC 915-205 "Development-Stage Entities."

#### *BASIS OF PRESENTATION*

The accompanying financial statements have been prepared in accordance with generally accepted accounting principles in the United States of America, and pursuant to the rules and regulations of the Securities and Exchange Commission (the "SEC") and reflect all adjustments, consisting of normal recurring adjustments, which management believes are necessary to fairly present the financial position, results of operations and cash flows of the Company as of the year ended December 31, 2024 and year ended December 31, 2023

The Company maintains a cash balance in a non-interest-bearing account that currently does not exceed federally insured limits. for the purpose of the statements of cash flows, all highly liquid investments with an original maturity of three months or less, are considered to be cash equivalents. There were no cash equivalents as of year ended December 31, 2024, and year ended December 31, 2023.

#### *ACCOUNTS RECEIVABLE*

Trade receivables are carried at original invoice amount. We recognize revenue from sales or services rendered when the following

four criteria are met: persuasive evidence of an arrangement exists, delivery has occurred or services have been rendered, the selling price is fixed or determinable, and collectability is reasonably assured. Receivables past due for more than 120 days are considered delinquent. Management determines uncollectible accounts by regularly evaluating individual customer receivables and considering a customer's financial condition, credit history, and current economic conditions and by using historical experience applied to an aging of accounts. Recoveries of trade receivables previously written off are recorded when received. Management has determined that the allowance for doubtful account should be \$250,000.

#### *FAIR VALUE OF FINANCIAL INSTRUMENTS AND DERIVATIVE FINANCIAL INSTRUMENTS*

We have adopted Accounting Standards Codification regarding Disclosure About Derivative Financial Instruments and Fair Value of Financial Instruments. The carrying amounts of cash, accounts payable, accrued expenses, and other current liabilities approximate fair value because of the short maturity of these items. These fair value estimates are subjective in nature and involve uncertainties and matters of significant judgment, and, therefore, cannot be determined with precision. Changes in assumptions could significantly affect these estimates. We do not hold or issue financial instruments for trading purposes, nor do we utilize derivative instruments in the management of foreign exchange, commodity price or interest rate market risks.

#### *FEDERAL INCOME TAXES*

Deferred income taxes are reported for timing differences between items of income or expense reported in the financial statements and those reported for income tax purposes in accordance with Accounting Standards Codification regarding Accounting for Income Taxes, which requires the use of the asset/liability method of accounting for income taxes. Deferred income taxes and tax benefits are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases, and for tax loss and credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Deferred taxes are provided for the estimated future tax effects attributable to temporary differences and carryforwards when realization is more likely than not.

#### *NET INCOME PER SHARE OF COMMON STOCK*

We have adopted Accounting Standards Codification regarding Earnings per Share, which requires presentation of basic and diluted EPS on the face of the income statement for all entities with complex capital structures and requires a reconciliation of the numerator and denominator of the basic EPS computation to the numerator and denominator of the diluted EPS computation. In the accompanying financial statements, basic earnings per share of common stock is computed by dividing net income by the weighted average number of shares of common stock outstanding during the period. We do not have a complex capital structure requiring the computation of diluted earnings per share.

#### *INTERNAL WEBSITE DEVELOPMENT COSTS*

Under ASC350-50, *Website Development Costs*, costs and expenses incurred during the planning and operating stages of the Company's website are expensed as incurred. Under ASC 350-50, costs incurred in the website application and infrastructure development stages are capitalized by the Company and amortized to expense over the website's estimated useful life or period of benefit. The Company's website asset was computed using a useful life of the asset of five years at December 31, 2016 the Company's web site was written off as the result of an impairment loss.

#### *IMPAIRMENT OF LONG-LIVED ASSETS*

The Company evaluates the recoverability of long-lived assets and the related estimated remaining lives at each balance sheet date.

The Company records an impairment or change in useful life whenever events or changes in circumstances indicate that the carrying amount may not be recoverable or the useful life has changed.

#### *DEVELOPMENT STAGE ENTERPRISE*

The Company's financial statements are prepared pursuant to the provisions of Topic 26, "Accounting for Development Stage Enterprises," as it devotes substantially all of its efforts to acquiring, developing, producing and distributing media as well as marketing commercial videos and developing APPs for distribution that will eventually provide sufficient net profits to sustain the Company's existence. Until such interests are engaged in major commercial production, the Company will continue to prepare its financial statements and related disclosures in accordance with entities in the development stage.

#### *REVENUE RECOGNITION*

The Company recognizes revenue in accordance with Accounting Standards Codification No. 605, "Revenue Recognition" ("ASC-605"), ASC-605 requires that four basic criteria must be met before revenue can be recognized: (1) persuasive evidence of an arrangement exists; (2) delivery has occurred; (3) the selling price is fixed and determinable; and (4) collectability is reasonably assured. Determination of criteria (3) and (4) are based on management's judgments regarding the fixed nature of the selling prices of the products delivered and the collectability of those amounts. Provisions for discounts and rebates to customers, estimated returns and allowances, and other adjustments are provided for in the same period the related sales are recorded. The Company will defer any revenue for which the product has not been delivered or is subject to refund until such time that the Company and the customer jointly determine that the product has been delivered or no refund will be required. The Company's revenues have been generated through lease agreements for our RV property and wine tours.

The terms of these lease agreements generally consist solely of upfront payments which are refundable should the lessee choose to terminate the lease within 10 (ten) days of signing the lease agreement. After 10 (ten) days the lease payment becomes non-refundable. Revenues from leasing fees are recognized upon the client's completion of the lease agreement.

For the years ended December 31, 2024, and 2023, all payments met the above criteria thereby allowing for the recognition of revenue for the lease arrangements upon the signing of the lease agreement and for the wine tours upon acceptance of payment for the tour. When non-refundable payments do not meet these criteria, the revenues are recognized over the expected period of performance. We periodically review for any expected period of substantial involvement under the agreements that provide for non-refundable upfront payments. If ever applicable, we will adjust the amortization periods when appropriate to reflect changes in assumptions relating to the duration of our expected involvement.

#### *STOCK BASED COMPENSATION*

The Company recognizes stock-based compensation in accordance with ASC Topic 718 "Stock Compensation", which requires the measurement and recognition of compensation expense for all share-based payment awards made to employees and directors including employee stock options and employee stock purchases related to an Employee Stock Purchase Plan based on the estimated fair values. For non-employee stock-based compensation, we have adopted ASC Topic 505 "Equity-Based Payments to Non-Employees", which requires stock-based compensation related to non-employees to be accounted for based on the fair value of the related stock or options or the fair value of the services on the grant date, whichever is more readily determinable in accordance with ASC Topic 718.

#### *RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS*

In June 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2014-10, "Development Stage Entities". The amendments in this update remove the definition of a development stage entity from the Master Glossary of the

ASC thereby removing the financial reporting distinction between development stage entities and other reporting entities from U.S. GAAP. In addition, the amendments eliminate the requirements for development stage entities to (1) present inception-to-date information in the statements of income, cash flows, and shareholder equity, (2) label the financial statements as those of a development stage entity, (3) disclose a description of the development stage activities in which the entity is engaged, and (4) disclose in the first year in which the entity is no longer a development stage entity that in prior years it had been in the development stage. The amendments in this update are applied retrospectively. The adoption of ASU 2014-10 removed the development stage entity financial reporting requirements for the Company. As a result, the Company has elected not to present inception numbers in accordance with ASU-2014-10.

#### *RECLASSIFICATIONS*

Certain prior year amounts have been reclassified for comparative purposes to conform to the current-year financial statement presentation. These reclassifications had no effect on previously reported results of operations. In addition, certain prior year amounts from the restated amounts have been reclassified for consistency with the current period presentation.

#### *ASSET ACQUISITION*

In January 2017, the FASB issued ASU 2017-01, "Clarifying the Definition of a Business." ASU 2017-01 changes the definition of a business to assist entities with evaluating when a set of transferred assets and activities is a business. If substantially all of the fair value is concentrated in a single asset or a group of similar assets, the acquired set is not a business. If this is not met, the entity then evaluates whether the set meets the requirement that a business include, at a minimum, an input and a substantive process that together significantly contribute to the ability to create outputs. Determining whether a set constitutes a business is critical because the accounting for a business combination differs significantly from that of an asset acquisition. ASU 2017-01 is effective for fiscal years beginning after December 15, 2017, and interim periods within those years. ASU 2017-01 will be applied prospectively to any transactions occurring within the period of adoption. Early adoption is permitted, including for interim or annual periods in which the financial statements have not been issued or made available for issuance.

#### **Note 2 - Uncertainty, going concern:**

The Company's financial statements are prepared using generally accepted accounting principles in the United States of America applicable to a going concern which contemplates the realization of assets and liquidation of liabilities in the normal course of business. The Company has not yet established an ongoing source of revenues sufficient to cover its operating costs to allow it to continue as a going concern. As of December 31, 2024, the Company had an accumulated deficit of \$1,795,008 as of December 31, 2023, the Company had an accumulated deficit of \$1,690,522. The ability of the Company to continue as a going concern is dependent on the Company obtaining adequate capital to fund operating losses until it becomes profitable. If the Company is unable to obtain adequate capital, it could be forced to cease operations.

In order to continue as a going concern, the Company will need, among other things, additional capital resources. The Company is contemplating conducting an offering of its debt or equity securities to obtain additional operating capital. The Company is dependent upon its ability, and will continue to attempt, to secure equity and/or debt financing. There are no assurances that the Company will be successful and without sufficient financing it would be unlikely for the Company to continue as a going concern.

The ability of the Company to continue as a going concern is dependent upon its ability to successfully accomplish the plans described in the preceding paragraph and eventually secure other sources of financing and attain profitable operations. These financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or amounts and classification of liabilities that might result from this uncertainty.

#### **Note 3- Advertising and Marketing**

The Company expenses advertising and market development costs as incurred. Total advertising and marketing costs recorded in advertising and marketing expenses were \$22,200 and \$0 for the year ended December 31, 2024 and 2023, respectively.

#### Note 4-Convertible Notes

Preferred Shares – 200,000 shares 12/31/24

Shares Issued and Outstanding at the year ended December 31, 2024 and 2023 were 200,000 shares.

#### Note 6 – Income Taxes

We account for income taxes in accordance with FASB ASC 740, *Income Taxes* which requires the recognition of deferred tax liabilities and assets for the expected future tax consequences of events that have been included in the financial statement or tax returns. Under this method, deferred tax liabilities and assets are determined based on the difference between financial statements and tax basis of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse. Under FASB ASC 740, the effect December 31, 2024, the Company had net operating loss carry forwards of approximate \$1,690,522 and \$1,795,008 that may be available to reduce future years' taxable income in varying amounts through 2031. Future tax benefits which may arise as a result of these losses have not been recognized in these financial statements, as their realization is determined not likely to occur and accordingly, the Company has recorded a valuation allowance for the deferred tax asset relating to these tax loss carry-forwards.

## Note 7 - Subsequent Events

Management has reviewed events between December 31, 2024, to the date that the financials were issued, and determined that except as set forth below there were no significant events identified for disclosure other than the aforementioned.

Raymond Valdez, our sole executive officer and director (“Seller”), Modulink Inc., a British Virgin Islands corporation (“Modulink”) and Zenith (Hong Kong) Engineering Limited, a Hong Kong corporation (“Zenith” and together with Modulink, the “Purchasers”), entered into a Stock Purchase Agreement. In the event this transaction occurs the company will announce all details of this agreement in accordance with reporting requirements.
