NOTES TO THE FINANCIAL STATEMENTS FOR 6 MONTHS (Q2 RESULTS) ENDED DECEMBER 31, 2024 AND 2023 (in US Dollars)

NOTE 1: ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

General Information

The BeBop Channel Corporation (the "Company") was organized on June 15, 2019 under the laws of the State of New York.

Statement of compliance

The accompanying financial statements are prepared in accordance with accounting principles generally accepted in the United States of America. These financial statements are presented in US Dollars, unless otherwise indicated. These financial statements have been prepared under the historical cost convention, except for the evaluation of certain financial instruments carried at fair value.

Use of estimates and assumptions

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

To the extent that there are material differences between these estimates and actual results, the Company's financial condition or operating results will be materially affected. The Company bases its estimates on past experience and other assumption that the Company believes are reasonable under the circumstances and the Company evaluates those estimates on an ongoing basis.

Functional and presentation currency

Items included in the Company's financial statements are estimated using the currency that best reflects the economic substance of the underlying events and circumstances related to the Company (the "functional currency"). The functional and presentation currency of the accompanying financial statements is US Dollars (the "USD").

Going concern

The accompanying financial statements have been prepared based on the assumption that the Company will continue as a going concern.

Revenue Recognition

The Company recognizes revenue in accordance with Accounting Standards Codification subtopic 606, Revenue Recognition ("ASC 606").

Accounts receivable and bad debt allowance

The carrying value of accounts receivable, net of allowance for doubtful accounts, represents their estimated net realizable value. The Company estimates the allowance for doubtful accounts based on type of customer, age of outstanding receivable, historical collection trends, and existing economic conditions. If events or changes in circumstances indicate that a specific receivable balance may be unrealizable, further consideration is given to the collectability of those balances, and the allowance is adjusted accordingly. Receivable balances deemed uncollectible are written off against the allowance.

Concentration of credit risk

Financial instruments, which potentially subject the Company to concentration of credit risk, consist primarily of cash and tenant receivable. The Company places its cash with financial institutions, and its balances are insured by the Federal Deposit Insurance Corporation up to \$250,000.

Fair value measurements

FASB ASC 820, "Fair Value Measurements" defines fair value for certain financial and nonfinancial assets and liabilities that are recorded at fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. It requires that an entity measure its financial instruments to base fair value on exit price, maximize the use of observable units and minimize the use of unobservable inputs to determine the exit price. It establishes a hierarchy which prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy increases the consistency and comparability of fair value measurements and related disclosures by maximizing the use of observable inputs and minimizing the use of unobservable inputs by requiring that observable inputs be used when available.

Observable inputs are inputs that reflect the assumptions market participants would use in pricing the assets or liabilities based on market data obtained from sources independent of the Company. Unobservable inputs are inputs that reflect the Company's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The hierarchy prioritizes the inputs into three broad levels based on the reliability of the inputs as follows:

Level 1 – Inputs are quoted prices in active markets for identical assets or liabilities that the Company has the ability to access at the measurement date. Valuation of these instruments does not require a high degree of judgment as the valuations are based on quoted prices in active markets that are readily and regularly available.

Level 2 – Inputs other than quoted prices in active markets that are either directly or indirectly observable as of the measurement date, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 – Valuations based on inputs that are unobservable and not corroborated by market data. The fair value for such assets and liabilities is generally determined using pricing models, discounted cash flow methodologies, or similar techniques that incorporate the assumptions a market participant would use in pricing the asset or liability.

The carrying values of certain assets and liabilities of the Company approximate fair value due to their either relatively short maturities and/or consistency with current market rates.

NOTE 2: SETTLEMENT OF ALL MATTERS RELATING TO THE TERMINATION OF ASSET PURCHASE AGREEMENT (APA) WITH ZILPIN GROUP, LLC

On February 29, 2024, The BeBop Channel Corporation settled all matters relating to its termination of the February 15, 2023 Asset Purchase Agreement with Zilpin Group, LLC for the purchase of Madavor Media, LLC. This settlement resulted in the cancellation of the \$3,000,000 and \$475,000 notes payable to Zilpin Group, LLC and the return of all assets.

Forward-Looking Statements Regarding Company Financials Under Safe Harbor

The BeBop Channel Corporation does not anticipate any restatement of prior financial statements as the revenue and expense entries reported on its financial statements have not been affected as a result of the termination of the APA.

NOTE 3: PROPERTY, EQUIPMENT AND INTANGIBLE ASSETS

Property, equipment and intangible assets of the Company as of December 31, 2024 and June 30, 2024 were as follows:

	December 31, 2024	June 30, 2024

We will accomplish this on three fronts: 1) A television channel dedicated to Arts programming ; 2) The presentation of Arts events, including concerts and festivals; and 3) Offering a consumer marketplace for Arts products and services. We believe that in the aggregate, combining all of the Arts components into one platform makes them stronger as a collective and the consolidation of messaging across different genres very marketable. Our business model will be based on an advertising and retail (tickets) model. We also believe that going public is a groundbreaking approach to accomplishing our goals in terms of exposure and access to public capital. We offer streaming Arts and Lifestyle programming, free to the public, via our Smart TV and Web apps which include ROKU, FireTV, and Apple TV . We also offer live Arts events, both internally produced and sponsored (concerts and festivals in the areas of Jazz, Dance and Theatre).
