**1. NATURE OF OPERATIONS AND GOING CONCERN**

Astra Exploration Inc. (the "Company") was incorporated under the name Momentous Capital Corp. on July 31, 2020 under the Business Corporations Act (British Columbia). On January 18, 2022, Momentous Capital Corp. changed its name to Astra Exploration Inc. The head office, principal address, registered address, and records office of the Company is located at #1723-595 Burrard Street, Vancouver, BC, V7X 1J1. The Company operates in one business segment, which is mineral property acquisition and exploration. All properties are located Chile and Argentina.

The Company's common shares are listed on the TSX Venture Exchange under the symbol "ASTR", OTCQB® Venture Market under the symbol "ATEPF", and Frankfurt Stock Exchange under the symbol "S3I".

These condensed interim consolidated financial statements for the three and nine months ended December 31, 2024 and 2023 ("financial statements") have been prepared in accordance with IFRS Accounting Standards applicable to a going concern, which assumes that the Company will be able to meet its obligations and continue its operations for at least the next twelve months. As at December 31, 2024, the Company has not generated revenues from operations, has a history of losses and an accumulated deficit of \$9,640,304.

The Company's ability to continue as a going concern is dependent on the Company's ability to obtain additional debt or equity financing to successfully advance the exploration and development of mineral property interests in its exploration portfolio and to be able to derive material proceeds from the sale or divestiture of those properties and/or other assets, such as sale proceeds and equity interests. These financial statements do not include any adjustments to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern. These factors present material uncertainties which may cast significant doubt as to the Company's ability to continue as a going concern.

**2. BASIS OF PREPARATION**

**a) Statement of compliance**

These financial statements were approved by the Board of Directors and authorized for issuance on February 21, 2025.

These financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards applicable to the preparation of interim financial statements including International Accounting Standard 34 *Interim Financial Reporting*. These financial statements do not include all disclosures required for annual audited financial statements. Accordingly, they should be read in conjunction with the notes to the Company's audited financial statements for the years ended March 31, 2024 and 2023 (the "Annual Financial Statements").

**b) Basis of presentation**

These financial statements have been prepared on a historical cost basis except for certain financial instruments which are measured at their fair value as explained in the accounting policies set out below. In addition, these financial statements have been prepared using the accrual basis of accounting except cash flow information.

**c) Functional and presentation currency**

The Company's presentation currency is the Canadian dollar ("\$" or "CAD"). The functional currency of the Company and its subsidiaries is CAD. References to "US\$" are to US dollars. References to "CLP" are to Chilean pesos.

**d) Basis of consolidation**

These financial statements include the accounts of the Company and its subsidiaries. All intercompany transactions and balances are eliminated on consolidation. Subsidiaries are all entities over which the Company has control. The Company controls an entity when the Company is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.

**2. BASIS OF PREPARATION (continued)**

A summary of the Company's subsidiaries included in these financial statements as at December 31, 2024 is as follows:

<b>Name of subsidiary</b>	<b>Abbreviation</b>	<b>Country of incorporation</b>	<b>Percentage ownership</b>	<b>Functional currency</b>	<b>Principal activity</b>
Astra Exploration Limited	AEL	Canada	100%	CAD	Holding company and head office
Astra Exploration Chile SpA	AEC	Chile	100%	CAD	Holding company
Sociedad Contractual Minera Paciencia	SCM	Chile	100%	CAD	Mineral exploration

**3. MATERIAL ACCOUNTING POLICIES**

The material accounting policies followed in preparing the financial statements are the same as those followed in preparing the Annual Financial Statements. For a complete summary of significant accounting policies, please refer to the Company's Annual Financial Statements except as follows:

Classification of liabilities as current or non-current - amendments to IAS 1

The amendments to IAS 1 specify the requirements for classifying liabilities as current or non-current. The amendments clarify:

- What is meant by a right to defer settlement
- That a right to defer must exist at the end of the reporting period
- That classification is unaffected by the likelihood that an entity will exercise its deferral right
- That only if an embedded derivative in a convertible liability is itself an equity instrument would the terms of a liability not impact its classification

In addition, an entity is required to disclose when a liability arising from a loan agreement is classified as non-current and the entity's right to defer settlement is contingent on compliance with future covenants within twelve months. The amendments have not had an impact on the classification of the Company's liabilities.

**4. SIGNIFICANT ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY**

The preparation of financial statements requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities and expenses.

The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances and which form the basis of making judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised, if the revision affects only that period, or in the period of the revision and further periods if the revision affects both current and future periods.

In the preparation of these financial statements, the Company used the same significant accounting judgments and was subject to the same key sources of estimation uncertainty as in the Annual Financial Statements.

**c) Manchuria Project**

On July 8, 2024, the Company has signed a binding letter agreement, granting the option to acquire up to a 90% interest in the Manchuria epithermal gold-silver Project ("Manchuria Project") from Patagonia Gold Corp ("Patagonia") located in the prolific Deseado Massif of Santa Cruz, Argentina. On October 25, 2024, the Company received approvals from both the existing royalty holder and from the Santa Cruz Provincial authorities in relation to the Manchuria Project agreement and has delivered timely notice to Patagonia of its election with the agreement. The Company has the exclusive option to acquire an initial 80% interest in the Manchuria Project by fulfilling the following project expenditures, subject to the Company's right to extend the earn-in timeframe:

- US\$150,000 expenditures by July 8, 2025.
- US\$350,000 expenditures by July 8, 2026.
- US\$1,500,000 expenditures by July 8, 2027.
- US\$1,000,000 expenditures by July 8, 2028.

## **5. EXPLORATION AND EVALUATION EXPENDITURES (continued)**

Patagonia's interest will be carried until the publication of a 43-101 compliant resource totaling at least 1 million ounces of gold-equivalent in the indicated and inferred categories. Upon publication of the resource, each party will contribute their pro-rata amounts of expenditures from that point forward. If either the Company's or Patagonia's ownership is reduced to less than 10%, such ownership will automatically convert to a 1% NSR.
