NEXT GENERATION MANAGEMENT CORP.
NOTES TO UNAUDITED CONSOLIDATE FINANCIAL
STATEMENTS FOR THE NINE MONTHS ENDED
DECEMBER 31, 2024
(Unaudited)

NOTE 1 – ORGANIZATION AND NATURE OF OPERATIONS

Next Generation Management Corp. (the “Company,” “we,” “us” or “our”), a Nevada corporation, has a fiscal year end of December 31st and is listed on the OTC Pink Markets under the trading symbol NGMC. The Company had abandoned its business and failed to take steps to dissolve, liquidate and distribute its assets. It had also failed to meet the required reporting requirements with the Nevada Secretary of State, hold an annual meeting of stockholders and pay its annual tax from 2019 to 2022 which resulted in its delinquency with the Nevada Secretary of State. The Company also failed to provide adequate current public information as defined in Rule 144, promulgated under the Securities Act of 1933, and was thus subject to revocation by the Securities and Exchange Commission pursuant to Section 12(k) of the Exchange Act. In August 2022, a shareholder filed a petition for custodianship with the District Court of Clark County, Nevada, and was appointed as the Custodian of the Company in October 2022. The custodian was not able to recover any of the Company’s accounting records from previous management but was able to get the shareholder information hence the Company’s outstanding common shares were reflected in the equity section of the accompanying unaudited financial statements.

The company was incorporated in the State of Nevada in November 1980 as Next Generation Media Corp. The issuer changed its name to “Next Generation Energy Corp.” in July 2010. The issuer then changed its name to Next Generation Management Corp. in June 2014.

On July 6th 2022, JUDD Holding Corp caused demands for compliance with Nevada Statutes Chapter 78 to be sent to the Registered Agent of the Company and all known addresses of the Company and it’s officers and directors. On August 25th 2022, JUDD Holding Corp filed a petition against the Company in the District Court of Clark County, case number: A-22-857479-C.

On October 6th, 2022, the District Court of Clark County, Nevada entered an Order Granting Application for Appointment of JUDD Holding Corp as Custodian of the Company. Pursuant to the order, the Custodian may take any actions which are reasonable, prudent, or for the benefit of the Company and it’s shareholders including but not limited to, reinstating the Company with the state of Nevada, holding a shareholder meeting, filing of disclosures with OTC Markets, filing of tax returns, disclosure of capital structure and/or business plan, and to exercise the corporate powers of the Company and its board of directors or officers.

On October 16th, 2022, the Custodian appointed David Duarte as President & CEO, Secretary, Treasurer, and Director of the Company, appointed a new Registered Agent, and reinstated the entity which brought the Company active and back into good standing with the State of Nevada.

On November 8th 2022, the Custodian increased the authorized shares of Common Stock to 1,999,000,000 and designated Special 2022 Series A Preferred Stock.

On November 17th, 2023, the Custodian issued itself 1 share of Special 2022 Series A Preferred Stock, par value 0.0001, and 150,000,000 shares of common stock, par value 0.0001 for corporate revival services.

On February 26th, 2024, the Transfer Agent processed the court-ordered cancellation of 389,327,300 shares of common stock, and the Custodian canceled and returned its 150,000,000 shares of common stock to the treasury.

On September 26th 2024, the Board approved an increase of the Company’s Authorized Shares of Common Stock to 4,000,000,000 and the change was filed with Nevada the same day.

As of the date of this report, the Company remains non-operating and is assessing new business opportunities.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The Custodian learned that all previous operations had ceased prior to or in 2018 and all bookkeeping is unavailable in perpetuity and would likely be unreliable even if such records still existed. As such, the financial statements for the period ended 6/30/24 were been prepared with certain GAAP adjustments to the historical balance sheet as detailed in the Notes below.

The Company's financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Stock-based Compensation

In June 2018, the FASB issued ASU 2018-07, *Compensation – Stock Compensation (Topic 718): Improvements to Nonemployee Share-Based Payment Accounting*. ASU 2018-07 allows companies to account for non-employee awards in the same manner as employee awards. The guidance is effective for fiscal years beginning after December 15, 2018, and interim periods within those annual periods.

Related Party Transactions

Under ASC 850 "Related Party Transactions" an entity or person is considered to be a "related party" if it has control, significant influence or is a key member of management personnel or affiliate. A transaction is considered to be a related party transaction when there is a transfer of resources or obligations between related parties. The Company, in accordance with ASC 850 presents disclosures about related party transactions and outstanding balances with related parties.

Derivative Financial Instruments

The Company evaluates its convertible notes to determine if such instruments have derivatives or contain features that qualify as embedded derivatives. For derivative financial instruments that are accounted for as liabilities, the derivative instrument is initially recorded at its fair value and is then re-valued at each reporting date, with changes in the fair value reported in the statements of operations. For stock-based derivative financial instruments, the Company uses a weighted-average Black-Scholes-Merton option pricing model to value the derivative instruments at inception and on subsequent valuation dates. The classification of derivative instruments, including whether such instruments should be recorded as liabilities or as equity, is evaluated at the end of each reporting period.

Fair Value of Financial Instruments

The Company follows paragraph 825-10-50-10 of the FASB Accounting Standards Codification for disclosures about fair value of its financial instruments and paragraph 820-10-35-37 of the FASB Accounting Standards Codification ("Paragraph 820-10-35-37") to measure the fair value of its financial instruments. Paragraph 820-10-35-37 establishes a framework for measuring fair value in accounting principles generally accepted in the United States of America under U.S. GAAP and expands disclosures about fair value measurements. To increase consistency and comparability in fair value measurements and related disclosures, Paragraph 820-10-35-37 establishes a fair value hierarchy which prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The fair value hierarchy gives the highest priority to quoted prices (unadjusted) in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The three levels of fair value hierarchy defined by Paragraph 820-10-35-37 are described below:

- Level 1: Quoted market prices available in active markets for identical assets or liabilities as of the reporting date.
- Level 2: Pricing inputs other than quoted prices in active markets included in Level 1, which are either directly or indirectly observable as of the reporting date.
- Level 3: Pricing inputs that are generally unobservable inputs and not corroborated by market data.

The carrying amount of the Company's financial assets and liabilities, such as cash, prepaid expenses and accrued expenses approximate their fair value because of the short maturity of those instruments. The Company's notes payable approximate the fair value of such instruments as the

notes bear interest rates that are consistent with current market rates.

Basic and Diluted Income (Loss) Per Share

The Company computes income (loss) per share in accordance with FASB ASC 260. Basic earnings (loss) per share is computed using the weighted-average number of common shares outstanding during the period. Diluted earnings (loss) per share is computed using the weighted-average number of common shares and the dilutive effect of contingent shares outstanding during the period.

Income Taxes

Income taxes are provided for the tax effects of the transactions reported in the financial statements and consist of taxes currently due plus deferred taxes related primarily to tax net operating loss carryforwards. The deferred tax assets and liabilities represent the future tax return consequences of these differences, which will either be taxable or deductible when assets and liabilities are recovered or settled, as well as operating loss carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. A valuation allowance is established against deferred tax assets when in the judgment of management, it is more likely than not that such deferred tax assets will not become available. Because the judgment about the level of future taxable income is dependent to a great extent on matters that may, at least in part, be beyond the Company's control, it is at least reasonably possible that management's judgment about the need for a valuation allowance for deferred taxes could change in the near term.

Tax benefits are recognized only for tax positions that are more likely than not to be sustained upon examination by tax authorities. The amount recognized is measured as the largest amount of benefit that is greater than 50 percent likely to be realized upon settlement. A liability for "unrecognized tax benefits" is recorded for any tax benefits claimed in the Company's tax returns that do not meet these recognition and measurement standards. As of December 31, 2024 and 2023, no liability for unrecognized tax benefits was required to be reported.

Recently Issued Accounting Pronouncements

The Company has implemented all new applicable accounting pronouncements that are in effect. These pronouncements did not have any material impact on the financial statements unless otherwise disclosed, and the Company does not believe that there are any other new accounting pronouncements that have been issued that might have a material impact on its financial position or results of operations.

NOTE 3 - GOING CONCERN

The Company's financial statements have been prepared assuming that the Company will continue as a going concern, which contemplates continuity of operations, realization of assets, and liquidation of liabilities in the normal course of business.

As of December 31st 2024, the Company has no source of revenue and has an accumulated deficit of approximately \$19,102,290 and requires additional funds to support its operations and to achieve its business development goals, the attainment of which are not assured.

These factors and uncertainties raise substantial doubt about the Company's ability to continue as a going concern. The financial statements do not include any adjustments relating to the recoverability and classification of recorded assets, or the amounts and classification of liabilities that might incur in the event the Company cannot continue in existence. Management intends to seek additional capital from new equity securities offerings, debt financing and debt restructuring to provide funds needed to increase liquidity, fund internal growth and fully implement its business plan. However, management can give no assurance that these funds will be available in adequate amounts, or if available, on terms that would be satisfactory to the Company.

The timing and amount of the Company's capital requirements will depend on a number of factors, including maintaining its status as a public company and supporting shareholder and investor relations.

NOTE 4 – PROCEEDS FROM RELATED PARTY

During the twelve months ended December 31, 2024 and 2023, JUDD Holding Corp paid \$14,302 and \$17,634 in general & administrative expenses on behalf of the Company, respectively.

NOTE 5 – GAAP ADJUSTMENTS TO HISTORICAL ACCOUNTS RECEIVABLE

During the year ended 12/31/24, the Company made certain GAAP adjustments to the historical balance sheet as detailed below.

Historical financial statements for the quarter ended 6/30/18 indicated \$87,780 in Accounts Receivable from wholly owned subsidiary NextGen Holdings LLC controlled by former CEO Reed. Due to it's non-operating status coupled with Reed's lack of retention of records, this balance was written off and recorded as a bad debt expense in the period ended 6/30/24.

NOTE 6 – GAAP ADJUSTMENTS TO HISTORICAL LIABILITIES

During the year ended 12/31/24, the Company made certain GAAP adjustments to the historical balance sheet as detailed below.

Historical financial statements for the quarter ended 6/30/18 indicated \$1,578,085 in total liabilities comprised of Accounts Payable, Accrued Wages, and Notes Payable.

The \$302,397 balance in Accounts Payable was due prior to 2016 to a former employee for services and a related party service provider. Given the age and lack of activity on the accounts for 6+ years, the Company treated this balance as aged out and recorded a credit to other income in the period ended 6/30/24.

The \$1,151,347 balance in Accrued Wages was due entirely to former CEO Reed. Given the age of the account of 6+ years coupled with Reed's lack of retention of records, the Company treated this balance as aged out and recorded a credit to other income in the period ended 6/30/24.

The \$124,341 balance in Notes Payable consisted of \$25,948 to a former employee, \$48,900 to a now deceased party, and \$49,494 to the Company's former auditor who received revocation by the PCAOB as a registered firm. All three notes were issued during 2015, and due to the age of 6+ years and lack of activity on the accounts, the Company treated these balances as aged out and recorded a credit to other income in the period ended 6/30/24.

NOTE 7 – SUBSEQUENT EVENTS

On December 7th 2024, NB Tech Acquisition Corp (controlled by Eric Liboiron) purchased 150,000,000 shares of Common Stock and 1 share of Special 2022 Series A Preferred Stock with 60% voting rights over all classes of stock from JUDD Holding Corp. Subsequent to the reporting period on January 14th 2025, David Duarte resigned from all Officer & Director positions and appointed Eric Liboiron as Director & CEO, and the transaction closed.
