

Disclosure Statement Pursuant to the Pink Basic Disclosure Guidelines

QUANTUMZYME CORP.

15656 Bernardo Center Drive, Suite 801
San Diego, CA 92127
Tel: (858) 203-0312

SIC Code: 8731 - Commercial Physical and Biological Research

Quarterly Report

**For the period ended January 31, 2025
(the “Reporting Period”)**

Outstanding Shares

The number of shares outstanding of our Common Stock was:

35,327,050 as of **January 31, 2025**
34,777,050 as of **July 31, 2024**

Shell Status

Indicate by check mark whether the company is a shell company (as defined in Rule 405 of the Securities Act of 1933, Rule 12b-2 of the Exchange Act of 1934 and Rule 15c2-11 of the Exchange Act of 1934):

Yes: ☐ No: ☒

Indicate by check mark whether the company’s shell status has changed since the previous reporting period:

Yes: ☐ No: ☒

Change in Control

Indicate by check mark whether a Change in Control¹ of the company has occurred over this reporting period:

Yes: ☐ No: ☒

¹ Change in Control” shall mean any events resulting in:

- (i) Any “person” (as such term is used in Sections 13(d) and 14(d) of the Exchange Act) becoming the “beneficial owner” (as defined in Rule 13d-3 of the Exchange Act), directly or indirectly, of securities of the Company representing fifty percent (50%) or more of the total voting power represented by the Company’s then outstanding voting securities;
- (ii) The consummation of the sale or disposition by the Company of all or substantially all of the Company’s assets;
- (iii) A change in the composition of the Board occurring within a two (2)-year period, as a result of which fewer than a majority of the directors are directors immediately prior to such change; or
- (iv) The consummation of a merger or consolidation of the Company with any other corporation, other than a merger or consolidation which would result in the voting securities of the Company outstanding immediately prior thereto continuing to represent (either by remaining outstanding or by being converted into voting securities of the surviving entity or its parent) at least fifty percent (50%) of the total voting power represented by the voting securities of the Company or such surviving entity or its parent outstanding immediately after such merger or consolidation.

1) **Name and address(es) of the issuer and its predecessors (if any)**

In answering this item, provide the current name of the issuer any names used by predecessor entities, along with the dates of the name changes.

**On March 31, 2023, the Company changed its name to Quantumzyme Corp.
On March 20, 2015, the Company was incorporated under the name Reliant Service Inc.**

Current State and Date of Incorporation or Registration: **Nevada**
Standing in this Jurisdiction: (E.G. Active, Default, Inactive): **Active**

Prior Incorporation Information for the issuer and any predecessors during the past five years:

None.

Describe any trading suspension or halt orders issued by the SEC or FINRA concerning the issuer or its predecessors since inception:

None.

List any stock split, stock dividend, recapitalization, merger, acquisition, spin-off, or reorganization either currently anticipated or that occurred within the past 12 months:

None.

Address of the issuer's principal executive office:

**15656 Bernardo Center Drive Suite 801
San Diego, CA 92127**

Address(es) of the issuer's principal place of business:

☒ Check if principal executive office and principal place of business are the same address:

Has the issuer or any of its predecessors been in bankruptcy, receivership, or any similar proceeding in the past five years?

No: ☐ Yes: ☒ If Yes, provide additional details below:

On or about June 24, 2021, the District Court in Clark County, Nevada in case number A-21-834965-P, filed an Order Granting Application for the Appointment of Anthony E. Lombardo ("Mr. Lombardo") as Custodian of Reliant Service Inc. whereby Mr. Lombardo was so ordered to take various actions, as Custodian of Reliant Service Inc., in order to, among other things, reinstate Reliant Service Inc. in the State of Nevada, file amended Articles of Incorporation, and to hold a special meeting to elect and appoint a new Board of Directors.

2) **Security Information**

Transfer Agent

Name: **Olde Monmouth Stock Transfer Co. Inc.**
Phone: **(732) 872-2727**
Email: **transferagent@oldemonmouth.com**
Address: **200 Memorial Parkway,
Atlantic Highlands, NJ 07716**

Publicly Quoted or Traded Securities: The goal of this section is to provide a clear understanding of the share information for its publicly quoted or traded equity securities. Use the fields below to provide the information, as applicable, for all outstanding classes of securities that are publicly traded/quoted.

Trading symbol:	QTZM	
Exact title and class of securities outstanding:	Common Stock	
CUSIP:	75955E205	
Par or stated value:	\$0.00001	
Total shares authorized:	750,000,000	as of January 31, 2025
Total shares outstanding:	35,327,050	as of January 31, 2025
Total number of shareholders of record:	63	as of January 31, 2025

All additional class(es) of publicly quoted or traded securities (if any):

Not Applicable

Other classes of authorized or outstanding equity securities that do not have a trading symbol:

The goal of this section is to provide a clear understanding of the share information for its other classes of authorized or outstanding equity securities (e.g., preferred shares that do not have a trading symbol). Use the fields below to provide the information, as applicable, for all other authorized or outstanding equity securities.

Exact title and class of the security:	Series A Preferred Stock	
CUSIP (if applicable):	N/A	
Par or stated value:	\$0.00001	
Total shares authorized:	10,000,000	as of January 31, 2025
Total shares outstanding:	0	as of January 31, 2025
Total number of shareholders of record:	0	as of January 31, 2025

Exact title and class of the security:	Series B Preferred Stock	
CUSIP (if applicable):	N/A	
Par or stated value:	\$0.00001	
Total shares authorized:	10,000,000	as of January 31, 2025
Total shares outstanding:	500,000	as of January 31, 2025
Total number of shareholders of record:	1	as of January 31, 2025

Security Description: The goal of this section is to provide a clear understanding of the material rights and privileges of the securities issued by the company. Please provide the below information for each class of the company's equity securities, as applicable:

1. For common equity, describe any dividend, voting and preemption rights.

The common stock votes one vote per share on all matters brought before the shareholders of the Company, including the election of directors. Shareholders are entitled to dividends if and when declared by the board of directors of the company. The common stock of the Company does not have preemption rights.

2. For preferred stock, describe the dividend, voting, conversion, and liquidation rights as well as redemption or sinking fund provisions.

Series A Preferred Shares

- (i) Series A Preferred Stock ranks senior to all other classes of stock;
- (ii) Series A Preferred Stock is convertible at a ratio of 1:10; and,
- (iii) Series A Preferred Stock votes by multiplying the number of shares of Series A Preferred Stock held by such holder by 100.

Series B Preferred Shares

- (i) Series B Preferred Stock ranks junior to all other classes of Preferred Stock;
- (ii) Series B Preferred Stock is convertible at a ratio of 1:50, and,
- (iii) Series B Preferred Stock votes by multiplying the number of shares of Series B Preferred Stock held by such holder by 500.

The Series A and Series B Preferred Stock carry other rights preferences and privileges customary with series of preferred stock of this nature.

3. Describe any other material rights of common or preferred stockholders.

None.

4. Describe any material modifications to rights of holders of the company's securities that have occurred over the reporting period covered by this report.

None.

3) **Issuance History**

The goal of this section is to provide disclosure with respect to each event that resulted in any changes to the total shares outstanding of any class of the issuer's securities in the past two completed fiscal years and any subsequent interim period.

Disclosure under this item shall include, in chronological order, all offerings and issuances of securities, including debt convertible into equity securities, whether private or public, and all shares, or any other securities or options to acquire such securities, issued for services. Using the tabular format below, please describe these events.

A. Changes to the Number of Outstanding Shares

Indicate by check mark whether there were any changes to the number of outstanding shares within the past two completed fiscal years:

No: ☐ Yes: ☒ (If yes, you must complete the table below)

The outstanding shares required by this Item 3.A. are attached hereto as Appendix A and are incorporated herein by this reference.

B. Promissory and Convertible Notes

Indicate by check mark whether there are any outstanding promissory, convertible notes, convertible debentures, or any other debt instruments that may be converted into a class of the issuer's equity securities.

Date of Note Issuance	Outstanding Balance (\$)	Principal Amount at Issuance (\$)	Interest Accrued (\$)	Maturity Date	Conversion Terms (e.g. pricing mechanism for determining conversion of instrument to shares)	Name of Noteholder. *You must disclose the control person(s) for any entities listed.	Reason for Issuance (e.g. Loan, Services, etc.)
6.14.2021	\$4,179	\$6,000	\$1,379	On Demand	N/A	Pedro List US LLC Beneficial Owner: Eden Miller	Loan

12.05.2024	\$8,125	\$8,000	\$125	On Demand	N/A	Tecnologia y Software de Crecimiento, S.A. de C.V.	Loan
12.07.2024	\$3,238	\$3,190	\$48	On Demand	N/A	Tecnologia y Software de Crecimiento, S.A. de C.V.	Loan

Use the space below to provide any additional details, including footnotes to the table above:

4) Issuer's Business, Products and Services

The purpose of this section is to provide a clear description of the issuer's current operations. Ensure that these descriptions are updated on the Company's Profile on www.OTCMarkets.com.

A. Summarize the issuer's business operations (If the issuer does not have current operations, state "no operations").

Quantumzyme Corp., is a biotransformation company, focused on clean and green chemistry. We utilize customer centric research to enhance enzyme activity, selectivity, and specificity by applying novel quantum mechanics, molecular modeling, and engineering approaches. Our goal is to help to foster a clean, healthy, and well protected environment supporting a sustainable society and economy. Ultimately, we want to fulfill our vision by developing a focused approach to aid all chemical companies to harness the power of technology by simplifying complex chemistry and reducing the number of steps by implementing scientific rationale like quantum mechanics in biology. The goal of Quantumzyme is to establish the leadership position through generation of novel IP and solving complex chemistry problems across industry verticals ranging from Pharmaceutical, Fragrances and Flavors. In addition to addressing the needs of generics drug manufacturing companies in developing markets, Quantumzyme has developed a strategy to address the need of biotransformation and biocatalysis for the global fragrances markets with experience through on contract research projects on complex reactions.

B. List any subsidiaries, parent company, or affiliated companies.

None.

C. Describe the issuers' principal products or services.

Our Solution is Biocatalysis through engineered enzymes. Engineering enzymes involves the application of scientific principles and techniques to modify and optimize the structure and function of enzymes for specific purposes. Historically, engineering enzymes using legacy reactions and traditional processes that involves hazardous chemicals, high pressure, high temperature, which leads to lot of waste generation. Not only do traditional methods cause significant pollution and are highly inefficient, but traditional processes also yield poor results and many inefficiencies, multiple impurities, metal catalysts, and hazardous waste. Quantumzyme addresses this problem by leveraging biology and evolution.

As environmental, social, and governance (ESG) investing becomes a factor used by socially conscious investors to screen potential investments and sustainability become key focus areas, our solution is perfect for progressive and accountable organizations and industry leaders. Our solution offers following advantages:

Traditional Process	The Quantumzyme Solution - Biocatalysis
Hazardous chemicals High Pressure High Temp Wastage	Engineered Enzyme Catalyst Low Pressure -Lower Temp Minimal Waste
Disadvantages	Advantages
High costs Low potential for increasing yield High Impurities Hazardous waste is concern	Low cost Improved yield & manufacturing efficiency Sizable reduction in impurities Reduced hazardous waste ESG compliance benefits

Solution Delivery:

We believe that the solution is delivered through IP development processes covering 5 steps as detailed below:

Phase 1 – Enzyme Discovery.	This is where the reaction of interest is studied to identify appropriate enzyme(s) Wild Type (WT).
Phase 2 - Lab Validation (WT).	In this phase the WT enzyme(s) are validated for various parameters.
Phase 3 – Enzyme Engineering.	In this phase the WT enzyme is engineered for desired objective.
Phase 4 – Lab Validation (ET).	In this phase the Engineered enzyme (ET) is further validated & optimized for the desired objective.
Phase 5 – Scale-up.	In this phase we look forward for Partnership with potential end users to perform activities such as (but not limited to) Scale-up optimization, Performing fermentation batch & Post scale-up optimization.

As we move forward with the implementation and deployment of our plan of operation, our first, and currently only, developed biocatalyst is for use and license in the manufacturing of Ibuprofen. Ibuprofen is one of the most produced drugs by volume globally. However, a major issue with the production of Ibuprofen and the legacy reaction of Ibuprofen, although cost effective, is the utilization of a carcinogenic agent as a catalyst which creates effluent and can cause harm to the environment. This has resulted in the production and manufacturing of Ibuprofen being moved offshore to reduce production costs which are directly passed on the consumer. Our goal is to bring back manufacturing capabilities in the USA by making the manufacturing of Ibuprofen greener, cost effective and more environmentally friendly. Currently we are in the process of understanding the market needs, demand supply relationships, technical feasibility, commercial viability, business cases and discussions with potential end users on the impact of benefits that can be derived from the proposed solution. The uniqueness of our approach is a framework that utilizes distinct techniques with a combination of insilico and invitro techniques catering to specific biocatalysts requirements. We intend to help to foster a clean, healthy, and well protected environment supporting a sustainable society and economy.

We intend to license our engineered enzyme to major API manufacturers and Pharma companies. With large scale manufacturing of Ibuprofen API and use of said APIs in manufacturing of drugs by Pharma Companies, we intend to generate revenue from technology transfer and through royalties. Since the commercialization of our enzymes will be by and through third party manufacturers, who will ultimately supply the product to the consumer, such manufacturers will be required to comply with required all governmental regulatory issues, including the FDA and similar governmental agencies. As such Quantumzyme, at least initially, will not subject to any regulatory or compliance issues. Commercialization of our enzyme, thus, simply entails our licensing the rights to use our developed enzyme to large scale manufacturers and other Pharma Companies.

Ultimately, we want to fulfil our vision by developing a focused approach to aid all chemical companies to harness the power of technology by simplifying complex chemistry and reducing the number of steps by implementing scientific rationale like quantum mechanics in biology. Future projects, which are constantly under exploration and advisement, will be focused on effecting a positive environmental impact and reduce burden on the environment such as a greener ways of manufacturing important chemicals, flavors and fragrances.

To achieve this result, Quantumzyme fully embraces and seeks to understand the science involved in enzyme engineering which we will evolve and incorporate into our plan of operations as we continue to build new pipeline of projects for future revenue opportunities. As a biotransformation company we will constantly focus and seek to implement our learning in the following selected areas to continually drive and advance the growth of Quantumzyme:

Understanding Enzymes: Enzymes are biological catalysts, typically proteins, that facilitate and accelerate chemical reactions, they have specific active sites where substrates bind, and reactions take place. Enzymes are highly specific to their substrates, and their activity can be influenced by various factors.

Genetic & Protein Engineering: The process often begins with identifying and isolating genes that encode for the target enzyme. Genetic engineering involves modifying the DNA sequence of these genes using techniques like recombinant DNA technology. Protein engineering focuses on modifying the amino acid sequence of the enzyme to achieve desired properties. Techniques include site-directed mutagenesis, where specific amino acids are altered to influence enzyme activity or stability.

Directed Evolution: This method mimics natural selection in a controlled laboratory setting and our enzymes are subjected to iterative rounds of mutation and selection to evolve desired traits, such as improved substrate specificity or increased stability.

Structural Biology: Understanding the three-dimensional structure of enzymes is crucial for rational enzyme design, techniques like X-ray crystallography and nuclear magnetic resonance (NMR) spectroscopy are used to determine enzyme structures.

Computational Biology and Bioinformatics: Computational methods play a significant role in predicting and modelling enzyme structures and interactions. Bioinformatics tools analyze vast biological data sets to identify potential target genes and predict enzyme functions.

Immobilization Techniques: Enzymes can be immobilized on various supports, enhancing their stability and reusability. Immobilization techniques include adsorption, covalent binding, and encapsulation.

High-Throughput Screening: Automation and robotics enable the screening of large libraries of enzymes for desired properties, which accelerates the identification of enzyme variants with improved characteristics.

Synthetic Biology: Synthetic biology approaches involve designing and constructing new biological components or systems, including enzymes, which allows for the creation of tailor-made enzymes with specific functions.

Application-Specific Modifications: Enzyme engineering is tailored to the intended application, whether it's industrial processes, biopharmaceutical production, diagnostics, or environmental applications. Modifications aim to enhance efficiency, specificity, stability, or other desired traits.

Enzyme engineering is a multidisciplinary field that combines principles from biochemistry, molecular biology, protein engineering, and computational biology to modify and optimize enzymes for specific applications. It involves the design, creation, and improvement of enzymes to enhance their catalytic activity, stability, specificity, and other properties.

Our current efforts in enzyme engineering focus on establishing a solid understanding and developing skills and resources in several key areas:

Computational Approaches: Computational methods, including machine learning, molecular docking, and molecular dynamics simulations, are used to study enzyme structure-function relationships, predict enzyme properties, and guide the design of improved variants.

Rational Design: Rational design strategies utilize computational methods, such as molecular modeling and simulation, to predict and engineer enzyme properties. By analyzing enzyme structures and their active sites, researchers can make targeted modifications to enhance catalytic activity, substrate specificity, or stability.

Protein Engineering Tools: The use of novel protein engineering tools, such as DNA shuffling, site-directed mutagenesis, and high-throughput screening methods, will accelerate the process of enzyme optimization and discovery.

Directed Evolution: Directed evolution techniques involve generating genetic diversity in enzyme libraries and screening or selecting for variants with improved properties. This approach allows us to explore vast sequence space and identify enzymes with desired traits.

Enzyme Immobilization: Immobilization techniques involve attaching enzymes to solid supports or matrices, allowing for their reuse and stabilization. Efforts are being made to optimize immobilization methods and explore novel supports to enhance enzyme performance and increase their industrial applicability.

It's important to note that the field of enzyme engineering is dynamic, and ongoing research continues to expand our understanding of enzyme structure, function, and engineering principles. New discoveries and techniques are continually emerging, shaping the future of enzyme engineering and its applications in various industries. Our effort to gain understanding involves in interaction with experts in the field through conferences, symposia and plan to build academic collaborations to identify novel approaches and convert them into business opportunities.

In summary, enzyme engineering combines genetic, protein, and structural engineering with computational biology and high- throughput screening to design and optimize enzymes for specific industrial, medical, or environmental applications. The field continues to evolve with advancements in biotechnology, providing innovative solutions to various challenges.

5) Issuer's Facilities

The goal of this section is to provide investors with a clear understanding of all assets, properties or facilities owned, used or leased by the issuer and the extent in which the facilities are utilized. In responding to this item, please clearly describe the assets, properties or facilities of the issuer. Describe the location of office space, data centers, principal plants, and other property of the issuer and describe the condition of the properties. Specify if the assets, properties, or facilities are owned or leased and the terms of their leases. If the issuer does not have complete ownership or control of the property, describe the limitations on the ownership.

Our office is located in a shared office space which presently is sufficient for our needs, and we pay approximately \$500.00 a month. We do, however, test our technology at off-site locations, where we also conduct our research and development.

6) Officers, Directors, and Control Persons

Using the table below, please provide information, as of the period end date of this report, regarding all officers and directors of the company, or any person that performs a similar function, regardless of the number of shares they own. In addition, list all individuals or entities controlling 5% or more of any class of the issuer's securities. If any insiders listed are corporate shareholders or entities, provide the name and address of the person(s) beneficially owning or controlling such corporate shareholders, or the name and contact information (City, State) of an individual representing the corporation or entity. Include Company Insiders who own any outstanding units or shares of any class of any equity security of the issuer. The goal of this section is to provide investors with a clear understanding of the identity of all the persons or entities that are involved in managing, controlling or advising the operations, business development and disclosure of the issuer, as well as the identity of any significant or beneficial owners.

Names of All Officers, Directors, and Control Persons	Affiliation with Company (e.g. Officer Title/Director/Owner of more than 5%)(1)	Residential Address (City / State Only)	Number of shares owned	Share type/class	Ownership Percentage of Class Outstanding(2)
Naveen Krishnarao Kulkarni(3)(4)	President, CEO, CFO, Secretary, Treasurer, and Director	15656 Bernardo Center Drive, Suite 801 San Diego, CA 92127	31,000,000 500,000	Common Series B Preferred	87.75% 100%
Manu Bharath Khareedhi	Independent Director	15656 Bernardo Center Drive, Suite 801 San Diego, CA 92127	NIL	NIL	0
Shrutin Ashok Ulman	Independent Director	15656 Bernardo Center Drive, Suite 801 San Diego, CA 92127	NIL	NIL	0

(1) The foregoing table sets forth the identity of the persons, whom at the date of the report were involved in managing, controlling, or advising the operations, business development and disclosure of the issuer, as well as the identity of our significant or beneficial shareholders.

(2) The ownership percentages are based on 35,327,050 shares of Common Stock and 500,000 shares of Series B Preferred Stock issued and outstanding as of January 31, 2025.

(3) As of the filing date, Mr. Kulkarni owns 31,000,000 shares of Common Stock and 500,000 shares of Series B Preferred Stock. The Series B Preferred Stock carries 500-to-1 voting rights, equating to 250,000,000 total voting shares from this class. Considering the overall voting stock of the Company, Mr. Kulkarni effectively controls approximately 98.49% of the total voting power.

(4) **Voting Structure Summary:**

- Common Stock: 35,327,050 shares issued and outstanding

- *Series A Preferred Stock: No shares issued and outstanding*
- *Series B Preferred Stock: 500,000 shares issued and outstanding*
 - *Voting Rights: 500 votes per share*
 - *Total Voting Shares from Series B: 250,000,000*
- *Total Combined Voting Shares (Common + Series B): 285,327,050*
- *Mr. Kulkarni's Total Voting Shares: 281,000,000*
- *Mr. Kulkarni's Voting Control Percentage: 98.49%*

7) Legal/Disciplinary History

Identify and provide a brief explanation as to whether any of the persons or entities listed above in Section 6 have, in the past 10 years:

1. Been the subject of an indictment or conviction in a criminal proceeding or plea agreement or named as a defendant in a pending criminal proceeding (excluding minor traffic violations);

None

2. Been the subject of the entry of an order, judgment, or decree, not subsequently reversed, suspended or vacated, by a court of competent jurisdiction that permanently or temporarily enjoined, barred, suspended or otherwise limited such person's involvement in any type of business, securities, commodities, financial- or investment- related, insurance or banking activities;

None

3. Been the subject of a finding, disciplinary order or judgment by a court of competent jurisdiction (in a civil action), the Securities and Exchange Commission, the Commodity Futures Trading Commission, a state securities regulator of a violation of federal or state securities or commodities law, or a foreign regulatory body or court, which finding or judgment has not been reversed, suspended, or vacated;

None

4. Named as a defendant or a respondent in a regulatory complaint or proceeding that could result in a "yes" answer to part 3 above; or

None

5. Been the subject of an order by a self-regulatory organization that permanently or temporarily barred, suspended, or otherwise limited such person's involvement in any type of business or securities activities;

None

6. Been the subject of a U.S. Postal Service false representation order, or a temporary restraining order, or preliminary injunction with respect to conduct alleged to have violated the false representation statute that applies to U.S. mail.

None

B. Describe briefly any material pending legal proceedings, other than ordinary routine litigation incidental to the business, to which the issuer or any of its subsidiaries is a party to or of which any of their property is the subject. Include the name of the court or agency in which the proceedings are pending, the date instituted, the principal parties thereto, a description of the factual basis alleged to underlie the proceeding and the relief sought. Include similar information as to any such proceedings known to be contemplated by governmental authorities.

9) **Financial Statements**

A. This Disclosure Statement was prepared by (name of individual):

Name: **Naveen Krishnarao Kulkarni**
Title: **Chief Executive Officer**

Relationship to Issuer: **Officer**

B. The following financial statements were prepared in accordance with:

- ☐ IFRS
- ☒ U.S. GAAP

C. The following financial statements were prepared by (name of individual):

Name: **Shamar Tobias**
Title: **Certified Public Accountant**
Relationship to Issuer: **Outside Accountant**

Describe the qualifications of the person or persons who prepared the financial statements:

Mr. Tobias is the founder of Blue Chip Accounting, LLC and he is a Certified Public Accountant. Prior to founding Blue Chip Accounting, Mr. Tobias served as a consulting partner at a PCAOB registered accounting firm. Mr. Tobias earned a Bachelor of Science in Accounting and a Masters of Accountancy from the University of Nevada - Las Vegas and also holds a Certified Public Accountant designation in the State of Nevada.

Provide the following qualifying financial statements:

- Audit letter, if audited;
- Balance Sheet;
- Statement of Income;
- Statement of Cash Flows;
- Statement of Retained Earnings (Statement of Changes in Stockholders' Equity)
- Financial Notes

Financial Statement Requirements:

- Financial statements must be published together with this disclosure statement as one document.
- Financial statements must be "machine readable". Do not publish images/scans of financial statements.
- Financial statements must be presented with comparative financials against the prior FYE or period, as applicable.
- Financial statements must be prepared in accordance with U.S. GAAP or International Financial Reporting Standards (IFRS) but are not required to be audited.

QUANTUMZYME CORP
(FORMALLY RELIANT SERVICES, INC.)
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
January 31, 2025

NOTE 1 – NATURE OF BUSINESS AND OPERATIONS

Organization

Quantumzyme Corp. (formally Reliant Service Inc.) (the “Company”) was incorporated in the state of Nevada on March 20, 2015. The company develops marketing channels to distribute office equipment to the wholesale market in the United States. Our functional currency is the US Dollar and all the references to currency in the financial statements are in US Dollars.

On February 8, 2023, Ms. Sandra (Demeria) Brossart (“Brossart”) resigned as the sole-officer and director of the Company, and Mr. Naveen Krishna Rao Kulkarni (“Kulkarni”) was appointed as sole-officer and director in her place. Thereafter, on February 21, 2023, the Company entered into that certain Asset Purchase Agreement (“Purchase Agreement”), between the Company and Quantumzyme Inc., a Delaware corporation, (“Quantumzyme”) and Kulkarni, the sole-officer, director, and shareholder of Quantumzyme (collectively, Quantumzyme and Mr. Kulkarni are hereinafter referred to as the “Seller”) pursuant to which the Company acquired various assets from the Seller, such assets are applied to and used in the “Enzyme Catalyst” biotransformation sector. In exchange for the Acquired Assets, the Company issued Mr. Kulkarni One Hundred Fifty Million (1,500,000) restricted shares of the Company’s common stock (Post split), representing approximately Seventy-Three (73%) percent of the Company’s issued and outstanding shares.

On March 31, 2023, the Company changed its name to Quantumzyme Corp.

NOTE 2 – GOING CONCERN

The accompanying financial statements have been prepared in US dollars and in accordance with accounting principles generally accepted in the United States (“GAAP”) on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities and commitments in the normal course of business. During the six months ended January 31, 2025, the Company incurred net losses of \$95,329, accumulated deficits of \$5,532,627, and used cash in operations in the amount of \$47,075. These conditions raise substantial doubt about the Company's ability to continue as a going concern.

We are entirely dependent on our ability to attract and receive funding from either the sale of securities or outside sources such as private investment or a strategic partner. We currently have no firm agreements or arrangements with respect to any such financing and there can be no assurance that any needed funds will be available to us on acceptable terms or at all. The inability to obtain sufficient funding of our operations in the future will restrict our ability to grow and reduce our ability to continue to conduct business operations. Our failure to raise additional funds will adversely affect our business, and may require us to suspend our operations, which in turn may result in a loss to the purchasers of our common stock. If we are unable to obtain necessary financing, we will likely be required to curtail our development plans. Any additional equity financing may involve substantial dilution to our then existing stockholders.

NOTE 3 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ significantly from those estimates.

Cash and Cash Equivalents

For purposes of the statement of cash flows, the Company considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents to the extent the funds are not being held for investment purposes.

Stock-based compensation

The Company records stock based compensation in accordance with the guidance in ASC Topic 505 and 718 which requires the Company to recognize expenses related to the fair value of its employee stock option awards. This eliminates accounting for share-based compensation transactions using intrinsic value and requires instead that such transactions be accounted for using a fair-value-based method. The Company recognizes the cost of all share-based awards on a graded vesting basis over the vesting period of the award.

The Company accounts for equity instruments issued in exchange for the receipt of goods or services from other than employees in accordance with ASC 718-10 and the conclusions reached by the ASC 505-50. Costs are measured at the estimated fair market value of the consideration received or the estimated fair value of the equity instruments issued, whichever is more reliably measurable. The value of equity instruments issued for consideration other than employee services is determined on the earliest of a performance commitment or completion of performance by the provider of goods or services as defined by ASC 505-50

Concentration of Credit Risk

The Company has no off-balance-sheet concentrations of credit risk such as foreign exchange contracts, options contracts or other foreign hedging arrangements. The Company maintains all of its cash balances with two financial institutions in the form of demand deposits.

Loss per Share

The Company follows ASC Topic 260 to account for the earnings per share. Basic earnings per common share ("EPS") calculations are determined by dividing net income by the weighted average number of shares of common stock outstanding during the year. Diluted earnings per common share calculations are determined by dividing net income by the weighted average number of common shares and dilutive common share equivalents outstanding. During periods when common stock equivalents, if any, are anti-dilutive they are not considered in the computation.

Revenue Recognition

The Company recognizes revenue from its contracts with customers in accordance with *ASC 606 – Revenue from Contracts with Customers*. The Company recognizes revenues when satisfying the performance obligation of the associated contract that reflects the consideration expected to be received based on the terms of the contract.

Revenue related to contracts with customers is evaluated utilizing the following steps: (i) Identify the contract, or contracts, with a customer; (ii) Identify the performance obligations in the contract; (iii) Determine the transaction price; (iv) Allocate the transaction price to the performance obligations in the contract; (v) Recognize revenue when the Company satisfies a performance obligation.

Income Taxes

Deferred taxes are provided on a liability method whereby deferred tax assets are recognized for deductible temporary differences and operating loss and tax credit carry forwards and deferred tax liabilities are recognized for taxable temporary differences. Temporary differences are the differences between the reported amounts of assets and liabilities and their tax bases. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment

Fair Value of Financial Instruments

The Company measures fair value in accordance with ASC 820 - Fair Value Measurements. ASC 820 defines fair value and establishes a three-level valuation hierarchy for disclosures of fair value measurements. ASC 820 establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosures about fair value measurements. To increase consistency and comparability in fair value measurements and related disclosures, ASC 820 establishes a fair value hierarchy which prioritizes the inputs to valuation techniques used to measure fair value into three (3) broad levels. The fair value hierarchy gives the highest priority to quoted prices (unadjusted) in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The three (3) levels of fair value hierarchy defined by ASC 820 are:

Level 1 - Inputs are unadjusted, quoted prices in active markets for identical assets or liabilities at the measurement date.

Level 2 - Inputs (other than quoted market prices included in Level 1) are either directly or indirectly observable for the asset or liability through correlation with market data at the measurement date and for the duration of the instrument's anticipated life.

Level 3 - Inputs reflect management's best estimate of what market participants would use in pricing the asset or liability at the measurement date. Consideration is given to the risk inherent in the valuation technique and the risk inherent in the inputs to the model. Valuation of instruments includes unobservable inputs to the valuation methodology that are significant to the measurement of fair value of assets or liabilities.

As defined by ASC 820, the fair value of a financial instrument is the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale, which was further clarified as the price that would be received to sell an asset or paid to transfer a liability ("an exit price") in an orderly transaction between market participants at the measurement date

The reported fair values for financial instruments that use Level 2 and Level 3 inputs to determine fair value are based on a variety of factors and assumptions. Accordingly, certain fair values may not represent actual values of the Company's financial instruments that could have been realized as of January 31, 2025 and July 31, 2024 or that will be recognized in the future, and do not include expenses that could be incurred in an actual settlement. The carrying amounts of the Company's financial assets and liabilities, such as cash, accounts receivable, receivables from related parties, prepaid expenses and other, accounts payable, accrued liabilities, and related party and third-party notes payables approximate fair value due to their relatively short maturities. The Company's notes payable approximates the fair value of such instrument based upon management's best estimate of terms that would be available to the Company for similar financial arrangements at January 31, 2025 and July 31, 2024.

Financial assets and liabilities measured at fair value on a recurring basis are summarized below as of January 31, 2025:

	Level 1	Level 2	Level 3	Total
Liabilities				
	\$ -	\$ -	\$ -	\$ -

Financial assets and liabilities measured at fair value on a recurring basis are summarized below as of July 31, 2024:

	Level 1	Level 2	Level 3	Total
Liabilities				
	\$ -	\$ -	\$ -	\$ -

Recent Accounting Pronouncements

Management has considered all recent accounting pronouncements issued. The Company's management believes that these recent pronouncements will not have a material effect on the Company's financial statements.

NOTE 3 –PROMISSORY NOTES

Promissory notes payable as of January 31, 2025 and July 31, 2024 consists of the following:

	January 31, 2025	July 31, 2024
Dated June 14, 2021	\$ 6,000	\$ 6,000
Dated July 20, 2021	642	642
Dated February 10, 2023	15,300	15,300
Dated February 10, 2023	12,750	12,750
Dated March 14, 2023	6,161	6,161
Dated April 28, 2023	7,803	7,803
Dated April 28, 2023	8,077	8,077
Dated May 4, 2023	5,904	5,904
Dated July 31, 2023	3,392	3,392
Dated September 8, 2023	2,000	2,000
Dated September 11, 2023	2,500	2,500
Dated September 13, 2023	6,000	6,000
Dated September 20, 2023	2,000	2,000
Dated September 29, 2023	20,000	20,000
Dated October 11, 2023	25,000	25,000
Dated October 16, 2023	6,000	6,000
January 31, 2024	1,420	1,420
February 8, 2024	7,500	7,500
February 21, 2024	7,000	7,000
February 22, 2024	1,865	1,865
April 2, 2024	1,902	1,902

August 2, 2024	6,000	-
August 16, 2024	3,125	-
September 12, 2024	1,100	-
October 28, 2024	10,000	-

October 29, 2024	5,000	-
October 29, 2024	6,500	-
December 5, 2024	8,000	-
December 7, 2024	3,190	-
Total notes payable	<u>\$ 210,981</u>	<u>\$ 167,666</u>

During the six months ended January 31, 2025 and 2024, the Company issued various promissory notes amounting to \$43,330 and \$64,920 for general operating purposes. The notes carry a 10% interest rate and are due upon 10 days written notice. As of January 31, 2025 and July 31, 2024, the Company had amounts due to the note holder of \$210,981 and \$161,024, respectively.

On June 14, 2021, the Company issued a promissory note for proceeds of \$6,000. The note is due on demand and accrues interest at 10% per annum. On July 17, 2023, the note holder sold and assigned \$3,200 of the balance to two unrelated parties. On July 25, 2023, the new note holders settled the combined balance of \$3,200 for the issue of 3,200,000 shares of common stock valued at \$3,200.

On September 12, 2024, the Company issued two promissory notes for proceeds of \$2,500. The notes carry a 10% interest rate and are due upon 10 days written notice. On November 30, 2024, the noteholders, forgave the balance of the notes for no consideration.

During the six months ended January 31, 2025 and 2024, the Company recorded interest expense of \$9,861 and 7,353, respectively.

NOTE 4 – RELATED PARTY TRANSACTIONS

As of January 31, 2025 and July 31, 2024, the amount due to related parties was \$16,952 and \$15,852, respectively. Amounts due to related parties are non-interest bearing and due on demand.

NOTE 5 - COMMITMENTS AND CONTINGENCIES

From time to time, the Company may become involved in various lawsuits and legal proceedings, which arise in the ordinary course of business. Litigation is subject to inherent uncertainties, and an adverse result in these or other matters may arise from time to time that may harm business. Management is currently not aware of any such legal proceedings or claims that could have, individually or in the aggregate, a material adverse effect on our business, financial condition, or operating results.

NOTE 6 – STOCKHOLDERS' EQUITY

The Company's authorized common stock consists of 750,000,000 shares with par value of \$0.00001. As of January 31, 2025 and July 31, 2024, the Company had 35,327,050 and 34,777,050 shares of common stock (Post split) issued and outstanding.

On February 21, 2023, the Company filed a Certificate of Amendment together with Amended & Restated Articles of Incorporation with the Secretary of State of the State of Nevada increasing the Company's authorized shares of common stock from 75,000,000 to 900,000,000, consisting of 750,000,000 shares of Common Stock, par value \$0.00001 and 150,000,000 shares of authorized but undesignated preferred stock, par value \$0.00001.

On March 31, 2023, the Company's Board of Directors approved a 1 to 100 reverse stock split as of the record date of March 31, 2023. As of the date of filing the reverse stock split has not been approved by FINRA. The financial statements have been retroactively restated to show the effect of the stock split.

On May 24, 2023, the Company filed a Certificate of Designation ("Certificate of Designation") with the Secretary of State of the State of Nevada that provided for the creation of Series A Preferred Stock and Series B Preferred Stock from the previously authorized but undesignated shares of the Company's preferred stock.

The Company's Certificate of Designation designates 10,000,000 shares as Series A Preferred Shares the designations, powers, preferences, rights, and restrictions granted or imposed upon the Series A Preferred Shares and holders thereof are as follows:

- (i) Series A Preferred Stock ranks senior to all other classes of stock;
- (ii) Series A Preferred Stock is convertible at a ratio of 1:10; and,
- (iii) Series A Preferred Stock votes by multiplying the number of shares of Series A Preferred Stock held by such holder by 100.

Additionally, the Company's Certificate of Designation, designates 10,000,000 shares as Series B Preferred Shares the designations, powers, preferences, rights, and restrictions granted or imposed upon the Series B Preferred Shares and holders thereof are as follows:

- (i) Series B Preferred Stock ranks junior to all other classes of Preferred Stock;
- (ii) Series B Preferred Stock is convertible at a ratio of 1:50, and,
- (iii) Series B Preferred Stock votes by multiplying the number of shares of Series B Preferred Stock held by such holder by 500.

During six months ended January 31, 2025, the Company issued 550,000 shares of common stock for \$5,500 cash.

NOTE 7 – SUBSEQUENT EVENTS

In accordance with ASC Topic 855-10, the Company has analyzed its operations subsequent to January 31, 2025 to the date these financial statements were available to be issued and has determined that it does not have any material subsequent events to disclose in these financial statements.
