4) Issuer's Business, Products and Services

The purpose of this section is to provide a clear description of the issuer's current operations. Ensure that these descriptions are updated on the Company's Profile on www.OTCMarkets.com.

A. Summarize the issuer's business operations (If the issuer does not have current operations, state "no operations")

Southern ITS International, Inc. intends to own and/or control a portfolio of highly- successful businesses and will focus on being a multi-national conglomerate. As a holding company, Southern ITS International will be in the market to acquire a stake in various companies both public and private. It will also focus on building a direct sales network of various e-commerce internet applications, manufacturing, and internet sales of various products. We will build an experienced management team that will build a diverse portfolio, buying entire companies, or interests therein, involved

in technology, oil and gas, manufacturing, real estate, consumer goods, and other sectors, which will then become operating subsidiaries of Southern ITS International.

The business of our subsidiaries, or companies in which we have investments, is as follows:

Pure Oil & Gas, Inc., in which the Company has a 55% ownership voting interest, has created four (4) Texas Limited Partnerships, in which it is the managing General Partner, to raise investment capital for placement in projects with ICS Energy, Inc., its driller-operator. In each limited partnership Pure Oil & Gas, Inc. has a 20% carried working interest. As of December 31, 2024 we have drilled and completed 14 wells with the wells currently in production. We anticipate drilling an additional 3 wells in 2025 Q1 with funds already raised.

Growth Goods, Inc., our wholly owned subsidiary provides e-Commerce fulfillment services, including online order management, warehousing, distribution, and delivery services for a wide variety of consumer products.

Kinzie LLC, dba Kinzie Direct, is our 80% owned subsidiary. Kinzie focuses on working with companies to improve their presence on e-commerce sites. Through focused and strategic online sales, we maximize visibility and profitability for our client partners. Kinzie's primary focus is to forge direct partnerships with brands, obtaining exclusive rights to sell their products on Amazon. This ensures that their clients' brands are represented with a consistent and strategic approach. Through focused and strategic online sales, we maximize visibility and profitability for our partners.

Ingenious Roasters, LLC, in which the Company has a 55% ownership interest, was formed to compete in the beverage industry. Ingenious Roasters is dedicated to creating and developing exceptional beverage brands, with a focus on delivering innovative products that meet the evolving needs and preferences of consumers. Its initial focus will be on launching a revolutionary nutrition drink infused with coffee. A full rollout of this brand in the marketplace is expected in the 2nd quarter of 2025.

Gen 7 Health, Inc. is newly formed by the Company. We intend that Gen 7 Health will be driving the growth of businesses and technologies that are transforming the healthcare industry. With our strategic insight and industry expertise, we are at the forefront of health and wellness, developing solutions that anticipate and seize emerging opportunities. Gen 7 Health was founded with a vision to bridge the gap between technology and healthcare. Recognizing the growing need for efficient, accessible, and effective healthcare solutions, we set out to develop tools and systems to transform patient care and operational efficiency. Gen 7 Health, Inc. is 80% owned by the Company.

Southern ITS International, Inc.
Notes to Unaudited Consolidated Financial Statements
December 31, 2024

NOTE 1 – NATURE AND DESCRIPTION OF BUSINESS

Southern ITS International, Inc. (the “Company”) was incorporated in the State of Nevada on September 27, 1984.

On November 19, 2021, the Company and other founders formed Pure Oil & Gas Inc. in which the Company holds 20% interest under equity investment. On March 27, 2024, the Company entered into a Restructuring Agreement with the other owners of Pure Oil & Gas, Inc., so that the Company now owns 55% of all of the issued and outstanding shares of voting stock of Pure Oil & Gas, Inc., thus, making it a 55% owned subsidiary of the Company.

Effective April 18, 2022, the Company acquired a 30% interest in Growth Goods, Inc., a Des Moines, Iowa – based e-Commerce company. Growth Good, Inc. was formed by the Company and other founders on February 25, 2021. The Company owns 150,000 shares of the 500,000 authorized and issued shares of common stock. No consideration was involved in the acquisition of 30% interest in Growth Goods, Inc. The Company has a controlling financial interest in and is the primary beneficiary of Growth Goods, Inc. being the variable interest entity of the Company. On March 19, 2024, the Company entered into a Securities Purchase Agreement with the other owners of Growth Goods, Inc., so that the Company now owns 100% of all of the issued and outstanding shares of voting stock of Growth Goods, Inc., thus, making it a wholly owned subsidiary of the Company.

During the year ended December 31, 2022, the Company issued 3,000,000 shares of common stock at \$0.07 per share to acquire a 30% interest in Prestige Marketing Consultants, Inc., a State of Delaware based marketing consulting company. As of December 31, 2024, the Company holds a 100% interest in Growth Goods, Inc., 80% interest in Kinzie LLC

and Gen 7 Health, Inc., a 70% interest in MIA Corp, LLC, a 60% interest in Ingenious Roasters LLC. and a 55% interest in Pure Oil & Gas Inc..

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation and Principles of Consolidation

The accompanying consolidated financial statements as of December 31, 2024 include the accounts of the Company and its subsidiaries (note 1). All intercompany accounts and activities have been eliminated. These consolidated financial statements have been prepared on the accrual basis of accounting in accordance with generally accepted accounting principles in the United States of America (“GAAP”).

Use of Estimates

The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the consolidated financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Business Combinations

In accordance with ASC 805-10, “*Business Combinations*”, the Company accounts for all business combinations using the acquisition method of accounting. Under this method, assets and liabilities, including any remaining non-controlling interests, are recognized at fair value at the date of acquisition. The excess of the purchase price over the fair value of assets acquired, net of liabilities assumed, and non-controlling interests is recognized as goodwill. Certain adjustments to the assessed fair values of the assets, liabilities, or non-controlling interests made subsequent to the acquisition date, but within the measurement period, which is up to one year, are recorded as adjustments to goodwill. Any adjustments subsequent to the measurement period are recorded in income. Any cost or equity method interest that the Company holds in the acquired company prior to the acquisition is re-measured to fair value at acquisition with a resulting gain or loss recognized in income for the difference between fair value and the existing book value. Results of operations of the acquired entity are included in the Company’s results from the date of the acquisition onward and include amortization expense arising from acquired tangible and intangible assets.

Fair Value Measurements

The Company adopted the provisions of ASC Topic 820, “Fair Value Measurements and Disclosures,” which defines fair value as used in numerous accounting pronouncements, establishes a framework for measuring fair value and expands disclosure of fair value measurements.

The estimated fair value of certain financial instruments, including cash and cash equivalents, accounts payable, note payable, due to related parties and accrued liabilities are carried at historical cost basis, which approximates their fair values because of the short-term nature of these instruments. The carrying amounts of our short and long term credit obligations approximate fair value because the effective yields on these obligations, which include contractual interest rates taken together with other features such as concurrent issuances of warrants and/or embedded conversion options, are comparable to rates of returns for instruments of similar credit risk.

ASC 820 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. ASC 820 also establishes a fair value hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. ASC 820 describes three levels of inputs that may be used to measure fair value:

- Level 1 – quoted prices in active markets for identical assets or liabilities
- Level 2 – quoted prices for similar assets and liabilities in active markets or inputs that are observable
- Level 3 – inputs that are unobservable (for example cash flow modeling inputs based on assumptions)

The derivative liability in connection with the conversion feature of the convertible debt, classified as a level 3 liability, is the only financial liability measured at fair value on a recurring basis.

The following table summarizes fair value measurement by level at December 31, 2024 and December 31, 2023, measured at fair value on a recurring basis:

December 31, 2024	Level 1	Level 2	Level 3	Total
Liabilities				
Derivative liability	-	-	349,528	349,528
December 31, 2023	Level 1	Level 2	Level 3	Total
Liabilities				
Derivative liability	-	-	4,487,903	4,487,903

Cash and Cash Equivalents

For purposes of the statement of cash flows, the Company considers all highly liquid instruments purchased with an original maturity of three months or less to be cash equivalents. The Company does not have any cash equivalents.

Periodically, the Company may carry cash balances at financial institutions in excess of the federally insured limit of \$250,000 per institution. The amount in excess of the FDIC insurance as of December 31, 2024 was approximately \$0.8 million. The Company has not experienced losses on these accounts and management believes, based upon the quality of the financial institutions, that the credit risk with regard to these deposits is not significant.

Accounts Receivable

Accounts receivable are recorded in accordance with ASC 310, "Receivables." Accounts receivable are recorded at the invoiced amount and do not bear interest. The allowance for doubtful accounts is the Company's best estimate of the amount of probable credit losses in its existing accounts receivable. The Company does not currently have any amount recorded as an allowance for doubtful accounts. Based on management's estimate and based on all accounts being current, the Company has not deemed it necessary to reserve for doubtful accounts at this time.

Inventory

Inventory is stated at lower of cost or net realizable value, with cost being determined on the weighted average cost method.

No reserves are considered necessary for slow moving or obsolete inventory as inventory on hand at quarter-end was purchased near the end of the quarter. The Company continuously evaluates the adequacy of these reserves and makes adjustments to these reserves as required. As of December 31, 2024 and December 31, 2023, inventory was \$209,944 and \$0, respectively.

Prepaid Expense

Prepaid Expense and Deposits consist of the following:

	December 31, 2024	December 31, 2023
Prepaid drilling cost	\$ 2,348,974	\$ -
Prepayment for future press release services	4,560	9,855
Deposit for drop shipping stores	24,000	-

Others	50,981	-
	<u>\$ 2,428,515</u>	<u>\$ 9,855</u>

Property and Equipment, Net

Property and equipment are measured using the cost model and is stated at cost less accumulated depreciation. Acquisition cost includes mainly the costs directly attributable to the acquisition and the initial estimated dismantlement, removal, and restoration costs associated with the assets. Depreciation is calculated using the straight-line method over the estimated useful lives, as more details follow. Depreciation is included in operating expenses and is allocated based on estimated usage for each class of asset.

	<u>Depreciation Method</u>	<u>Useful Life</u>
Vehicles	Straight-line method	5 years
Furniture and equipment	Straight-line method	5 years
Computer equipment	Straight-line method	5 years

Expenditures for maintenance and repairs, which do not materially extend the useful lives of the assets, are charged to expense as incurred. Expenditures for major renewals and betterments which substantially extend the useful life of assets are capitalized. When items are retired or otherwise disposed of, income is charged or credited for the difference between net book value of the item disposed and proceeds realized thereon.

Revenue Recognition

The Company recognizes revenue from the sale of products in accordance with ASC 606, “Revenue Recognition” following the five steps procedure:

- Step 1: Identify the contract(s) with customers
- Step 2: Identify the performance obligations in the contract
- Step 3: Determine the transaction price
- Step 4: Allocate the transaction price to performance obligations
- Step 5: Recognize revenue when the entity satisfies a performance obligation

The Company’s revenue mainly derives from the below sales categories from its subsidiaries:

Kinzie LLC: Product Sales through Amazon, Service Revenue and Rental Income

Pure Oil & Gas Inc: Oil Sales

MIA Corp, LLC: Coffee, Tea, Converter/Machine, Dry Product, Paper Goods, Consumer Sales, Rental Income

During the year ended December 31, 2024 and 2023, the Company recognized total revenue of \$2,375,891 and \$59,535, incurred cost of sales of \$1,813,096 and \$16,143, resulting in gross profit of \$562,795 and \$43,392, respectively.

Segments

ASC Topic 280, “Segment Reporting,” requires use of the “management approach” model for segment reporting. The management approach model is based on the way a company’s chief operating decision maker organizes segments within the company for making operating decisions assessing performance and allocating resources. Reportable segments are based on products and services, geography, legal structure, management structure, or any other manner in which management disaggregates a company.

Operating segments are defined as components of an enterprise engaging in business activities for which discrete financial information is available and regularly reviewed by the chief operating decision maker in deciding how to

allocate resources and in assessing performance. The Company operates and manages its business as Product Sales, Oil & Gas, Rental Income and Corporate operating segments and all of the Company's revenues and operations are currently in the United States.

Earnings (Loss) per Share

The Company computes basic and diluted net loss per share amounts in accordance with ASC Topic 260, "Earnings per Share." Basic loss per share is computed by dividing net income (loss) available to common shareholders by the weighted average number of shares of common stock outstanding during the reporting period. Diluted loss per share reflects the potential dilution that could occur if convertible notes to issue common stock were converted resulting in the issuance of common stock that could share in the loss of the Company. For the year ended December 31, 2024 and 2023, convertible notes, convertible preferred shares and warrants were dilutive instruments and were not included in the calculation of diluted loss per share as their effect would be antidilutive.

	<u>291,368,803</u>	<u>457,430,610</u>

As of December 31, 2024 and 2023, the Company had 30,790,000 and 34,790,000 shares of preferred stock issued and outstanding that are convertible into 267,488,233 and 338,072,723 shares of common stock, respectively.

As of December 31, 2024 and 2023, the Company had the principal amount of convertible notes of \$342,891 and \$313,673 that are convertible into 17,222,728 shares and 117,817,887 shares of common stock, respectively.

As of December 31, 2024 and 2023, the Company had 40,000 and 40,000 outstanding warrants to purchase up to 40,000 shares and 40,000 share of common stock exercisable in two years at \$0.75 per share, respectively.

As of December 31, 2024 and 2023, the Company had stock payable of \$393,300 and \$32,500 for outstanding 9,000,000 and 1,500,000 shares of common stock, respectively.

Commitments and Contingencies

Liabilities for loss contingencies arising from claims, assessments, litigation, fines and penalties and other sources are recorded when it is probable that a liability has been incurred and the amount of the assessment can be reasonably estimated.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources.

Where there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

Contingent assets are not recognized in the financial statements. A contingent asset is disclosed where an inflow of economic benefits is probable. Contingent assets are assessed continually and, if it is virtually certain that an inflow of economic benefits will arise, the asset and related income are recognized in the period in which the change occurs.

Related Party Balances and Transactions

The Company follows FASB ASC 850, “*Related Party Disclosures*,” for the identification of related parties and disclosure of related party transaction.

Convertible Financial Instruments

The Company account for our convertible financial instruments in accordance with ASC 470-20 “Debt with Conversion and Other Options.” The standard reduced the number of accounting models for convertible debt instruments and convertible preferred stock. Convertible instruments that continue to be subject to separation models are (1) those with embedded conversion features that are not clearly and closely related to the host contract, that meet the definition of a derivative, and that do not qualify for a scope exception from derivative accounting; and, (2) convertible debt instruments issued with substantial premiums for which the premiums are recorded as paid-in capital. ASU2020-06 removes from U.S. GAAP the separation models for (1) convertible debt with a cash conversion feature (“CCF”) and (2) convertible instruments with a beneficial conversion feature (“BCF”). With the adoption of ASU2020-06, entities will not separately present in equity an embedded beneficial conversion feature from the convertible debts.

Following the adoption of ASU 2020-06 on January 1, 2022, which we elected to adopt using a modified retrospective approach, we no longer separate the convertible notes into liability and equity components. Now convertible notes are recorded and disclosed as convertible notes payable, net of unamortized discount.

Derivative Financial Instruments

The Company does not use derivative instruments to hedge exposures to cash flow, market or foreign currency risks. We evaluate all of our financial instruments to determine if such instruments are derivatives or contain features that qualify as embedded derivatives. For derivative financial instruments that are accounted for as liabilities, the derivative instrument is initially recorded at its fair value and is then re-valued at each reporting date, with changes in the fair value reported in the statements of operations. For our derivative financial instruments, the Company used a Black Scholes valuation model to value the derivative instruments at inception and on subsequent valuation dates. The classification of derivative instruments, including whether such instruments should be recorded as liabilities or as equity, is evaluated at the end of each reporting period. Derivative liabilities are classified in the balance sheet as current or non-current based on whether or not net-cash settlement or conversion of the instrument could be required within twelve (12) months of the balance sheet date.

Share-Based Compensation

The Company accounts for share-based compensation under the fair value method in accordance with ASC 718, “Compensation – Stock Compensation,” which requires all such compensation to employees and non-employees to be calculated based on its fair value of the equity instrument at the grant date and recognized in the earnings over the requisite service or vesting period.

During the year ended December 31, 2024 and 2023, the Company recorded \$0 and \$409,000 in stock-based compensation, respectively. The stock-based compensation incurred from common stock awarded to consultants and executives was reported under wages and consulting fees in the statements of operation.

	Year Ended December 31,	
	2024	2023
Common stock award to consultants	\$ 40,000	\$ 369,000
Common and Preferred stock award to management and executives - related parties	-	40,000
	<u>\$ 40,000</u>	<u>\$ 409,000</u>

Oil and Gas Property

Costs of lease, exploration, carrying and retaining unproven oil and gas properties are expensed as incurred. The Company expenses all oil and gas exploration costs as incurred as it is still in the exploration stage. If the Company identifies proven and probable reserves in its investigation of its properties and upon development of a plan for operating a mine, it would enter the development stage and capitalize future costs until production is established. When a property reaches the production stage, the related capitalized costs are amortized based on useful life of the oil and gas exploration assets over the proven and probable reserves following the commencement of production.

Interest expense allocable to the cost of developing oil and gas properties and to construct new facilities is capitalized until assets are ready for their intended use.

To date, the Company has not established the commercial feasibility of any exploration prospects; therefore, all exploration costs are being expensed.

The Company assesses the carrying costs of the capitalized oil and gas properties for impairment under ASC 360-10, "Impairment of long-lived assets", and evaluates its carrying value under ASC 930-360, "Extractive Activities - Mining", annually. An impairment is recognized when the sum of the expected undiscounted future cash flows is less than the carrying amount of the oil and gas properties. Impairment losses, if any, are measured as the excess of the carrying amount of the oil and gas properties over its estimated fair value.

Based on the Company's evaluation, no impairment has been recorded on the oil and gas properties for the period ended December 31, 2024.

During the year ended December 31, 2024, the Company capitalized oil and gas exploration cost of \$722,615, net of accumulated depletion of \$208,242. During the year ended December 31, 2024, the depletion expense was computed at 15% of oil revenue recognized during the year ended December 31, 2024 of \$28,651.

During the year ended December 31, 2024, the Company incurred oil and gas exploration cost of \$2,505,378.

Intangible Assets

The Company accounts for intangible assets (including mining right) in accordance with ASC 350 "Intangibles-Goodwill and Other."

ASC 350 requires that goodwill and other intangibles with indefinite lives be tested for impairment annually or on an interim basis if events or circumstances indicate that the fair value of an asset has decreased below its carrying value. In addition, ASC 350 requires that goodwill be tested for impairment at the reporting unit level (operating segment or one level below an operating segment) on an annual basis and between annual tests when circumstances indicate that the recoverability of the carrying amount of goodwill may be in doubt. Application of the goodwill impairment test requires judgment, including the identification of reporting units, assigning assets and liabilities to reporting units, assigning goodwill to reporting units, and determining the fair value. Significant judgments required to estimate the fair value of reporting units include estimating future cash flows, determining appropriate discount rates and other assumptions. Changes in these estimates and assumptions or the occurrence of one or more confirming events in future periods could cause the actual results or outcomes to materially differ from such estimates and could also affect the determination of fair value and/or goodwill impairment at future reporting dates.

The cost of intangible assets with determinable useful lives is amortized to reflect the pattern of economic benefits consumed, either on a straight-line or accelerated basis over the estimated periods benefited. Patents, technology and other intangibles with contractual terms are generally amortized over their respective legal or contractual lives. When certain events or changes in operating conditions occur, an impairment assessment is performed and lives of intangible assets with determinable lives may be adjusted.

As of December 31, 2024 the organization cost was \$10,000. The organization cost was amortized under useful life of five years.

Recent Adopted Accounting Standards

In December 2023, the FASB issued ASU No. 2023-09, Income Taxes (Topic 740) - Improvements to Income Tax Disclosures ("ASU 2023-09"), which is intended to enhance the transparency and decision usefulness of income tax disclosures. The amendments in ASU 2023-09 provide for enhanced income tax information primarily through changes to the rate reconciliation and income taxes paid information. ASU 2023-09 is effective for the Company prospectively to all annual periods beginning after December 15, 2024. Early adoption is permitted. The adoption of ASU 2023-09 has not had a material effect on the Company's statements and disclosures.

In November 2023, the FASB issued ASU No. 2023-07, Segment Reporting (Topic 280) - Improvements to Reportable Segment Disclosures ("ASU 2023-07"), which require public companies disclose significant segment expenses and other segment items on an annual and interim basis and to provide in interim periods all disclosures about a reportable segment's profit or loss and assets that are currently required annually. The guidance is effective for public entities for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024. Early adoption is permitted. The guidance is applied retrospectively to all periods presented in the financial statements, unless it is impracticable. We are currently evaluating the impact this update will have on our consolidated financial statements and disclosures.

NOTE 3 - GOING CONCERN

The Company's financial statements are prepared using generally accepted accounting principles applicable to a going concern which contemplates the realization of assets and liquidation of liabilities in the normal course of business. As reflected in the accompanying financial statements, the Company has an accumulated deficit of \$32,855,801 from inception to December 31, 2024. Its ability to continue as a going concern is dependent upon the ability of the Company to generate profitable operations in the future and/or to obtain the necessary financing to meet its obligations and repay its liabilities arising from normal business operations when they come due. Management intends to address the going concern issue by funding future operations through revenues, the sale of equity capital and by loans, if needed.

The Company is changing its business operations and anticipates that it will be able to have profitable operations in the near future. The Company believes its current available cash, along with anticipated revenues, will be sufficient to meet its cash needs for the near future. There can be no assurance that future financing will be available in amount for terms acceptable to the Company, if at all.

These conditions raise substantial doubt about the Company's ability to continue as a going concern. The ability of the Company to continue its operations is dependent on Management's plans, which include expanding the new business of Growth Goods, Inc., Kinzie, Pure Oil & Gas Inc., Gen 7 Health, Inc. and MIA Corp, LLC, the raising of capital through debt and/or equity markets with some additional funding from other traditional financing sources, including term notes, until such time that funds provided by operations are sufficient to fund working capital requirements.

The Company may need to incur additional liabilities with certain related parties to sustain the Company's existence.

These financial statements do not include any adjustments relating to the recovery of the recorded assets or the classification of the liabilities that might be necessary should the Company be unable to continue as a going concern.

During the year ended December 31, 2024 and 2023, the Company accrued interest expense of \$70,522 and \$58,282 and repaid accrued interest of \$81,440 and \$22,250, respectively. As of December 31, 2024 and December 31, 2023, the accrued interest was \$56,864 and \$67,782, respectively.

NOTE 6 - DERIVATIVE LIABILITY

The Company analyzed the conversion options for derivative accounting consideration under ASC 815, Derivatives and Hedging, and determined that the instrument should be classified as a liability when the conversion option becomes effective at issuance resulting in there being no explicit limit to the number of shares to be delivered upon settlement of the above conversion options.

The Company determined its derivative liabilities to be a Level 3 fair value measurement and used the Black-Scholes pricing model to calculate the fair value as of December 31, 2024. The Black-Scholes model requires six basic data inputs: the exercise or strike price, time to expiration, the risk-free interest rate, the current stock price, the estimated volatility of the stock price in the future, and the dividend rate. Changes to these inputs could produce a significantly higher or lower fair value measurement.

The following table summarizes the derivative liabilities included in the Balance Sheets at December 31, 2024 and 2023:

Balance - December 31, 2022	\$	-
Addition of new derivative liabilities upon issuance of convertible notes as debt discount		5,552,690
