THE MACREPORT.NET, INC.
Condensed Consolidated Unaudited Financial Statements
Notes For the Three Months Ended February 28, 2025 and 2024

NOTE 1. NATURE AND BACKGROUND OF BUSINESS

The accompanying consolidated financial statements include The MacReport.Net, Inc. (the 'Company', 'we' or 'us'), a Wyoming corporation, its wholly-owned subsidiaries and any majority controlled interests.

The MacReport.Net, Inc. was incorporated as a Delaware corporation in December 2000, when it also commenced operations. The Company is a financial technology company that provides digital asset management and trading services.

To date, our activities have been devoted to negotiating the acquisition of technology and recruiting the team members to develop the technology and infrastructure necessary to launch our macXcoin digital asset exchange.

We plan to offer spot trade of digital assets in dollar-denominated currency. We will not offer futures or other derivatives to hedge against price change or other volatility indicators. We will focus primarily on the trading of digital assets that have already been declared non securities by the SEC. Future listing of additional digital assets will be subject to review and approval by the SEC.

We plan to create a mechanism which will provide for compliant clearing, settlement, custody and control of SST crypto-securities that addresses the issues raised by the Joint Statement with software to be developed to comply with the custody and control requirements of Exchange Act Rule 15c3-3(c)(7). We plan to either enter into a clearing arrangement with a capable clearing firm or form a new subsidiary to become a clearing broker dealer filing the necessary new member application for a new digital clearing firm with FINRA. We plan to construct the necessary infrastructure to meet broker-dealer recordkeeping obligations under Exchange Act Rule 17(a)(3) and related rules and regulations.

There is no assurance that we will be able to secure the necessary approvals by SEC and FINRA to execute these plans.

On June 21, 2021, the Company redomiciled to Wyoming from Delaware.

On November 20, 2024, the Company announced that it will begin bitcoin mining in the State of Texas hosted through a partnership with Print Crypto Inc., and has already purchased ten Bitmain Antminer S19j Pro 104 TH machines to begin mining, which is scheduled to start on or before December 1, 2024.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements have been prepared for The MacReport.Net, Inc. in accordance with accounting principles generally accepted in the United States of America (US GAAP), with all numbers shown in US Dollars.

In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for fair presentation of the financial statements have been included. The financial statements include acquired subsidiaries, as discussed below, and include all consolidation entries required to include those subsidiaries.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

For the Balance Sheet and Statement of Cash Flows, all highly liquid investments with maturity of three months or less are considered to be cash equivalents. The Company had no cash equivalents as at February 28, 2025 or November 30, 2024.

Income Taxes

Income taxes are provided in accordance with the FASB Accounting Standards (ASC 740), Accounting for Income Tax. A deferred tax asset or liability is recorded for all temporary differences between financial and tax reporting and net operating loss carry forwards. Any deferred tax expense (benefit) resulting from the net change during the year is shown as deferred tax assets and liabilities. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it was more likely than not that some portion or all of the deferred tax assets will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

Basic and Diluted Net Income (Loss) Per Share

Net income (loss) per unit is calculated in accordance with Codification topic 260, “Earnings per Share” for the periods presented. Basic net loss per share is computed using the weighted average number of common shares outstanding. Diluted loss per share has not been presented because the shares of common stock equivalents have not been included in the per share calculations as such inclusion would be anti-dilutive. Diluted earnings per share is based on the assumption that all dilutive stock options, warrants and convertible debt are converted or exercised applying the treasury stock method. Under this method, options, warrants and convertible debt are assumed exercised at the beginning of the period (or at the time of issuance, if later), and as if funds obtained thereby were used to purchase shares of common stock at the average market price during the period. Options, warrants and/or convertible debt will have a dilutive effect during periods of net profit only when the average market price of the units during the period exceeds the exercise or conversion price of the items.

Stock Based Compensation

Codification topic 718 “Stock Compensation” requires that the cost resulting from all share-based transactions be recorded in the financial statements and establishes fair value as the measurement objective for share-based payment transactions with employees and acquired goods or services from non-employees. The codification also provides guidance on valuing and expensing these awards, as well as disclosure requirements of these equity arrangements. The Company adopted the codification upon creation of the Company and will expense share-based costs in the period incurred. The Company has not yet adopted a stock option plan and all share-based transactions and share based compensation has been expensed in accordance with the codification guidance.

Convertible Instruments

The Company evaluates and accounts for conversion options embedded in its convertible instruments in accordance with professional standards for “Accounting for Derivative Instruments and Hedging Activities”. Professional standards generally provide three criteria that, if met, require companies to bifurcate conversion options from their host instruments and account for them as free standing derivative financial instruments. These three criteria include circumstances in which (a) the economic characteristics and risks of the embedded derivative instruments are not clearly and closely related to the economic characteristics and risks of the host contract, (b) the hybrid instrument that embodies both the embedded derivative instrument and the host contract is not measured at fair value under otherwise applicable generally accepted accounting principles with changes in fair value reported in earnings as they occur, and (c) a separate instrument with the same terms as the embedded derivative instrument would be considered a derivative instrument. Professional standards also provide an exception to this rule when the host instrument is deemed to be conventional as defined under professional standards as “The Meaning of Conventional Convertible Debt Instrument”.

The Company accounts for convertible instruments when it has determined that the embedded conversion options should not be bifurcated from their host instruments in accordance with professional standards when “Accounting for Convertible Securities with Beneficial Conversion Features,” as those professional standards pertain to “Certain Convertible Instruments.” Accordingly, the Company records, when necessary, discounts to convertible notes for the intrinsic value of conversion options embedded in debt instruments based upon the differences between the fair value of the underlying shares of common stock at the commitment date of the note transaction and the effective conversion price embedded in the note. Debt discounts under these arrangements are amortized over the term of the related debt to their earliest date of redemption. The Company also records when necessary deemed dividends for the intrinsic value of conversion options embedded in preferred shares of common stock based upon the differences between the fair value of the underlying shares at the commitment date of the note transaction and the effective conversion price embedded in the note.

ASC 815-40 provides that, among other things, generally, if an event not within the entity’s control could require net cash settlement, then the contract shall be classified as an asset or a liability.

Fair Value of Financial Instruments

We adopted the guidance of ASC-820 for fair value instruments, which clarifies the definition of fair value, prescribes methods for determining fair value, and establishes a fair value hierarchy to classify the inputs used in measuring fair value, as follows:

- Level 1 Inputs are unadjusted quoted prices in active markets for identical assets or liabilities available at the measurement date.
- Level 2 Inputs are quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets and liabilities in markets that are not active, inputs other than quoted prices that are observable, and inputs derived from or corroborated by observable market data.
- Level 3 Inputs are unobservable inputs which reflect the reporting entity’s own assumptions on what assumptions the market participants would use in pricing the asset or liability based on the best available information.

The carrying amounts for cash, accounts receivable, accounts payable and accrued expenses, and loans payable approximate their fair value based on the short-term maturity of these instruments. We did not identify any assets or liabilities that are required to be presented on the balance sheet at fair value in accordance with the accounting guidance as at February 28, 2025 or November 30, 2024.

ASC 825-10 “Financial Instruments” allows entities to voluntarily choose to measure certain financial assets and liabilities at fair value (fair value option). The fair value option may be elected on an instrument-by-instrument basis and is irrevocable, unless a new election date occurs. If the fair value option is elected for an instrument, unrealized gains and losses for that instrument should be reported in earnings at each subsequent reporting date. We did not elect to apply the fair value option to any outstanding instruments.

Derivative Liabilities

Derivative financial instruments consist of convertible instruments and rights to shares of the Company's common stock. The Company assessed that it had no derivative liabilities as at February 28, 2025 or November 30, 2024.

ASC 815 generally provides three criteria that, if met, require companies to bifurcate conversion options from their host instruments and account for them as free standing derivative financial instruments. These three criteria include circumstances in which (a) the economic characteristics and risks of the embedded derivative instrument are not clearly and closely related to the economic characteristics and risks of the host contract, (b) the hybrid instrument that embodies both the embedded derivative instrument and the host contract is not re-measured at fair value under otherwise applicable generally accepted accounting principles with changes in fair value reported in earnings as they occur and (c) a separate instrument with the same terms as the embedded derivative instrument would be considered a derivative instrument subject to the requirement of ASC 815. ASC 815 also provides an exception to this rule when the host instrument is deemed to be conventional, as described.

Impact of New Accounting Standards

The Company does not expect the adoption of recently issued accounting pronouncements to have a significant impact on the Company's results of operations, financial position, or cash flow.

NOTE 3. GOING CONCERN

The Company's financial statements are prepared in accordance with generally accepted accounting principles applicable to a going concern. This contemplates the realization of assets and the liquidation of liabilities in the normal course of business. Realization values may be substantially different from carrying values as shown and these financial statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern. Currently, the Company does not have significant cash or other material assets, nor does it have operations or a source of revenue sufficient to cover its operation costs and allow it to continue as a going concern.

The Company has a limited operating history and had a cumulative net loss from inception to February 28, 2025 of \$4,729,661. The Company has a working capital deficit of \$56,159 as at February 28, 2025.

These financial statements for the three months ended February 28, 2025 have been prepared assuming the Company will continue as a going concern, which is dependent upon the Company's ability to generate future profits and/or obtain necessary financing to meet its obligations as they come due.

The management has committed to an aggressive growth plan for the Company. The Company's future operations are dependent upon external funding and its ability to execute its business plan, realize sales and control expenses. Management believes that sufficient funding will be available from additional borrowings and private placements to meet its business objectives including anticipated cash needs for working capital, for a reasonable period of time. However, there can be no assurance that the Company will be able to obtain sufficient funds to continue the development of its business operation, or if obtained, upon terms favorable to the Company.

NOTE 4. FIXED ASSETS

The Company holds fixed assets with values at February 28, 2025 and November 30, 2024 as follows:

<u>Asset</u>	<u>Useful Life (years)</u>	<u>February 28, 2025</u>	<u>November 30, 2024</u>
Plant and equipment	5	\$ 5,930	\$ 5,930
Accumulated depreciation		(988)	(494)
Total		\$ 4,942	\$ 5,436

During the three months ended February 28, 2025, a total of \$988 was charged to the Statement of Operations for depreciation.

NOTE 5. INTANGIBLE ASSETS

Based on the acquisition and disposal activity detailed in Note 4, the Company retained the following intangible assets as at February 28, 2025 and November

<u>Asset</u>	<u>Description</u>	<u>February 28, 2025</u>	<u>November 30, 2024</u>
Intangible Assets	MRPT.net domain	\$ 5,000	\$ 5,000
Amortization	Accumulate amortization	(500)	(250)
Total		\$ 4,500	\$ 4,750

During the three months ended February 28, 2025, a total of \$500 was charged to the Statement of Operations for depreciation.

NOTE 6. CAPITAL STOCK

As at February 28, 2025 and November 30, 2024, the Company was authorized to issue Preferred Stock and Common Stock as detailed below.

Preferred Stock

At February 28, 2025 the Company had authorized Preferred Stock in one designation totaling 5,000,000 shares:

Preferred Stock Series A The Company is authorized to issue 5,000,000 shares of Series A, with a par value of \$0.0001 per share. As at December 1, 2022, the Company had no shares of Series A preferred stock issued and outstanding.

No further shares of preferred stock Series A have been issued since.

As at February 28, 2025, the Company had no shares of Preferred Stock issued or outstanding.

Common Stock

As at February 28, 2025, the Company is authorized to issue up to 25,000,000 shares of Common Stock with par value \$0.0001.

As at December 1, 2023, the Company had 17,960,633 shares of Common Stock issued and outstanding.

As at February 28, 2025, there were 17,960,633 shares of Common Stock issued and outstanding.

NOTE 7. INCOME TAXES

The Company uses the assets and liability method of accounting for income taxes pursuant to SFAS No. 109 "Accounting for Income Taxes". Under the assets and liability method of SFAS No. 109, deferred tax assets and liabilities are recognized for the future tax consequences attributable to temporary differences between the financial statements carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled.

In June 2006, the FASB issued FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes." Specifically, the pronouncement prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken from year ended December 31, 2015 tax return onwards. The interpretation also provides guidance on the related derecognition, classification, interest and penalties, accounting for interim periods, disclosure and transition of uncertain tax positions. The Company adopted this interpretation effective on inception.

For the year ended November 30, 2024, the Company had available for US federal income tax purposes net operating loss carryovers of \$4,662,288, all of which will expire by 2044.

The Company has provided a full valuation allowance against the full amount of the net operating loss benefit, since, in the opinion of management, based upon the earnings history of the Company, it is more likely than not that the benefits will not be realized.

	February 28, 2025	November 30, 2024
Statutory federal income tax rate	21.00%	21.00%
Statutory state income tax rate	0.00%	0.00%
Valuation allowance	(21.00%)	(21.00%)
Effective tax rate	0.00%	0.00%

Deferred income taxes result from temporary differences in the recognition of income and expenses for financial reporting purposes and for tax purposes. The tax effect of these temporary differences representing deferred tax assets result principally from the following:

	February 28, 2025	November 30, 2024
Deferred Tax Assets (Gross Values)		
Net operating loss carry forward	\$ (4,729,661)	\$ (4,727,117)
Less valuation allowance	4,729,661	4,727,117
Net deferred tax asset	\$ -	\$ -

NOTE 8. RELATED PARTY TRANSACTIONS

There were related party transactions during the three months ended February 28, 2025 and the year ending November 30, 2024.

During these periods, the CEO funded various expenses on behalf of the Company with these amounts shown on the balance sheet as due for repayment. In addition, on November 1, 2024, the CEO committed the advancement of a loan of \$100,000 to the Company for working capital purposes, which is partially drawn-down at February 28, 2025. The CEO is owed \$66,629 at February 28, 2025 versus \$64,829 at November 30, 2024. The loan is provided at an interest rate of 5% and \$800 of interest has been accrued as at February 28, 2025.

NOTE 9. SUBSEQUENT EVENTS

The Company believes there were no events to report subsequent to February 28, 2025.
